MANY YEARS OF HAPPINESS

Mr. and Mrs. M. B. McIntosh Celebrate the Sixtieth Anniversary of Their Marriage.

A most unusual reception was given last Friday evening in the Baptist church parlor by the ladies of the church in honor of Mr. and Mrs. M. B. McIntosh of Cook street in celebration of their sixtieth wedding anniversary.

Wedding anniversaries come and go, even into the fiftieth year sometimes, but seldom if ever do we hear of sixty years of unbroken wedded companionship, and it was a touching and interesting sight to see two such comely, well-preserved and venerable old people heartily welcoming all, old and young, who paid their respects and extended words of congratulation. A company of about one hundred people called during the evening and enjoyed the occasion exceedingly.

Mrs. Wm. Howarth, a lady claiming fifty-two years of married life, ably filled the position of toast-master, and to her call there were many responses.

After bright and amusing readings by Misses Florence Collier and Jennie Lines, a solo by Miss Jennie Fletcher, who sang "Love's Old Sweet Song," with Misses A. Powers and A. Plagge accompanists, organ and violin, the reading of an original poem written for the occasion by H. H. Hubbard, of Linn street, a poet of no mean ability, an address by Mr. Phelps, the church pastor, Mrs. Howarth requested toasts from the McIntosh family, of which there were a dozen members present. Mrs. Johnston, sister of the "bride," gave a clever and humorous talk on the wedding of sixty years before in Albany county, N. Y., and on the ideas of the couple concerning wedding life and life in general.

The lady especially pleased the listeners with her keen wit and good memory.

Children and grandchildren also told of their love and respect for this loving old couple.

A blessing particularly for married people was asked by the Rev. F. W. Lapham of the M. E. church.

Both Mr. and Mrs. McIntosh spoke with the dignified manner which belongs to those who have lived life worthily and faithfully. Their good works have been a help to our community and the example of their lives a good one for succeeding generations.

Wishing to present little remunerations in token of esteem to be used daily, the ladies found it somewhat difficult to decide on articles needed by this couple with their gracious supply of the world's creature comforts, but finally chose two cups and saucers of delicate china on condition that they be used "daily" to remind Mr. and Mrs. McIntosh of the respect of their friends.

Ice-cream and cake were served.

Every one attending departed with pleased countenances and wishes that the wedded happiness of the host and hostess may continue still longer.

WHO CAN ANSWER?

A First Voter Had Some Experiences at the School Election.

Barrington, Ill., April 24, 1906.

To the Editor of The Review:

Dear Sir: Last Saturday I was approached by several men and women in regard to the school election that evening. My knowledge of such a matter was very limited and my sudden popularity confusing. I began questioning these petitioners as to what would be expected of me and found that people who handed me one ticket declared that men on the other ticket were unworthy. This was startling, for on both I recognized the names of good citizens with good names and of good standing. I was given a vast amount of information as to women's right to vote on school questions and their right to hold office as members of a school board, etc.

Now, may I ask, a few questions? For if I am to "vote" a few more, I wish to be prepared. How many years since the law was passed granting me this privilege? How old must I be? They say girls under 18 voted Saturday night. May I vote for the men I like, or must I "choose sides" and vote for a man who belongs to my church, my lodge or my nationality? I received the impression that I must "back" a man whose faith and associates are mine whether he pleased me or not.

I heard women vainly asking when leaving the polling place "What is it all about?" I've heard it said that all is fair in love and war, and I ask is politics—war? "A First Voter?"

San Francisco is Receiving Help, and She Needs It.

San Francisco has suffered a terrible blow, but sympathy of a practical kind is being showered on her. The following letter explains itself:

American Express Company—President's office 65 Broadway—New York, April 18th, 1906.—To Agents:—Contributions of money, clothing or other supplies intended for the relief of sufferers from the calamity which has overtaken San Francisco and the neighboring towns in California, may be carried free of charge, when addressed to regularly constituted Relief Organizations there.

James C. Fargo,
President.

