CASTLE NEW ATTORNEY

Howard P. Castle Appointed Vill-

age Attorney and Ed. Kirby

Night Watchman.

The meeting of the village board held Monday evening was short, in fact so short that the appointment of a night-watchman, to fill vacancy caused by the illness of J. M. Topping, was overlooked. After the meeting had been adjourned Edward Kirby was chosen to fill position.

President Spunner announced that William H. Holly, village attorney, was forced to tender his resignation on account of his time being so closely occupied with other interests. He appointed Howard P. Castle, of the firm of Castle, Williams, Long & Castle, Chicago, to fill vacancy. The appointment was confirmed by the board and meets with general approval. Mr. Castle is in Barrington evenings of each week.

The following bills were allowed and ordered paid:

Henry Kirmsse, nightwatchman, \$40.00
John Denlea, marshal, - - - - - 40.00
A. L. Robertson, lighting streets, 79.30
A. L. Robertson, pumping water, 15.00
Henry Pingle, labor, - - - - - 12.75
J. H. Hatje, repaires, - - - - - 1.30
Barrington Review, printing, - - - - - 30.38
Mrs. R. Fabritz, cleaning hall, 2.00
L. H. Bennett, office supplies, - - - - - 4.35
Total 255.08

A bill from the Northwestern Gas, Light & Coke Company for installing lamp in fountain square was referred to committee who had the matter in charge.

S. E. Smith of the Shueffel farm asked to be paid to ray him \$4.33 on account of 25 pounds of milk spilled in a tip over on Main street after a storm about two weeks ago. The road was blocked and he thought the board was at fault. Street commissioner Denlea said the street was cleaned as soon as possible and every care taken to care for the traveling public. The bill on motion was laid on the table.

Roy C. Myers, Theels Bros., and Fred Stott applied for license for pool table and bowling alley. The licenses were granted.

J. H. Forbes asked for the transfer of his saloon license to McFall & Dale who recently purchased his business. The request was granted and license to McFall & Dale appeared on motion by the following vote: ayes, Denlea, Deesley, Hager, Lageschulte, Peters and Plagier; nays, nope.

The board then adjourned on motion of Trustee Denlea.

To Vote on Local Option.

The Good Citizens organization is active in securing names of legal voters of this village to be petitioned presented to L. H. Bennett, village clerk, sometime before the election of the Village of Barrington at the annual election to be held Tuesday, April 21st. The proposition "Shall this village become anti-saloon territory?" Frank H. Plagier has charge of the petition in Lake county.

If the petition filed contains the names of twenty-five per cent of the legal voters at the preceding election the clerk is required to cause said proposition to be plainly printed upon all the ballots to be used at the election of officers in this village below the list of candidates named thereon. The vote must be taken prior to the election, excepting on the Saturday after the day of the election at which vote is cast.

Section 10 provides that the proposition cannot be again submitted to the voters for a period of eighteen months, which practically means two years, as the next election would be two years from the date of the vote on the proposition.

Overturned in Snowbank.

Saturday evening at six o'clock, while on the way to farm two miles east of Lake Zurich on a professional call, Dr. Arthur Welchelt's team of horses ran away, overturning his sleigh just north of the first bridge out of town on the Lake Zurich road and throwing the doctor into a snow bank.

He was obliged to walk to the Anderson farm near Anderson's corner through the drifts and snow. He secured horses and drivers there and continued to Lake Zurich, reaching home about midnight. His horses ran a long distance and were caught at Tekampe's on the John Robertson farm near the Fomoy school. Neither the doctor nor horses were hurt by the accident.

Milk Statistics.

The University of Illinois Press Bulletin of January 29th, states:

"Almost 20 per cent of the milk consumed in Illinois is below the legal standard of 16 per cent, and nearly two-thirds of the milk contains a visible amount of sediment. When one considers that this sediment is made up largely of cow manure knocked from the udders into the buckets in the process of milking, this statement is not dairy food for thought. The figures are the result of a careful investigation of 900 samples of the milk supply of Chicago and twenty-six other towns, made by John M. Trueman.

Of 150 samples of milk collected in one district in Chicago, where the poorest working people live, 52 samples were below the standard for butter fat. Of 90 samples collected in one of the richer districts of Chicago, only nine percent were below the legal standard for butter fat.

The conditions in the towns outside of Chicago are found to be even worse than in the city.

