

## FIVE NAMED ON WEST PARK BODY

W. F. Grower Will Succeed W. Kolacek as President.

### SHAW SLATED FOR STATE JOB

Chicago Man Will Be Appointed Member of Rivers, and Lakes Commission to Succeed Isham Randolph.

Springfield.—It is known to a certainty that the governor appointed five new members of the West Park commission. William F. Grower, who was appointed several weeks ago, will be the president of this board, to succeed William Kolacek.

No official announcement of the other appointments were made, but the new members of the commission will be seated in the governor's room and assured that their commissions were ready. They are:

John Andra, Thirty-fifth ward; Michael Kollas, Seventeenth ward; Edward Mullin, Thirtieth ward; James C. Denir, Thirteenth ward; and Peter J. O'Brien, Nineteenth ward.

George Nye, Republican state committee man of the Sixth district, has been mentioned as a possible candidate for the seventh place on the board. Timothy Cruise, Thirty-fifth ward, will be secretary of the board and John Lelboky, administrator.

Walter A. Shaw, who was acting city engineer of Chicago while Governor Dunne was mayor, will be appointed a member of the state rivers and lakes commission.

Mr. Shaw will succeed Isham Randolph of Chicago. A salary of \$2,500 is attached to the position. Under the present system, the secretary of the legislature, the commission will be in charge of the construction of new levees along the Ohio and Illinois rivers and will have extensive powers over improvements along the rivers and lakes commission.

The other members of the rivers and lakes commission are Arthur W. Charles, who was appointed chairman by Governor Dunne several months ago, and Thomas J. Healy of Chicago, holdover Republican member, who probably will retain his post under the present administration.

Gov. Frank O'Brien has decided to put a Chicago man on the board of administration, which since its creation four years ago has been composed entirely of down-state men.

James Hyland of Chicago is said to be the governor's choice for the position.

Former Mayor O'Connor of Peoria, who has been serving as a non-voting member of the board, will now be retained as a majority member. Mayor Fred Kera of Belleville holds the other Democratic place on the board. He was named in the spring. The two Republican places will not be filled for some time.

#### State "U" to Enlarge.

The board of trustees of the Southern Illinois State Normal School has decided the following teachers to the corps for the coming term: Superintendent of training school, W. A. Furr of Jacksonville; principal high school department, Prof. Frank G. Warren of Mount Vernon High school; director of athletics, William High; principal of high school; instructor of mathematics, Prof. Ward Taylor of University of Illinois; assistant in department of agriculture, Prof. Bruce Piper of Sumner; teacher of shorthand and typewriting, Miss Emma Thorburn of the Jacksonville High School; dean of women, Walford of Bloomington; assistant director of music, Raymond Moore of Carbondale.

#### Illinois Valley Fair.

The twenty-sixth annual Illinois valley fair opened at Griggsville with one of the greatest crowds in the history of the fair. Never before has there been such a line of concessions. In "regarding the dental school at the university," said E. J. James, president, "we will establish one of the few really scientific dental schools in the country. It will prosecute a scientific research work pertaining to dentistry, dental bacteriology, on lines similar to those of the Roosevelt Institute. Our organization is sufficient to make the work of worldwide attraction, and we intend giving full and free scope to it."

The building program for the coming year calls for the expenditure of \$1,000,000 or more, the principal items being:

A chemical laboratory costing.....	\$20,000
A commercial building costing.....	125,000
A school education hall.....	200,000
An engineering hall.....	100,000
A boiler house.....	65,000
A dormitory.....	65,000
A carriage building.....	65,000
A stock holding building.....	65,000
Cultural buildings.....	65,000

For an extension of the present university campus and for an enlarged university building \$400,000 was voted.

The budget for the salaries of the officials for the year 1913-14, \$1,147,229, is an increase of \$25,000 over the last year, according to President James, owing to the increased faculty membership and other new duties attending upon the operation of the institution.

#### Names Aligned Commission.

Governor Dunne has appointed as members of the commission provided for by act of the last legislature to erect a monument to the late Gen. John F. Almond the following: Joseph S. Martin of Chicago, chairman; Senator John Waage of Chicago, Louis F. Post of Washington, D. C., assistant secretary of commerce and labor; Daniel L. Crighton of Chicago and Representative Charles A. Koch of Belleville. The monument will be erected in Chicago and the appropriation is for \$25,750.