In addition to this any supplies that may be offered for the relief of sufferers at San Francisco can be billed through to San Francisco free of freight charges via C. & N. W. Ry., Union Pacific and Southern Pacific, provided it is consigned to the American Red Cross Association.

OBSERVE WOODEN WEDDING

Dr. and Mrs. A. Weichelt Are Assisted in Commemorating a Joyous Occasion.

Dr. and Mrs. A. Weichelt on Tuesday evening celebrated their fifth wedding anniversary at their home on Cook street. Some fifty guests assembled early in the evening to enjoy the pleasures planned. Among the guests were members of the Thursday club, of which Mrs. Weichelt is a member.

A fifth year anniversary is called the "Wooden Wedding," so that gifts presented the bride and groom were of a wooden nature and ranged from the useful to the ornamental in kind.

A large mission wood rocker having a leather cushioned seat was presented by the club ladies to the hostess.

Mrs. Wm. Howarth, the club president, represented the club in the presentation and her words were answ-

ered by Mrs. Weichelt in a sincere, impromptu talk of appreciation.

The clever invitation issued in burnt wood had requested each guest to bring a written account of the happiest and the saddest occurrences of their wedded days. These essays were collected and read about. It is a foregone conclusion that much amusement was derived from these confessions. Mrs. N. M. Banta, Mrs. Wm. Howarth and Mr. Sanford Peck captured rewards for their especial accounts, receiving respectively a Mission st. in bamboo work, a burnt wood book-rack and a card-case of burnt wood.

A yacht race followed and Mrs. J. L. Sears proved to be the best navigator. She received an attractive wooden match safe mounted on a plaque. Miniature yachts about three inches long with bone fish equipment and flying colors were sailed in a large zinc tank and guided by long switches through a dangerous archipelago of mossy islands, and many were the wrecks and sunken ships.

A book of quotations on marriage was handed from hand to hand and each guest read about some eulogy or sarcasm on double blessedness. Some of the pointed and proverbially true ones caused a great deal of laughter.

T. H. Creel gave several of his humorous dialect readings and a luncheon of distinctness was served.

Such a pleasant evening was passed by those attending that this popular couple had better plan to celebrate their "tin anniversary" five years from now.

At the regular session of the Olympic Club Saturday evening, April 21st, the following officers were elected for the ensuing year:

President—Dr. E. L. Simmons.

Vice-President—Dr. A. Weichelt.

Secretary—M. C. McIntosh.

Treasurer—Dr. W. A. Shearer.

Three directors are still to be elected.

The by-laws were amended, changing the age limit for members from eighteen to sixteen years. Ten new members were admitted upon application.

It is proposed to obtain a long time lease of the grounds and to erect a suitable club house, the house to contain a large sitting room, locker room and shower bath; the club house to be of suitable style, to be attractive and to have a very wide veranda. A regulation croquet ground is to be established under the direction of "Prof." E. M. Blocks. The tennis courts are to be put in suitable condition for use at once and to be commenced immediately upon the croquet ground.

The dues for the year may be paid \$2.25 per month or \$15.00 for the season. Those who paid for October last year will be rebated \$2.25 on this year's dues.

A special request is made for a large amount at the next meeting at the office of Shearer & Simmons on Saturday evening, April 28th, at which time all members are requested to pay such dues as may be in arrears and as much on this year as they see fit to facilitate the improving of the grounds.

Mothers' Meeting.

All mothers are requested to keep in mind the mothers' meeting to be held next Wednesday, May 2, at 3:30 p. m., in the assembly hall of the school building. Mrs. Fred Hawley will have charge of the meeting. Subject, "Animal Pets." We hope for a good attendance.

FELL OFF WAGON, IS DEAD

Carl Sheuer, Aged 60 Years, Fleets

Death in Strange Manner

Near Dundee Last

Saturday.

Carl Sheuer, living near Dundee, was found dead in the roadside Saturday, death being undoubtedly caused by a stroke of apoplexy.

The deceased had gone to Dundee Saturday evening in company with Frank Schoppe, an employee of Charles Helm, and the latter's son. When on the return trip they neared home Schoppe missed Sheuer, who had been riding on the milk cans in the rear of the wagon. They finished their trip home and in company with Mr. Helm returned to look for Mr. Sheuer. They found him dead in the road 60 rods from where he was missed.

