## SOME AMUSING MEASURES

Pierson Tells of Some Peculiar and Amusing Bills Which Have Been Put Before the House.

House of Representatives, Springfield, Ill., April 9, 1907.

A study of the bills which have been introduced in this Assembly discloses some peculiar and amusing measures. The desire of various interests to be protected by state boards and commissions seems to be carried to the extreme.

The most prominent of these bills is one creating a board for examining and licensing nurses but in addition to that we have bills of the same character for barbers, optometrists and chiropractors. The two latter bills are often referred to respectively as "soot eye and sore toe" bills.

The state old joke to tax bachelors is also in the list this session. A member who does not know or has forgotten that the constitution of the state requires all taxation to be uniform has introduced a bill to exempt all veterans of the Civil War from taxation on property they may own exceeding \$1,000 in value. This statement evidently has but little respect for the constitution.

Another member who believes a primary election law is of no benefit unless it is used, proposes that the state shall tax every legal voter \$1.00 per year which he satisfy by voting at the primary and obtaining a certificate that he has voted.

One of the preacher members desires a law requiring that the Bible be read in public schools without sectarian comment. His bill does not specify how often or how much the Bible shall be read in the schools. Its indefiniteness is only equaled by the certainty that it will never be considered.

Another legislator proposes that the state shall pay a premium of ten cents for every cow's head and five cents for every cow's egg. This provoked lively discussion and a great deal of amusement. The Democrats insisted on championing the rights of the cows. When it was under discussion a Democratic member who was so drunk he did not know the difference between a crow and a jack rabbit said to me, "We Democrats ought to know more about crows than you do; we have been eating crow a long time."

In another bill it is provided that a blacksmith shall have a loin on every horse, mule or ox which he may shoe, the loin to be good six months after the shoeing. This is clearly clause legislation because it does not include Shetland ponies, burros and other long eared animals.

Of a similar character is a bill to pay bounty of twenty-five cents for dead ground-hogs, the object being to prevent the ground-hog from seeing his shadow and thereby lengthening winter.

In another bill it is provided that a blacksmith shall have a loin on every horse, mule or ox which he may shoe, the loin to be good six months after the shoeing. This is clearly clause legislation because it does not include Shetland ponies, burros and other long eared animals.

Mr. and Mrs. R. R. Kimberly visited with relatives at Barrington and Chicago, Sunday and Monday.

Mrs. N. B. Dijers and daughter Miss Hazel were Chicago visitors Tuesday.

Miss Belle Taggart, who has been seriously ill for some time, is reported no better.

Mrs. P. H. Malman of Waukegan, visited here Sunday.

Mr. and Mrs. F. L. Carr were Michigan visitors last Friday.

De Golding of Libertyville visited with wife and baby Sandy.

Mr. and Mrs. W. Hall and latter's sister, Miss Tessie Compton of Elgin, were guests of relatives here Sunday.

John Murphy returned to Chicago after a week's visit at home.

The Misses Nina and Winnie Pratt visited friends at Cary Friday.

Messrs. E. E. Gilbert, Will Harris, P. A. Nimsgeas, M. Clark, H. Coose, T. Oakes and Dr. Sowels transacted business at Waukegan last Friday.

Miss Celia Freund was most pleasantly surprised by a number of her friends Tuesday in honor of her fifteenth birthday. Ice-cream and cake was served and a very pleasant evening was spent.

Rev. S. E. Wouffe, Misses Mary and Maria Martin are spending the week with Chicago relatives.

The Mystic Workers' initiation last Friday was a very interesting and successful affair, twenty-one of the twenty-five eligible candidates appearing for initiation. A fine supper was served by Mrs. Basely and her assistants.

A member of the Senate has introduced a bill applying to the public schools, by which, to use his own words, he proposes to make it "the duty of every teacher to teach to the pupils of such school honesty, kindness, justice and sobriety as tend to ennoble the character of school children and enable them to know how to conduct themselves as social beings and to develop a sense of right and wrong for the purpose of lessening crime and raising the standard of good citizenship." If this bill passes there will be an opportunity for some liter-

ary genius to write a system of text books on Kindness, Justice and Sobriety.

A very peculiar bill is one that requires every railroad coach to be provided with one or more hatches or doors in its roof for use as a fire escape. One of the Prohibition members has introduced a bill requiring that all kerosene oil offered for sale or sold shall be colored red. His purpose evidently is to distinguish kerosene from other firey liquids.

The Republicans and Democrats believe they can tell kerosene oil from corn juice without an act of the Legislature.

In my opinion this is a dangerous bill. If it should become a law how could the Prohibitionists distinguish red kerosene from red lemonade? The people should at once write their members of the House several thousand letters requesting them to vote against this bill. If it passes, Rockefeller will by compulsion of law paint the state red and no one can tell where the dabush will end.

