BARRINGTON, ILLINOIS, THURSDAY, NOVEMBER 5, 1908

\$1.50 A YEAR IN ADVANCE

## TAFT IS ELECTED NEXT PRESIDENT

### Has Large Majority Over Bryan. Congress Republican By Larger Majority Than Last Term.

## DENEEN 100,000 BEHIND TICKET, BUT DEFEATS STEVENSON

### Taft Carries 30 States; Bryan Carries 16. The Results of the Election at a Glance.

Chicago, Nov. 5.—Although the election is over and the success of Taft assured, the exact number of his electoral vote is still a matter of some doubt. The latest returns to this writer give him, assuming Missouri's vote for Bryan and leaving out Maryland, 291 votes. If Missouri's vote in the electoral college has, however, dropped uncertainty, and probability of it going to Taft, after all. West Virginia has been placed in the Republican electoral column, with the state ticket in doubt, and Maryland is undoubtedly Taft's by a plurality of less than 200. This means that only the official vote will decide where Maryland stands. Taft has carried Montana, also, while Nebraska is given to Bryan by 5,000 plurality, perhaps more. Colorado has gone Democratic, including probably the legislature, which will retire Tuesday.

**Quite an Overturn in Indiana.**  
Indiana has provided the overturn in the middle west, and though Taft by about 8,000 plurality is Democratic on all other counts, Indiana is undoubtedly elected eleven of the Democratic candidates for representatives in congress out of thirteen. The Democrats have probably also carried the legislature and have undoubtedly elected their candidate for governor, Marshall, by about 15,000 plurality. Among the representatives in congress who are elected are Overstreet and Landis. If a Democratic legislature is elected, John W. Kern is likely to be the successor of Hemenway in the United States senate.

**As to the Other States.**  
As to the other states there is no change in the general results. Of it is only a matter of exact pluralities. All the so-called northern states—including eastern, western and northwestern—except those noted above, have gone Republican and all the southern states, with the same exceptions, Democratic.

**Showing the Electoral Vote.**

Hallowe'en passed very quietly in this village last week, being observed only by a few jack-o'-lantern parties. Two extra night watchmen were added to the force but they were apparently not needed. The boys did little or no damage, which would seem to show that the morals of young America are advancing.

Chicago, Nov. 5.—Charles S. Deneen is being congratulated upon his second victory for the governorship of Illinois. Although killed and sacrificed by rival banners, the Republican gubernatorial candidate carried the state by a plurality approximating 70,000. Taft carried the state by 175,000 plurality.

Illinois carried the proposition to issue \$200,000,000 deep waterway bonds and to amend the banking laws. The failure of the Lorimer and Yates' forces to deliver the vote against Deneen beat Stevenson. Deneen was elected in Chicago by about 10,000, but made up largely for that in the country towns. It is estimated that Stevenson's plurality in Cook county will be less than 10,000.

**Six Democrats for Congress.**  
The state will return sixteen Republican members of congress, according to present returns, the Democrats winning in six districts.

The legislature again is Republican. With twenty hold-over Republican senators the majority party will have forty-one members in the upper branch to ten Democrats. The Republicans having elected twenty senators to five Democrats. Two districts are still in doubt, of these it is probable that one will elect a Republican and one a Democrat.

Two districts are in doubt as to the election for the house of representatives, but estimating those returns show the election of 38 Republicans, 32 Democrats, and 2 Probationists.

**Inures Hopkins for Senator.**  
This will give the Republicans on joint ballot for the election of United States senators, 129 votes to 73 for the Democrats, 2 for the Probationists—a majority of 54. All Senator A. J. Hopkins has to do to succeed himself in the United States senate is to acquire the votes of his own party in the legislature.

One important change which the returns from the legislative districts indicate is the election of State Senator Cyril S. Berry in the Thirty-Second district. He seems to have been defeated by James E. Gibson, Democratic candidate, by more than 4,000 votes. Mr. Berry's is Carleburg.

**Wayman Defeat Kern in Chicago.**  
John H. Wayman, the Republican candidate for state's attorney, defeated Jacob J. Kern, the Democratic candidate, by more than 4,000 votes.

The election of Wayman crowned the sweeping victory won by the Republican candidates for county offices all along the line. The candidate of William Street, the Probationist to whom the reformers and the disgruntled Republicans attempted to swing the election, fared out in a dismal failure. He polled in the neighborhood of 35,000 votes, but they made only a drop in the bucket.

**Vermillion County.** The house of Speaker Cannon has gone (100) to 7000 Republican, with Speaker Cannon running slightly ahead of the ticket and Peterson running behind the head of the ticket.

The result was something of a surprise even to the friends of Mr. Cannon. The fight made against him by various church organizations, the Anti-Railroad league, and organized labor, coupled with the fact that the Democrats had for the first time since 1892 a complete organization in this district, led the Republicans to believe that Mr. Cannon's plurality would not be over 1,000.

**RESULTS AS TO CONGRESS**

**Republicans Have 209 in the House and Democratic 111.**  
Chicago, Nov. 5.—Three hundred and eighty congressional districts have

been heard from and the political complexion of the 567-seat congress according to present information, and with eleven districts yet to hear from will be: Republicans, 209; Democrats, 111. It is possible that the result in several doubtful districts may alter these figures within the next few days. One hundred and ninety votes will control the house. The house of representatives in the sixteenth congress consists of 161 Democrats, 221 Republicans, and there are two vacancies.

In New York the Democrats have 11, Republicans 22. Pennsylvania Dem. 5; Rep. 27; Tennessee Dem. 8; Rep. 2; Virginia Dem. 9; Rep. 1; Wisconsin Dem. 1; Rep. 9; Indiana Dem. 11; Rep. 2; Iowa Dem. 1; Rep. 10; Kentucky Dem. 8; Rep. 3; Maryland Dem. 3; Rep. 3; Massachusetts Dem. 5; Rep. 11; Minnesota Dem. 1; Rep. 8; Missouri Dem. 11; Rep. 2; Nebraska Dem. 9; Rep. 1; Illinois Dem. 9; Rep. 19.

