If the sheep are in the stock cars t is a big job to get them out. Efforts of the attendants to get them to leave the cars usually result in the whole sunch crowding up in one end and re-using to go out the door. Sometimes

bunch crewding up is one end and re-turing to go out the door. Sometimes it was even necessary that each indi-vidual sheep be actually lifted up and taken from the car.

And sometimes this 2phour limit expired in the dead of night, when the sheep were all lying asheep on the floor of the car. At such times it was amond impossible to unlead except by the "head" method. At these ball, the based method. At these ball one