Of 325 samples of milk collected in 26 Illinois cities over 10,000 population, over 19 per cent were found below the legal standard of butter fat. Of 70 samples of milk collected in hotels and restaurants in 25 Illinois towns, 44 or over 62 percent were below grade in butter fat.

The investigation shows conditions are in a general state of darkness. In this day when splitting on the sidewalks is forbidden, when some of best grocery firms examine their clerks every morning to see whether or not their clothes are clean, when thousands of dollars are spent to make drygoods stores light and sanitary, we permit men to handle in dirty, filthy and foul smelling stable the milk which we and our children are to drink.

We permit men with colds and coughs to expectorate on the feed the cows are to eat and on every part of the floor where the milk is handled. Men in dirty clothes that have done service for months without washing, sit down on chairs whose thighs and underparts are covered with dirt, and proceed to milk into a gall quartone inches in diameter.

The writer has repeatedly observed these conditions the past two years, and they were found in three out of five herds visited one day within two weeks of the time of this writing."

Surprises Stormed In.

A party of Barrington young people went to Waukegan Sunday evening to a card party at the home of Mr. and Mrs. Harry Graham, which had been arranged as a surprise for Mrs. Graham by her sister, Miss Fern Hutchinson. They left here at half past six in the evening. The ride was made in a bobsleigh and despite the cold was much fun, and the party later, also.

But during the evening the storm became so severe that they were unable to return home and were obliged to remain at the Graham home, playing games and trying to sleep again, until seven o'clock in the morning when a start home in the rain was made, the roads so bad in places that passageways had to be dug through snowdrifts. The party reached here wet and cold, at ten o'clock Wednesday morning.

Those who took prizes were Miss Kirk of Waukegan and Mrs. Graham, ladies' first and second; and Jack Howard, gentleman's first, Walter Lageschulte, second, Robert Bonnett, consolation. Others from here who attended were Misses Georgia Topping, Alta Powers, Genevieve Fletcher, Iva Robertson, and George Meier.

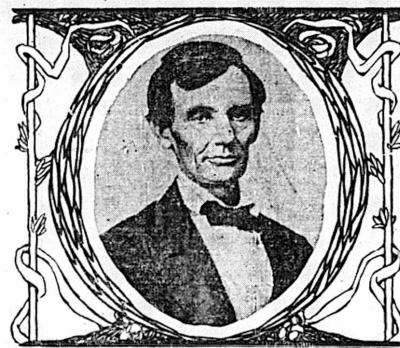

Heydecker for State's Attorney.

Wednesday evening at six o'clock, while on the way to farm two miles east of Lake Zurich on a professional call, Dr. Arthur Welchelt's team of horses ran away, overturning his sleigh just north of the first bridge out of town on the Lake Zurich road and throwing the doctor into a snow bank.

I hereby announce myself a candidate for the Republican nomination for the office of state's attorney of Lake county.

E. J. HEYDECKER.

R UDE toil his thaws had cast.
Keen grief and biting Slast
His sure soul knit to serve our keener need.
It seemed the skien grew wide to give him room.
The sound, deep rooted peasant soul in whom
The sap of all old liberties was freed.
EARTH bore him, and his will
Was toward the earthborn still.
But his no need to mind the rabbble shout;
It is for kings to spew and ape the part.
A poised and constant needle was his heart.
And toward our proper star he put the prou abut.
S O did, and martyred passed.
And in his dying cast
A hyacinthine radiance on our skies.
The warning and the warrant that the sun.
Once his appointed arc in heaven is done,

PALATINE

Emeline Keubler spent Sunday at home.

Don't forget the M. W. A. masquerade dance February 14th.

Mr. Nolte's four year old son died of pneumonia Thursday morning.

J. A. Buntingame and wife returned Saturday after spending a month in Florida.

Mrs. Elmer Arps was at home Sunday. She will teach another month in Racine, Wisconsin.

Henry Quindell had the misfortune to fall on his ice cement walks Wednesday, breaking a rib.

Miss Marguerite Yodig left Thursday for Florida with a party of Rockford friends for an indefinite period.

The younger crowd gave a dance at the M. W. A. hall, Thursday. Mr. DeVoe furnished music and all had a fine time.

A law suit between Fred Vogt and A. Gaertner was decided in favor of the former Saturday and Mr. Gaertner will have to pay \$52 and costs for pigs his dog supposedly killed.

