TRACES DESCENT OF PEOPLE

ived From Southern Appalachlan /hose Race of Mountainee's He Calle "Last Remnant of the Underlied" in Country.

By GEORGE CLINTON.

Washington.—Dr. Harvey W. Wiley, who recastly resigned as the government's chief chemist, was born in Indiana. The dector is very interested in all Hoosiars, but he ig a little hard, was a series of the control of the control of the state. He puts them in a "semisar diam" below that of the state. He puts them in a "semisar diam" below that of the linear series. The Wiley has produced a map of Indiana on which he litgatrates some of his views with respect to intellectually in the state. About where he old laboration is a series of the semisar in the s

thing that is taloget them. I way are theroughly honest, and all deeply religious conding to Doctor Wiley there are great possibilities in this race of mountainsers. He referred to fit as the "last remains of the undeshed" in this country, and policid out that if in some way adocation and culture could be brought to these people, results that would aimnest starte the world would be produced. The startest would be produced, which we would aim to the startest would be produced. The would be produced to the would be produced to the would be produced to the would be produced. The would be would be produced to the world be would be the world be would be wou

in defense of their clan, they were only living up to a principle that had been instilled into them and their forefathers.

Our Apache Wards.

Berritary of War Stimson, in response to a request from Congress, and the Apache prisoners of the who are now on the Fort Sill. Othehoms, reservation. Three are \$57 of the prisoners and 18 of the number was borne on the morning reports as a scouts. Thirty of the Indians are known to have been engaged in hoseliness, and the second of the second of

Revets, Art. Represents, 1968.
With a view to their protection they were seen to Sun Antrolo, Tenna, where they reemined for a time until tome permanent arrangement could be made for their care and protection. They were finally located at Fort Marion, Fin, where they remained for a number of years. Ar Fort Marion was found to be an unsultable place they were embased until the protection of the protection

removed to Mount Vernen barracas, Alas.

Alas. Che climatic at Fort Marion and Mount Vernen barrachs was quite different from that to which they had been accustomed in San Antonio, Artrona and northern Mexico, disease from which Eley had theretofore been immune, frept in among them and upon Ivil consideration of the jointuition by the secretary of war they were permanently established on the jointuition by the secretary of war they were permanently established on the port still Military reservation in 18. As these Indians had been engaged in the commission of hostile acts for a number of years they were regarded, at their surrender, as occupying the status of prisoners of war and were subsisted and maintained as such. As the hostilities in which they had taken part have long cassed to the secretary of the United States and under the special protection and control of the war department. This status, as to some of its essential incidents, continues to situe of the secretary of the United States and under the special protection and control of the war department. This status, as to some of its essential incidents, continues to situe in secretary in the interficial in the indicat of all the debates and blockerings on the tariff and appropriate bills and all the turnult and shouting of politics Washington is and shouting of politics Washington is and shouting of politics Washington is and shouting of the strength of the service of the service

with the demand, "Do you surrea-der?" Guestion or Exclamation?

In his own account of the battle
Jones states that his reply was some-thing to this effect: "I do not, but i' intend to make you surreader." Lieu-tedant Dale, who also wrote an ac-count of the battle, ascribed to Jones ibe more spirited reply: "Burrender!

It is over this world-famous phrase that the second battle rages. The con-testants do not hesitate to substitute the words of Dale for those of Jones, for the phrase is more striking, but, in the opinion of the critics, the writer of the inacrigation proposes to weaken punctuated. Ignoring the peculier punch and fivre of the exclamation point as compared with the quotation mark, he proposes that Jones' reply, Yankeelike, begin with a question, and then he would five a second relections have been as the second relections have a second relection have a second relection have the second relections.

reservices having on the sentence of the sentence of the Joses of the Joses quotation, it would stand thus:
"Surrender! I have only begun to fight!"
Not very much, to be sure, on which to start a fend, yet, on the other hand, who will be to start a fend, yet, on the other hand, who will be to start a fend, yet, on the other hand, who will be to start a fend, yet, on the other hand, who will be to start a fend, when the hand to make things hum a little start and the start an

Why Should a Chicken Lay a Soft-Shelled Egg?

Because, Willie, the chicken don't know how to create a hard-shelled egg unless it has some food with lime in it.

So chicken-raisers often provide limestone gravel, broken oyster shells or some other form of lime.

Let the chicken wander free and it finds its own food and behaves sensibly.

Shut it up and feed stuff lacking lime and the eggs are soft-shelled.

Let's step from chickens to human beings.

Why is a child "backward" and why does a man or woman have nervous pro-tration or brain-fag? There may be a variety of reasons but one thing is certain.

If the food is deficient in Phosphate of Potash the gray matter in the nerve centres and brain campot be rebuilt each day to make good the cells broken down by the activities of yesterday.

Phosphate of Potash is the most important element Nature demands to main and water to make guy matter.

Grape-Nuts food is heavy in Phosphate of Potsah is a digestible form.

A chicken can't always select its even food, but a thoughtful man can select aut-
