PASS TO GREAT BEYOND

Four Well Known People in this Community Departed this Life During the Past Few Days.

CHARLES WILLE

After a lingering illness with consumption covering nearly two years, Charles Wille, a resident of this village, passed away at his home Tuesday night at ten o'clock surrounded by all his family. The family had just moved into their new home on Applebee street Monday, and it was hoped that his recovery would begin. He is a native of Germany, born August 4, 1864, and emigrated with his parents to America when seven years old. Most of his life was spent in or near this village. On June 9th, 1892 he was married to Miss Emma Groff, who now with the four children of the home mourn their loss. The names of the children are: Laura, Raymond, James, and Mrs. Elsie Anderson of Lake Zurich. He was confirmed in the Lutheran faith and was a member of that church. He was a member of Lake Zurich Camp, 697, M. W. A. Under the direction of the Woodmen he was sent to the Colorado Springs sanitarium in May last year, when for a while he seemed to improve in health. After six months stay there it was found necessary for him to seek a lower altitude, and he returned to his home in Barrington October 1, 1911.

He had been a resident of Lake Zurich for the past 12 years and the last three years he conducted the home hotel. He moved to Barrington last September.

Besides the family he leaves one sister, Mrs. Mary Sternberg of Elgin, and two brothers, Henry Wille of Chicago Highlands, and Fred Wille of Gillett, Wisconsin.

The funeral services will be held in charge of the pastor, Rev. H. Thoren Friday afternoon, at one o'clock at the home and 1:30 at Salem church. It is expected that the Woodmen will take part in the services at the cemetery.

ANN MARSHALL

Ann Knoevel was born in Maidstone, County of Kent, England, January 29, 1854 and died at her home in this village last Saturday, aged 76 years.

She came to America with two sisters in 1858 and resided in Chicago for twenty years. Her father died in England and her mother in the United States.

She married Squire Marshall in 1860 and in 1893, after the death of their son Benjamin Marshall, the family moved to this village where they have since resided.

Besides her husband she leaves surviving four children, Robert Marshall of Michigan, Sidney, Anna and Celia residing in Mississippi and California. There are also five grand-children.

The funeral services were held from her late residence, Cook and Russell streets, Sunday afternoon at two o'clock and were in charge of Rev. O. J. Matteson of the Methodist church. Mrs. Charles Thiel and Miss Myrtle Blagge rendered appropriate music. Besides her neighbors there were many friends from out of town present. The floral pieces were in excellent taste. The interment was in Evergreen cemetery.

Mrs. Marshall was highly esteemed by all who knew her and her loss will be keenly felt by her husband and family.

REV. J. B. ROBINSON

The papers record the death on Sunday April 21, at his home 2620 Maple Avenue, Evanston, of Rev. J. B. Robinson, a retired member of the Disciples of Christ, and pastor of the Elm River conference and pastor of the Barrington church, which he organized.

Dr. Robinson had been quite ill for a number of months. He was a member of several organizations, both local and state, and had a number of books and papers on his shelves. There was a library of 1,000 volumes.

He was a well known man, having been a pastor in the Disciples of Christ.

Dr. George W. Johnson, of the First Church of Christ, Scientist, of Waukegan, died on April 21, 1912. Dr. Johnson had been a member of the Disciples of Christ, and was a member of the Waukegan church.

He was a man of great personal charm, having many friends. He was a member of the Waukegan church, and was a member of the Waukegan church.

He was a member of the Waukegan church, and was a member of the Waukegan church.

DR. SHEPARD FOR EPISCOPACY.

The Quadrennial Conference of the Methodist Episcopal Church Opened its Session at Minneapolis Yesterday.

The general conference of the Methodist Episcopal church opened yesterday in Minneapolis. It will remain in session for the month of May. It is composed of about 800 delegates, representing many nationalities, from almost all quarters of the world. It meets once in four years. Among the important things coming up for consideration, will be the election of bishops and editors, and other general officers. Great pressure will be brought to bear to secure the election of a colored bishop for work among colored people in the south.