Mrs. Helen Wilson of this place is now with a theatrical company that is giving plays at all towns that have opera houses within a radius of 100 miles of Chicago.

William Kuhfahl, A. Ost, L. C. Kramer and Herman Bickniss, suffered the loss of from six to eleven pieces of skin that the wound of Harry Kuebler might be healed. Dr. Stark did the skin grafting.

The village board met Monday morning and transacted routine business. An ordinance will be passed prohibiting the planting of corn within twenty-five feet of the sidewalk. A bill of \$400 for extras at the pumping station was presented.

Jap a Lac in any quantity you desire a Lamey and 60¢.

A little ad in our column of business notices will rent or sell your property.

Fitzmorris-Bierman.

John Fitzmorris and Miss Lily Bierman, both of Chicago, were united in marriage at Crown Point, Indiana, Monday evening. Miss Bierman, who has been visiting at Edward Theis' in Barrington, is a sister of Mrs. John Theis of Plum Grove. She is well known among our young people as a lively young lady who will add much to the viracity of Barrington's young people. Mr. Fitzmorris is still better known here, as in 1902 when the American Malable plan was in operation at Chicago Highlands he was one of the best mowers there and was familiarly known as "Black" to the young men.

Edward Theis, the bridegroom, with Miss Sadie Blocks, as bridegroom and Charles Theis as master of ceremonies, went to Crown Point and the ceremony was performed Monday noon. They returned that evening to Barrington and were met by Miss Anna Dix and Ernest Lines who escorted them to the home of Mr. and Mrs. E. Blocks where a wedding supper awaited them. Later other friends called to congratulate the newly wedded couple.

Tuesday noon Mr. and Mrs. Edward Theis gave a wedding dinner for them.

Mr. and Mrs. Fitzmorris intend to make Barrington their home until next fall.

CONTRIBUTED.

Real Estate Sale.

I will sell at public auction on Monday, February 17th, 1908, at 10 o'clock a. m. on the premises in the Village of Barrington the following described premises:

Lots Two, Three and Four, and Lot Six, except the East Seven feet and the South Sixty feet of the West Fifty-nine feet of Lot Six, except the South Sixty feet thereof, all in the "P" in the Village of Barrington, Lake County, Illinois. The premises are located between Liberty and Washington Streets and Ela and North Hawley Streets, and are improved by a one-story frame cottage of Lot Six and by a frame dwelling house on Lots Six and Seven.

The title is good and a merchantable copy of abstract goes to the purchaser. The premises will be sold in single lots or in groups as the purchasers may desire.

RALPH L. PECK, Owner.

William Peters, Auctioneer.

Pass Engineers' Examination.

Last Thursday and Friday Franklin Wooling and Thomas Neuvel were in Chicago taking Chicago and Northwestern railway engineers' examination at the main offices. Both were unusually successful in their results. Mr. Wooling passing 100 points in the two examinations taken, and is now what is termed a "one-winged" engineer, or one who is qualified to substitute for absent regular engineer. The "trainee" examinations were also passed and in April other tests will be taken to qualify for a complete diploma.

A Pleasant Surprise.

A surprise party was held at the home of Mr. and Mrs. C. P. Hawley on Wednesday, February 5th, in honor of the 50th birthday of Mrs. E. A. Waterman, mother of Mrs. Hawley and Dr. C. H. Richardson.

The guests were Dr. and Mrs. Richardson; two sisters, Mrs. Jordan, two grandchildren, Verne Hawley and Verdiele Richardson; Nedmes Prouty, Williamson and Hollister.

Numerous presents were received and a sumptuous repast served. The table was decorated with carnations and ferns. All present enjoyed the day.

Enjoy a Cinch Party.

Mrs. Mary Jukes and Miss H. Jukes gave a very pleasant social evening last Saturday for the Royal Neighbors Lodge, their gentlemen and invited friends. The severe weather made the attendance of lodge members from the farms small in number, but the two men who braved the storm had a very good time with cards and dominoes for entertainment. In the cinch game first prizes were given to Mrs. George Comstock and Jack Howard; seconds, two sisters, Mrs. C. Kehl and George Comstock. A finely prepared supper was served.

Help the Carriers.

Patrons of the rural free delivery must keep the snow away from their mail boxes if they expect carriers to serve same. Also, buy stamps of carriers and not leave in the boxes loose money that the carriers may feel free with for themselves. Remember when a carrier leaves the post office he travels 27 miles before he returns and help him all you can.