They immediately notified Wm. Rodmeyer, a son-in-law of Sheuer, and together they removed the body to the home of Rodmeyer.

Dr. Kerch was called and gave his opinion that death was caused by apoplexy, and that Sheuer was unconscious if not dead, when he fell from the wagon. Owing to the circumstances, Dr. Kerch consulted the coroner's office, who decided an inquest was unnecessary.

Mr. Sheuer has been a resident of America for thirty years. He was 60 years of age. In addition to his daughter, Mrs. Rodmeyer, the deceased leaves two sons, both residing in Cook county.

Y. M. C. A. Notes.

Good Talk Given Sunday—Meetings to Be Discontinued for the Summer.

H. L. Allen, a physical director, from the west side department of the Y. M. C. A. of Chicago, was the speaker at last Sunday afternoon meeting, taking for his subject the various field sports followed by the association.

He made a plea for true sportsmanship in our American games, which, he said, co-existed in the love of a sport for the sport's sake, for the fun and benefit to be derived rather than the desire to win by cited instances where athletes had sacrificed their chance to win in order to "play fair," or to help some one else to secure an equal chance.

Mr. Allen's object was to instill into the minds of the young men what he believed to be the true spirit of sport, that is to play the best game the player knows and win if possible, or not to take an unfair advantage, or allow the real object of the game to become obscured by the desire to win.

Mr. Allen complimented the association on its progress, and volunteered such of his services as they might require.

The Junior department at its last meeting introduced as tournament features the running high and broad jumps. These contests will be carried on in the field as soon as the weather will permit.

The base ball committee reports the good fortune of securing the property located on North Hawley street, opposite the Sandman farm, for their grounds, from Mr. Doekery and Mr. Kampert, and as this property is more conveniently located, the agreement will be cancelled, with H. H. Landwehr has been cancelled, with his permission; the boys are busy getting the grounds in shape and "tidings" are promised with the advent of warm weather.

Letters have been received from Ben Schroeder and George Meier. Both reported associations in their respective cities, with which they have affiliated. George reported that the dues of the Boise association is 10 dollars, but the "pink card" from Barrington balanced the account. Barrington should congratulate herself that her boys are at home and welcome wherever there is an association.

In view of the fact that the nice weather makes the out-door more attractive, the Sunday afternoon meetings will be discontinued after May 6th. Next Sunday afternoon a meeting for men and boys, conducted by local talent, and one on April 29th, to which all are invited, will finish the present series. Watch for the announcement for the 29th. Something special is promised.

Education and Reading.

We are anxious, conscientiously anxious, in these days to know what the workingman and his family read. Being told that three workingmen out of four read sporting papers exclusively and that one wife in four reads at all, and then only cheap fiction papers, social theorists conclude that the problems of morals and of poverty are involved right there. With the spread of education, we are told, the working classes will read something better worth reading. But do men and women who have been "educated" in the conventional way make a better show in their reading than the crowd in the cities of toilers? Education and prosperity are believed to go hand in hand, but if the argument is valid then the prosperous element should be reading something better worth while than the folks at the other extreme of society. The fact is, however, that men of business, lawyers, doctors, men in public life, read about the same things as the workingman—that is, the papers and novels. And the women in the same circle, as a rule, have "no time to read." The workingman's wife thinks it an economic sin to sit down with a book, and the woman in the mansion thinks it a social sin. In the case of the latter her company or her club or her church or charity duties would have to wait on the latest novel. In both cases the excuse is that there are more important things in life than reading.

Reading has been called "the night-gown of sloth." To read merely for the sake of reading would naturally breed laziness, and if recreation, stimulants, change of thought, can be secured as effectually or even more effectually in some other way than by reading, some way broadening to existence, it might prove profitable where reading would be the reverse. Education makes people think, but there are opiate set up in type that puts thought to sleep. The important thing, then, in reading is not the shape or size of the printed sheet, whether newspaper or book, but what it is about.