### OBITUARY

Our people were shocked last Thursday to learn of the sudden death of Rev. J. C. Gieseler, at Lena, Illinois, at the age of 20 years. Rev. Father Gieseler was born at Delaplaine, Ill., April 14, 1887, and was the youngest of the family of six children one being Mary, deceased wife of Henry Martin, of Waukegan. He was ordained a priest of the Roman Catholic church at St. Francis' Seminary, Milwaukee, Wis., February 1893 and read his first Mass in the church of St. John, which was destroyed by fire a few years ago. On account of ill health he went to Denver, Colo., where after seeing some of his friends he fully recovered his health he returned to Illinois where he took

## Mister Brown Of Shopless Town

Behold a man of Shopless Town;  
His name is Obadiah Brown.  
He says the town does not improve,  
But runs along its ancient groove.  
He'd like to see it spread and grow,  
And yet he does not help, you know.  
Instead of buying things for sale  
Right here in town, he's sent by mail  
For many years and bought his things  
From those faroff Mail Order kings.  
No wonder, Obadiah Brown,  
This home of yours is Shopless Town!

### Death of Mrs. Loomis.

Mrs. A. T. Loomis, an old resident of Barrington township for forty odd years, died at her home last Friday morning, April 5th, aged seventy-three years. She had been ill but a few days with a sudden and severe attack of pneumonia. She leaves an aged husband and three sons who are A. E., Charles A., and O. N. Loomis and four daughters who are Mrs. E. H. Gould and the Misses Minnie, Myra and Kitie Loomis.

Emily C. Edgerton was born at Sangerton Center, Oneida County, New York, January 6th, 1834. She began teaching school at the age of sixteen and alternated teaching and attending school until her marriage November 17th, 1857 to Almeron T. Loomis when she moved to the farm where they have ever since resided. Mrs. Loomis was a great reader and was always interested in all current events.

Mrs. Loomis was a woman she lived in the vicinity in which she well lived and the family has experienced a sorrow which knows no equal. She was laid to rest in the Barrington Centre church last Sunday afternoon followed by a large concourse of relatives and sympathizing friends. Mrs. Loomis was a member of the Baptist church of Dundee and the pastor of that church, Rev. O. P. Bester, preached the funeral sermon.

### Meet at Mrs. Spinner's.

One of the most enjoyable events of the year occurred at the home of Mrs. Mae Lane Spinner this week when she entertained the Thursday club and a score of invited guests. Miss Eva Castle favored the ladies with an unusually good paper on "Famous Artists and their Works" and the readings by Mrs. Spinner's pupils did credit to their teacher. The Misses Zimmerman of Chicago, young ladies of superior musical ability, also assisted on the program and after a perfectly served dinner the ladies convened to meet next week at the home of Mrs. Otis.

### Quotations From the World

#### Famous book, "Imitation of Christ"

"Yet also such is our weakness that we often rather believe evil of others than good."

"It is great wisdom not to believe everything which thou hearest, nor immediately to relate to others what thou hast heard or dost believe."

"It is good that we have sometimes some troubles and crosses, for they often make a man enter into himself and not place his trust in worldly things."

"Endeavor to be patient in bearing with the defects of others, of what sort soever they be; for that itself has many faults which must be borne with by others."

"We should willingly have others perfect and yet we cannot not our own faults."

"Of occasions of adversity best discover how great virtue or strength each man hath."

"If thou wilt withdraw thyself from speaking vainly, and from gadding idly, also from hearkening after novelties and rumors, thou shalt find leisure enough for meditation on good things."

"Busy not thyself in matters which appertain to others, neither do thou entangle thyself with the affairs of thy betters."

"My son, be not curious nor trouble with idle cares. Thou shalt not need to answer for others, but shalt give account for thyself."

"Let not thy peace depend on the tongues of men; for whether they judge well or ill of thee, thou art not on account other than thyself."

"Some people are under the impression that the English robin and the American robin differ in plumage and extent to see if not a wren at least a small brown bird of retiring disposition and unattractive color, but the robin is quite as fearless as her mate and quite as brightly clad."

### Attend Their Dance.

The Barrington Base Ball club will give their initial dance in Barrington Village hall, Saturday evening, April 13th. The young men are planning to make this party one of the finest ever given here and all dances should attend. Harden's orchestra of Elgin has been engaged to furnish music.

A supper will be served at Rhodes cafe. Tickets for the dance will be seventy-five cents and for the dance seventy-five cents a couple.

Attend the dance to enjoy the evening and to patronize the boys whose efforts in promoting good social amusements are worthy.