Washington, Nov. 5.—The present indications are that the Republicans will have about a two-thirds majority in the United States senate, as the result of the election of 95 members of the senate, of the 92 members of that body still held over, leaving only 31 places in all. Of these 18 are Republicans and 13 Democrats. Alabama, Arkansas, Louisiana and Maryland already have chosen Democrats and Kentucky and Vermont Republicans. The other states having to elect senators and the political complexion are: Iowa, Washington, Connecticut, New Hampshire, North Dakota, Idaho, Illinois, Missouri and Nevada. All the offices are for southern states that will elect Democrats.

**WHERE THE VOTE IS CLOSE**

**Maryland and Missouri Hardly Known Where They Stand Yet.**

Baltimore, Nov. 5.—The political pendulum has swung some more, and on the face of unofficial returns Taft has carried Maryland by 124 votes, the vote being: Taft, 111,222; Bryan, 111,117. Neither side is content with these figures, which it must be said, are not so satisfactory as they might be, and are, unquestionably, the official count, which began today, must be looked to for the actual result, and neither side will feel convinced until the result of that count is made known. There must be taken into consideration, too, the possibility of a divided electoral delegation. Taft carried Baltimore by 1,800.

St. Louis, Nov. 5.—The electoral vote of Missouri is in doubt, late returns from the city of St. Louis and from rural districts showing the strong lead of Bryan so that it is impossible to say definitely who has carried the state. The complexion of the next legislature is also in doubt, though the indications are that the Democrats will control. The Republicans have already elected Herbert S. Hadley for governor by almost seven plurality, and the probabilities are that he has carried the entire state ticket with him.

St. Louis, Mo., Nov. 5.—The results practically complete from St. Louis in Missouri and the city of St. Louis give Taft 274,000; Bryan, 274,000; a lead for Taft of 1,600. The state vote for governor by Hadley for governor, 282,000; Connelley, 270,241; a plurality for Hadley of 11,759. Returns from seven other counties, which are not being related threaten to overcome the Taft lead and to reduce Hadley's plurality to 10,000.

Returns compiled at 1:30 this morning from every county in the state give Bryan a lead over Taft in Missouri of 67 votes. It will need the official count to decide the election probably. Denver, Colo., Nov. 5.—Estimated pluralities by counties based upon in-

JAMES S. SHERMAN Vice President of the United States

CHARLES S. DENEEN.

complete returns show Taft carrying the entire Democratic ticket, headed by John F. Shufroth for governor, carried Colorado by about 2,000. The Democrats probably will control the legislature.

Omaha, Nov. 5.—While the returns are not complete from this state it is safe to say Bryan carries it by less than 1,000.

**RADICAL CHANGE IN INDIANA**

Nearly Complete Reversal of the Political Situation There.

Indianapolis, Nov. 5.—Complete returns on the legislative show that the Democrats will have a majority of eight on joint ballot.

Indianapolis, Nov. 5.—A radical change in the political situation in Indiana has been effected by the election of James E. Wilson for governor, 111,222; Bryan, 111,117. The results are a complete reversal of the political situation in Indiana, which was the only state in the union where the Democrats carried the governorship in 1904.

Thomas R. Marshall and the entire Democratic state ticket are probably elected by a plurality around 12,000. The state legislature is probably Democratic, which means that a success to Senator Hemenway will be almost certain. In this connection the name of John W. Kern is mentioned. Republican State Chairman Goodrich admitted that the Republicans lack two votes of having a majority of the members on joint ballot in the legislature. They had been able to count seventy-four members of the senate and the house, and were wondering where they were going to get the two additional votes necessary to give them control.

Denver shows that the Democrats will have twenty-one members of the senate, including their hold-overs. The Republicans will have twenty-nine members, including their hold-overs. The Republicans will have forty-four members of the house and the Democrats thirty-five, providing they get the doubtful districts. This will mean that the Republicans will control the senate and the Democrats will run the house end of the legislature.

**Heppner Defeated for Congress.**  
Shenandoah, Ia., Nov. 5.—Complete returns from the eleven counties in

governorship, according to returns from forty-nine counties, including Ames City and St. Louis. Practically by the same precincts gave Stone a lead of 9,200 over Folk for the Democratic nomination for United States senator.

**CUMMINS WINS IN IOWA**

**Governor Is Elected United States Senator—Heppner Defeated.**

Des Moines, Ia., Nov. 5.—The entire Republican state ticket is elected by pluralities ranging from 30,000 to 90,000. Taft's plurality in the state will be 57,000. Governor Cummins, for United States senator, has won by an overwhelming majority. Returns from nearly every county in the state show his election over Lacey by at least 25,000. The complexion of the next legislature will be progressive Republican.

Congressman Heppner admits that he has been defeated by W. D. Jamieson. Congressman Heppner had been a member of the lower house of congress for sixteen years. He declined to make a statement as to what he attributed his defeat.

Two ballots were thrown out because they were not made out in the proper fashion. The election officers were: judges, Miss Viola Lines, Miss Lillie Volker and Fred Grimm; clerks, Miss Gertrude Hagenshield, Miss Almida Plager and Lyle Alverson; constables—Lorell Bennett, Miss Alast Shaefer and Miss Edna Hollister.

Many visitors were present among whom were several prominent citizens and members of the school board. A. W. Meyer, a firm supporter of the prohibition movement, being unable to attend the rally, sent a letter to the meeting, praising the enthusiasm of the party. Aeroplane of the Wright pattern are to be on the market soon at about \$4,000 each. Take a few home to amuse the children.

Now that it has been discovered that sweet potatoes make an excellent brain food some philanthropist should work to have the price reduced.

A whirling buoy adrift is scarier mariners on the wide Atlantic. But if it only refrains from hitting "Widow," et al., all may yet be well.

Emperor Franz Joseph still enjoys his favorite pastime of hunting and, in spite of his 75 years climbed 5,000 feet the other day and shot four fawns.

Andrew Carnegie has now established a hero fund of \$1,250,000 for Scotland, with intention to baptize music barred as a reason for getting in the money.

The navy wants an alibi which will float as well as fly. Naval experts understand that it is entirely possible to be in the air and in deep water at one and the same time.

King Edward, though a gracious sovereign, is a busy man and probably never will find time to make a lord out of our distinguished ex-countryman, William Waldorf Astor.

