GOOD LOOKING MEN

Are Always Successful in Business

USUALLY ATTRACTED BY THE FAIR SEX

Here is the Secret

The men of Chicago have suddenly acquired an attractive complexion. The reason for this is, that they are now shaving their faces with the new process, called "the Velvet-Razor Safety Razor," which gives their faces that velvety smooth skin to the constant shaver.

You men who use safety razors and want a velvety skin, shaved with the delicate softness so much desired, with a keen cutting edge, send your dull safety razor blades at once to Chicago, and have them sharpened by the new electrical process, which makes the dull blades "like new" the new, and your old blades are returned to you a perfect new blade.

Do not think that your razor blades are dull, and that you are not shaving well, until you have had your blades sharpened by the new electrical process, which makes the dull blades "like new" the new, and your old blades are returned to you a perfect new blade.

Kay-Bee feature film in two reels

"When Lee Surrenders"

by the author of "Custer's Last Fight"

See the mighty struggle between two great forces—horses and riders shot down in full gallop—Caissons blown up by bursting shells—1,000 soldiers engaged in battle. A colossal production which will make the trade mark "Kay-Bee" famous throughout the world. \$2,000 worth of powder was burned in producing this film.

R. W. Gracy, Mgr.

Charm in Small Courtesies. Small kindnesses, small courtesies, small considerations, habitually practiced in our social intercourse, give a greater charm to our character than the display of great talents and accomplishments.

In the International Family. "You don't figure very strongly in diplomatic relations," said the great Nation. "No," replied the small, struggling government. "I'm one of the poor relations."—Washington Star.
