The Sisters Macarrie offer a very expert and interesting wire act. Alfie Norton the alchemist who conducts certain popular scientific experiments on the stage, producing rubies and sapphires is a very distinct novelty, the act being one which adds a new note to the ordinary register of vaudeville. La Symphe is a graceful dancer quite justifying her name by her torpiduous exploits, while Raymond and Caverly, the funny men may be depended upon for an interlude of up-to-date humor. Prella's dogs in a novelty act quite away from the ordinary, from another interesting feature of a bill which also includes many other specialties.

A GOOD PLAY.

"Brewster's Millions" will continue on the road of spontaneous merriment at McVicker's Theatre, with the usual matinees on Wednesday and Saturday. The success which has attended the return of "Brewster's Millions" was a foregone conclusion, for the reason that "Monty" Brewster did his own missionary work last season when the dramatic version of McCutcheon's fantastic story first saw the light of day. "Brewster's Millions" is the result of a unique and original idea. Most people find it a task to accumulate a million dollars in a year—strange as it may seem in these days of endless chain fortunes but "Monty" Brewster has the rather hilarious occupation of spending that amount in twelve months.

FIVE MINUTES

ONE minute to put in your call. ONE minute to wait on the line. THREE minutes, over the telephone toll wires, you go—you talk—you return. Yet you remain ready for business at office or store. Time and money saved. CHICAGO TELEPHONE COMPANY.

Clearing Themselves.

Among the many means adopted for expressing grief upon the death of a relative perhaps as interesting a one as any is that met with in the neighborhood of the Tully river, in Queensland. Here two, three or four of the deceased friends or relatives will squat close together, with hands on each other's shoulders, bewailing for hours at a time the loss of the dear departed. It is not the virtues of the latter that are in any way extolled, however. What these mourners are really taking care to do is to show that they and the deceased were always good friends. Their object, in all this do to prove to the outside public that they have had nothing to do with the accompanying of the death—Wide World Magazine.

DOUBLE TIME.

"Make every minute count" said a successful business man, "and you will succeed." Make YOUR minutes count double. Let your telephone travel for you—while you attend to business in your office or store. Long distance telephone lines. CHICAGO TELEPHONE COMPANY.

The Sawfish.

The sawfish has a formidable weapon of killing in the flat, bony sword, armed on each side with about twenty large bony teeth. The sawfish rushes into a shoal of fish and slashes the right and to the left. In sea fights sometimes whales have been killed by sawfish, and the saw sometimes has been driven through the hull of a ship. The sawfish, common about the West Indies, comes into the Gulf of Mexico and the Florida waters and frequently ascends the Mississippi and other southern rivers, doing great harm to the nets of fishermen. This species sometimes reaches a length of fifteen feet, a fourth of which measures the "saw."

Invisible Colors.

Teacher to class—I will give two-pence to the boy who can name three invisible colors. Tommy Smith—I can, sir. Teacher—Go on, then. Tommy Smith—Down after a snowstorm is an invisible color. Teacher—That's very good. Now the next. Tommy Smith—During the recent burglaries in our neighborhood there was no policeman about. That's an invisible color. Teacher—It's very wrong to say that. You shall have only a penny now. Tommy Smith (stuttering)—Well, stuff the penny in your pocket, and that will be an invisible brown.—Pearson's.