The Wright brothers between them have established the fact that flight like a bird is possible, but also that it is very difficult. It requires no merely good flying machine, but a good operator. However, says the Brooklyn Eagle, once a man learns how to fly with freedom, he will have thousands of rivals. The human part of the problem is easy, and on its mechanical side it is approaching solution.

Two-thirds of the habitual inmates under some form of public care in Great Britain are mentally defective, according to the recent report of the royal commission on the care and control of the feeble-minded. This conclusion conforms to that drawn by many thoughtful persons in America. The man who permits himself to become incapacitated through the gratification of any appetite is deficient, either mentally or morally.

With passage paid for and trunks aboard, a family of nine stayed on the wharf in New York when the ship sailed away for France, because the wife and mother had a premonition that the ship was going down. The ship did not go down; but if it had how eagerly that foolish premonition would have been set upon by the superstitious to find cause and effect in what is merely coincidence? Fortunately, most of the things that our vague apprehensions foresee are not there when we come to them.

## MRS. ASTOR IS DEAD

AMERICAN SOCIETY LEADER PASSES AWAY.

LONG A SOCIAL LIGHT

New York Woman Who Was Known as First Among Country's Aristocrats Taken by Death—Heart Trouble Cause.

New York.—Mrs. William Astor, who for 30 years had been regarded as the social leader of New York, died Friday night of heart disease at her home on Fifth avenue.

For nearly four weeks Mrs. Astor, who was 82 years old, had been in a critical condition owing to the return of a heart affection that had given her trouble for years.

There is not a name in the social register that is so well known from one end of the land to the other as that of Mrs. Astor. Despite her advancing years, Mrs. Astor continued to hold her social domination up to a year ago, when failing health compelled her to retire into comparative seclusion.

In Ill Health a Year.

It was in the summer of 1907 that Mrs. Astor's friends learned of her ill health. While she was abroad last year, her son, Col. John Jacob Astor, made the announcement that Beechwood, the summer home of Mrs. Astor at Newport, would not be opened and this led to the discovery that Mrs. Astor was in poor health. Words came later from Mrs. Astor, while she was in Paris, saying that she would open her Newport villa and that she would make the season there one of the gayest in years.

This promise was not fulfilled, however, for when Mrs. Astor returned from abroad she broke down in Boston and had to return to New York.

She had remained at her home ever since. Mrs. Astor's health was in poor health.

The society functions given and presided over by Mrs. Astor have gone down into history as the most brilliant on record. It is said that the ballroom in the mansion on Fifth avenue would accommodate 1,000 people.

## DUTCH MAY MOVE ON CASTRO

TIME SET BY THE ULTIMATUM ALREADY HAS EXPIRED.

Venezuela Doesn't Yield—Blockade of Its Ports by Warships of The Netherlands Is Expected.

Willamstad.—The Netherlands government fixed November 1 as the limit of time for Venezuela to revoke the decree of President Castro, issued May 15, prohibiting the transshipment of goods for Venezuelan ports at Curacao.

President Castro has refused to revoke this decree, but as yet, so far as is known, here the Netherlands government has not decided upon definite action.

There has been much activity here, but in an interview Monday the governor of Curacao said that Holland ought to have announced that Venezuela had not revoked the decree at the last hour of the day fixed according to the ultimatum before taking any active measures. He believed that his government had made ample preparations for any eventualities.

The opinion is held among naval officers here that no direct steps will be taken within a week.

There is no question that Venezuela believe the Netherlands government is preparing to blockade their ports. Advice received by the steamship Zulia from Maracaibo state that it was reported on October 24 that President Castro had ordered the mobilization of 50,000 troops to be ready November 2. Two days later there were rumors in Maracaibo that Gen. Nicholas Rolando, who previously had been charged with leading a revolutionary movement in Venezuela, was crossing the frontier with 20,000 men from Cuzco, Colombia.

No further account of this movement could be learned because mail and telegraphic communications with Cuzco were suspended the following day. Large shipments of powder and shells have been received at Fort San Carlos on Maracaibo lake, and there is much activity around the frontier.

At Willamstad a wireless system has been established so that uninterrupted service can be secured. The last target practice and Dutch warships showed 75 per cent. of hits, while the vessels were making a speed of 12 knots.

ROOSEVELT TO SAIL MARCH 13.

Will go to Naples and Thence to Bombay, East Africa.

New York.—The Times says: "From an excellent authority the Times has learned that President Roosevelt plans to leave New York on March 13, nine days after the inauguration, by the North German Lloyd liner Kaiser Alfred, for Naples, via Gibraltar, where the liner is due on March 25. Besides his son, Kermit, who will take photographs of the big game in Africa, he will be accompanied by professor from the Smithsonian Institute, and an official from the navy department. From Naples the president and his party will travel on one of the German East African steamers to Mombasa, via the Suez canal and Aden, a sea journey of 17 days, including stops."

Towns Left Dark and Cold.

Leavenworth, Kan.—The main line of the Kansas National Gas Company, which supplies gas to consumers between the gas fields at Independence and the cities of Atchison, Kan., and St. Joseph, Mo., and which furnishes all the gas used in the two latter towns, burst three miles north of Leavenworth Sunday. The accident left the towns of Lawrence, Atchison and St. Joseph completely without gas light and heat Sunday night.

## ADMIT SHOCKING CRIME.

John Kurka and Mrs. Schultz Confess in Michigan.

Detroit, Mich.—After confessing their guilt to the police Monday, John Kurka, a teamster, and Mrs. Anna Schultz, were arraigned before Justice of the Peace Gerhard in Hamtramck township and pleaded guilty to the charge of murdering Mrs. Schultz's husband, who was a half brother of Kurka.

The latter said that the crime was attributable to an illicit affection between himself and his half-brother's wife. Kurka had been living in the home of the Schultz couple.

Annie, I've told them all about it," said Kurka, when the woman was brought before the police after Kurka's confession, and the woman dropped, sobbing and hysterical, into a chair. The police officials sat silent for ten minutes until she controlled herself, and then listened to her story.

According to the two confessions, the wife of Kurka was murdered in his bed about 2:30 a. m. the wife in another room being able to hear the fatal blow of the ax each time it fell. She then was called into the room and lifted the feet of the dead man as Kurka lifted the shoulders while they carried the body to the green dump wagon in which Kurka took it from the extreme northeastern limits of the city, down through Detroit's business section, across the city, to the secluded lane in the western suburbs, where it was later found hidden under a pile of straw.