### Boucholtz-Wolf

The marriage of Miss Laura Wolf to Herman Boucholtz both of Chicago occurred Sunday afternoon, April 13th in a city church. Miss Wolf was a former Barrington girl and was raised here. She is a sister of Mrs. John Brinker and Fred Wolf of here and daughter of John Wolf, who formerly lived here and now located at 15 east 29th street where Mr. and Mrs. Boucholtz will reside. Mrs. Brinker and son William attended the wedding.

MISS MEADOWSWEET—Excuse my ignorance, but ought I to call you Mr. Squalls or Mr. Boucholtz? I can't say anything like "Some of my friends call me an old fool." Miss Meadowsweet—Ah, but that's only people who know you intimately!—London Punch.

## LET THE GOOD WORK GO ON

### ELECT MEN TO OFFICE WHO WILL

#### CONTINUE TO IMPROVE THE TOWN.

Barrington has for the past number of years been quiet and steadily going forward. It has kept up a steady and healthy growth. Its citizens have been continually improving their residences and property so that our beautiful shade trees, lawns and homes are attracting outside people, who are looking for a location to make a new home.

Our Village officers have been doing their full duty and share towards beautifying our town. We have one of the best systems of water works of any town around us. Our streets are well graveled and kept clean. We are replacing the old board sidewalks with broad new five foot cement walks. Our streets and residents are lighted by electricity. The North-Western Gas company is now furnishing our homes with gas for illumination and heating. All we need is a proper and complete sewerage system to give us all the improvements the city has. Let us keep this progressive and steady growth up.

Next Tuesday is our Village election and it should be the duty of every citizen to see that good men are elected that will carry out those improvements that will make our town grow and men that will represent the whole people's interests, that will bring new capital to our town to build more beautiful homes.

### Judge Not.

An article was recently presented this paper for publication by the spokesman of the committee who had drafted it. It was said to be a "Political Platform" and was bristling with personalities. Publication was denied it on two grounds: first it was unsigned and the name of the committee was refused on request. Anyone who is forwardly enough to wish such an article published without signing his name to it is beneath notice of honest people; secondly, the "platform" was a roost of public officials of the present and past written by a few persons of local power.

Immediately following the refusal of space in the paper unsigned letters, insulting and "mud throwing" have been received at this office directed at a member of the staff.

Their source is considered.

Scandal after scandal has occurred in this town recently and in days gone by, the Ten Commandments have been broken by those repeating them often and so many homes are built of glass that throwing stones is serious business.

The REVIEW in charity and courtesy suppressed these scandals.

### OBITUARY.

The family of Mrs. R. Clings who live near Cemetery street were called to Algomaquin Monday, April 9, by the death of Mrs. Clings' daughter, Mrs. Augusta Clings Rockensock, wife of William Rockensock, who had been ill with bronchitis and pneumonia for six weeks and passed away at five o'clock in the afternoon.

Mrs. Rockensock was about forty years old and was raised near Barrington on farms at Fairfield and she lived for many years on the old Heimendorfer farm near Flint Creek. Over twenty years ago she married and left this vicinity. Most of her married life has been spent in Algomaquin.

She was the mother of nine children, all of whom are living and her eldest daughter, aged twenty was recently married. The youngest child is two years old. Mr. Rockensock has the sympathy of every one for it is one of the saddest of deaths when a mother of children passes away.

The funeral was held Thursday at the home at one o'clock in Algomaquin and later in the Lutheran church at Dundee with burial in a Lutheran cemetery south of Dundee.

A large number of relatives and friends from Langenheim, Barrington and surrounding farms attended the funeral.

Two recent incidents throw light on the much-debated question of high-school societies. In one case a girl society in an eastern high school decided to disband because some social position was not so good as that of the others in their classes. In the other case a part of the initiation into a girl's society in a western high school consisted in branding the hands of the candidates with strong acid. It is interesting to note that these societies almost always call themselves "sororities," a term derived from the Latin word for sister.

## TORNADO IN SOUTH

AT LEAST 25 LIVES LOST AND GREAT DAMAGE DONE.

LOUISIANA TOWNS SUFFER

Alexandria Has Fearful Experience, Many Dwellings Being Wrecked—Insane Asylum at Jackson Is Destroyed.

New Orleans. — Fully 25 deaths and more than twice as many severe injuries resulted from Friday's tornado through Louisiana, Mississippi and Alabama. Less than half of those killed were white persons. The tornado moved from west to east, crossing the southern extremities of Louisiana and Mississippi and striking into Alabama for a short distance. Portions of four towns were devastated and damage probably exceeding half a million dollars was done, for in addition to the places in which the tornado manifested fatal violence, the disturbance did general damage to property, crops and telegraphic wires throughout its 300 mile course.