The theatrical syndicate has decided to drop Shakespeare. That is the bard's punishment for forgetting to put a double sextet and a leap for life into each of his plays.

Just look at the show girls who are being married by English lords! And still some people have the heart to advise our lovely American girls to adopt a stage career.

The Passing Of Romance

By W. Crawford Sherlock

Copyright, 1906, by Historic Read

"John, I think it is just dreadful." "What is that, Mary?" Mr. Atkins laid down his paper with an ill suppressed sigh and turned to his wife, who was busily sewing on the opposite side of the table.

"There you are again, John," returned Mrs. Atkins impatiently. "Frowning like a thunder cloud just because I dared to interrupt your reading that evening paper. It's always the same thing. You have become as settled in your ways as if you were sixty. Now, I think it is only right to let ourselves get that way when we're only married fifteen years."

"What would you suggest, dear?" asked her husband, feeling that the only possible hope he had of resuming his paper lay in mild methods. "I have been under the impression that we were rather a model couple."

"Why, we've lost all the romance of life," retorted his wife. "When we first met, and even after we were married, we used to go for long drives, go to drives or go to the theater often. Now we don't do anything but sit around in the evenings, you reading your paper and I sewing until bedtime. It is not right."

Mr. Atkins did not reply, neither did he resume his paper. His wife's remarks had awakened memories of pleasant days of long ago, pleasant days that had been, the present ones suited him not at all. To him it was the oasis was what he could come after a strenuous day in the desert of business life. The quiet smoke and the evening paper after supper, when the children were snug in bed, were sources of keen enjoyment. Being a just man, however, he began to consider the other side of the question. His wife had strenuous days, too, when the home and evenings brought no diversion, but it was him. No wonder she yearned for the romance of former days. She must have some relief from the dull monotony of home life, and he resolved to see to it.

Accordingly the next morning Mr. Atkins purchased tickets for the night performance at the theater. Mrs. Atkins just blushed over with joy at the sight.

THE MODERN "PITTSBURGH PERFECT" WIRE FENCE, WELDED BY ELECTRICITY.

What a Marvel it would have been to Abraham Lincoln, splitter of rails.

Mr. Farmer: Your progressiveness is keeping you in close touch with improvements in farm machinery, in dairy methods, and with all the scientific facts that bring about the greatest possible agricultural production.

You are also informing yourself about fence. We know you are.

First—there was the stone fence of medieval history. Second—pioneer America converted its timber into rails. Third—somebody found a way to weave wire and slats. Fourth—along came barb wire, with its marvelous sale. Fifth—machines were invented to twist or clamp one wire around another the woven wire fence.

But, most important of all, electricity now welds the wires at the joint, making no longer necessary these wraps and clamps. Stay and strand, wizard-like, become one.

The greatest step forward in fence building is thus accomplished at a single, master stroke.

Of course, you are not using anything else. Surely you are familiarizing yourself with this remarkable improvement, to be found only in "Pittsburgh Perfect."

San Francisco, April 22.—A series of earthquake shocks, the first occurring about 5:30 on the morning of April 18, has resulted in the practical destruction of the city.

Following the shocks, which brought to the earth the most substantial buildings of the city could boast, brick, stone, and seemingly in hundreds of places at once, and the destruction of the principal water mains, ruined by the seismic disturbances, left the city practically without means of defense, although many blocks of business, business and residence buildings were destroyed by dynamite, in the effort to stay the progress of the flames. Not until 12:30 in the night of the 18th did the destruction cease.

The homeless and weary people sought refuge in the public parks and open spaces in the outskirts of the city.

Oakland, Cal., April 22.—San Francisco's heroic fire fighters have at last triumphed, and the flames which had devastated three-fourths of the city are finally under complete control.

The flames, following the earthquake shocks which contained all day April 18, had things practically their own way. The first shocks destroyed the water mains and left the firemen powerless. Dynamite and gasoline were held back from the firemen by orders of Gen. Funston, in command of the regular troops, had all been used in the effort to stay the progress of the fire, which for three days defied the efforts of troops, firemen and citizens.