The question of the time limit for the pastorate will be considered, as some favor going back to the old way of a limit of three or five years. It does not seem likely that this will prevail. The amendment question will also be canvassed, with a possible resolution in the case. The Rock River conference has fourteen delegates including one woman, Dr. W. O. Shepard, whose work as district superintendent includes Barrington, is a delegate, and is spoken of as a quite possible prominent candidate for the episcopacy.

Rev. W. B. Norton will report for the Chicago Tribune and Rev. W. H. Cardwell for the Chicago Examiner. These reports will be reliable.

OMNES VITA BOYS WIN.

O. V. Baseball Team Opens Season in Barrington With a Victory—Score 16 to 6.

A good and interesting game with Irving Park was witnessed by a large crowd last Saturday despite the cold wind and weather.

"Buck" Pomeroy did the tossing for the O. V. team and did splendid work, showing himself to be in good condition for the season that has begun. Getting away with 12 strikeouts in the first game is good, get next to those first base blasters and see what he'll do next time.

Everything points to a good series of games this year as excellent work was done on the bases and the batting was good. Next Saturday the St. Stanislaus team will be here.

Chicago Highlands Plant Sold Again.

The plant at Chicago Highlands was sold on Monday at Waukegan for the second time by E. J. Heidecker, master in chancery of Lake county. The consideration was \$40,000 and the Chicago Title & Trust company, representing the Chicago Highlands association, made the purchase. The plant had never been fully paid for by the Marquette Products company and the sale was made in all probability to clear title.

Woman's Club.

The Woman's club met this afternoon at the home of Mrs. Howard Castle for a business meeting to plan for the final meeting of the club year which occurs in about two weeks. It is expected that on that day the Mrs. Clifford M. Miller of Park Ridge will be present to speak. Mrs. Miller is the president of the seventh district of the Illinois Federation of Woman's clubs. The hostess for the occasion will be privileged to invite three guests and each member, one guest.

School Band Given Praise.

The Barrington Public School band played at a teacher's meeting held in Chicago recently. Edward J. Tobin, Cook County Superintendent of schools, has this to say about their work: "Please extend my congratulations to the boys of the Barrington Public School band for the magnificent manner in which they performed. If I had not known differently I would have thought they were professionals and not amateurs."

Better Firm at St. Cato on Elgin Board of Trade.

Better was dissolved from on the Elgin board of trade Monday at 32 o'clock. This is the 19th of last week's figure.

Resolutions of confidence and regret over the death of T. E. Purcell, former president of the Chicago Better and Egg board and a member of the Elgin board of trade were adopted.

One hundred and fifty rats of better were sold to W. P. Younger of Chicago for 31 cents.

Quinton Hill Presents House.

The Dundee hill which probably will remain a Wisconsin resort until the time of the arrival of the new owners, the brothers of W. C. and W. H. Quinton, has been sold to W. C. Quinton.

W. C. Quinton, son of W. C. and W. H. Quinton, is the new owner of the Dundee hill.

W. C. Quinton is a graduate of the University of Wisconsin and is a member of the class of 1905.

BARRINGTON REVIEW

Put Names on Barns.

Comparatively few farmers place their names on their barns and seldom renew the painted address on the mail box, but if they realize how interesting it is to strangers driving through the country, we believe most of them would provide means of identification. A man from town who comes in contact very often with a farmer and knows him as his next door neighbor is often unable to drive to his farmer-friend's house. On a ten or twenty mile circuit of his own he knows comparatively few of the farms he is passing and these are almost exclusively the ones which the owner's name is displayed on the barn, etc. The bigger the buildings the more interesting the owner should be to let people know who runs them, but no matter how humble the place may be the owner of any farm should be proud that he has even only a few acres that he can call his own and should not object to acknowledging such ownership by

coupling his name to it.

Lamey & Company Barrington, sell the well known brand of Heath & Milligan paints which is put up in several handsome colors and in sizes convenient for any job.

