Mr. Bryan's Career.

William J. Bryan has been so much
in the public eye for a good many

years by profession, is known to
most people as the builder of the
great system of railway tunnels of
New York city. He was born near
Marietta, Ga., in 1853 and was edu-
cated at the University of Tennessee.
In 1885 he was admitted to the bar.

Secretary of War.

and the same year he married Sarah
Houston Fleming of Chattanooga. He
entered the practice of law in New
York in 1881, and since 1901 has been
interested chiefly in tunnel construc-
tion there. He is president of the
Hudson & Manhattan Railroad com-
pany.

Lindley M. Garrison.

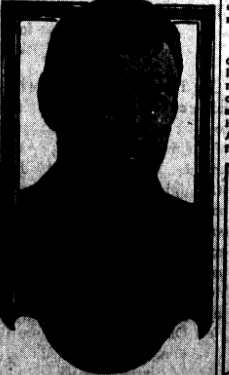

The selection of Lindley M. Gar-
rison, vice-chancellor of New Jersey, to be
secretary of war is in line with
President Wilson's idea that the hold-
er of that position should be a man
of unusual executive ability. He is a
close friend of Mr. Wilson. Mr. Gar-
rison was born in Camden, N. J., No-
vember 18, 1864. He is a son of Rev.
Joseph P. Garrison, an Episcopal

clergyman. He is a brother of Justice
Charles G. Garrison of the New Jersey
supreme court. He was appointed to
the chancery court in June, 1904, and
reappointed by Chancellor Mahlon Pit-
ney, now a justice of the United
States supreme court, in 1911 for a
term of seven years.

James C. McReynolds.
In picking James Clark McReynolds
for the position of attorney general,
Mr. Wilson selected a man who has
had a lot of experience as a "trust
buster." He is a native of Elkhorn, Ky.,
where he was born in 1852, and a gradu-
ate of Vanderbilt university and the
law school of the University of Vir-

ginia. From 1882 to 1897 he was as-
sistant attorney general of the United
States. He then returned to private
practice, but has been retained as spe-
cial assistant to the attorney general
in matters relating to the enforce-
ment of the antitrust laws. Mr. Mc-
Reynolds is married.

Albert G. Burleson.

Albert G. Burleson, formerly Post-
master General, was born in

congressman from the Tenth district
of Texas and was re-elected to the
Sixty-third congress. He was born in
San Marcos, Tex., in 1852, was edu-
cated at the Agricultural and Me-
chanical College of Texas, Baylor uni-
versity and the University of Texas,
and was admitted to the bar in 1880.
He was assistant city attorney of Aus-
tin for several years before going to
congress. Mrs. Burleson was Miss
Adelle Stager of Austin.

Josephus Daniels.

Josephus Daniels, secretary of the
navy, is the one newspaper man given
place in the cabinet. He has also
been active in politics and is the mem-
ber of the Democratic national com-
mittee for North Carolina. Mr. Dan-
iels was born in 1852 at Washington,
N. C., and began his newspaper ca-
reer at the age of eighteen as editor
of the Wilson (N. C.) Advance. In
1885 he became editor of the Raleigh
State Chronicle, which nine years later
he consolidated with the North Caro-
lina and the News and Observer.

commission since 1906, and this expe-
rience is believed to have fitted him
for the executive and judicial tasks in
administering the public land laws of
the country. Born in Prince Edward
Island in 1854, he received his educa-
tion in the University of California
and became a lawyer in San Francis-
co. Prior to his designation to the
commission he was a Democratic po-
litical leader in California. He was
Democratic candidate for governor,
being defeated by a narrow margin.

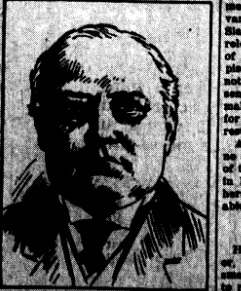

DAVID A. HOUSTON,
Secretary of Agriculture.

subsequently he was the Democratic
nominee for United States
senator.

David P. Houston.

In David Franklin Houston, chan-
cellor of Washington university, St.
Louis, Wilson has a secretary of ag-
riculture who is familiar with the pro-
cesses of advancing scientific farming
and allied questions in this country. Mr.
Houston was president of the Texas
Agricultural and Mechanical college
for a number of years, and has taught

in 1870. The next year he began
working in the Pennsylvania coal
mines, and from early manhood he has
been actively interested in trade union
affairs. For eight years he was in-
ternational secretary-treasurer of the
United Mine Workers of America. He
is now engaged in farming. Mr. Wil-
son has been a member of the last
three congresses, representing the fif-
teenth district of his state. He is
married and has nine children.

CONSORT PICKED BY ROYALTY

Somewhat Summary Method of Mating
as it is Done in the Kingdom
of Siam.

Kings of Siam apparently do not be-
lieve in the wisdom of allowing single
women to drift unattached about the
country. In certain districts after a
girl has reached an age where her se-
lecting for herself a husband is con-
sidered doubtful, she becomes a
"daughter of the king." That is, the
king takes upon himself the task of
selecting her suitably in life.
His process is quite simple, and to
the point. He proceeds to the Sis-
sime penitentiary and looks over the
various prisoners. There is a law in
Siam that any prisoner can obtain his
release by marrying one of this class
of girls, and, naturally enough, any
pioneer whom the king picks out is
not likely to be backward about con-
senting to the ceremony. Nor does it
make any difference if he is married,
for the men of that country are not
restricted to one wife.

As far as can be learned, there is
no allowance made for the facilities
of the girl in question. She has failed
in her mission in life as far as she
himself is concerned, and she must
atone by the decision of the king.

Cream Cane Soup.

Heat a quart of milk in a milk bot-
tle, or milk scalded easily; press a
small bit of butter through a strainer
to remove lumps. If the milk does not
go through the strainer well, pour the
milk into it; this will help to remove
the lumps at the bottom. Add a lump of
butter the size of a walnut and stir
and salt to suit the taste. Heat
the whole of one egg in a milk bottle
and add into the soup lightly a few
scallops before serving.

Chopped Meat

is a nutritious food that should
be more generally used. On a

that will not cut to advantage, but
are as sweet and tasty as the best
steak. We chop it for you, with
or without an onion, and give you
a dish for your meal that is both
satisfactory and economical.