The long and heroic struggle to subdue the flames reached its successful conclusion Saturday morning near the ferry-house, where thousands were trapped on the wharves, to which they had been driven by the firemen. The victory was won. Here the final stand was made by firemen, soldiers, sailors and citizens, aided by fire tugs and a few engines. Victory rewarded their efforts, and the entrapped people were saved.

Cheered at Victory Over Flames.

The effect of the victory was inspiring. It gave cheer to everybody, and to none more than the homeless ones who had sought the water front as the only place of refuge and avenue of escape from the burning city.

It relieved the nervous tension of thousands who had ready to jump to the conclusion of the fight. It sent a wave of optimism surging all over the city and made the skies look bright even though the pall of smoke still lingered. It was in its effect like that of a powerful tonic administered to a fainting man. Three hundred thousand men, women and children joined in singing the praises of the men who stamped out the blaze.

Good in the Open.

These tent cities, which are scattered all over the city where the flames failed to work their rage, are the depots for mountain and household goods. Unfortunately, indeed, the women who failed to carry away from his blazing home some of those household treasures dear to the heart.

Strenuous measures have saved the devastated city from disorder and lawlessness. The orders issued by Gen. Funston to shoot anyone caught in the act of looting the deserted and wrecked buildings have been carried out by both federal troops and the militia. Vandals have been shot down without hesitation by the soldiers, who themselves have been caught in their shanty-work, and retribution quickly followed, as far as could be estimated, for no actual count has been kept of these impromptu executions, at least 20 vandals and ghouls have been shot down.

City a Vast Ash Heap.

No better description can be given than that of "a vast ash heap." San Francisco newspapers, all of which were burnt out, are gradually getting in shape. Thursday morning, the day after the fire, the best showing that the morning journals could make was a small combination sheet bearing the unique heading, "Call-Chronicle-Examiner." It was set up and printed in the office of the Oakland Tribune, gave a brief account of the great disaster, and took an optimistic view of the future of the stricken city.

Got Out Unique Newspaper.

Oakland, Cal., April 22.—The San Francisco newspapers, all of which were burnt out, are gradually getting in shape. Thursday morning, the day after the fire, the best showing that the morning journals could make was a small combination sheet bearing the unique heading, "Call-Chronicle-Examiner." It was set up and printed in the office of the Oakland Tribune, gave a brief account of the great disaster, and took an optimistic view of the future of the stricken city.

Fire Burned Itself Out.
As to the fire it has practically burned itself out. A journey along the northern water front showed fires blazing in only two places and these were hardly capable of spreading unless a severe gale springs up.

The walls of several of the ruined buildings in the business section of the city collapsed, but no one was injured. The tower on the Hall of Justice in Kearny street still retains its upright position, despite the fact that but one small corner of the structure bears the immense weight of steel and granite.

Several walls are in imminent danger of toppling over and must be torn down.

Damage on Water Front.

A portion of the water front from a point where the fire started to the pier four docks had been swept clean from Fisherman's wharf, at the foot of Powell street, to a point around westward, almost to the Ferry building. This means that nearly a mile of grain sheds, docks and wharves have been added to the general destruction. The fire was still burning at the foot of Powell street, but there was no hope of its getting into the President district.

Many Cities Suffer.
Further details of the havoc wrought by the earthquake in California towns outside of San Francisco increase the magnitude of the disaster.

Santa Rosa's business district was almost entirely destroyed. Money practically has no value in the town, as there is no place to spend it. Probably 100 persons lost their lives. All the inhabitants are sleeping out of doors.

Port Bragg, a lumber town of Mendocino county, was almost wiped out. One person was killed and many hurt. All the large stores were wrecked and many other buildings damaged at San Rafael. Two children were killed in a falling house.

Entire World Extends Help.
With spontaneity and liberality without a parallel in history the whole civilized world is answering the unvoiced appeal of ruined San Francisco.

Not only from every city, town and hamlet in this country, but from over

section also is ruined and the fire swept through sections where homes of wealthier classes resided. Dyna-mite and flames swept everything before them.

