LOBBYIST NAMES MANY HIGH UP

Martin Mulhall, Former Agent of Manufacturers, Makes Sensational Disclosures.

CALLED TO GIVE TESTIMONY

Prominent Congressmen Are Accused of Being in Pay of Association—Charges Are Denied by Officials of Manufacturers' Body.

Washington, June 30.—Martin M. Mulhall of Baltimore, who declared over his own signature that he had been for the active "field agent" and lobbyist of the National Association of Manufacturers, has been subpoenaed to appear before the senate lobby investigation committee. Further sensational disclosures are expected.

The subpoena was ordered by Chairman Overman of the lobby investigating committee after representations had been made to him that Mr. Mulhall was willing and able to give the committee important facts regarding attempts to influence legislation, to elect or defeat candidates for congress and to control the make-up of committees in congress.

Says Congressmen Were Paid. Direct charges of lobbying and of congressmen being hired and paid were made in the statement made by Mr. Mulhall, who purported to give there in experience as "chief lobbyist" and field agent of the National Association of Manufacturers" between 1903 and 1911.

In the statement, the forerunner of several others, were given names of scores of present and former members of congress who, he alleges, were "subservient" or who were deflected for offices by the association when they failed to follow its beck and call.

Even pages of the house of representatives were named as agents of the association in getting clandestinely information on pending legislation that might be used.

The tale tells of the loss of postal franking charges the illustration of committee members in congress not considered favorable to the manufacturers, declares that the Tariff tariff commission was brought about by manufacturers to put off revision of the tariff, and adds that in his time of service Mr. Mulhall spent \$200,000 in the aforementioned interests of the manufacturers, as well as at strikes, labor leaders in breaking up strikes.

Includes mention of a futile effort to bribe Samuel Gompers, president of the American Federation of Labor, with \$40,000.

Details an "insidious" lobby. Mulhall's statement endeavors to establish, among other things, the following:

The National Association of Manufacturers backs an "insidious" lobby in Washington with 5,000,000 members having \$10,000,000,000.

That, while ostensibly a nonpolitical organization, it has had, through the National Council for Industrial Defense, virtual charge of tariff legislation in this country, "making and breaking" public servants as suited its purpose, expending huge sums of money.

That it has bought and bribed union officials in breaking up strikes.

That it has had the making of congressional committees within its power.

That the association was solely responsible for the Tariff tariff commission.

That congressmen were hired outright.

That a great lobby staff was maintained.

That congressmen were aided in their campaigns if favorable to the manufacturers.

That even ministers were used to defeat labor unions.

Mr. Mulhall gives a list of names of men prominent in public life who dealt with him in the secret lobby work in congress. He also designates certain officials as having received financial reward for their services to the manufacturers, or for political purposes while in office. A long list of names is given of men whom Mr. Mulhall claims were the lobbyists for the association. Names of many public officials whose elections were bought with money and influence by the association, sometimes successfully, are given in Mulhall's allegations.

Mr. Mulhall's statement described the lobby as being in half a dozen states with money and with orders from the association to do everything in its power to elect or defeat certain candidates for office.

Makes Second Statement. In a further statement Colonel Mulhall cites, as an instance of the association's work, the alleged lobby work, several letters bearing the following:

A Modern Trend. "The up-to-date woman believes in calling a spade a spade."

"That's true, and it's very trying on the old-fashioned man who has not yet reached the point where he can discuss eugenics in mixed society without appearing embarrassed."

typewritten signature "No Sig." with no address and no plain paper. These, the colonel asserts, came from the secretary of the National Association of Manufacturers.

The "No Sig." letters contain warnings to be careful against exposing the methods of the lobby. Colonel Mulhall was warned against running up a large expense account, because "at the very best they are not going to be enough money to go around."

"You can get along without paying for much of anything," the letter adds, "but only think of it. Remember that you are very generous."

Letters from Secretary Schwedtman later indicate that other directors of the Manufacturers' association thought Colonel Mulhall was letting his expenditures run too high.

Emery Makes Reply. Mr. Emery, counsel for the National Association of Manufacturers, said:

"The statement of the alleged Colonel Mulhall illustrates the most dangerous and the most far-reaching hood—that which fabricates a tissue of lies on a slight foundation of truth. It is the very best thing that has happened to the National Association of Manufacturers for a number of years, in co-operation with many business associations, opposed legislation proposed and persistently denounced by employers' associations, for the purpose of relieving labor combinations of civil and criminal liability for their acts in furtherance of trade disputes and for the purpose of crippling the power of the federal and state courts, to give equitable protection to personal and property rights of employers and employees threatened with injury or destruction in the course of such disputes.

Fought in Open. "The opposition of this association to such measures has been so secret, but it has sought every way to give publicity to these proposals, to the nature of the forces behind them and to the character of the support which they were receiving from public men in the hope that, public attention being attracted to them, public opinion would be aroused against such a measure."

"During the course of this contest organized labor has undertaken to elect representatives pledged to its proposals and persistently endeavored to defeat public men who opposed its demand that labor combinations be exempted from the general penal and civil law and that injunctive protection be withdrawn from the property and rights of employers engaged in labor disputes, and this has sometimes resulted in the famous Littlefield campaign in Michigan. The association has appealed to its members and to business men generally to give support to public men who dared to oppose such pernicious demands."

Tells Mulhall's Work. "Tells Mulhall's work in some instances, and that of public men in other cases, to enlist the legitimate support of business men in an effort to defend their own elementary rights and protect their property from their plain performance of duty."