Dennis Schroeder and Walter Seavers were visitors at Janesville, Wisconsin, last Friday.

All of the farm buildings on the Ross farm known as the Flagg farm near Palatine were completely destroyed by fire early Saturday morning. Charlie Flager, who occupied a room in the barn had a narrow escape. He jumped from his room and sustained a sprained ankle. The total loss will amount to about \$5,000 which is only partially covered by insurance. Mr. Wolf, the present owner of the farm, says the buildings will be replaced at once.

McVICKER'S.

Rochester and Chicago's production of Wm. Anthony McGuire's play, "The Divorce," moves from the Whitney Opera house to McVicker's theatre, Chicago, offering the first performance at McVicker's Sunday evening, May 12th, and continuing indefinitely. "The Divorce" appears to have caught the popular fancy and the transfer into the midst of the Loop promises much for a speedy addition to the already great list of successes of the present season.

The hill is a whole hill which shows no falling away from the great aggregations of talent which have been presented at this theatre throughout the season.

With this transfer of houses goes the same cast of merit that characterized the play at the Whitney. Numbered in the cast are such favorites as Miss Gwendolyn, Miss Virginia Pearson, who is well remembered by the patrons of McVicker's Theatre, who remember this accomplished beauty in her earlier efforts in Robert Hilliard's "A. T. Life," and Miss Elizabeth Badcliffe, Frank Lester, who is doing splendid work in the character of the Catholic priest; Edward Emory, Theodore Lewis, William W. Mayo, who is making only one appearance in "The Divorce" and in an admirable manner preserves the rôle of the question mark in his character.

From this distance it looks as though "The Divorce" will enjoy big popularity at McVicker's.

Economy
We Can Help You

You know that you should have a Stickney Engine but do you know what size will do your work most economically, both in cost of fuel and in the expenditure of your time as an engine too small to do the work is not true economy. It is not economy to overload your engine nor to run it at too high a speed. Again the right size of an engine will not give proper results unless the pulley sizes are right and the hook up is correct. This is where we can help you before you buy as well as look after you when you have bought.

Once more let us offer our help and show you the Stickney Engine—its outside igniter, its perfect cooling system, its automatic mixer, its ball bearing governor and its three point suspension.

SCHOOL NOTES.

(Written by B. H. S. students.) Report cards were issued Monday.

The botany class will begin work upon flower analysis this week.

The geometry class are receiving preparatory to a test on circles.

Both sides of the B. H. S. club are hard at work preparing for the next program which will be given up to two weeks. It will be the last program after which the side having the least credits will give a banquet to the winning side. The spirit and enthusiasm among the members predicts the best program of the year.

A greater portion of the high school attended the district contest at Des Plaines on Friday. Another pennant will be added to the one won last year, for Leah Meyer, who will take part in the county contest to be held at the Art Institute, Friday, May 10, where the other districts of Cook county will be represented.

The ball game between the first and second teams of the high school was played Wednesday. It proved an exciting game the score being 14 to 13 in favor of the second team.

WRITING PUPILS OF ROOM ONE.
The following pupils have been neither absent nor tardy during the month of April: Foster Rieke, Willard Holof, Roy Westphal, Gilbert Wiesman, Louise Dorwaldi, Minnie Lipofsky, Ruth Nightingale, Marion Schroder, Ruth Schwem, Lucile Stieferhofer, Raymond Brandt, Bertrand Kampert, Irving Nagatz, Helen Abbott, Minnie Hatzel, Dorothy Kirmse.

Enunce Butler, formerly of Chicago is a new pupil in room three.

Pupils of room five have been reading bird and Arbor day books and to verify certain statements are taking a trip to the woods.

Alma Holgland, formerly of Chicago is a new pupil of room five.

Grace Holgland entered the seventh grade Monday.

Seeds sent by the government have been distributed among pupils of the seventh and eighth grades.

The eighth grade has decided upon pale green and white for class colors for this year.

LAKE ZURICH.

Order your baseball goods of Emil Frank, he handles the Spaulding brand.