TO BUILD MODEL ROAD

"Object Lesson" Highway Traversing Several Counties

Planned.

A campaign designed to interest farmers in the good roads and great bridges movement has been started by the state highway commission, says the Chicago Tribune.

"Send Better, not More," is the slogan on which the commission bases its appeal to the agricultural taxpayers. Farmers' institutes throughout Illinois have been invited to meet with the commission, which has offered to send speakers to their meetings to explain in detail the plans for the campaign. In each county there is a farmers' institute, and 100 of the 102 institutes in the state have indicated their acceptance of the commission's offers for co-operation. Circulars containing printed suggestions of topics to be discussed by the speakers and the audiences at the institute gatherings are to be sent to the farmers in the state. Many of these suggestions deal with the details of scientific road and bridge building.

One of the special projects of the commission is to construct in the near future a so-called "object lesson" road, traversing several counties in the state.

Earth road drives will be utilized to construct this road. These drives are made of logs. Roads made with these drives are laid and finished with amazing speed. They are good at least three months in every year. Roads of this type are popular with the vogue of the farmers. The number of miles of road made with these log drives is now upward of 15,000.

Designing of road bridges will be made a special feature of the commission's work. The farmers will be told and shown how to build simple and inexpensive road bridges.

The corps of lecturers selected to speak to the farmers in institutes includes the following: A. N. Johnson, chief engineer of the state highway commission; Clifford Olden, C. F. Terhune, T. H. McDonald, W. S. Gearhart, H. E. Bliger.

The Illinois highway commission has invited the following: F. J. James of the University of Illinois; A. J. Fink of Bloomington; and C. E. Gearhart, A. N. Johnson.

Coming Auctions.

1908-SKINNED AUCTION.

L. A. Porter has rented his farm, situated 3 miles northwest of Barrington and one mile south of Langenheim, and on Tuesday, February 11th, will sell at public auction at ten A. M. nine head of cattle; all his farm machinery and supplies and household goods. See auction bill for description. Good lunch at noon.

Wm. Liddle will sell 25 head of cattle, 4 horses, and all of his farming tools, on the old Wilmeth farm 4 miles n. w. of Barrington, 3½ miles east of Cary and ½ a mile n. e. of C. A. Station on Wednesday, February 12th, commencing at 10:00 o'clock a. m. The cattle are nearly all Holstein. Two Holstein heifers coming three years old will also be offered for sale.

Having sold our farm, known as the old Kempton farm, two miles north of Barrington, we will sell at auction on the premises, Thursday, February 13th commencing at ten o'clock, live stock, poultry and tools. EDMUND & JOHN.

Wm. Peters will be the auctioneer at these sales.

Teachers' Association Meets.

The fifth regular meeting for this school year of the Cook County Teachers' Association will be held in the Association Auditorium, corner of La Salle Street and Arcade Court, Saturday, February 8, 1908, at 10:30 a. m. This is the ninth month when thoughts of patriotic should be indulged with special care.

We are pleased to announce that an address will be given by Eugene W. Chapin. Subject: "Lincoln—The Man of Sorrows." Vocal soloist, Laura Johnston Soules.

All the teachers are not only requested but urged to be present. Please invite the pupils of the higher grades. Read this notice to them. We would like to see the gallery filled with tee boys and girls.

BARRINGTON REVIEW

Are the Railroads Juggling?
Official railway statistics show that at the end of January about 14 percent of the total number of freight cars in the country were idle in this country while. Yet last September the claim was put forward that there was an embarrassing congestion of freight. Not very long ago J. J. Hill said it would require the expenditure of a billion dollars a year for five years at least to enable the railroads to catch up with the traffic of the country in respect to carrying the facilities, freight car shortage being a chief factor in the delinquency.

It really looks as though the talk about freight shortage is nothing but a ploy to keep the public in suspense or that there is a "colossal pantomime" hidden in the pile of idle freight cars, 32,000 reported for one week's "lay-off." When the alarming freight congestion was dwelt upon by Mr. Hill and others the country was scolded for not putting its money into railroad stocks and bonds, so that the facilities of transportation might be increased. Mr. Hill even intimated that the federal government might have to come to the aid of the roads in order to prevent a paralysis of traffic. Now, it will be remembered that just when the attorney general was holding up the hands of the railroads in the face of the pressing needs of the country and of the demands of the public, the federal investigations were drawing closer to the roots of the business every day. Somehow a financial panic happened along just in time to clinch the arguments of the jugglers—if juggling there was—and it is significant that the report of a large number of idle freight cars came simultaneously with the announcement that the operating expenses of the roads would have to be reduced, and the usual expedient of reducing rates was resorted to for the present wants of the consumption of industries throughout the country, this widely heralded plight of the railroads might be accepted as a natural condition of things and one to call for patriotic sympathy and toleration. Perhaps the freight car shortage was exaggerated and this about the sudden slump in traffic is somewhat overworked. Somehow the facts as alleged do not agree with the everyday experiences of the watchful public.