BIG PARADE OF CATHOLICS.

Forty Thousand Men of Boston Diocese in Procession.

Boston.—What was probably the greatest procession of a religious character in the history of New England brought to a close Sunday the centenary celebration of the founding of the Roman Catholic diocese of Boston, which was begun on Wednesday last. It is estimated that fully 40,000 men representing the Holy Name societies of the Roman Catholic churches in the five counties which constitute the diocese, with over 150 priests, participated, marching to the music of 109 bands. Thousands of spectators lined every point of vantage along the line of march.

Passing before the archiepiscopal residence on Bay Street road, the parade was reviewed by Cardinal Gibbons and Archbishop William H. O'Connell, together with a number of visiting prelates.

AUTO ACCOMPANIES A BALLOON.

Thus Aeronauts May Return to Starting Point Easily.

Indianapolis, Ind.—Something new in aeronautics was attempted here Friday afternoon when a monster balloon with a capacity of 110,000 cubic feet of gas shot into the air with an automobile in the place where a basket is usually suspended. The ascension was made in the north part of the city, the balloon carrying two occupants—Carl G. Fisher of Indianapolis and G. L. Baumbach of Springfield, Ill. The idea of the aeronauts was to use an automobile instead of the usual basket so as to be able to immediately roll up the balloon, load it in the automobile and return to the place of starting or other destination.

## NEW DISTRICTS AND NEW RAILWAYS

WESTERN CANADA AFFORDS BETTER CONDITIONS THAN EVER FOR SETTLEMENT.

To the Editor.—Sir:—Doubtless many of your readers will be pleased to have some word from the grain fields of Western Canada, where such a large number of Americans have made their home during the past few years. It is pleasing to be able to report that generally the wheat yield has been good; it will average about 20 bushels to the acre. There will be many cases where the yield will go 35 bushels to the acre, and others where 50 bushels to the acre has been recorded. The oat and barley crop has been splendid. The price of all grains will bring to the farmer a magnificent return for their labors.

An instance has been brought to my notice of a farmer in the Prairie Provinces (Southern Alberta) district, where winter wheat is grown—who made a net profit of \$155 per acre. Little less than the selling price of his land, 30, 40, and 50 bushel yields are recorded there. The beauty about the lands in Western Canada is that they are so well adapted to grain-raising, while the luxuriant grasses that grow everywhere in abundance make the best possible feed for fattening cattle or for those used for dairying purposes.

The new homestead regulations which went into force September, 1908, attracted thousands of new settlers. It is now possible to secure 160 acres in addition to the 160 acres as a free grant, by paying \$100 an acre for 160 acres. Particulars as to how to do this and as to the railway rates can be secured from the Canadian Government Agents.

"The development throughout Western Canada during the next ten years will probably exceed that of any other country in the world's history." The editor of the Montclair (Iowa) Express made a trip through Western Canada last August, and was greatly impressed. He says: "One cannot travel in Western Canada without feeling that the country is destined to become one of the great agricultural countries of the world, and that its future prospects are bright. Where I expected to find frontier villages there were substantially built cities and towns with every modern convenience. It was formerly supposed that the climate was too severe for it to be thought of as an agricultural country, but its wheat-raising possibilities have been amply tested. We drew from Ontario many of our best farmers and most progressive citizens. Now the Americans are emigrating in greater numbers to Western Canada, and the climate is well pleased with them and is ready to welcome thousands more."

MODESTY.

Teacher (encouragingly).—Come, now, Willie, speak chickens.

Willie.—I'm afraid I'm too young to pick chickens, teacher, but you might try me on eggs.

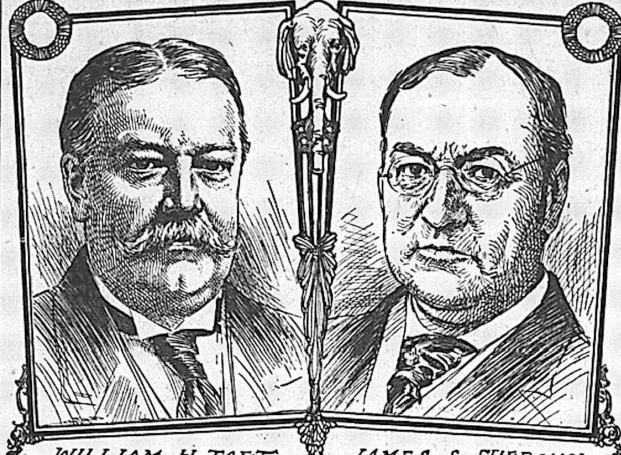

Lawyer's Single Hinder.—The famous Lewis' case, after a long trial, was decided in favor of Lewis' Factory, Peoria, Ill.

## Republican Candidates Sweep the Country in National Race.

**Contests for Governor Are Close in Several States—Deneen Wins in Illinois and Hughes in New York by Reduced Majorities—Results in Other States—Congress Republican.**

New York and Ohio, the other so-called pivotal states, swept into the Republican column by pluralities that surprised to the last moment, showing its loyalty to its native son by giving him a plurality of 30,000 votes.

Outside of Massachusetts, the smallest changes in net results came in the New England states, Maine, New Hampshire, Vermont, Rhode Island, and Connecticut contributing pluralities to Taft which do not differ materially from those given Roosevelt and Fairbanks in 1904.

**Stump in Pennsylvania Vote.**  
 The greatest slump in the Republican column came with the returns from Pennsylvania, the banner G. O. P. state, which gave Taft a plurality of 40,000, as compared with 585,000 cast for the Republican ticket in the last presidential campaign.

The Democrats stood unshaken in the solid south. They not only carried all the states in that section, won by Judge Parker four years ago, but they won Missouri back to the fold. There were changes here and there, each party gaining and losing, but the results were not of consequence of great significance.

In Maryland there was a victory of some consequence, the Republicans snatching that state from the possible doubtful column by a plurality of 3,000, which compares with a margin of but 51 votes in favor of the head of the Republican presidential ticket four years ago.