The tornado began at Alexandria, La., soon after one o'clock in the morning, instantly killing four persons there, probably fatally injuring three and seriously injuring 13 others. Soon after daylight it neared the Mississippi river, instantly killing five persons at Jackson, La., while at Bayou Sara, La., at least a dozen others were reported killed. There was a fatal injury at Jackson.

The next day appeared at Carson, Miss., where great property damage was done and the last heard of it was about noon near Selma, Ala., where the inhabitants saw whirling clouds rise into the air as they crossed the river. One death, a negro, was reported near Selma, but not confirmed.

DESTRUCTION AT ALEXANDRIA

Alexandria, a town of about 16,000 inhabitants, had a fearful experience. When the tornado struck the electric lights went out, the crackling of falling buildings could be heard above the noise of the wind, and vivid lightning flashes showed such sights as an empty Iron Mountain passenger train rolling over and over. Immediately after the wind spent its violence a heavy half storm came on.

Luckily the few porches of Alexandria escaped the worst of the tornado, which cut a path through the northern part of the town, a residence section. About a score of homes were completely wiped out, 50 were damaged and altogether about 100 buildings were seriously wrecked, including several business houses. The Iron Mountain road lost its roundhouse. A streak of the wind drove a small tunnel into a house into one of the empty passenger coaches, wedging these two bodies almost inextricably together.

Asylum at Jackson Suffers.

A remarkable report comes from the state insane asylum at Jackson, La., which was partly wrecked. Nearly all the patients were left without shelter, 20 of them being seriously injured. Several cases of chronic hysteria are reported to have been aggravated, and the physician in charge may prove permanent recoveries.

Gov. Blanchard has rushed funds and costs from the state military supplies for the temporary housing of the asylum inmates. The governor issued a statement that the damage to the asylum is not above \$100,000.

At Bayou Sara, several passengers on the steamer "Betty Ann," running to Mobile, had a thrilling experience. The "Betty Ann" was reduced to almost a total wreck. While the breaking timbers both from the steamer and from the shore flew through the air, the crew got all the passengers safely ashore. First Mate Abe Crothers had an arm broken, and hardly a member of the crew escaped without painful bruises.

Carson Is Hard Hit.

At Carson, Miss., the point the tornado struck, the Mississippi Central railroad depot was blown down, also a church, schoolhouse and two business buildings and several cabins. Here the tornado's path was but 200 yards wide and the wind blew from the southeast.

From Carson, the storm crossed the state line into Alabama, where it began to lose much of its destructive power.

Death was due to apoplexy.

Fatal Wreck in Nevada.

Winnemucca, Nev.—Passenger train No. 4, on the Southern Pacific, ran into a split switch at Browns Monday. Engineer F. C. Hampton was cut. The fireman's legs were cut and he was severely injured.

## PENROSE DENIES PLOT TALE

SENATOR SAYS HE NEVER HEARD OF ALLEGED CABAL.

Secretary Loeb Declares Roosevelt Learned of Scheme Before Dinner of Conspirators.

Philadelphia. — United States Senator Penrose had this to say Friday about a published report that he told at a dinner in Washington the story of a "rich man's conspiracy" to prevent the selection of President Roosevelt's choice of a successor to himself: "It is absolutely an untruth. I have never said any such thing. It is untrue. I have always been a supporter of and believer in President Roosevelt's administration and all its policies."

The senator was asked: "Have you ever heard of a \$5,000,000 fund to prevent President Roosevelt's naming his successor?"

"No, absolutely not," was his reply.

"Have you ever heard of the combination termed the 'rich men's conspiracy' to thwart the president in the development of his policies?"

"No, I have never heard of any such combination and have no knowledge of it."

"Did you attend a dinner of such a combination mentioned to-day in the Washington dispatches?"

"No, I never attended a dinner where such a subject was discussed. I could not have done so, anyhow, for I have just returned from the Indian cruise with Secretary Metcalf and Senator Flinn of California. I arrived in Philadelphia Tuesday night after a month's trip. During that I did not hear the newspapers keep in touch with affairs in the United States."

Washington. — It was stated at the White House Friday that knowledge of the "cabal" alleged to have been formed to defeat the policies of Mr. Roosevelt came to the notice of the president some time before the dinner at which the whole scheme was laid bare.

Persistent efforts were made at the White House to obtain the name of the person who is said to be responsible for giving away the information of the combination, but Secretary Loeb declined to make this public.

BIG RAIL STRIKE AVERTED.

Managers and Trainmen at Chicago Reach Settlement.

Chicago. — It was announced at 2:25 Thursday afternoon that the general managers of 42 western railroads and the committee of the managers of the railroads and the trainmen had reached a settlement at 1:30 p.m. and all danger of a strike, which for several weeks has threatened to the up traffic in the west, had been averted.

The proposition on which the settlement was arranged was put forward by Commissioners Knapp and Neill, President Roosevelt's representatives in Chicago. The managers made a high demand concerning the passenger service over their recent offer to the men and gained a ten-hour working day in the work-train service.

