<b>Total.....</b>	<b>1,777.75</b>

The board of the village trustees, with C. P. Hawley and H. D. A. Grobe as auditors, was in session.

A letter was received from the officials of the Elgin, Joliet & Eastern Railroad company, asking that they be allowed to install a water hydrant near the crossing to furnish their employees with drinking water. The road had made this request some time ago and it had been granted, but the clerk was instructed to write them again. The conditions are that the company do all of the work, with the exception of making the tap, and furnish the meter and hydrant.

The trustees discussed the crossings about town, some of which are in extremely bad condition, and it is probable that new ones will be installed as soon as possible. Among the crossings mentioned were the Chicago & Northwestern railroad crossings at Main and Walnut streets. Considerable faith has been found with the condition in which they are kept, and Trustee Plagge, who is chairman of the street committee, was instructed to confer with the officials of the road, asking them to put the crossings in better repair and keep them so.

The annual tax levy ordinance, making a total levy of \$5,000, was passed, and is published in another column of this issue.

The septic tank has not yet been put into condition to take care of the sewage, and the matter has arisen before the village fathers, who Monday evening asked the president to "get after" Engineer Stone, and instruct him to see that the work was completed at once, authorizing him to call the village attorney to his aid if necessary. If the engineer seems unable to persuade the contracting company to take care of the matter, the trustees will then call upon their bondman, an eastern surety company, and it is likely that no time will be lost in this.

George Atkins is present to ask about the street lights in Landwehr's subdivision, and persuaded the board to order the installation of a light at the intersection of Limits street and Hillside avenue.

**Dorothy Webb Wedded.**

Miss Dorothy Webb, oldest daughter of Mrs. W. E. Webb of Chicago, who has a summer home north of Barrington, was married in Chicago Saturday, June 28, to Wheeler Hammond of this city at the home of Rev. Dr. Foster, a Hyde Park Episcopal clergyman. Mr. and Mrs. Hammond are residing in Chicago at present but will depart soon for a honeymoon tour in Europe.

An Acton policy is a savings account as well as an insurance. Buy the complete protection plan. See account of several settlements in this issue. Emma K. Smith and J. O. Fowler, agents.

**Must Muzzle Your Dogs.**

The village ordinances provides that all dogs allowed to run at large within the limits of the village between the first day of July and the fifteenth day of September must wear a muzzle, and provides a penalty of \$10 to \$100 for violation of this ordinance.

Notice has been given, and it compels all owners of dogs to comply with the ordinance at once, as the village marshal has been instructed to see that it is strictly enforced.

He has found it necessary to kill two dogs this week and others will be disposed of if found without a muzzle.

It might be mentioned, too, that the dog is expected to wear the muzzle over his face in such a manner as to prevent him from biting if he should be so inclined. The other day an Elgin mast came down town, accompanied by his dog, with the muzzle affixed to his dog's tail. He contended that he was complying with the law, as the ordinance did not state where the muzzle must be worn. If he had consulted Webster he would have found that a muzzle is a "fastening or covering for the mouth of an animal to prevent vicious biting," and would have had no doubts in regard to placing it properly.

**Can't Shoot Ducks.**

Although state game and fish laws provide an open season in which ducks and geese may be hunted, a new federal law, says an exchange, prohibits the shooting of these birds. The law went into effect as a rider in the closing days of the Tamm administration, it is said, and provides a fine of \$100 and 90 days in jail for shooting a migratory bird, and applies to every portion of the nation. As ducks and geese are classified as migratory birds it will be impossible to hunt them any place in the United States in the future, if this law is a fact.

It will be well for local sportsmen to make sure of this before going out when the hunting season opens this fall.

## NEWS OF THE FARM AND DAIRY

**Notes of Comment and Interest to Local Agriculturalists and Milk Producers.**

Milk producers in the southern part of the state have formed an organization patterned after the Milk Producers' association of this section, and are whipping it into shape in order to be able to have something to say this fall when contract time comes around.

Dairymen have become imbued with the picnic idea and a number are already announced. Probably the largest will be the combined picnic of the Boone and McHenry county milk producers, to be held at Harvard, July 30. Others will be held later at Dundee, Palatine and Huntley.