Temporary business houses have been opened at Oakland, across the bay, and every preparation possible is being made for reopening business as fast as ruins can be cleared away. Temporary structures will replace destroyed business houses.

Train Bring in Relief.
Horrors of expected starvation and suffering from thirst are being relieved speedily by arrivals of innumerable relief trains, and arrangements by city authorities whereby drinking water is being dispensed by troops is expected to relieve suffering in this direction.

Fifty carloads of provisions have been shipped from Los Angeles alone, while relief trains are being hurried to San Francisco from every point of the compass. All western cities have nobly responded to appeals for help and the east is sending money and provisions, which will aid in restoring order and rationalism among those who remain the stricken city.

Will Rebuild at Once.
It is apparent that the immediate steps for rebuilding the city are being taken with the fire under control is believed order will be restored within a few hours, and that the work of clearing up the ruins will commence at once.

Legislature May Be Called.
Gov. Pardee and the legislators are discussing calling a special session of the state legislature, and it is generally believed that this action will be taken. State aid will be forthcoming.

With the wires under control, fear subsiding, and reason returning, the process of cleaning up the ruins and restoring order and establishing business will be rapid, although it is expected that it will require one entire week, in many instances, for the front door to open.

CITY HALL OF SAN FRANCISCO.

This Structure, Built at a Cost of \$7,000,000 Was Wrecked by the Earthquake and Flames Completed the Destruction.

every sea comes news that all human sympathy is shown in the profound sympathy shown by the world wide generosity ever has been recorded.

In actual cash given or pledged, the relief fund far exceeds \$10,000,000. Where it will end cannot be told, for every hour swells the enormous total.

In the reckoning up of the extent of the disaster conservative minds are cautious. The most accurate estimate of the aggregate destruction of life and property is estimated as follows:

Number of lives lost, 2,500; property destroyed, \$400,000,000.

The boundaries of the fire-wrecked district, it is claimed, include at least three-fourths of the city's area.

Downtown wholesale and retail districts are complete ruins, few buildings in these districts standing. Although merchants are announcing that business will be resumed at once, plans being to open in tents or temporary structures.

The greater part of the

Post Office Is in Operation.

San Francisco, April 22.—At a meeting of the postal authorities with the military, held at the post office building, plans were completed for the resumption of mail service. All mail matter should be addressed to the old street number in San Francisco unless the new address is positively known. Nine branch offices will soon be in operation. Letters are being accepted without stamps or envelopes and will reach their destination without delay.

PRESBYTERIANS TO MEET

Important Session of General Assembly of Cumberland Church in May

Two Men Killed by Switch Engine at Chicago.

Decatur.—The general assembly of the Cumberland Presbyterian church of the United States will be held here May 17 to 25. This is one of the first times the assembly has been held in a city so small as Decatur.

There will be in the neighborhood of 500 people present among whom will be representatives from over 20 states of the union. The general assembly is an annual meeting, and is held for the discussion of problems of general importance to the church.

The meeting this year is of special importance because of the fact that the question of uniting with the Presbyterian church will be brought up for final discussion and decision.

Heroinism of Chicago Boy.

Chicago.—After carrying his mother and grandmother from the second story of their home on a ladder and the two were safe, Arthur Hood, 19 years old, returned by going back into the house to rescue his little sister when the house was destroyed by fire. The house, which is situated at Walnut and Quincy street, in Austin, caught fire from a lamp which was overturned by a cat while the family was asleep. Arthur was awakened by the smoke and jumped from the second story window. He ran to his ladder to his mother's room and carried her to his grandmother's room. Then carrying the ladder around to the side on which his sister slept, he again mounted and, fighting the fire through the flames, succeeded in saving her, too, just before the front door was closed in.

Injured in Street Car Collision.

Collinsville.—A motorman and two coal miners were cut seriously and 17 other miners were cut by flying glass in a head-on collision between cars Nos. 6 and 9 in the East St. Louis and Suburban railroad, near Dr. Webster's crossing, two miles south of this place.