**Illinois Vote Is Cut Down.**  
 Illinois cut her vote down from 217,000 to 200,000, Michigan from 210,000 to 190,000, Ohio from 255,000 to 200,000, Minnesota from 191,000 to 150,000, Indiana from 230,000 to 200,000, Iowa from 115,000 to 100,000, Kansas from 125,000 to 100,000, Colorado from 24,000 to 15,000, South Dakota from 15,000 to 10,000, and North Dakota from 38,000 to 10,000.

### CONGRESS IS REPUBLICAN.

Returns Indicate Gains in the Lower House.

William Howard Taft will have a safe Republican majority in the house of representatives to carry on his policies.

Incomplete returns indicate that the majority will be slightly increased, unless some unexpected changes are made by later returns from districts supposed to be safely Republican. In the last congress the Republicans had a majority of 57.

The Henry lost the Eleventh Pennsylvania district to the Republican nominee, Henry W. Palmer, who defeated John Higelow and thus became the successor to Mr. Lehigh, the present Democratic member. The Republicans also regained the Third Wisconsin district, which was lost to Joseph W. Babcock two years ago. Mr. Babcock was defeated by James W. Murphy, and Mr. Murphy now appears to have gone down before Arthur J. Kopp, the Republican nominee.

Second district on a very small Democratic vote, has been returned, and the indications are that he will continue to be the only representative in the house of his party from Mr. Bryan's state.

### Old Faces Seen Again.

There will be many familiar faces in the next congress, including Speaker Cannon and his chief lieutenants, Messrs. Payne, Daltell, Tawney, Burton, O'Hall, McCall of Massachusetts, and Barthold of Missouri. There was especially vigorous opposition to Messrs. Cannon, Tawney and Daltell, but they are all reported as victorious. On the Democratic side Champ Clark and Mr. De Armond of Missouri, Clayton of Alabama, Halsey of Illinois, Ollie James of Kentucky, Randall of Louisiana, and Francis Burton Harrison and Fitzgerald of New York are all certainly returned. Delaware will send a new Republican, Mr. Heald, in place of Representative Burton; Georgia a new Democrat in the person of Mr. Hughes in the place of Mr. Lewis, and Illinois, James M. Graham, Democrat, in place of Mr. Caldwell, Democrat. Francis Bode, Republican, comes from Michigan in place of Mr. Harragh, while Clarence H. Miller, Republican, will occupy the seat of Adam Dick.

For the first time for 16 years the Eighth Mississippi district will be represented by another than John Sharp Williams, for several years past the Democratic leader on the floor of the house. He failed to secure a renomination on account of his election to the senate, and it is presumed that he will be succeeded in leadership by Mr. Clark of Missouri.

Takes Bourke Cockran gives way to Michael P. Conroy, who is also a Democrat. Charles S. Millington, Republican, will succeed Mr. Taft's running mate, Mr. Sherman, as representative of the Twenty-second New York district. John Wesley Gaines of Tennessee will be succeeded by Joseph W. Byrnes, another Democrat. South Dakota sends two new men, both Republicans.

### INTERESTING STATE ELECTIONS.

Close Contests in Several of the Central States.

New York—The Republicans won a sweeping victory in this state for national and state tickets and, more surprising than anything else, Taft carried the Democratic stronghold of Greater New York by a plurality of about 6,500. He also carried Erie county, another normally Democratic territory, by 5,000, but this is 5,000 less than the Roosevelt plurality there. Taft's plurality in the whole state is 158,352 and that for Hughes is 72,829. The legislature is again overwhelmingly Republican.

Springfield, Ill.—Charles S. Deneen was elected governor of Illinois for a second time, despite widespread "cutting" by his enemies in the Republican party. His plurality over Adlai E. Stevenson was estimated at 30,000, while Taft carried the state by about 175,000 plurality. The entire Republican ticket was elected by a normal vote.

Illinois Republicans elected 19 members of the national house of representatives, the Democrats being successful in only six districts. The

state legislature is safely Republican, with 41 Republican senators to 10 Democrats, and in the lower house 88 Republicans, 43 Democrats and 20 Progressives. This gives the Republicans a majority of 54 on joint ballot.

Lincoln, Neb.—Incomplete returns indicate that A. C. Shallenberger and the entire Democratic ticket have been elected in Nebraska by a small majority. Mr. Bryan carried the state by not less than 8,000. Bryan's greatest gain was in Lincoln, which he carried, overcoming a normal Republican plurality of 1,500. Eighteen out of 21 precincts in Lincoln gave Bryan 3,833 and Taft 3,214, a plurality for Bryan of 619. The remaining three precincts will not greatly change these figures. Bryan carried his home precinct by 111 to 54.

Des Moines—H. F. Carroll and the entire Republican state ticket has been elected in Iowa by a plurality of approximately 50,000, as against Roosevelt's plurality of 158,000 four years ago.

The indications are that the entire delegation in congress will be Republican, a gain of one over two years ago. There is a close race in the Sixth district between Hamilton, present congressman (Dem.), and Kendall (Rep.).

Madison, Wis.—Gov. J. O. Davidson (Rep.) has been re-elected, but his vote is far behind that of the head of the ticket, owing chiefly to the fact that he was not indured by Senator La Follette, for whose seat he is expected to make a contest in two years. Eight Republican congressmen have been elected, two are

## CONGRESSIONAL RESULTS

The congressional returns indicate that the Sixty-first congress will have Republican majorities in both branches. According to the latest reports the various states have elected congressmen as follows:

In doubt and one Democrat is elected. C. H. Welles carried the Sixth district.

Indianapolis, Ind.—With the vote so close that it will probably require the official count to decide it looks as though Marshall had been elected governor, and also the entire state ticket. The Democrats have secured control of the legislature on joint ballot, thus insuring the election of a Democratic United States senator to succeed James A. McMenamy.

Detroit, Mich.—With Lawton T. Hemans making a splendid race for the governorship, running far ahead of his ticket and surprising even his friends and staunch supporters, the result of the gubernatorial election was in doubt until a late hour. The returns of the congressional districts in various parts of the state showed that Hemans had 20,000 to Warner's 22,000. These returns did not include several so-called Republican strongholds, but, on the other hand, there also was lacking the vote from many cities which will give Hemans great pluralities. Hemans claimed to have been elected. The congressional delegation will be Republican.