The Teacher Family.

From all over the land there is a popular demand for good women teachers in the public schools. And yet the schools maintained for the making of teachers are crowded with young women who, to use their own favorite expression, are "just dying" to be set at work "teaching the young idea how to shoot." Complaint is made that there are recruits enough all the time, but no veterans. The ranks of those "just dying" to get on the job are fully equal by the number also "just dying" to get another job. Marriage is sometimes set down as the all efficient cause for the vacant teachers' desks of the land. Perhaps it is.

It is a well known fact that teachers are not paid enough and that their tenure of office is too uncertain for teachers of the right sort to feel that they can do justice to themselves by settling into the inevitable school rut. Teaching saps the vitality, and promotion is slow. Perhaps scores and hundreds who quit early would stay on the job if the authorities could give them back the five or ten years of youth they have put into their work. They do not want to wear themselves out and burst aside, and they take the first opportunity to land on more solid ground. In the same manner certain schoolteachers hold a government appointment, which gives them at once security in their jobs and a certain official dignity in society. As a rule an honorable position with a fair living attached never goes begging. With our enormous and costly machinery for education, there should be some way to keep up a steady and satisfactory supply of workers in the schools.

The extraordinary number of recruits now offering themselves for enlistment in the regular army seem to demand a demand that is greater regarding the effect that a demand for labor in civil lines had in depleting the force. With the lessened call for labor elsewhere, the army swells instantly. This change, due to altered economic conditions, first manifested itself in the marine corps, then in the navy and finally in the army, thus showing the relative attractiveness of the three branches to the man looking for a job.

"Never believe anything bad about anybody until you know it to be true," says Dr. Henry van Dyke. If more fine editors were to adopt that principle the muck rakers would have a hard time disposing of their literary product.

NEWS OF WAUCONDA

Personal Paragraphs Submitted
By Our Very Able Correspondents.

George Bates and Homer Cook were Waucougan visitors Friday.

Miss Leila Glynn was unable to teach Monday owing to a cold but went Tuesday to school.

Andrew Sowers has been laid up this week owing to a cold, but will be in school again next week.

Rev. S. F. Wolfe had quite a bad attack of tonsilitis last week, but has quite recovered. We missed the morning bell-tolling Father Wolfe's illness.

Mr. and Mrs. Seymour are a little better as we go to press. Homer T. Waller and wife are both much better, the latter being able to be out again. Mrs. E. Green is improving and Mrs. N. Ross is again able to sit up.

Frank McMahon of Chicago who lost an arm about two months ago is out of the hospital and will soon be able to go into business for which he was "preparing when the accident occurred which cost him an arm."

Mrs. Celesta Clark was quite ill at the home of her son after the funeral of Mr. Clark, and her son Charles, who had a few days longer than his intended for that reason, Mrs. M. S. Clark and Lydia also were quite indisposed.

C. P. Pratt came home Sunday from Syracuse, New York, and stayed till Tuesday when he with his father left for Glen Carbon. He will be gone about ten days and will then go back to New York. Pearl has a good job with the Monarch typewriter manufacturing company. Albert Reynolds and Clyde Golding also are Waucougan boys who work for the Monarch company in Syracuse.

The contest for the ten prizes at the big ten pin league ball at Oakdale Hall next Wednesday evening will be passed over by a committee who will in fairness to the contestants. Mr. and Mrs. R. D. Cook were awarded the prizes at the old folks ball and you may rest assured that no matter how far away you live from Waucougan you will be treated fairly if you compete for any of these prizes. All will be treated alike and we look for a very large attendance.

It Does The Business.

Mr. E. E. Chamberlain, of Clinton, Maine, says of Buckton's Arms Salvage: "It does the business; I have used it for piles and it cured them. Used it for chipped hands and it cured them. Applied it to an old sore and it healed it without leaving a scar behind."

