Physicians Recommend Castoria

CASTORIA has met with pronounced favor on the part of physicians, pharmscentical societies and medical authorities. It is used by physicians with
results most gratifying. The extended use of Castoria is unquestionably the

It is absolutely safe. It does not contain any Opium, Morphine, or other narrotic

Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day
for poisoning innocent children through greed or ignorance ought to end. To
our knowledge, Castoria is a remedy which produces composure and health, by
regulating the system—not by stupefying it—and our readers are entitled to
the information.—Hall's Journal of Realth.