### Daltell Wins Out.

Pittsburg, Pa., Nov. 4.—The re-election of Congressman John Daltell in the Thirteenth district by a greatly reduced plurality is considered. F. Duffy (Dem.) made a hard fight against him, cutting into his usual vote in industrial precincts.

**Senator Clay's Re-Election Assured.**  
 Atlanta, Ga., Nov. 4.—Democratic candidates for congress are elected in all of the Georgia districts, numbering 11. The re-election of United States Senator Clay (Dem.) is assured.

## LIVED ON TEN CENTS A WEEK.

Bill Doolittle's System a Good One, But Not Attractive.

"D'ya find smoking hurts y'a?" asks Bill Doolittle, a Yankee lawyer, in Willie Brook's story, "The Solar Machine," in Harper's.

"It probably doesn't do me any good," I said; "but I'd have trouble quitting it."

"No, y'a wouldn't. Smoke this." He took from his vest pocket the fellow to the stogie in his mouth and tossed it across the table to me. "Ever hear how Bill Doolittle lived on ten cents a week?"

I confessed that Bill's economies had never been brought to my attention.

"Wal," said Diddle, "he took dinner with a friend on Sunday, an' ate enough to last 'im 'till Wednesday. Then he bought ten cents' worth of tripe, an' he hated tripe so like thunder that it lasted 'im the rest of the week. These appears work a good deal like that tripe, an' you take to smokin' 'em, an' y'a won't want more'n one or two a day."

## 15 YEARS OF SUFFERING.

Burning, Painful Sores on Legs—Tortured Day and Night—Tried Many Remedies to No Avail—Cured by Cuticura.

"After an attack of rheumatism, running sores broke out on my husband's legs, from below the knees to the ankles. There are no words to tell the discomfort and agony attending the sores, but he had to endure night and day. He used every kind of remedy and three physicians treated him, one after the other, without any great result whatever. One day I ordered some Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent. He began to use them and in three weeks all the sores were dried up. The burning fire stopped, and the pain became bearable. After three months he was quite well. I can prove this testimonial at any time. Mrs. V. V. Albert, Upper Freeville, Me., July 21, 1907."

## LOCATED.

"Goodness, sonny, are you in pain?" "Now, the pain's in me—boo-hoo!"

## Putting It Politely.

It was evident that the directors were very nervous. Anxiously they awaited the coming of the president, who had summoned them in haste. At length he appeared, and greeted them as "Gentlemen," he said, "I am very sorry to say that it is my duty to inform you of some disagreeable news. I assure you that this is the saddest day of my life. I would rather have cut off my right arm than been compelled to send for you on an occasion of this kind. It is most—"

"What's the matter?" one of the directors impatiently asked.

"The cashier has advised."

## Well Prepared.

"I learn," she said reproachfully, "that you were devoted to no fewer than five girls before you finally proposed to me. How do I know that you didn't make desperate love to all of them?"

"I did," he replied promptly.

"You did?" she exclaimed.

"Certainly," he resumed. "You don't suppose for a moment that I would be foolishly enough to try such a ploy as this if you are without practicing it the first, do you?"

## PUZZLE SOLVED.

Coffee at Bottom of Trouble.

It takes some people a long time to find out that coffee is hurting them. But when once the fact is clear, most people try to keep away from the thing which is followed by ever increasing detriment to the heart, stomach and nerves.

"Until two years ago I was a heavy coffee drinker," writes an Ill. stockman, "and had been all my life. I am now 55 years old."

"About three years ago I began to have nervous spells and could not sleep nights, was bothered by indigestion, bloating, and gas on stomach affected my brain."

"I spent lots of money doctoring—one doctor told me I had chronic catarrh of the stomach; another that I had heart disease and was liable to die at any time. They all died me until I was nearly starved but I seemed to get worse instead of better."

"Having heard of the good Postum had done for nervous people, I discarded coffee altogether and began to use Postum regularly. I soon got better, and now, after nearly two years, I can truthfully say I am sound and well."

"I sleep well at night, do not have the nervous spells and am not bothered with indigestion or palpitation. I weigh 22 pounds more than when I began Postum, and am better every way than I ever was while drinking coffee. I can't say too much in praise of Postum, as I am sure it saved my life."

"There's a Reason."

The Young Peoples' Missionary society will have their annual meeting Sunday evening at the Salem church. Miss Lydia Sodi, the retiring president, will preside. The program includes a few fine musical numbers. The public is invited.

The Patent Brewing Co. secured a judgment of \$150 at Waukegan today against Paul Miller of Barrington for empty bottles lost in shipments made to them about five years ago. The understanding Miller had was that he was not to be charged for empties lost.

At the Majestic Theatre, Chicago, an unusually entertaining bill is promised for the week of Nov. 9th. Several acts entirely new to the west are included in the list, among them "The Naked Truth" and "A Modern Poca-hontas", which can be classed under the head of genuine novelties.

Mr. and Mrs. C. Rasmussen on Tuesday followed to its final resting place another child. A bereavement which takes two children out of a home within the space of a week calls for the largest public sympathy. Rev. E. C. Forsell of the Salem church conducted both funerals. The Misses Myrtle Plagge, Luella Landwer and Laura Homuth sang. Interment at White's cemetery.

Last Friday evening the members of the Girl Question club observed Halloween by giving a party at the home Miss Ray Lawson. Six young men were invited by the six young lady members. Halloween amusements were enjoyed by all, among them being a game in which each member of the party was blindfolded in turn and asked to place the stem of a pumpkin; Roy Colten, the successful one, received a Christy girl as a prize. The house was appropriately decorated, refreshments were served and all had a good time.

Miss Walker's class of the M. E. Sunday school gave a Halloween party at the home of Miss Alberts on Friday evening, October 30. A pleasant evening of Halloween games and even the Halloween ghost were enjoyed by the guests, twenty-two in number, among whom were Miss Callie Mager of Sherman, Minnesota, and Will Moorehouse of Chicago. In securing their partners for supper the girls were forced, not by the scarcity of the article, however, to purchase their partners, disguised in a sheet, at auction sale. The remark has been passed that the girls showed great business ability.

