Prospects now are that there will be a quiet election on Tuesday, April 18, when the township officers are to be elected. J. H. Smith is the only name for the office of supervisor, and there is but one candidate for highway commissioner and school trustee. The members of the town board to appear at a collector for the coming year instead of having an election took away the chance of a spirited contest. There is nothing doing as yet on village elections but as they are two weeks later than the town election there is plenty of time for something to happen. The town meeting and the town election for the first precinct will be held at the city hall this year as the town house has been changed on the inside by building two racks and lot better so that there is no room there now for tables and benches.