Charles Kohl has started building his bungalow in the Kofen sub-division. Ernst Branding is doing the work.

Herman Helfer has the mason work all done on his new garage and will soon be completed.

Mr. and Mrs. F. P. Clark made a trip to Waukegan Tuesday.

Charles Weaver the depot agent visited relatives in Waukegan Sunday. Charles Kohl took his place at the station.

John House went to Rockefeller last Saturday and returned Sunday.

The water tower and mules will be finished sometime next week.

Mrs. Carl Ernst and children visited her parents in Barrington Sunday and Monday.

Mrs. Fred Doolittle and daughter Gladys of McHenry are visiting relatives here this week.

The village board held a meeting Monday evening for the purpose of buying a pump and power for the water plant. By unanimous vote they agreed to buy a Keystone Drill Company pump and install a Wagner motor for power. The Public Service company is to furnish power at 4 cents per kilowatt hour.

The baseball grounds were improved last week by filling in some of the low places and being rolled. Our team is now ready for all comers. Fred Blau, our bosom artist is the manager this year.

Notes to Woodmen.

The members of Barrington Camp number 889 Modern Woodmen of America are requested to meet in their hall in Barrington Friday afternoon at 12:30 o'clock to attend the funeral of Neighbor Charles Wille.

SYNOPSIS.

Jack Keith, a Virginian, now a border plainsman, is looking for roaming war parties. He has a score to settle with the full-blooded Indians, and he is pursued by men on ponies. When Keith reaches the wagon train, he finds that his old comrade has departed. He searches the victims finding signs of Indian work. Keith is arrested at Carson City, charged with the murder, his accused the ruffians. He is sent to the Hills, a Negro companion in his cell named Ned tells him that the man he was accused of killing was one of the murdered men was John Hawley, a man General Willard, a Southern Confederate officer. The plainsman and Ned escape and later the fugitive comes to the town of Sheridan, where he is to be a young girl, whom Keith thinks he has seen. He is to be a girl because that she is in search of a brother, who had deserted from the army, and had joined the Indians. She comes to the cabin while he sought his brother. Hawley is the girl's name, and she has come to him as Black Bart. There is a terrible fight between the two, and Keith is victorious. Hawley is appropriated, and the girl who says that her name is Hope, comes to him to tell him of his situation and the difficulties make for poor living. They are to be married, and the hotel landlady, Miss Hope tells that she is the daughter of a man who was shot in the dash from Sheridan, where Keith meets an old friend, Dr. Fairbank. Keith is to be a man of the law, and under the assumed name of Fred Wilhousby, he is to be a detective. Keith learns what representations Black Bart has made to the girl, and he suggests that in order to learn the secret, she must bribe him to impersonate the state attorney. He goes to the theater with Christie Macaire and Keith induces him to do so. They are to be married, and goes to the theater where she meets General Willard, who is to be a man of hope that General Willard has suspected his plans and that they must fly. Hope, who is a widow, and Keith, who appears and says Black Bart has stolen property from the Indians, and in turn, Keith is informed that Christie Macaire's real name is Hope, and that she is the daughter of General Willard, and that she has been carried away by Black Bart. Keith is to be a man of the law, and his love for Phyllis, and she accepts him. Miss Hope is to be a widow, and Black Bart. They find that he has been to the old cabin.

CHAPTER XXXIV.—(Continued.)

"Eight hours in this," he announced soberly; then turned to Keith. "Say, Jack, what do you figure this shabang to be, anyhow? You don't know it's old Sanchie's outfit, do you?"

"Likely as not, Joe, though I never saw him around here."

Joe filled his cheet with tobacco, staring about through the darkness.

"Well, if that 'o' curse is yere now we're sure in for a right," he commented, pointing to the corral.

They rounded the corral fence on hands and knees, crawled into a bunch of bushes somewhat to the rear of the silent, desolate-appearing cabin, and lay down flat behind a pile of saddles, from which position they could plainly see the corral.

"Had them camp over there in the corner of the corral when I was here before," he said in a whisper. "Where do you suppose they can be now?"