Laugh and Grow Fat; No. There is nothing in the maxim "laugh and grow fat" or else the joke-smiths fail to grow mirthful over their own mirth-making.

Great humorists seldom are fat. P. P. Dunne is the heaviest, weighing about 160 pounds. The weight of others living is: Mark Twain, 150 pounds; George Ade, 147; Jerome K. Jerome, 143, and W. W. Jacobs, 132. O. Henry, originally a great humorist, but he is in the 150-pound class—Home Magazine.

\$100 Reward, \$100.

The \$100 reward offered to learn that there is a traitor in the disease that science has been able to cure in a little over a year. Any positive cure now known to the medical fraternity. Captain H. C. Clegg, of the U. S. Public Health Service, has offered a \$100 reward. His "Cancer Cure" is taken internally, and is a dietetic drink that purges the system, thereby destroying the cancerous cells. It is a simple drink, straight by bypassing the stomach, and has no side effects. The product is said to be the result of his faith in its curative powers, they offer no little hope to those who have lost the faith to cure. Send for lit of test cases, Toledo, O. She Was in No Hurry.

Rev. Dr. Wallace, new pastor of the East End Baptist church, brought a new one to Cleveland with him.

According to the story, a Boston girl got on the street car one day carrying one of those muffs the size of an ordinary hamster. She had only one hand in the muff, roofed over, sitting next to her took advantage of the opportunity to slip his hand into the unoccupied end of the muff.

The Boston girl turned upon him severely. "I can't have you arrested for such a smallness," she said. "But," she added, "I'm from Boston and I purpose to keep calm. Now, I'll just give you ten minutes to let go of my hand."—Cleveland Plain Dealer.

A Remedy for Neuralgia or Pain in the Nerves.

For neuralgia and sciatica, Sloan's Liniment has no equal. It has a powerful,orative effect on the nerves—operates without pain—and gives immediate relief from pain—quenches the circulation of the blood and gives a pleasant sensation of comfort and warmth.

"For three years I suffered with neuralgia. In the head and jaws," writes J. C. Hubbard, of Marietta, Ga., "and had almost decided to have three of my teeth pulled, when a friend recommended me to buy a 25 cent bottle of Sloan's Liniment. I did so and experienced relief so rapid and so complete using it until the neuralgia was entirely cured. I will never be without a bottle of Sloan's Liniment in my house again. I use it also for insect bites and sore throat, and I can cheerfully recommend it to any one who suffers from any of the ills I have mentioned."

Rapid Rise.

"Up," said Mrs. Hardapple, as she opened the door. "The man who ran over our old crippled cow with his automobile wants to know how much she was worth."

"Tell him about six dollars," drawled Hiram Hardapple. "Let me see, it was that poor village doctor, wasn't it?"

"No, Hiram; it was a city fellow."

"Was, eh?" Well, by heck, tell him she was a first-class critter and worth every cent of \$50."

"And come to think of it, Hiram, his automobile was almost as long as a steamboat, with glass windows, six lights, and a horn that you could hear five miles away."

"What?" Then write and tell him the cow he killed was a genuine imported prize-winning Holstein and worth \$500, and if he doesn't settle up every cent in cash I'll put the law on him."

PANTRY CLEANED

A Way Some People Have.

A doctor said—
"Before marriage my wife observed in summer and country homes, coming in touch with families of varied means, culture, tastes and discriminating tendencies, that the families using Postum seemed to average better than those using coffee."

Postum was married two years ago. Postum was among our first order of groceries. We also put in some coffee and tea for guests, but after both had stood around the pantry about a year, untouched, they were thrown away, and Postum was.

"Up to the age of 25 I had been accustomed to drink coffee as a routine habit, and suffered constantly from indigestion and all its relative disorders. Since using Postum all the cold complaints have completely left me and I wonder if I ever had them."

PREMIER DO AMARAL FINALLY FORMS NEW CABINET.

Entire Policy of Dictatorship to Be Reversed—Franco's Political Career Ended.

Lisbon.—Lisbon is beginning to recover from the shock and horror of Socialist domination. The entire underground of popular and governmental nervousness remains. The political tension is slackening, although the progressists for a time refused to join in the concentration of the cabinet which Admiral Ferreira do Amaral is forming from all the members of the government because the conservatives are in predominance.