The announcement has been made that the same conditions will apply to a settlement of the controversy between the managers and the locomotive firemen.

The arrest has caused a profound sensation throughout northern Mexico, and is being used without effect by the agitators against the Diaz government, the so-called "revolutionists," on both sides of the border.

No One Cares to Work at Places That Seem Marked Out for Misfortune—Doorkeeper's Post

an example.

A series of misfortunes involving dismissals, resignations and deaths in the executive departments in Washington often develops what is known as the "hoodoo desk," says the Washington Post.

A desk is under suspicion after a dismissal of two or three clerks or after several transfers or resignations, and if there should occur several deaths among the occupants of the desk in the course of a year or two it is designated as the hoodoo desk, and so one in that room cares to do clerical work at it. In a room filled with clerks the hoodoo desk is easily recognized, for it is most generally occupied with the surplus books and general litter of the daily routine work.

The desk may remain unoccupied sometimes for months, until some new clerk comes into the room and is assigned to it, provided there is no other vacant desk in the room. Bureau officials generally avoid assigning a new clerk to the hoodoo desk if it can be done. In fact, the desk is apt to remain without an occupant until radical changes in the personnel of the office cause its reputation to be forgotten.

In one department there is a hoodoo desk from which four clerks have died in the last two years, two have resigned, one has been dismissed and three have been transferred. There have been three deaths in the Pittsburgh office of the Pennsylvania Railroad, and the railroad has been set on the way to destruction.

Albion, O. — An unsuccessful attempt was made early Monday morning to break into the Cleveland and Pittsburgh branch of the Pittsburgh Pennsylvania company within 500 yards of the station here, when the engineer of the train saw the signal for a clear track suddenly thrown up.

The emergency brakes were applied and the train brought to a standstill in time to avoid crashing into the open switch. A man who evidently opened the switch ran from the train and disappeared. It was expected that the man who would be train wrecker is one of the gang responsible for the capture of the Cleveland Pittsburgh flyer at Hudson, O., Saturday night.

NO DEFENSE AT PUERTO RICO.

Hondurans Thought War Was Over.

American Marines Guard Ceiba.

New Orleans.—That Puerto Rico was surrendered without fighting and that about 1,500 Honduran soldiers abandoned the port two days before the Nicaraguan troops appeared was the information brought here Monday night by the steamer *Anselm* from Puerto Rico.

The Hondurans did not desert their post through cowardice, according to these dispatches, but decided that the war was over.

United States marines closed all saloons in Ceiba after the abandonment of the port by the Hondurans.

Puerto Rico, Honduras, via New Orleans, has been the scene of great moment in the relations of the United States to Central American republics has been given out here. It is to the effect that bombardment of coast towns cannot be permitted "during the frequent wars and revolutions in Central American states."

The statement is by Commander

Fallum of the United States gunboat *Marietta* and a son of a letter to Gen. Juan J. Arredondo, general commanding the Nicaraguan expedition engaged in capturing Honduras ports.

INDICTED FOR EMBEZZLEMENT.

Assistant Adjutant General of West Virginia Is Accused.

Charleston, W. Va.—The military board of survey which has been investigating the accounts of the assistant adjutant general of this state, appeared before the grand jury Friday afternoon and secured the indictment of Col. A. S. Huston, who has held office since 1892, during three state administrations, on the charge of embezzlement of \$500. A warrant was issued for his arrest.

The indictment covers but one specification and, while the state officials and board of survey are reticent, it has become generally understood that the trouble has extended over a period of years and that the amount may reach or exceed \$30,000.

charge of a parish at Lena. The funeral was held at Johnsburg church, Monday, the Requiem Mass being sung by Father Smith of Aurora, who was a classmate of the deceased. Father Webber of Sennack, Ill., acted as Deacon, and also delivered the sermon in German. Father Bourke of McHenry acted as Sub-Deacon, and Father McShane of Chicago, Master of Ceremonies. Bishop Muldoon delivered an English sermon. Other priests present who assisted in the ceremony were: Dr. E. M. Dunn, Chancellor of the Chicago Archdiocese and Father Jennings, both of Chicago; Fathers Mehring and Beck, resident priests of Johnsburg; Father Womacka; Father Ulrich, Mettewy and Father Reimpe, Volo. Interment was in Johnsburg cemetery beside his parents.

#### THINKS MERCHANTS WRONG

Mr. Peckham says: "Put the

Blame Where it Belongs."

To the voters of the Village of Barrington:

When people do things which they are ashamed of it seems to be natural for them to hunt an excuse and the voters of Barrington say that they license the saloons in their town because the farmers want them. "We as farmers do not think the people of the village for that kind of compliments. Of course, there are some farmers, who patronize the saloons, but if you think we are anxious to have them remain for our sake you are mistaken.

