Eggs should always be handled very carefully if they are to be used for hatching. The shell is often slightly cracked by rough treatment and fails to hatch for this reason though the lightly has never been noticed. It is well to place a blanket on a table and lay the eggs on it when it is necessity to be specially the eggs on it when it is necessary to be specially the eggs on it when it is necessary in the incubator. Careful and explicit directions are sent with every matchine and they should be closely for lowed, The maker of the incubator last all interested as you can be in the successful operatings of the machine and has experimented with it until the sent of the eggs will be a superimented with it would be a superimented with the sent caulit that your eggs were placed; in the incubator at 2:00 a. m. Monday, a March 24, possibly on Saturday evening before this day, the eggs will be sent to you would be supplied to the sent the se

Representative to the National Con vocation—Edward Bloomquist of Mo line.

Murphyaboro—William S. Martin, a traveling man from Louisville, Ry, was held for the grand Jury on a charge of swearing fassely as to the grand of t

Pontias—William Hamilton, seven-teen years old, hung himself in his cell at the reformatory in this city. Hamilton, who was sent to the institution from Peoria, was serving his second term at the reformatory, having been parojed in 1995 and re-turned in 1910. It is supposed that brooding over his famility to secure lis parole is, what prompted him to commit the act.

Dixon—Edward F. Dinne, Demo-cratic nominee for governor, was the guest of honor and delivered the principal address at the commence-ment exercises at Dixon college and normal school. On his arrival at Dix-ha Mr. Dunne was met by President I. E. Edwards and eckorted to the college by a large body of students.

BABY'S ECZEMA AND BOILS

BABY'S ECZEMA AND BOILS

"My son was about three weeks old
when I noticed a breaking-gut on his
cheeks, from which a wajery substance cored. A short-time after, his
arms, shoulder's and break broke out
also, and jir a few drys became a solid
scale. I became a tarnead broke out
also, and jir a few drys became a solid
scale. I became a tarnead broke out
and the disease ecrema. The put
the fellow was under treatment for
about three months. By the end of
that time, he seemed no better. I became discouraged. I dropped the dotor's treatment, and commenced the
use of Cuticura Boap and Ointment,
the constant of the content of the
use of Cuticura Boap and Ointment,
arms and breast were decidedly beter. When he was about seven months
old, all trace of the excess was gone.
"During his teething period, his
head and face were broken oils, in