#### Judges Are Assigned.

Judge Crighton announced the assignment of judges of the Seventh judicial district for the ensuing year of 1913-14. The assignment is as follows:

St. Joaquin County.—September Term—First Monday, Judge Crighton.

November Term—First Monday, Judge Crighton.

January Term—First Monday, Judge Crighton.

March Term—First Monday, Judge Crighton.

May Term—First Monday, Judge Crighton.

July Term—First Monday, Judge Shirley.

January Term—Fourth Monday, Judge Shirley.

Morgan County.—November Term—Second Monday, Judge Thompson.

May Term—Second Monday, Judge Thompson.

Scott County—October Term—Fourth Monday, Judge Shirley.

April Term—Second Monday, Judge Thompson.

Green County—September Term—First Monday, Judge Thompson.

February Term—Fourth Monday, Judge Thompson.

Jasper County—September Term—Fourth Monday, Judge Thompson.

March Term—Third Monday, Judge Shirley.

**Counties to Improve Roads.**

At least two counties in central Illinois—Sangamon and Christian—are expected soon to take steps toward benefiting from state roads legislation enacted by the state general assembly.

More than a dozen other counties have applied for aid as provided in the Tie law.

The author of the bill which became a law, Homer J. Tie of Greenview, stopped in Springfield while going to and from Taylorville, where he delivered an address before Christian people supporting the "State Aid Roads." Attendance at the meeting was large and Mr. Tie's address was received with enthusiasm. The meeting, toward the close, resolved itself into a question bee, in which a marked interest was manifested.

The board did not take immediate action, but the author of the bill of the meeting is expected to take steps soon toward a county movement for better roads.

At the conclusion of the meeting Representative Walter Provine and Phil S. Hauer, both of Taylorville, drove Mr. Tie to this city, which he reached in time to take part in the meeting for the Tie law.

The other members of the state and local committees are Arthur W. Charles, who was appointed chairman by Governor Dunne several months ago, and Thomas J. Healy of Chicago, holdover Republican member, who probably will retain his post under the present administration.

Gov. Frank O'Brien has decided to put a Chicago man on the board of administration, which since its creation four years ago has been composed entirely of down-state men.

James Hyland of Chicago is said to be the governor's choice for the position.

Former Mayor O'Connor of Peoria, who has been serving as a non-voting member of the board, will now be retained as a majority member. Mayor Fred Kera of Belleville holds the other Democratic place on the board. He was named in the spring. The two Republican places will not be filled for some time.

**Normal Gets New Teachers.**

The board of trustees of the Southern Illinois State Normal School has decided the following teachers to the corps for the coming term: Superintendent of training school, W. A. Furr of Jacksonville; principal high school department, Prof. Frank G. Warren of Mount Vernon High school; director of athletics, William High; principal of high school; instructor of mathematics, Prof. Ward Taylor of University of Illinois; assistant in department of agriculture, Prof. Bruce Piper of Sumner; teacher of shorthand and typewriting, Miss Emma Thorburn of the Jacksonville High School; dean of women, Walford of Bloomington; assistant director of music, Raymond Moore of Carbondale.

#### New Head for Kanakas.

Upon the recommendation of Governor Dunne the state board of administration appointed Dr. P. M. Kelly of Litchfield as superintendent of the Kanakas Hospital for the insane. This is the first appointment since the return of Governor Dunn from his trip on Lake Michigan.

#### Good Roads Men Meet.

Two white bands with the yellow center. You can't miss it. It's the Burlington trail.

Representatives of various cities along the trail who are interested in making it one of the best roads in Illinois met at Greenfield and elected officers after selecting Greenfield as the home office for the organization.

Officers elected:

President—H. C. Whittle, Greenfield.

Secretary and treasurer—Merrill B. Metcalf, Greenfield.

## FEEDING THE CANAL ZONE

by E.W. PICKARD

COLON, C. Z.—In writing or talking about the Panama Canal the superlative degree is very likely to be over-worked. The canal itself is the big-gest thing of the kind ever undertaken; the locks are unequalled in size; the work of the department of navigation is the most remarkable ever carried out and it goes without saying that other countries have applied for aid as provided in the Tie law.