What do we want saloons for? To keep our hired men in town in the busy season of the year when we send them to mill, or to the milk factory? Or to get drunk and leave our horses standing in the street on a cold winter's day? To furnish a place for our men to go in the evening and get a "spree" and be of no use for two or three days? To make "toughs" of our sons? No! don't blame the innocent farmers for your dirty work. If you want saloons in Barrington you have them because you want them yourselves.

We are surprised at the argument that intelligent "business" men put up, that is, "they need saloons to draw trade." As long as the milk factory pays a decent price for our milk we will come to town with it whether there are saloons or not.

And the man who now spends his money at the saloons would pay his honest debts at the grocery, hardware, etc., but as it is the saloon keepers get his cash and the business houses get the bad debts. On our farms we cannot let the weeds grow; simply because the birds like the seeds, we must keep the weeds down if we expect a crop of wholesome grain.

CHARLES ELMER PECKHAM.

## The Unabated Influence of the Public Press

By VICE-PRESIDENT FAIRBANKS.

The press is a great censor. It passes judgment upon men and things and this judgment becomes, in a large degree, in the course of time, the popular eye. It does not so frequently sit in judgment upon itself as it does upon others. It is an all-seeing eye, searching wrong-doing and wrong-doers, and as such exercises a powerful influence. It is usually upon the side of cleanliness and decency. It usually stands for that which is best in our civilization and it is a tremendous deterrent to those who might be disposed to betray their trust. Being the source of such potential influence, it is of the utmost importance that the press itself should be pure; that its motives should be of the highest and best. Possessing as it does the confidence of a large constituency, it should give to the people, so far as it can, the truth, the facts, free from bias and without distortion.

The press, like the bench, the bar, the pulpit and the great body of society, has its share of those who are not actuated by any high or ethical considerations and thus bring a noble profession into disfavor. They are fortunately a part of a small minority. The great body of the press, like the great mass of the people whom it serves, is high minded and patriotic. It stands for those things which make for the uplifting of the human condition and for the general betterment of mankind.

We hear occasionally of the decadence of the press; that it is no longer edited from the editorial sanctum but from the business department. This were unfortunate for the community and for the country if it were so. It is no doubt true that individual editorial utterances do not stand out and ring far as did the editorials of Horace Greeley and others in the not long ago, but if this is true, it is due to the fact that there is more competition now than there was in the not remote past. The field has been fully occupied. The editorial pages have been many times multiplied and while the individual editor, perhaps, does not exert so distinct and widespread an influence as formerly, the aggregate influence is quite as great, if not greater, than ever. It is fair to say that the news columns have a more potent influence upon public discussion and the popular judgment than they formerly had.

## The Pay of Government Employees

By HON. JOSEPH H. O'NEIL,  
Former Head of Sub-Treasury, Boston.

The effect of the rules governing the present system of public employment is to provide good pay for boys and bad pay for men. In proportion to the degree of skill and talent required of certain classes of office-holders, the pay is very inadequate; on the other hand, there are branches of the public service in which under all the circumstances the remuneration is not ungenerous.

The government has a very difficult problem to solve in the arrangement of a basis for the remuneration of the service that it receives. In establishing salaries it is obliged to preserve a certain uniformity, which, as carried out in practice, is subject to the criticism of being unfair to some and more than fair to others.

In Washington once the head of a government department explained this system to me by stating that the government cannot buy labor at the special market price of that labor. A carpenter in Alabama might be glad to get \$1.75 a day for his labor, but a carpenter in New York or Massachusetts would rightfully demand, say, \$3.50 a day. When the purchasing power of a dollar in New York is compared to the purchasing power of a dollar in Alabama, it will be seen that the New York carpenter is no more generously remunerated than the Alabama carpenter.

But the government cannot discriminate; at least it does not undertake to discriminate in this way, but settles on an average salary for all its employees in any given grade. It was different once when postal employees in certain metropolitan sections received a third more salary than postal employees in other sections.

If any plan like this should be reverted to it would be argued with much show of reason that the same service should have the same salary.

In the case of unusually efficient service which is required of so many government employees, there is no effort made to pay salaries which such service would command in nonpublic enterprises. That is why I have been trying to persuade the bright young men whom I am growing up to turn away from the lure of office-holding and devote their energies and abilities to much more fruitful and desirable effort in the many attractive fields outside of the public service.

## Cupid in League with the Waitress

By MISS GEORGIA TEETERS,  
President of the Waitress' Union, Chicago.

Of all the girls who work for their living in Chicago the waitresses are conceded to have the best chance of winning a husband. There are 1,500 girls employed in the restaurants of Chicago, and of this number about 300 are married every year.

