HIGH SCHOOL NOTES

The children in the first room are busy making "chicken bookmarks" "Easter-lilies cut buttons" etc.

Bark, clover leaves and early crocuses are being gathered by the children.

Five small art studies framed in brown have been added to the decorations in room one.

The flower and vegetable seeds from the Bureau of Plant Industry will be distributed in a few days.

Supt. G. W. Gamble of Arlington Heights was a school visitor Wednesday afternoon.

Mumps are still prevalent.

Miss Emma Pomeroy sang for the high school Thursday morning. The pupils and teachers desire to express their appreciation of such favors.

The fifth grade have begun their work in physiology. They are reading Haiseld's "How to keep well", and have also begun the reading of Eggleston's "First Book in American History".

The pupils of room three are painting pussy-willows, and making an Easter lily border for the blackboard.

Ruth and Leah Garbisch are out of school with the mumps. Earl and Vernon Zimmerman are also absent.

Ernest Rieck is in school again after an attack of mumps.

Walter Schutt and Warren Plagge have been promoted from the fourth to the fifth grade.

The teachers and pupils of the high school are pleased to have Miss Edna Wylie of Cary back with them. Miss Wylie has been assisting her mother.

The fourth room has been at work on ink wash drawings of pigeons and dogs. Also some water colors of the bluebird and red headed woodpecker.

Examinations were held Wednesday and Thursday.

Mrs. Abbie Taylor was a school visitor Thursday morning. She has been visiting with the Fulton family this week.

The pupils in Miss Robertson's room were delighted to see her back Monday morning for she had been out several days because of illness.

The high school quartette will sing at opening exercises next Thursday morning.

Janitor Bennett has begun early to beautify the school grounds and since the soil is still loose and unsettled his request to "keep off the grass" should be heeded by all in school and the public.

Marie and Frank Moore, Alfred Church, Olive Fabritz and Hattie Wagner have been absent most of the week on account of sickness.

A Cataplasm.

An elderly young doctor settled in a village where an old physician had long practiced. One day the two were brought together at a consultation, and on this occasion the young M. D. essayed to extinguish the old man with his preponderance of knowledge. He accordingly began to rattle off Latin phrases and French idioms in a manner that startled the old gentleman.

"Yes," mused the old man meditatively as he rubbed his chin, "that's so, that's so. But what do you think of a cataplasm for this case?"

"A—what?" ejaculated the new doctor, completely dumfounded.

"A cataplasm," was the reply.

"Well, I am not familiar with that mode of treatment, though I've seen it advertised. It's something new, isn't it?"

"New! Great gracious, no!" exclaimed the old physician, thoroughly enjoying the joke. "A cataplasm means simply a poultice. It always has meant a poultice and probably always will."

The young doctor straightway subsided.—London Mail.

Equal to the Occasion.

"A Chicagoan named Littledale played with me in amateur theatricals in my early youth," said a well known actor.

"Littledale in one of our shows had to leap into a river in order to escape from a wild beast."

"The stage was so arranged that the river was invisible. Littledale was to leap and disappear, striking a soft mattress in the wings, and at the same time a rock was to be dropped in a tub of water to create a splash."

"But, though the leap worked all right in rehearsal, on the night of actual performance it went wrong. There was neither mattress nor tub there. When poor Littledale jumped he fell eight feet and landed on an oaken floor with a crash loud enough to wake the dead, and there was no splashing water to drown the crash, by Jove."

"The audience, expecting to hear a splash and hearing instead the thunderous impact of Littledale's bones on the oak, set up a titter. But the happy Littledale, equal to the occasion, alighted them."

"Heaven's! he shouted from above, 'the water's frozen!'" — Home Magazine.

How to Remain Young.

To continue young in health and strength, do as Mrs. N. Fowan, McDonough, Ga., did. She says: Three bottles of Electric Bitters cured me of chronic liver and stomach trouble, complicated with such an unhealthy condition of the blood that my skin turned red as flannel. I am now practically 2 years younger than before I took Electric Bitters. I can now do all my work with ease and assist in my husband's store. Guaranteed at Barrington Pharmacy. Price 50c.

Effect of Electric Wires on Trees.
A considerable amount of damage to street trees is found to be due to wires in causing abrasions, destruction of limbs, burning, etc., which necessitate injudicious pruning, says the Los Angeles Times. The greatest amount of damage is the local burrings caused by the electrical current, and the higher the electro motive force the more injury is likely to occur. There appears to be little or no leakage from wires during the dry weather, but in wet weather, when a film of water is formed on the bark, there is a considerable transfer of electric current. No authentic cases have been observed where the alternating current such as is used for electric lighting has killed trees, although cases are recorded where the direct current used in operating street railways has found the large trees.

Worked Like a Charm.

Mr. D. N. Walker, editor of that spicy journal, the Enterprise, Louisiana, Va., says: "I ran a nail in my foot last week and at once applied Bucklen's Arnica Salve. No inflammation followed; the salve simply healed the wound." Heals every sore, burn and skin disease. Guaranteed at Barrington Pharmacy, 25c.

Window glass in all sizes, glazing promptly done at LANEY & COMPANY'S.

Found at Last.

J. A. Harmon, of Litchfield, West Va., says: "At last I have found the perfect pill that never disappoints me; and for the benefit of others afflicted with torpid liver and chronic constipation, will say: take Dr. King's New Life Pills." Guaranteed satisfactory 25c at Barrington Pharmacy.

Mr. Brown of Shoplees Town.
Mr. Brown of Shoplees Town is very much distressed. Cannot buy the things he needs. The stores are all run out. Merchants closed 'em up last year and started out to roam. Till they found a trading place where people trade at home.

Mr. Brown of Shoplees Town.
When shops were plenty there. Used to mail his cash as far. For trifles light as air. For substantial things as well. To those mail order trusts. 'Tis no wonder that at home The merchants went on "hunts."

Mr. Brown of Shoplees Town.
Is very and sure. Stands around from dawn to dusk. Smelling quite a rose. Needing food and clothes-but, see. Postoffice, too, deems. So he mails no orders now. He cannot buy the stamps.

Saved Her Son's Life.

The happiest mother in the little city of Ava, Mo., is Mrs. S. Ruppee. She writes: "One year ago my son was down with such serious lung trouble that our physician was unable to help him, but by our druggist's advice I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's New Discovery saved his life." Guaranteed best cough and cold cure by Barrington Pharmacy. 50c and \$1.00. Trial bottle free.