But there is one other feature of the building of the canal that calls loudly for the superlative degree—the commissary department and the way in which it has fed the Zone. Not fed it only, either, but largely clothed it and supplied it with household necessities and even luxuries.

The commissary department is a department of the Panama railroad which is owned by the United States and of which Chairman Goethals is president. As officially stated:

"The commissary department of the Panama railroad is operated by the substance department of the Isthmian Canal commission for the purpose of supplying the Panama Canal commission and their families with foodstuffs, wearing apparel and household necessities, and also supplying food for the hotels, hospitals, messes, and kitchens operated by the Isthmian Canal commission and for the United States soldiers and sailors on the Panama railroad and Isthmian Canal.

The author of the bill which became a law, Homer J. Tie of Greenview, stopped in Springfield while going to and from Taylorville, where he delivered an address before Christian people supporting the "State Aid Roads." Attendance at the meeting was large and Mr. Tie's address was received with enthusiasm. The meeting, toward the close, resolved itself into a question bee, in which a marked interest was manifested.

The board did not take immediate action, but the author of the bill of the meeting is expected to take steps soon toward a county movement for better roads.

At the conclusion of the meeting Representative Walter Provine and Phil S. Hauer, both of Taylorville, drove Mr. Tie to this city, which he reached in time to take part in the meeting for the Tie law.

The other members of the state and local committees are Arthur W. Charles, who was appointed chairman by Governor Dunne several months ago, and Thomas J. Healy of Chicago, holdover Republican member, who probably will retain his post under the present administration.

## ILLINOIS NEWS TERSELY TOLD

Springfield.—Upon the request of Mayor Schriver of Rock Island, who asks for information to guide the election authorities in Rock Island in selecting a man to be elected in the near future, at which time a man will vote, Attorney General Lacey declares: That a foreign-born woman, who marries a citizen of the United States, whether such a citizen be natural-born or naturalized, by such marriage becomes a citizen of the United States. A foreign-born woman, whose father did not become naturalized until after she arrived at her majority, would not, by such act of naturalization upon the part of her father, become a citizen of the United States. A woman born in the United States, whose father did not become naturalized until after her arriving at her majority, is a citizen of the United States.

Danville.—J. G. Avery of St. Louis and other women occupying

## CALLS MULHALL LIAR

FORMER LOBBYIST FOR N. A. M.

DENOUNCED IN SENATE  
BY UNDERWOOD.

SAYS HE IS "BLACKMAILER"

Majority Leader of the House asserts  
Man Who Takes Liberty With  
Names of Public Men Should Be  
Forced to Prove Charges.

Washington, July 31.—Representative Underwood, Democratic leader of the house, appeared before the house lobby investigation committee on Tuesday and charged that Col. M. M. Mulhall, the lobbyist, was a blackmailer. The appearance of Underwood was an event not on the program. He came unexpectedly.

During the night session Minority Leader James R. Mann and Speaker Champ Clark also made statements in defense of Mulhall's statement that Representative J. T. McDermott of Chicago had offered them "Mulhall letters" for use in the house of representatives' investigation. Both insisted they never received any letters and after they were sold to them, they denied them.

The witness stand next week.

The letters themselves, however, purported to give much information alleged to have been furnished Mulhall by M. M. Underwood, and the last took being passed over in the vicinity.

When the car was lifted up Avery rolled the remainder of the way down hill and landed in a pool of water. The car was being attended at a local hotel. Avery, owner of the car, has been out of the city for the past week. The car was said to have been taken while out permission and is a complete wreck.

Joint—Because he cranked his automobile while it was in gear, Harry Lewis, a Joliet banker, was run over and severely injured. Lewis was in a hurry to take his friends to the Union station and neglected to inspect his gears. The machine would not spark the first few whirs of the crank, so he opened the throttle wider, the car then burst into flames and the passengers got out.

Are you tired of figures yet? If not, please consider that the ice plant at Cristobal makes nearly 40,000 tons of ice daily, or about 10,000 pounds of ice a day, and the cost is \$1.00 a ton. The ice plant is an old one, the cost of which is \$100,000. The ice plant is an old one, the cost of which is \$100,000.

