## You, and Your Neighbor

and your neighbor's neighbor—all cannot expect to be fitted with ready-made suits, drafted from one pattern. It is not reasonable, for no two men are alike in physical proportions. The only sure way to secure a perfect fit is to have your clothes tailored to your individual measurement—that is admitted. And it naturally follows that the place to get them, in this locality, is at our tailoring department, because our fabrics are the best guaranteed all wool cloths that can be purchased, we have an almost unlimited variety of samples from which you may choose, our workmanship is of the best, and our word is backed by a guarantee of satisfaction or no pay.

Overland Model 71 T  
\$1475, Fully Equipped

You should know that the motor and rear axle are the most important parts of any car.

The OVERLAND motor has given so much satisfaction that it has been only slightly changed in five years.

The rear axles are so designed that they simply turn the wheels, and the axle housing carries all the load, while nearly every other car in the \$1,000 class use semi-floating axles. In this case the axles are required to carry half the load, besides driving the car. If you are buying a car look particularly at the power plant and rear axle.

## Idleness Again in Good Order.

It is now declared that the idle are not necessarily lazy, and that hustling conversation does not necessarily prove one is making good among the busy bees.

Wise Hubby.

"I know my husband is thoroughly a business man," remarked the knowing wife, "for whenever he receives a letter from me he first reads the postscript to see how much money I want."

Then He Thought Again.

The young man was fighting out ways and means. "They say two can be as cheaply as one." "Do not decide yourself, Ferdinand," said the girl. "For one thing, I shall positively have to have a separate car."

Daily Thought.

Lift up yourselves to the great meaning of the day, and dare to think of your humanity as something so divinely precious that it is worthy of being an offering to God.—Phillips Brooks.

Mother's Recanted Charity.

A school teacher in Goldensland, Holland, was violently attacked recently by parents of some children to whom, in the course of a lesson on little rings, he had given some necklaces to eat. "We can afford to give our children food," declared the indignant parents, "and we need no necklaces from the teacher."

## CHOPPED MEAT

## Chopped Meat

is a nutritious food that should be more generally used. On a side of beef there are many pieces that will not cut to advantage, but are as sweet and tasty as the best steak. We chop it for you, with or without an onion, and give you a dish for your meal that is both satisfactory and economical.

Garden Where Once Was Lake.

On the Lake of Harlem—it was 70 miles square—where the fleet of William of Orange fought the Spaniards and relieved Leyden, there are now, as on the shore of many another lake in Holland, superb farms, market gardens and nurseries. The pumping away of the water was done by great engines.

Luxury of Today.

Among the many luxuries of our modern civilization is the occasional chance to make an honest living—Puck.

But Not for Help.

"What did you do when you found the 'Job'?" No; I looked for vitamins.—Chopped Meat Dealer.