A Macoupin county bank, one of the oldest financial institutions in that county, has suspended because they have been "unable to collect loans, and in many cases unable to get the interest." The bank has always depended upon the farmers and they cannot pay. There has been little rain for two months, and the crops are dying.

The Borden Dairy company has secured an option on two acres of land on the Bauman farm at Langenhelm and plans to erect a factory there in time to be in operation this fall. Representatives of the company already have 13,000 pounds of milk contracted for the winter season from farmers in that vicinity.

**NEIGHBORHOOD ITEMS**

William Ellis of Graylake, editor of the Searchlight, is a candidate for congress.

The annual McHenry county fair at Woodstock will be held this year August 26 to 29.

Three Richmond citizens were prosecuted by the heat last week but all have recovered.

The Chicago Motorcycle club has announced that the International Motorcycle road races will be made an annual event. The first races were held over the Elgin course July 4.

Fred Klaus, an 18-year-old Chicago youth, was drowned in the Fox river near Cary Sunday.

Waukegan's new national bank, the fourth bank in that city, opened its doors Monday morning.

The village of Des Plaines has just contracted for three miles of concrete paving.

**SHORT LOCAL ITEMS.**

The Young People's Missionary Society of the Salem church give an ice cream social on the church lawn this evening. Good music will be one of the attractions.

Mr. and Mrs. E. R. Zimmerman and daughter Lydia visited for a few days last week with Mr. and Mrs. Charles Thies returning to their home in Chicago Sunday.

Lloyd Robertson is visiting with Barrington friends. He returned from Carlisle, Arkansas, about three weeks ago, but has been spending most of his time since in Chicago.

Frank Warren, former chauffeur for H. W. Hahn, who has been in trouble several times in this village for exceeding the speed limit, was arrested Saturday Sunday for speeding, and released under \$200 bonds.

An ice cream social will be given by the women of the people of St. Paul's church next Wednesday evening, July 16, on the church lawn. Ice cream, cake and candy will be sold, and added attractions will be a fish pond and grab bag.

Mrs. P. A. Hawley, who is enjoying an automobile trip in the east with her husband, Mr. and Mrs. Henry Dooley, writes last from "We are in the White mountains. Have been in the mountains three days. The country and scenery is lovely, and we are enjoying a fine trip."

**Speeder Given Fine.**

Marshall Peters arrested R. G. Kline an Elgin autist, Tuesday, for exceeding the speed limit, and took him before Police Magistrate Bennett, who gave him a fine of \$2.00 and costs, and warned him not to do it again.

**Government Sues "J" Road.**

The government is suing the Elgin, Joliet & Eastern railroad for \$3,000 for alleged violation of the nine hour work law that applies to train dispatchers.

**Elgin Butter Market.**

Butter sold on the Elgin board of trade Monday at 24 1/2 cents, the same price as a week ago.

Protect your family and yourself by buying an Acton policy. Read account of several settlements in this issue. Emma K. Smith and J. O. Fowler, agents.

## FIRST STATE BANK OF BARRINGTON OPENED ITS DOORS TODAY; CAPITALIZED AT \$50,000

The First State Bank of Barrington this morning took over the business of the Barrington Bank of Robertson, Plagge & Company. The latter bank has had the confidence and patronage of the people of Barrington and vicinity for about twenty years. For the present the new bank will continue to occupy the quarters formerly occupied by the old bank, but in addition has the second floor of the H. J. Lagaschulte building, which it will use for directors' meetings, and for conferences between its officers and patrons of the bank.

The new bank has on hand, ready for its depositors, new pass books and check books. Permanent stock certificates will be delivered to the stockholders upon surrender of the interim certificates, which they received when they paid their stock.

The new bank will make a number of changes in the conduct of the business, the more important of which are the following:

**Savings Accounts.**

Savings' accounts of one dollar and upwards will be received, and will bear interest at three per cent, payable on January 1 and July 1. It is expected that many Barrington people having savings accounts in Chicago and elsewhere, will show their loyalty to local institutions by transferring their accounts to the new bank. In order that this may be done without loss of interest, interest will be credited from July 1 on all savings' accounts opened up to the close of business on the evening of Saturday, July 12. Interest at three per cent will also be paid on time certificates of deposit running for six months or longer.