"It has been likewise part of the duty of the Washington office of the association to watch the inquiries of members of business associations with respect to pending legislation. To this end Mulhall frequently collected and arranged for the collection of documents and business interviews of members of congress with respect to progress of legislation."

"The statement that any of the public men named in Mulhall's charges were ever in the employ of the association, directly or indirectly, while in office of public office, is a sinister and disabulous lie. The statement that any room in the capitol was ever placed by any one at the disposal of any of the officers or agents, or that any page or other servant in the service of congress was in its employ, directly or indirectly, is no less maliciously untrue to the individuals named than to the National association or its officers."

"A prompt investigation by an existing committee, which his association would warmly welcome, will bare the motives of this vengeful assassin of public men. It might also expose the character of the lobby lobby which makes our efforts necessary."

Would Broaden Guilt. "The lobby investigation has gone far beyond its original scope," said Chairman Overman of the senate, "any course for us to pursue but to ask for more power from the senate and go into every phase of the remarkable situation that has been developed."

"It was informed that Mr. Mulhall had information that bore directly upon the pending work of the senate upon legislation in previous congresses, which is outside the scope of the resolution under which we are working."

"It is my personal opinion that the committee should ask the senate for full authority to go into any angle of legislative lobbying in any previous congress."

Dreaded a Collection. "I have a message for the world," said the gloomy individual on the platform.

"Do you go any further," spoke up a man in the rear of the hall, "please tell us whether or not your message is prepaid."

Two Classics. "All men may be divided into two classes—those who like vanderville and those who like it when they are drunk.—Smart Set.

WAR OF ALLIES IS ON

GREECE TO BEGIN HOSTILITIES AGAINST BULGARIA WITHOUT DECLARATION.

BULGARS IN GENERAL ATTACK

Battle Now Raging Along a Front of Hundred and Forty Miles—Believed That Serbia Will Be Aided by Three Nations.

Berlin, Germany July 2.—The correspondent at Athens of the Frankfurt Gazette was on Tuesday notified by the Greek foreign minister that Greece intended to begin war against Bulgaria without any formal declaration of war.

The foreign minister made the following statement: "After Bulgaria has answered all the conciliatory steps of Greece by repeated breaches of treaty and by crossing the provisional boundary fixed a short time ago, the Greek government feels forced to give to Macedonia the status of a province of the empire to assume the offensive."

War will in this way commence without a formal declaration, and the Greek government will submit a statement in this sense to the Bulgarian government at Sofia. Greece declines to accept the responsibility for the war, which unquestionably will have grave consequences."

The Greek legation here received an official dispatch from Athens stating that the Bulgarians had launched a general attack on the Greek and Serbian positions in Macedonia against a front of 140 miles.

Belgrade, Sunday, July 2.—The Serbian parliament on Tuesday agreed to the acceptance of arbitration between Serbia and Bulgaria, offered by the proposed conference between the Balkan powers at St. Petersburg.

Thirty-six thousand Bulgarians attacked Guevgeli at five o'clock Monday morning and defeated the Serbians, thus cutting railroad communication, and it is reported that a strong Greek force is surrounded by Bulgarians and is in a critical condition.

London, England, July 2.—The Times' Belgrade correspondent sends the following:

"Nobody here doubts that war has broken out and that Montenegro and Greece, and probably Rumania also, will support Serbia."

The Bulgarians have not omitted any act which accompanies a decisive rupture. Communication between the nations is severed.

Fighting between the Greeks and Serbians on the one side and the Bulgarians on the other was still proceeding all along the line from Ispit to Eleuthera, according to a dispatch from Sofia.

All the governments concerned declare that their troops have been instructed not to take the offensive until attacked, and each party is trying to throw on the other the responsibility for the commencement of the war by provocations which hitherto had been allies.

FLIES ACROSS LAKE MICHIGAN

Aviator Vilas, Carrying a Passenger, Makes Flight From St. Joseph, Mich., to Chicago.

Chicago, July 2.—James Vilas flew across Lake Michigan from St. Joseph to Chicago in an airboat on Tuesday. Vilas, the first man to accomplish the feat, carried a passenger and made the journey of sixty miles in one hour and 35 minutes.

"The trip was as easy and pleasant as could be," said the aviator a few minutes after he landed. "We had fine weather all the way; a light westerly wind and a clear sky. It was delightfully cool. We followed the steamship course all the way, and saw smoke over Chicago long before we could make out the city itself."

GIRL SUES GOVERNOR SULZER

Miss Mignon Hopkins Files Suit Alleging Breach of Promise Against New York Executive.

Philadelphia, July 2.—Miss Mignon Hopkins, the daughter of a well-to-do Brooklyn attorney, now dead, entered suit in this city on Tuesday against Gov. William Sulzer of New York for breach of promise. Miss Hopkins, who is one of three attractive sisters, stipulates the date of her engagement to the governor as at her maid says that she has indicated letters from him to show that he intended to make her his bride and that he filed her and married her in Atlantic City on January 8, 1906.

Woman Stills Ailed Delivery. Doctor Ill, July 2.—A woman's nerve and quick work saved the life of Sheriff Frank Cook, her husband, and prevented the escape of 50 prisoners from the county jail, when she procured a revolver and held off a mob.

French Best "Yankers" at Golf. La Baille, France, July 2.—France won the international golf match between teams of professionals representing France and the United States. The Frenchmen beat the Americans in all of the four single matches.

Count Rial Strika Veto. New York, July 2.—Eastern railroads are confronted with another serious dispute that may hamper traffic. The counting of the strike vote of 190,000 trainmen on 45 roads was begun here on Tuesday.
