doelle and healthy, and last but not least a 12-foot pythen. This latter as the second of the same many and the second of the same mouths and sheed food for some mouths and sheed food for some mouths and sheed food for the same something to eat the other day, in consequence a full-sied goat was layroused, After the goat had tried an insefectual "butt" the python caught had enveloped him in his coils, tilling him instantly. The python these sproceeded to swallow him whole, which has been supposed in two storages we have all the python a few hourses and a bulge in his middle which stutch have measured over four feet round. The animals are the property of Dr. Hersel, who is taking them home to Europe.

GAME FOR RECESS AT SCHOOL

Twenty or Twenty-Five Boys and Girls May Participate in Pastime While

Siny Participate in Fauties, write Cineping Manch.

This game may be played at recess with as many as jewenty or twenty-dire drive and the control of the players, takes the place. The farmer, another one of the extra players, tained on the outside of the ring and calls its another player, who is to outside the ring, arying: "Formo, a form is in the orchard." Then the form is in the orchard. Then the players of the control of the contr

UNUSUAL RESOURCE OF BOY

Lad With One Roller Skate Attaches It to Box and Secures Bigger Load of Wood Than Others.

Small boys were collecting firewood, where it had been thrown, out for them, at the side door of a large gro-cety establishment on upper Broad-way. There was something of a rush

Rolled It Away.

to see who would get the most, and the proud possessor of one roller state came out sheef in the seramble, says the New York Sim. Seling it orange crist, he strapped his state to one of the bottom sists and, filling the crist with wood, rolled it away on the four wheels of the state, while others were left to drag or carry their smaller loads.

SECRET OF COLORED FLOWER

SECRET OF COLORED FLOWER

Green Carnations and Pink Lilies
Made Se by Immersing Stems in
Anline Solutions.

At a recent flower show specialors
were astoniabed at the sight of oddcolored - flowers—green carnations,
pink lilies of the valley, deep scalet
were constructed by the colored control
markable of the valley, deep scalet
fully delicate and soft, and for a time
very one supposed that some clever
gardener would make his fortune from
the discovery of these new and marvelous varieties of flowers. As a matter of fact, the coloring of the flowers
was as simply done that nearly any
clever boy or girl could do it with aver
cess. The whole secret lies in imclever boy or girl could do it with aver
cess. The whole secret lies in imdever by the firm of the freeh out