Not a Bit Proud.  
The editor of an extended contemporary thus announces the acquisition in his domestic circle of two "fair, fat and flourishing" babies:

"Bring out the brass band and place its noisiest members on the highest pinnacle of the town. Sound the loud tones of the bugle and let the nation rejoice, for one of the lumbehest citizens of the commonwealth hath been justly exalted to the honor to be that fortunate and meritorious individual. Still we are not proud; we yet speak to our neighbors, occasionally, but at the same time it must be admitted that we feel several inches taller than we did a week ago."

We owe an apology and an explanation to the burglar who opened a door for us at the week-end, and was disappointed. We do not like to appear in hospital, but on Friday night we all of us do our own thing, and there is nothing left for visitors. Any other night we will try to give another sort of surprise.—London Chronicle.

Allice, aged four, on the arrival of her favorite aunt, said, "Now, Aunt Mary, do make yourself at home while you are here."

Her aunt replied, "What must I do to make myself at home?"

Little Alice said, "Pick in and help mamma work."—Bellmead.

## Spain's Uplift by Defeat.

An American who recently passed through Spain says that he found natives who thought that America got worsted in 1898 and were inclined to treat one of the conquered foe with civility. There may be something in the old story, but perhaps the true cause for graciousness toward Americans lies in the fact that the war was the beginning of prosperity for the Spaniards at home. That country has been least affected by the commercial depression felt throughout well nigh the entire globe the past year. Spain has natural resources, too, and is importing modern machinery to develop them by modern methods.

The Spaniards can borrow money on the European markets, but the general wealth of the country is increasing so rapidly that domestic capital is available to finance railway and mining enterprises. For one thing, the war of 1898 relieved Spain of a heavy money drain for the colonies, which in her pride she would not abandon and in her blindness she ruled at a loss. Battered by the sword of their prospects of plunder in the colonies, the dons have put by the trappings of feckless splendor and taken up the tools of business. So it is the old story of stern necessity giving progress a boost.

## Fatalities in Coal Mines.

An important preliminary to the government investigation of coal mining with a view to lessening accidents has been completed in the work recently ended by the foreign experts who were asked to apply their experience in mining operations abroad to existing conditions in America. The experts urge the elimination of dangerous explosives by government regulation, and this is the main feature of their programme for federal action. Simultaneous firing of all explosives while the men are out of the mine is recommended.

The value of three of the recommendations of the experts rests almost entirely in the hands of owners and operatives. These relate to the safe guarding of all explosives while in storage, in transit and in handling under conditions of risk, thorough discipline of all hands employed about the mines and training schools for all officials from superintendent down. With proportionately four times as many deaths from mining accidents as any foreign country, it is evident that we have something to learn in the way of safety measures, however high the skill displayed here in getting out the coal.

## The Army "Smart Set."

The army man's shooting affair recently up in court, gives fresh ammunition to those who are disposed to cast discredit upon karrion life as being detrimental to morals. Unfortunately this is not the first instance of the kind. A couple of years ago an army divorce case led to unpleasant revelations. All there is of it, the army has its "smart set," as should be supposed.

Army officers and "army women"—as the wives, sisters and daughters of officers are sometimes called—are only mortal. They come from the general ranks of society. As a rule, they have more leisure, more need to kill time and more temptation to do it through excitement than the average person of the same social stage. There is reason to believe that, while the disaffection of some few may be lightly disregarded, the department of the majority is highly creditable under the circumstances.

## Profit Sharing Workmen.

In order to avoid the closing of the shop the employees of a great ship-building firm in England recently accepted an offer of partnership with the proprietors. The company boldly declared that strike troubles had become unendurable and the shops must close unless strikes could be eliminated.

Shares of a special stock will be sold to employees to be paid for out of their earnings. Interest will be allowed on the shares whether the business pays or not. After this special interest has been paid and interest of 5 per cent on the capital has been deducted from the earnings any remaining profit will be divided between all the shareholders. Wages and hours are regulated by the agreement, and workmen may quit at will and sell their shares. It is an interesting experiment.

We may thank General Apathy's indifference at the beginning of the campaign for the death of the campaigner put throughout the merry war.

The city fireman may run into the most danger, but the country fireman usually has the longest run coming to him.

Every one felt that, though rain was long past, yet, it wouldn't do any good to for "2" paymaster.

For the worst night riding menace of all we may still look to the speed and "devil" wagon.

The green hat query is, "Where did that hat get you?"

## The Public Trust.

The national campaign of 1908 has been fruitful in examples, proving again that honesty is the best policy in politics too. The doctrine that "to the victor belongs the spoils" goes without challenge, but the spoils meant are not the abuse of office for private gain, merely the party right to the appointive offices. The idea that an office is an opportunity for "graft," either directly or indirectly, at public expense is welcomed among the pothouse politicians of the slums, but the man of ability and ambition yields to it to his eventual regret.

No man who enters politics knows what the future has in store. He may never expect to be a candidate and have his record dragged into the limelight. Many an aspirant is available for most of the important reasons, but fatally unavailable because his record won't stand the fire of the campaign. A clean record in office is the very best capital. It is certain to lead to the "good" record, but the "bad penny" is equally certain to "turn up" at the wrong time.

Airships and Rough Weather.  
If man is to imitate the bird successfully, he will need to take account of the freaks of weather up in the air. Count Zeppelin's record making dirigible came to grief through a storm. He soon thought out another with higher motor power, hoping for better luck. He deserves it as a reward of persistence.

It is the persistence of men like Zeppelin and the Wrights that augurs most for aerial navigation. They can profit by their failures. Storms will be the worst foe to airships. Birds do not fly against storms. They often fly below or above them and even alight to escape the wind's fury. The petrol flies near the water and hugs the surface closest when a storm is threatening. The machine which is "self adjustable to conditions of the air" will need to beat the bird at weathering storms or, like most all birds, dodge them.

