rese fract or the Larry Propress of the Present Rebeilion in Mexico.

By GEORGE CLINTON.

Washington—Lieutenant Colonel
Pardington—Lieutenant Colonel
Lieutenant C

that there were two or three other instances like this in the history of frontier warfare.

Triff's Mexican War Map.

Fresident Taft has a map of Mexico dotted over with red, yellow and green headed tacks. This is the president war map and its trade in his earned and the constant changings of the tacks have little pennane at the federal war. He was a distance of the rederal the history of the tacks have little pennane at tached to them which show the camps of the rederal to them which show the camps of the rederal to them which show the camps of the rederal to the map will be president keeps to the late to the last the sant.

Since conditions have become so critical in Mexico, the acting secretary of state. Huntington Wilson, who is responsible for the map, has placed one man at the map who gives he entire time to keeping it corrected up to the speak keys any times a day the telegraph keys any times and the constant of the definition of the telegraph keys any times and the constant of the definition of the definition of the definition of the telegraph keys any times and the definition

to Chiagas in the south the counties of Washington are scattered, colored Washington are scattered, there being also miss of the colored washington and colored washington and colored washington and colored washington and colored and colored washington and the money which each could seem to five the country is fearned. All of this information is transferred to the map in the calcast room, Back colored tack tells a story—the ion-moderate and robel forces, conditions of turns of referred and probel forces, conditions of turns of research and probel forces, conditions of turns of research and probel forces, conditions of the roomalic as to the salety of American lives or interests. Recognition of the southing that which has between the consumers of the washing of the washing of the salety all which has between the canasital part of washington as the parameters from

Utilimetum Will Be Considered by Managers—Chief Stone Asks Proposition.

New York, April 13.—Lecomotive engineers on fifty railroads east of Chicago and north of the Northick & Westero, by a majority of more than 13,000 of 25,000 voice cast, have authorized their officials to call a cirtle if further segottations with the railroads for interest of the count of the vote was completed Friday and the result made known immediately by Warren B. Stone, 3rand chief of the Brotherhood of Locomotive Engineers, to J. C. Stuart, chairman of the General Managers' association of the railroads.

The counter interest in the control of the country association of the railroads.

The corneral managers have called Mr. Stuart that they would remain here for 'a reasonable times' to await a counter proposition of the railroads. Mr. Stone mounced that \$3.1 per the counter proposition to make and oritises of the suppliers of the brotherhood, Mr. Stone and Sartines about 15,000 members of the Brotherhood of Locomotive Piremes and Engineers and the value of the proposition. Their vote also, he said, was overwhelmingly in favor of authorising a strike should further negotiations with the railroad fall.
