

# FARMERS SIGNING UP

**Yesterday Contract Day at Bowman.—Dairyment Accept Quotation.—Price Will Average as Last Year.**

Offering the same average price, as was paid last year, the Bowman Dairy company, yesterday offered contract books for its milk supply. The price for the milk is offered by the company and is five and six cents under the price that was paid last year. The Bowman Dairy association at their session on March 2, decided on this plan.

While the average price offered by the Bowman people is the same as last year, there is a difference. The price for April milk has been reduced considerably, while the prices paid for the July and August supply have been increased proportionately. Officials of the company stated that the change was made to encourage farmers to produce more milk during July and August, when the milk supply is heavier than the year.

Although the contract prices are much lower than the Milk Producers' association decided to demand, there are many who are signing up. The farmers are signing up, and they seem well pleased with the prices that are being offered. The Bowman Dairy association as could be learned there was not a single holdout at any factory in this district.

The quotations are:

Contract	Suggested	Price
April	\$1.30	\$1.50
May	1.20	1.40
June	1.00	1.10
July	1.30	1.40
August	1.30	1.40
September	1.45	1.55