When a pretty little waitress once gets her eye on a man whom she thinks she could look upon as an asset she begins her campaign against his heart by working up a standing with the chef. Her first move is to inform that functionary that a particular friend of hers is waiting for his meal and that she would consider it a great personal favor if a little extra care were bestowed on the dishes he has ordered. This done, she sees that the table cloth on his table is clean and neat and that he is given a fresh, clean napkin.

She then brings into play her battery of bacon and eggs, fried to a turn. A dish of apple sauce, placed before him with her own dainty little hand, has a disastrous effect on the inner defenses and a cup of rich brown coffee, creamed just to his taste, drives him to the trenches of satisfaction and contentment. By the time she brings him a nice piece of pie, which she has saved especially for him, and which does not look as though it had been slept on the cook, like the average restaurant pie, he is ready to listen to her terms of surrender. No man, in the opinion of those who have studied the question, can long resist such treatment, and if the waitress happens to be pretty, he cannot resist it at all.

## LOOKS LIKE SCARE

TALK OF DIVERTING FOREIGN BLOWS AT OUR TRADE.

If Blows in the Shape of Hostile Tariff Discrimination Shall Be in Fact Struck, Then the United States Should Be Prepared to Return Blow for Blow.

Of direct significance to American producers is the official outlaying to the threatened tariff imbroglio with France. The fact that the announcement was made through the Associated Press suffices to indicate its authority and origin. There is no masking the part and the intent of the opening paragraph of the statement:

"Washington, March 6.—The executive branch of the government has abandoned all hope of finding any concession to the demands of the French government to prevent the application of the maximum tariff rates on American products not specifically exempted therefrom by existing arrangements. The situation as to France is therefore similar to that as to Germany; at present meet the demand for a reciprocity treaty as the price of minimum tariff rates for American goods and products. Through their embassies at Washington the two countries have been in close touch on this fact, and also that it remains for Congress to decide whether it cares to divert these blows at the American export trade by approving reciprocity treatment with France and Germany."

In this statement from the Associated Reciprocity Tariff League, this presentation could hardly be more suggestive of an intention to tamper with our protective tariff system under the guise of a necessity to "divert these blows at the American export trade."

How are these blows to be averted? Not by the executive branch of the government for it "has abandoned all hope," we are told.

By the action of congress, then. But Congress adjourned and will not meet again in regular session until December.

So congress cannot "divert these blows" inside of ten months. That is, unless the country can be sufficiently frightened to demand that congress be compelled to take extraordinary measures to meet and avert this fearful danger. Was the official pronouncement through the Associated Press prepared with this end in view? Possibly so.

So congress produces the desired effect, if the American people can be thrown into a panic merely because Germany and France have threatened to at some time or other do something awful to our export trade, unless they are permitted to force a demand of the same of America's tariff, that is, of course, there will be a general demonstration in behalf of prompt action through an extra session of congress.

Is this the object of the scare proclamation of March 6? Is there nothing to be done but to submit to the early summoning of congress into extra session and the hurried passage of a law authorizing the executive branch of the government to allow foreign nations to dictate the American tariff?

Yes, there is something else that can be done to "divert these blows."

The executive branch can assert its dignity and its courage by calmly awaiting the progress of events; by not dodging before a blow is struck; and not retreating when it is struck; when the threatening blows shall then have dealt, by taking prompt measures of defense and retaliation.

If the emergency of actual tariff discrimination shall present itself next June, or July, or August, or even between now and the first Monday in December—and we have not the slightest idea that either the German or the French wills be carried into effect before next December, if at all—then congress can be called into session to meet the emergency.

If the emergency of actual tariff discrimination shall present itself next June, or July, or August, or even between now and the first Monday in December—and we have not the slightest idea that either the German or the French wills be carried into effect before next December, if at all—then congress can be called into session to meet the emergency.

Yes, there is something else that can be done to "divert these blows."

The executive branch can assert its dignity and its courage by calmly awaiting the progress of events; by not dodging before a blow is struck; and not retreating when it is struck; when the threatening blows shall then have dealt, by taking prompt measures of defense and retaliation.

## PLEA FOR THAW ENDS

ATTORNEY DELMAS CLOSES HIS ELOQUENT SUMMING UP.

### BITTERLY ASSAULTS WHITE

Likens the Defendant to a Knight in the Times of Chivalry, and Invokes the "Unwritten Law."

New York.—With an oratorical appeal which the writer has seen as "writing law" for the justification of his client, Delphine M. Delmas, the California attorney, concluded his exhaustive summing up address to the Jury Tuesday afternoon.

With the exception of the moments when he was reading from testimony, Mr. Delmas' speech was one of sustained oratorical effort. He threw about the form of Harry Thaw the cloak of chivalry and knighted "the knight" himself, "who has the right to admire the chivalry of the knights of the middle ages who went about redressing wrongs and rescuing maidens in distress, without our sympathy from this brave man."

