NEWS OF WAUCONDA

D. McClain who has been visiting with relatives at Ringwood for the past few weeks returned to our village

aucress in the far west.

J. F. Roney had 200 bushels of what ground at the Barrington Mill the first of the week and has sold a larger quantity of the flour to our citizens who pronounce it the A1 article. Is not there some progressive man who would start up another good mill in our village here. The proposition of the basiness people would lead their hearty aid to such an enterprise. There always has been good business for a mill in our village and we all know it was a good paying business. Several good sites are now available and now is the time to start, in order to get all in readiness for the winter grading. If anyone has a proposition to offer let them present it to bushess one and they will tell you what they will do. Don't delay but present ft at once.

All who order telephones within thirty days will secure service without delay. Cold weather may prevent pounts attention to your order after October 15. Order before it is too late. Coloago Telephy 14 Com any.

Kick the Printer

for many years a con-spicuous signboard out-side an office which side an office which reads, "KICK THE PRINTER."

Bibulous persons sometimes go inside to earry out the apparent request, but they disewer that the printer is a gentleman by the name of Kick.

are persons who, if they do not actually feel like kicking the printer-the newspaper man-at any rate do a lot of kick-ing at the way he con-

duets his paper.
Please DON'T kick
the printer; he is doing the best he can.

And what he does for the town and community, despite his occasional mistakes, may be a great deal more than the kickers themselves are doing. Did THAT ever occur to you? We are all neighbors in this town. What helps one

helps the others. What hurts one hurts the others. Every community is a mutual benefit association, whether organ-ized or just running wild. The printer is a charter member.

If you had no printer—no newspaper—how would you like that? Do you know what happens to towns that don't support a newspaper? Nothing happens. Nothing ever happens in a town like that. As soon as things begin to happen in a town the newspaper comes along and tells about

The newspaper boosts the town. It records progress offers suggestions, by the editor or the readers, as to further progress. Every copy of every ione advertises the town. This is all free advertisement. It costs the town nothing. It costs the people nothing. It is a part of the

In view of this fact, which nobedy can dispute, it is much better to put the printer on the shoulder now and then or to speak kindly of him than to kick him.

NO; DON'T KICK THE PRINTER.

His Dear Old Mother:

"My dear old mother, who is now eighty-three years old, thrives on Electric Bitters," writes W. B. Brunson, of Dublin, Ga. "She has taken them for about two years and enjoys an excellent appetite, feels strong and sleeps well." That's the way Electric Bitters affect the aged, and, the same happy results follow in all cases of female weakness and general debility. Weak, puny children too, are grastly strengthened by them. Guaranded also for stomach, liver and kipley troubles, by Barrington Pharmack Soc.