On No. 9, a "miners' special," was going north to Collinsville, carrying 40 miners. Car No. 6 was going east to Edgemont, carrying eight men and two women as passengers. No. 6 was in charge of Motorman Lewis Lehba, who as soon as he saw the headlight on No. 9 began backing his car, which probably prevented further damage. The front vestibules were demolished.

Profitable Investment.

Alton.—The sale of Sportman's baseball park, near Alton, by A. A. Sotter and O. F. Straube for \$12,500 closes a real estate deal which was started by Sotter and Straube 15 years ago. The two men received \$26,000 out of an investment of \$35,000. The title to the tract was considered doubtful 15 years ago, depending upon which of two persons should die first. The man whose death first made the title pass away first, and the two Alton men had a clear title to a piece of property which yielded them 500 per cent. in 15 years.

Hire a Late Charivari.

Alton—Miss Anna L. Lenczak, Clerk E. C. Paul and his wife made the victims of a queer mistake by hiring a charivari to call at their home to give the clerk a charivari. The couple were married four years ago, but the boys refused to move on until Paul showed them his son, who is past two years old. The boys then crossed the street to the home of Alderman Holden, who has been married about 25 years, and gave him an unsolicited concert.

Religion No Excuse.

A man was taken to jail for breaking in his sleep, was held all right one night, but when he woke he found the victim on the street in the grasp of a policeman. "Hold on!" he cried, "you mustn't arrest me. I'm a somnambulist!" To which the policeman replied: "I don't care what your religion is—you can't walk the streets in your nightshirt!"—Pittsburgh Gazette.

ATTACKED THE HEART

Awful Neuralgia Case Cured to Stay, Cured by Dr. Williams'

Neuralgia in any form is painful but when it attacks the heart it is frequently fatal. Complicated with indigestion of a form that affected the vital organ is threatened serious consequences in an instance just reported. The case is that of Mr. F. L. Graves, of Pleasant Hill, La., who tells of his trouble and cure as follows:

"I traveled considerably, was exposed to all kinds of weather and was irregular in my sleeping and eating. I suppose this was the cause of my sickness. In any rate, in May, 1900, I had got so bad that I was compelled to quit work and take to my bed. I had a good doctor and took his medicine faithfully but nothing helped. I gave up hope of getting better and my thoughts were that I was surely going to die.

"I had smothering spells that it was awful to realize. My heart fluttered and throbbed to the point of pain. I could not lie on my left side at all. My hands and feet swelled and so did my face. After reading about Dr. Williams' Pink Pills in a newspaper, I decided to try them and the result was amazing. Before long I could see an improvement and after taking a few boxes I was entirely cured. I am glad to make this statement to you, with it could cure every one who has neuralgia.

Dr. Williams' Pink Pills do not simply deaden pain; they cure the trouble which causes the pain. They are guaranteed to contain no narcotics, stimulants or opiate. There is no danger in their use of forming any drug habit. They act directly on the blood and it easily through the blood that any medicine can reach the heart.

Dr. Williams' Pink Pills are sold by all druggists and will be sent postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by Dr. Williams' Medicine Co., Schenectady, N.Y.

FACTS ABOUT STAMPS.

A specialist who collected the stamps of France and her colonies recently sold his collection for \$11,000.

It takes a stamp collector to tell where are Ancash, Antofagasta, Apurimac, Chira, Diego Suarez, Bamra, Waduan, Goloid, Jhino, Ujung, Parikara, Nabob and Obok.

It requires more than 40 large albums to house the collection of United States stamps, which is the early collection of the early 1800s.

The collection of United States stamps is thought to be the most complete in existence.

The credit of originating adhesive stamps is generally given to James Chalmers, of Dundee, Scotland. He first advocated them in 1837, and in accordance with a legislative enactment of December 21, 1839, they were issued for public use in England May 6, 1840.

From Philadelphia.

The visitor from Philadelphia had been taken in hand by his Pittsburgh friends and shown the sights of the city, from the Carnegie Art Institute to the belching furnaces of Homestead together with other points of semi-historical interest. The visitors were naturally impressed with the action and energy of the city.

"Now," said the visitor, gratefully, "I must try to repay you for your courtesy whenever you come to my town. By the by, have you ever been in Philadelphia?"