Bitterly the attorney again assailed Stanford White. He declared White sought to play with the girl so long as her beauty remained, and then when her beauty had gone away. "The dirty rag to dash down her life's sewers to a grave in the potter's field," again he said: "Harry Thaw had snatched the girl from the old lecher who saw her but a toy to gratify a moment's lust and then be cast aside to go her way down the paths of fallen women."

With dramatic emphasis Mr. Delmas cried out that when Harry had killed Stanford White on the Madison Square Garden floor, the story of his wife's wrongs overcame him. He pictured in an instant, as a dying man may picture, his past life—all that Stanford White had done—"the ruin he had wrought, and he struck; struck as the tiger strikes in defense of her young; struck for the home, struck for American women, struck for humanity, and Stanford White."

"Ah, gentlemen," the advocate went on, "if Harry Thaw believed he was the instrument of Providence, who will say he was mistaken?"

### OIL MAN ACCUSED OF FRAUD

H. H. Tucker, Jr., Indicted, Arrested and Held in Ball.

### WOMAN HAS FINE RECORD.

Keeper of Lighthouse, She Has Saved Eighteen Lives.

Ida Lewis recently celebrated her fiftieth year as keeper of the Lime Island Lighthouse in the harbor of Newport, R. I. As a girl and woman Ida Lewis has lived a remarkable life. Her bravery and skill in handling a boat are well known and her fame is secure as the great woman life saver in the world, for she has the credit of having saved more than 18 lives, most of which have been saved, indeed, in the face of extreme danger and winter. As keeper of the Lime Island Lighthouse, to which post she was appointed in recognition of her bravery and record as a life saver on the death of her father, Miss Lewis has shown herself as careful and efficient as a man could be. She is one of the few women in such a position.

### SARSPARILLA TIME.

Make Your Own Sarssparilla or Spring Blood Medicine.

Mix one-half ounce Fluid Extract Dandelin, one ounce Compound Karagon, three ounces Compound Syrup Sarsparilla. Shake well in a bottle and take one teaspoonful after meals and again at bedtime. Any good druggist will supply you with these.

This is said to be a splendid Spring Blood Tonic and system renovator because of its gentle action in restoring the Kidneys to normal activity, forcing them to filter from the blood all impure matter and acids, destroying micro-organisms which produce ill health and sour blood.

Everyone should take sometime to clean the blood at the time of year, and the above simple prescription is the most highly endorsed of the hundreds of home remedies generally used.

### Sheep Raising in Australia.

The greatest industry of Australia is sheep raising, mainly for the sake of the wool, but in part, of course, for the meat. Australia is the second among the great sheep-raising countries, Argentina being first with 22,000,000 sheep, Australia second with 12,000,000, and Russia third with 70,000,000. Only a few years ago Australia was first, possessing no less than 105,260,000 head of sheep. That was in 1891. Prolonged droughts were the cause of the destruction of many thousands of Australian sheep but since 1902 there has been no serious one. Yet these sheep were not indigenous to Australia. They were first introduced in 1787, being of the Spanish merino species.

Only a few years ago Australia was first, possessing no less than 105,260,000 head of sheep. That was in 1891. Prolonged droughts were the cause of the destruction of many thousands of Australian sheep but since 1902 there has been no serious one. Yet these sheep were not indigenous to Australia. They were first introduced in 1787, being of the Spanish merino species.

Everyone should take sometime to clean the blood at the time of year, and the above simple prescription is the most highly endorsed of the hundreds of home remedies generally used.

### Sheep Raising in Australia.

The greatest industry of Australia is sheep raising, mainly for the sake of the wool, but in part, of course, for the meat. Australia is the second among the great sheep-raising countries, Argentina being first with 22,000,000 sheep, Australia second with 12,000,000, and Russia third with 70,000,000. ## The Knockers

This town is full of people.  
They live on every block.  
Who carry little hammers  
With which they knock, knock, knock.

They know all the latest scandal  
And as regular as a clock  
They size the fairest chance they get  
To knock, knock, knock.

They knock other people's business  
When they can't tend to their own,  
And even knock among themselves  
Like two dogs o'er a bone.

They knock their neighbors and their friends,  
They knock the church and state,  
But when they knock at Heaven's door  
They'll find they are to late.

The knockers are the meanest men  
That live beneath the sun,  
Their heads are swelled, their brains have shrunk,  
But their tongues forever run.

Some enterprising merchant  
In this town should get a stock  
Of second hand halos  
For those who always knock.

They could wear them every day  
To give their face a saintly cast,  
And could trade them off for ear muffs  
When election time is past.

—Houghtaling.