**Business Hours.**

The bank will be open for business continuously from 8:00 o'clock in the morning until 3:00 o'clock in the afternoon on all days except Saturday, instead of being closed during the noon hour and remaining open until 4:00 o'clock in the afternoon, as heretofore. This change will accommodate many people who desire bank facilities just before leaving on the noon train.

On Saturdays the bank will close at 12:00 o'clock noon, thus affording the cashier and assistant cashier a regular Saturday afternoon outing, but will be open each Saturday evening from 6:00 to 8:00 o'clock.

**Statements.**

Instead of requiring depositors to leave their bank books to be written up, monthly statements, accompanied by the cancelled checks for the preceding month, will be handed the customer.

**Hall Clerks Have Outing.**

A vigorous "scrub" game of basket ball, boat rides upon the Fox river and a swim in its waters, a liberal use of swings and hammocks and the demolition in record time of a cafeteria supper—these were the features of the distribution of \$450.38—all helped to make memorable to the employees of C. F. Hall company, Dundee, their twenty-fifth anniversary outing, held Monday evening at Weary Willows camp above Carpenter's Grove.

In order to give the more opportunity for a good time, it was announced that the store would close at 4 o'clock at which hour the party was taken to camp by bus and auto. There they were left largely to their own devices. There was no formal program, even the checks (which averaged about \$27.00 each) being distributed with no other comment than that, owing to the increased sales of the past six months, all were larger than for the corresponding period of 1912.

Boating and ball playing filled in the bulk of the time until supper. After the inner man had been well fortified courage was mustered for the swim, but even this failed to dampen the ardor of the company, who, on emerging from the water, gathered about the blazing camp fire to an impromptu concert of songs, German and English, terminated only by the arrival of the vehicles which were to take the guests home.

This, their twenty-fourth semi-annual dividend, brought the amount distributed by the C. F. Hall company to their employees since the adoption of their profit sharing plan to a total of over \$12,000.

**Atkins Sold Restaurant.**

George Atkins has sold his restaurant on Main street to his mother, who will assume charge at once, and will be assisted in conducting the business by her daughter, and son-in-law, Mr. and Mrs. Murphy. Mr. Atkins and family will make their home in their new house in Landwehr's sub-division and he will devote his entire time to the plumbing business.

**Cost of Oiling Streets.**

The bills for the oiling the village streets this summer have all been received and paid and it is found that the total cost is \$1,427, thus it will be seen that the appropriation of \$1,500 made by the village board was quite sufficient. The money covers the cost of the oil and labor in applying it and includes payment for the oiler. The oil is doing excellent service in keeping down the dust and predictions are that it will easily last through the summer, hence everyone is well pleased.

**Rain Heartily Welcomed.**

This vicinity was visited by a nice shower Tuesday afternoon to the delight of the farmers and all those dependent upon them, which means everyone. It is the grain raising season, giving the corn new life and putting vigor in the late potatoes. The only regret seems to be that we did not get more rain, the dry and parched soil would have welcomed much more. Neighboring cities and villages to the west, southward and northward of us did not fare so well, however. They all got rain, lots of it, and with it a hurricane which demolished buildings, put lighting and power lines out of commission and played havoc generally. Elgin probably fared the worst, all business being practically suspended there for several hours.

**Hours of Sprinkling.**

Supt. of Waterworks, Peters complains that some citizens of this village have been found using city water for sprinkling purposes outside of the regular hours. The hours during which water patrons are allowed to use the water for sprinkling of lawns are from 6:00 to 8:00 o'clock in the morning and from 5:00 to 7:00 in the evening. This allows four hours every day for sprinkling, perfectly ample time for everyone. Mr. Peters has given notice regarding the hours through the columns of The Review, and says he does not propose to allow any more violations, but will shut off the water where people do not conform to this rule.