During the course of the day Admiral do Amaral succeeded in bringing the opposing factions to his way of thinking and finally announced that the cabinet had been definitely constituted.

Señor Bernardino Machado, the leader of the peaceful wing of the revolutionaries, agrees to a truce provided his demands for greater personal liberty, freedom of the press, and the restored and the elections ordered. Admiral do Amaral, a devoted friend of the queen, who assumes power, is committed to the reversal of the entire policy of the dictatorship, the abolition of repressive measures and the maintenance of the principles of the archaic.

On Saturday government by decree will be withdrawn, amnesty accorded political offenders not implicated in deeds of violence and the ban on the press raised.

Franco's downfall is complete. He recognized that it was impossible to saddle the youthful king at the outset of his reign with the stern program involving the immediate banishment and deportation of several hundred political offenders, to which he had committed himself if he remained in power.

He told a friend that the assassination of the king ended his political career. He offered his services, however, but these were refused, both Queen Amélie and the dowager queen, Queen Maria, agreeing with the unanimous view of the council that state that the author of the dictatorship must be cast aside.

ICE DEALERS SENT TO JAIL.

Three Prominent Toledo Men Given Six Months.

Toledo, O.—Roland Beard and Compton Lechner of the Toledo Ice Company and Joseph Miller, manager of the Toledo Ice and Coal Company, were Tuesday sentenced to six months in the county jail and to pay costs of prosecution by Judge Kinckade in connection with their trial.

These men were found guilty last July and at that time Judge Kinckade sentenced each of them to six months in the workhouse and to pay \$2,500 fine. The case was appealed and a few days ago the supreme court had thrown down a decision declaring the conviction unconstitutional, but not to the workhouse.

They were remanded to the common pleas court for resentence and while the fine was not assessed the workhouse sentence was commuted.

Both men will be held in half of the defendants. They at once began their term of sentence. All the men are of prominent Toledo families.

CHICAGO.—William Meutsch, a carpenter, 417 Armitage Avenue, was found dead, April 4, in his home. His wife, Jennie, aged four, said that she died Friday, and probably fatally shot. William, Jr., aged two, in the shop where he was born, according to the coroner. The wife, Mrs. Jennie Meutsch, who responded to the call and found the bodies of the dead and dying children in the house, Meutsch calmly told the police he had killed the children. His wife was to be placed in the custody of a woman whom his hand will be hanged. He told Capt. Harding of the Atchison street station Friday that he was a deeply wronged man and that his wife was guilty of offense warranted to secure him a divorce.

Captain of British Steamer Kills Himself After Trouble with Crew.

Mobile, Ala.—Capt. Smith, master of the British steamer Ashfield, clearing the port December 13, for New Orleans, committed suicide by drinking poison in his stateroom following a mutiny of the crew on the high seas.

The first mate took charge of the vessel and landed her at Manistilla on January 2, at which point the crew mutinied and took the names of his son and among his old acquaintances in the east as Dr. William A. Rockefeller.

This is the statement made by the World on the authority of a staff correspondent, who has made a thorough investigation of the matter.

DuBois Has a New Mayor.

DuBois, Pa.—John H. Tamm, a Democrat, was elected mayor of DuBois Tuesday over Emil A. Tamm, a man Democrat and president of the city council, in the bitterest campaign ever conducted in DuBois. The issue was the enforcement of anti-saloon laws, to which Mayor-elect Tamm is pledged. His majority is estimated at 1,000.

THIRTY YEARS OF IT.

A Fearfully Long Siege of Daily Pain and Misery.

Charles Von Soehren of 210 A. St., Colfax, Wash., says: "For at least thirty years I suffered with kidney troubles, and the attacks last up to this day. I have had pain in the back and rheumatism. When I was up and around sharp twinges caught me, and for fifteen years the frequent attacks of pain would not be stopped. My doctor said, 'You are beyond my power to help you.' But Doan's Kidney Pills have given me almost entire freedom from this trouble and I cannot speak too highly in their praise."

His Reason for Building Unneeded Addition to House.

Representative Beldsall of Iowa objects to the high rentals charged in Washington during the congressional session. He says he feels like an Irish farmer he knew in his district. The farmer had bought a place and a house, and he had to pay taxes daily so that assistance to farmers may be gradually dispensed with when no longer needed as the best of remedies, when required, are to assist nature and not to supplant the natural functions, which must depend ultimately upon proper nourishment, proper efforts and right living generally.