The wary scout lifted his head, snifing into the darkness like a pointer dog.

"West of their cabin, that's out," he said, "I smell tobacco."

Even as the words left his lips a man came sauntering slowly around the eastern corner, his outlines barely visible, but the red glow of a pipe bowl showing plainly! He stopped, directly facing them, yawning sleepily, and then turned the other corner. Another moment, and they distinctly heard a voice.

"Hustle up now, Mansell, an' turn out; it's your watch; wake up, dam ye—may be that'll bring yet ter life."

The remedy applied to the sleeping man was efficacious, and in instant later, the silent figure appeared once more, the most silent, shielding his eyes with one hand, the other clutching a short-barreled gun. From the high peak of his hat it was evident this new guard was a Mexican. He walked to the corner, glanced about the place, and then, apparently satisfied the coast was clear, started toward the stream, shuffling along within a foot of where Keith lay on the ground. A moment later the man heard him splash softly in the water, and Keith rolled over, his lips quivering.

"Lie down there, Ben," he whispered, "and quiet that follow. I'll find out how many are on the west side. Do the job without any noise."

He waited until the sent had disappeared like a snake, not even a rustling leaf telling of his passing, and then, with a steady, determined step, he crept toward the west wall. There was no noise, and he was silent until he was able to peer about the corner of the cabin and study disinterestedly the broken bones of several men lying stark against the red wall. They roamed on noisy, hopeless, it was difficult to conceive, but the only hope was to finally dislodge their number one. First, the Indians would make out, and there would surely be another band, perhaps on the trail, to cover them. There were still hours, days,

there in the corral. Then the eighth man—Hawley, without doubt—must have been in the corral. Keith's teeth clinched, and he had to struggle to control his passion. But no; that would never do; he must discover first exactly where the girl was located; after that, he would attend to the curs. Before creeping back to the others, he made quick a hasty circuit of the interior of the cabin, but could find no visible point of weakness. He tried to recall from memory the nature of the lock on that back door, but could remember nothing except an ordinary wooden latch. If he could insert a knife into that crack, he might be able to open it. He dug his hunting knife for the attempt, and, first, glancing about, perceived a man creeping toward him. It proved to be Brister.

"Fixed the greaser all right, cap, and I reckon he'll be quiet for an hour or two. Look what he showed me; struck a pretty place, I suppose, but it's ticked to hell. The front of the cabin was cut wide open, and Keith thought he perceived a stain of blood. "Pricked you as it was, didn't he?"

"Opened the skin. Thought the cur had given up, an' got careless. What's round the waist?"

Keith's lips closed, his hand clutching the knife.

"Five, and another out in front, that leaves the eighth man inside. Bring our fellows up closer, and post them where they can cover those fellows asleep, while I make an effort at breakfast."

The Indians crawled back like a snake, and confident the others would do their part, Keith thrust his knife blade deep into the narrow crack and began probing after the latch. In spite of all caution this effort caused a slight noise, and suddenly he started back at the sound.

"What do you want? I am armed, and will fire through the door if you do not go away!"

His heart leaped with exultation. Keith put his lips close to the crack.

"Hope," he exclaimed as loudly as he dared. "This is Keith; open the door."

He could hear a little smothered cry break from her lips, and then the sound of a bar being hastily removed. An instant, and the door opened, slightly, just wide enough to permit a slender figure to slip through the crack, and then, with a sharp turn of the head, she was gone.

"It's old Joe Sanchez in the front room, boys," he added soberly. "And there is ten thousand dollars reward out for him dead or alive."

Joe of the "Bar X" drew in his breath sharply.

"I'll have to be dead then," he said. "It's all over, little girl," he said placidly, "you're not you safe, but there is a light to be attended to. Come with me; I must talk you a question or two."

He drew her back into the front room, placing her safely behind the

HOW TO ARRANGE GOOD MENU

Recorded Study of Food Elements is Best Way for Housewife to Avoid Errors.