**Sixty Years a King.**  
Much of the splendor appropriate to  
a celebration of the sixtieth anniversary  
of Francis Joseph's accession to the  
throne of Austria (Dec. 2, 1848)

was discounted by the observances in  
the capital of the empire in May and  
June last. The people of Austria and  
Hungary have made the year rather  
than the day of coronation significant.  
Sixty years is a long reign. Those  
who have celebrated it or surpassed it  
are usually among the notable figures  
of history. Among the latter it is of  
interest to recall Queen Victoria of  
England, who reigned sixty-three  
years, from 1838 to 1901, and Louis  
XIV., who wielded the destinies of  
France seventy-two years, from 1643

to 1715.  
In point of fact the reigns of both  
Queen Victoria and Emperor Francis  
Joseph were longer than that of the  
noted French king. A century ruled  
for the infant king for eight years,  
and although he is assumed to have  
reigned from the age of thirteen, his  
rule was only nominal. Victoria was  
eighteen when she ascended the throne  
and Francis Joseph the same age  
when he took up the scepter during a  
period of revolutionary excitement in  
1848. Francis had a troubled reign.  
Last year his health was critical, and  
his countrymen were surprised when  
he rallied to greet the German prince  
in his palace last May and to inaugu-  
rate the coronation of a three-day review  
of the historical pageantry which was  
the chief feature of the year's anniversary  
ceremonies the following month.

The letting of the contract in Octo-  
ber for deepening Dismal Swamp canal  
started on its course another deep wa-  
terway project of national importance.  
This canal connects the waters of  
Chesapeake bay with the sounds of  
North Carolina and is practically a  
link in the great inland shipway from  
Florida to New England. When com-  
pleted this route will enable vessels  
of commerce to avoid the stormy  
passes of our eastern coast and will be  
accessible to the navy in time of war.

Uncle Sam is asked to put \$35,000,000  
more into Panama canal work in 1909,  
and if a vote on the budget is re-  
quired he can safely cast one ballot  
for the entire nation.

Some people would be glad to see  
"country board" upfitted while Roose-  
velt's commission is on that job.

Sometimes, after a man has found  
himself, the main proposition involved  
seems smaller than ever before.

"Fighting Bob" Evans has reversed  
an all too popular precedent by fighting  
first and talking afterward.

Talk about "the White House prin-  
cess" is still in order for any who in-  
clines that way.

Personal liberty has the right of the  
whole road, but only on one side at a  
time.

Even a handball must balk a bit  
when it strikes dead level.

**REID TALKS OF JUDGE TAIT**

Tells Britishers He Will Be an Able  
Successor to the Present  
President.

London, Nov. 5.—William Reid, United States ambassador, was the guest of honor at the Atlantic Union dinner to celebrate the establishment of penny postage between American and Great Britain. Speaking of the election of Tait, the ambassador said: "The character and antecedents of the president-elect give the highest guarantee that the most powerful and most popular president since Lincoln is to have a judicious and able successor trained to the business and quite competent to continue the great record made by recent administration."

"Mr. Tait was brought up in an atmosphere of honorable public service, and no American doubts that his experience fits him for his new position. The incoming administration will pursue the same policy with which you are familiar." After speaking of those who would doubt the future postage fiscal sale, that everybody would wish success for J. Henniker Heaton in his crusade for a penny-a-word cable rate.

**Rhode Island Bank Fails.**  
Providence, Nov. 5.—With the approval of the Rhode Island state board of bank corporations, William T. Goodwin, the state bank commissioner, has taken control of the Central Trust company, of this city, and applied to the supreme court for a receiver. He also asks an injunction to restrain the bank from transacting business, claiming that it was hazardous for people to deposit their funds with the institution.

**Naval Buildings Near Chicago.**  
Washington, Nov. 5.—For the construction of six buildings at the naval training station at North Chicago, William J. Sevon Building company, of Chicago, was the lowest bidder (date at \$100,000).

**The Prosperous Person.**—There is no occasion for you to envy me, my man. I have just as many troubles as you have.

The Impetuous One.—I dare say you have, but the difficulty with me is that I ain't got nothing else.

Trustee Alverson moved that the bills be allowed. The motion was carried by a vote of 5 to 0. Trustee Lageschulte did not vote on the question. He said that he would vote for it if the amount did not overdraw the appropriation.

The bills for salary of trustees for the past six months included services rendered at special meetings. Trustee Peters thought that the members had not ought to charge for special meetings. The ordinance provides that the members be allowed \$1.50 for each meeting. After considerable discussion it was voted that he be allowed for special meetings, all members voting for except Trustee Alverson.

Application and bond of Otto Rieker for pool room license was accepted and approved.  
Edward Peters for committee on water reported that tests had shown that there was a leakage in the water of about 4,000 gallons in three hours. The committee also reported that the measurement used by the Electric Light Company would over run. The board adjourned.

**Would Mortgage The Farm.**  
A farmer of Rural Route 2, Empire, Georgia, W. A. Floyd by name, says: "Buckden's Arnica Salve cured the two worst sores I ever saw; one on my hand and one on my leg. It is worth more than its weight in gold. I would not be without it if I had to mortgage the farm to get it." Only 25c at Barrington Pharmacy.

**The Woman's Home Companion for November.**  
The November-Jubilee issue of the Woman's Home Companion has a special interest, because it is the Seven Hundredth Number of the oldest living Woman's Magazine. This issue of 88 pages, illustrated by famous artists, contrasted with the little funny magazine of the same name which appeared in 1874 is a vivid reminder of the great strides made in periodical publishing. That old issue, popular in its day, is a modest ancestor to the big, influential magazine of today.

**A Healthy Family.**  
"Our whole family has enjoyed good health since we began using Dr. King's New Life Pills, three years ago," says L. A. Barlett, of Rural Route 1, Guilford, Maine. They cleanse and tone the system in a gentle way that does you good. 25c at Barrington Pharmacy.

**A Good, you-please Capital.**  
Without doubt, Nairobi is rather unique as a British African capital in its composition of inhabitants. Not only does each of its people, but the jag Ham, dignitarily and literally. This circumstance comes inevitably to mind when traveling or carousing the streets on a bicycle, mule, horse, donkey or camel or in a spider, carriage, flintkiss or bullock cart. It is a kind of gas-geopneumalgia which has taken root in Nairobi. One turns to the left, one to the right. One skirts the gutter, while the other rides through the pedestrians.—Nairobi Leader.

**Where Bullets Flew.**  
David Parker, of Fayette, New York, a veteran of the civil war, who lost a foot at Gettysburg, says: "The good Electric Bitters have done me more than five hundred dollars to me. I spent much money doctoring for a bad case of stomach trouble, to little purpose. I then tried Electric Bitters, and they cured me. I now take them as a tonic and they keep me strong and well."