"Yes," said the Pittsburgher, "I spent several years there—in one after noon!"—Pittsburgh Gazette.

A BUSY WOMAN

Can Do the Work of 3 or 4 If Well Fed.

An energetic young woman living just outside of New York, writes:

"I am at present doing all the housework of a dairy farm, caring for 2 children, a vegetable and flower garden, a large number of fowls, besides managing an extensive exchange business through the mails and pursuing my regular avocation as a writer for several newspapers and magazines (describing fancies and fads for the latter) and all the energy and ability to do this I owe to Grape-Nuts food.

"It was not always so, and a year ago when the shock of my nursing baby's death utterly prostrated me and deranged my stomach and nerves so that I could not assimilate as much as a mouthful of solid food, and was in even worse condition mentally, he would have predicted that I would do so well as do.

"Prior to this great grief I had suffered for years with impaired digestion, constipation, cramps in the stomach, pain in the side, constipation, and other bowel derangements, all these were familiar to my daily life. Medicines gave me no relief—nothing did, until a few months ago, at a friend's suggestion, I began to use Postum Food Coffee at all my meals.

"To-day I am free from all these afflictions. My digestion is simply perfect. I assimilate my food without the least distress, enjoy sweet, restful sleep, and have a boyish feeling of pleasure in my varied duties. In fact, I am a new woman, entirely made over, and I repeat, I owe it all to Grape-Nuts and Postum Coffee." Name given by Postum Co., Battle Creek, Mich.

Stopping the Paper.

"I've stopped my paper, yes, I have; I didn't like to do it. But the editor got to smart. And I allow he'll run it. I am a man as pays my debts. Ain't I won't be insulted. So when an editor gets smart I want to be consulted. I took his paper 'leven years, 'An' helped him all I could, sir, 'An' when it comes to dunmin' me, I didn't think would, sir; But that he did, an' you can bet. It made me hot as thunder. Says I, 'I'll stop that sheet, I will! If the cussed thing goes under! I hunted up the measly whelp, And for his cunnin' caper I paid them, 'leven years an' quit! Yes, sir, I've stopped his paper!" —National Printer-Journalist.

An Exceptionally Fine Musical Program Tuesday Evening.

On Tuesday evening of next week, May the 1st, Prof. Julius Stackman, who has been conducting two singing classes in Barrington during the past six weeks, will close his work by giving a fine chorus concert. In another part of this paper the program appears in full (subject to slight changes).

Prof. Stackman has done good, honest and hard work, and the entire membership of his classes speak only in the highest terms of him as an instructor of vocal music. The proceeds of his concert will go towards rental of church, janitor hire, etc. Every one should attend and hear this fine program.

Insurance That Insures.

President Kremer, president of the German American Insurance company at San Francisco, sends the following message:

"We are enabled to assure our agents that every liability of this company at San Francisco will be promptly met, leaving us with a very large surplus fund and the business of the company will be continued without change."

The great Chicago fire of 1871 burned three square miles of territory, left 100,000 people homeless, destroyed \$165,000,000 worth of property and ruined 100 insurance companies.

The San Francisco disaster has devastated 10 square miles, destroyed the homes of 150,000 to 200,000 people and ruined property valued at upwards of three hundred millions of dollars.

A comparison of these catastrophes and their results cannot fail to impress upon you the great strength of the German American which enables it to take care of its losses, however large they may be, and still retain a large and well-invested surplus for the protection of its policy-holders everywhere.

Put a Bull Behind the Bars

We call special attention to the hinge joint at each intersection of stay with main bars.

This is the essential of every good wire fence. Unless the stay has a hinge joint the fence cannot receive pressure from contact and right itself. All rigid stay fences have been unsatisfactory and disappointing, as they crush down and when once down, remain so.

AMERICAN FENCE

Is made with a hinge joint, by which the maximum of elasticity is secured and the fence if properly stretched, remains in place indefinitely. With the hinge joint the fence cannot receive pressure from contact and right itself. All rigid stay fences have been unsatisfactory and disappointing, as they crush down and when once down, remain so.