Every housekeeper should be perfectly familiar with the three food products. This is the foundation of menu-making. Carbohydrates, carbohydrates and fats are the three principal items into which all foods are classified. Proteins are the muscle-builders and are found in meat, beans, peas, eggs and nuts. Carbohydrates are the starches and are found in cereals, sugar and starches. These foods produce fat and energy, such as fat, butter, lard, etc., give rest to the body. A general knowledge of these food properties as they are found in various foods underlies successful cooking as well as menu-making.

A good menu is a well-balanced meal in regard to these three food products.

A practical study of these foods is the best way to avoid errors in diet.

Do not serve several foods of the same composition at the same meal, such as potatoes, rice and macaroni.

Do not serve bean or pea soup with meat, meat, salmon and custard.

Try to have the regular diet.

A housewife should be guard against the slightest suspicious movement.

The Indian, then, would be guarding the front of the house, and Sanchez sleeping inside. Well, the former could be left alone; his chance of escape would be small enough with Brister and Ned on the opposite bank. Old Sanchez was the villain that wanted—dead or alive. With this in view, and anxious to make a quick job of it, the three entered the back room, and revolvers in hand, groped their way across to the connecting door. As Hope had described this back room, it was a dark, narrow space, with a single window, and a wooden bar. Brister forced it from the socket, not without some slight noise, and Keith, crouching down at one side, lifted the latch.

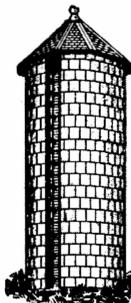

"Keep down, boy," he commanded, "where he can't hit you." With one quick push he flung the door wide open, and flung it flat on the floor. There were two sharp reports, the bullets crashing into the wall behind them, the sudden blaze of flame revealing the front door open, and with it the black outline of a man's figure. Two of the men fired in instant response, leaping readily into the yard, but were quickly left behind, the other, the "coyote" dog, slammimg in their faces. Outside there was a snarl of rage, another shot a fierce curse in Spanish; then Keith flung the door wide open, and leaped down the step. As he did so he struck a blow at the Indian, who was also leaping from his hand. Rising to his knees, the dim light of the stars revealed a man already half across the stream. Suddenly two sparks of fire leaped forth from the blackness of the opposite bank; the man flung up his hand, and then, with a yell, was down in the water, the gun deep in water. He made a dozen yards, reeling as though drunk, and fell forward, face down across a spit of sand. Keith started across the sand, and, as he did so, he struck a blow at the Indian, who was also leaping from his hand. Rising to his knees, the dim light of the stars revealed a man already half across the stream. Suddenly two sparks of fire leaped forth from the blackness of the opposite bank; the man flung up his hand, and then, with a yell, was down in the water, the gun deep in water. He made a dozen yards, reeling as though drunk, and fell forward, face down across a spit of sand. BARRINGTON, ILLINOIS

To Every Man

experienced in the use of a silo, our IMPERISHABLE SILO strongly recommends itself. Made from vitrified clay, it stands to reason that it can never crumble or decay. Neither will it shrink, swell or absorb moisture from the ensilage. All forms of concrete will absorb moisture which will cause the silo to spoil more or less, next to the wall. A well reinforced concrete silo will cost as much or more than our "IMPERISHABLE". Our silo is given immense extra strength by use of a patent channel block in which steel bars are buried in mortar, protected from air and concealed from view. This form of construction is used in grain tanks 100 feet high. Customers are protected by a warranty.

Escapes An Awful Fate.
A thousand thanks to the gratitude of Mrs. J. E. Cox, of Elgin, Ill., for her wonderful deliverance from typhoid pneumonia. She has left me with a dreadful attack of the disease. "Somehow I had such awful coughing spells," I thought I would die. I could get no help from doctor's treatment or other means till I met Dr. D. K. Newell, Discoverer. But I owe my life to this wonderful remedy for I scarcely caught at all now." Quick and safe, it is the most reliable of all throat and lung medicines. Very safe, guaranteed. 50c and \$1.00.
