## MANAGEMENT OF THE HOTBED AND THE COLD FRAME AFTER PLANTING

Lettuce and Cauliflower Plants in 21/2 Inch Pots, Ready for Placing Outside.

By C. A. DURST,

By G. A. DURST.

The most difficult task in hotbed work is in the management after planting. Still is developed only by experience. The beds must be kept covered securely on nights and cold dars when the temperature remains below freeding. They should be uncovered every morning as soon as the temperature is above freeding, and opvered in the erening before that plent is reached. During rainy weathighet its reached. During rainy weathighet is reached. During rainy weathighet is reached. During rainy weathighet weather manure or straw is afterney weather manure or straw is afterneys over ordinary covers in addition.

The bude reached in the control of the control of the covers in addition.

thrown over ordinary covers in amount of the bods are alred during the warm part of pleasant days by placing supports under the sain. Care must be taken that no chilly winds are overyed to blow in upon the plants. Water should be applied only when needed, and then generously. It is a mistake to use only enough water to we the surface.

and then generously. It is a mistake to use only enough water to wet the surface.

Hotheds are frequently troubled with damping-off, which is due to a fungus that at takes the plants at the unface of the soil and causes them to result to the soil and the soil and the soil and the soil and the proper management. The fungus is favored by moist atmosphere and high temperature. To avoid it the beds should be watered in the morning so the plants will so into the night dry. During spells of dark, cold weather the beds must be kept as dry as possible. Giving the beds to little air spells, diving the beds too little air spells, diving the beds too little air spells. The spells of dark, cold weather the beds must be kept as dry as possible, diving the beds natisch to spow too radigles. Frants made to grow too radigles. #### "ECZEMA ITCHED SO BADLY I COULDN'T STAND IT."

I COULDN'T STAND 17."

"I suffered with ecrema on my neck for about six months, beginning by little pimples breaking out. I kept scratching till the blood came. It kept getting worse, I couldn't seep nights any more. It kept liching for about a my more. It kept liching for about a got some liquid to true ago to some liquid to true ago to some liquid to true ago to some liquid to true as if I was going to get better. The tiching stopped for about three days, but when it started again, was even worse than before. The excema tithed so badly I couldn't stand it any more. "I went to a doctor and be gare me some mediciaes, but didn't do any good. "I went to a doctor and be gare me sedies in the bouse, so I decided to rythem. I had been using Cultiura Soap three times a day, and then put the Culticura Cointiment, and washed off the affected part with Culticura Soap three times a day, and then put the Culticura Cointiment, and washed off the affected part with Culticura Soap three times a day, and then put the Culticura Soap that the fight is the state of the affected part with Culticura Soap the come of. It kept the treatment up for three weeks, and my eccessa was cured.

"My brother got his face bursed with gun-powder, and he used Culticura Soap and Olintment. The people all thought be would have scars, but you barned. It was simple had his face but before the Culticura Remodies (Soap and Olintment) cured it." (Signed) Miss Elizabeth Gabrit, For-rest City, Ark, Oct. 15, 1910. Although Culticura Soaq and Olintment are sold by drugsists and dealers everywhere, a sample of each, with \$2 pages book, "Culticura," Dept. 1. Beson.
