The Senior class finished their graduation week with a picnic Friday in Lord's Park, Elgin, leaving here about ten o'clock. The seventies in the class and three guests went. The pleasure of the day was somewhat dampened by a heavy rain, but the party found shelter in an enclosed pavilion where music and games helped to pass the time. They arrived home about nine in the evening tired but happy.

Mrs. Henry who resides on the old Beahler farm on the Lake Zurich road narrowly escaped death Tuesday when the fast mail train going north approached at her home. He heard and jumped on the track immediately in front of the train. With the help of John Naggar, farmer, a serious accident was prevented, but the train passed within a foot of the buggy. The loud whistling of the engine frightened the horses on the depot stage and they ran from the depot to Freeman's before, caught, while Fred Kampert's express horse in fright climbed onto the depot platform where they were tied.

Dumas and His Money. Dumas the elder was not in the habit of counting his money, but did once, leaving it on the mantel while he left the room for a few minutes. ## RIVALRY IN TOWN BOOMING.

Indian Territory Cities Vie With Each Other For Population and Progress. In Indian Territory, which is to be a part of the new state of Oklahoma, they know how to build towns. They know how to boom towns after they are partly built. That is important also. Just now an interesting rivalry is going on among the several big towns of the territory. This is noticed particularly in Muskogee and South McAlester. These two cities are avowed rivals.

Muskogee is the seat of the Indian commission, while South McAlester is the center of a great coal mining section. For some years past each city has employed an energetic booster who, as secretary of the local commercial club, has presented the merits and advantages of his town to the outside public in an attractive manner. Recently South McAlester sent up and hired Muskogee's booster, doubling his salary, because Muskogee's population has a good deal more than doubled in five years. Now Muskogee is making an extra effort to head off South McAlester, which is pressing her closely for premier place as to population. Those Indian Territory people are proud of their town and find a man in either of the cities mentioned who ever left past an opportunity to boast of his home place. Every man thinks his town is the best on earth. Every citizen is firmly convinced in his own mind that his particular town is to become the biggest city in the new state. You can't head off a town whose inhabitants feel that way. It is no more possible to stop the forward march of a town with people like that than it is to lessen the speed of an Oklahoma jack rabbit that has passed out of gun range.

As Usual.

"Why are they crowding around the well? Some one in trouble?" "Yes, there was a woman at the bottom of it."—Boston Globe.