The people of the zone, white and black alike, are very fond of ice cream, and to supply the demand the commissary manufactures about 140,000 gallons a year, of three grades. The first grade is an old ice cream and the one can get the best price and even the third grade is mighty welcome after a hot day in the Culebra Cut or the Pedro Miguel locks.

## BARRINGTON REVIEW

ESTABLISHED 1869  
MILES T. LAMEY, PUBLISHER  
L. B. PADDOCK, EDITOR

Published every Thursday afternoon at Barrington, Illinois, and entered as second-class matter at the Barrington postoffice.

Subscription price \$1.00 per year in advance. Postage extra. Postage paid at Barrington post office. For advertisements must be received before Tuesday noon to insure publication in that week's issue. Notices of condolence and all notices of entertainments given for pecuniary value.

All communications should be addressed to the BARRINGTON REVIEW  
TELEPHONE 51-R. BARRINGTON, ILL

THURSDAY, JULY 31, 1913

### THE FARM EXPERT.

In another column will be found an article telling of the first week's work of the Lake County farm expert, who has been engaged by the Lake County Agricultural society and was put into the field about 10 days ago. He is a man fitted by nature and training to engage in the line of advisor in farming, dairying, soil culture, etc., and it should be a matter of much gratification to farmers to learn that their county has joined the ranks of the few leading counties in one of the foremost agricultural states of the union.

Among those who are deserving of much credit are Paul MacGuffin of Libertyville, one of the County agricultural officers, who has labored unceasingly to the end that Lake county could have a consulting agriculturalist, and F. L. Carr of Wauconda, who gave the affair much publicity and aided materially in arousing enthusiasm among the farmers in his own township and secured pledges for \$300 when the project was first broached, making Wauconda township one of the leaders in the movement. Samuel Infull of Libertyville, the "electric king," aided financially, and by reason of his generous donations it is costing each farmer only five dollars a year to enjoy the services of an expert.

Haphazard farming, planting what he had time to plant, on any kind of ground and use any old seed that was handy, and trusting to luck to grow a crop, was well enough in the days when the country was young, the land more fertile, and not so much money needed to insure a comfortable living, but the day has arrived when science must be applied to farming; as it is to every other line of endeavor, if the farmer is going to remain "the wealthiest and most independent of American citizens."

The soil expert proposition was tried out first in DeKalb county two years ago, and gave very satisfaction. It has since been tried with unvarying success, in several other countries in the state, among them McHenry and Kane.

The plan is to have field work during the planting, cultivating and harvesting season, and lecture and institute work during the winter months. The farm expert will be at the beck and call of every farmer who contributes his support, ready to aid in solving all problems of the farm and dairy, and it is a foolish farmer indeed, we think, who neglects to take advantage of this opportunity.

### Sweden Bridal Superstitions.

In Sweden the bridegroom has a great fear of trolls and sprites, and as an antidote against their power he sews into his clothes various strong-smelling herbs, such as garlic and rosemary. It is customary to fill the bride's pocket with bread, which she gives to the poor she meets on the way to the church. The bridegroom is adorned with the same old bestowals. On their return from church the bride and bridegroom visit their cow barns and farms that the cattle may thrive and multiply.

### Dreaming to Order.

Dreams can be made to order by outsiders, but not by the dreamer. Yell "Fire!" in the ear of a sound sleeper or allow a monkey to sit on his shoulder and he will dream to order, but he can't go to sleep with his mind made up to dream of any certain thing and then actually dream of it. In spite of this fact, books are sold in Europe which tell what one must do in order to dream the lucky number in the lottery.

### Look Forward.

Who can deny the brilliancy of character attained by individuals of our race without feeling that there is a pledge in this that what has been done already in the individual will yet be accompanied in the nation and the race?—F. W. Robertson.

### Oranges in Sweden.

Sweden oval blood oranges from Palestine are the most prized in the world. They are the chief item of fruit brokers in Liverpool, which is now importing nearly a million boxes of oranges from that country.

## THE OUTLOOK

BY HENRY HOWLAND

### The Lord Will Understand

Pretty Compliment.  
"I heard such a beautiful compliment for you the other night."  
"Did you, indeed?"  
"Yes, I know Miss Punderleigh, don't you?"  
"Miss Eleanor Punderleigh? I have had the pleasure of meeting her on various occasions. A very charming young lady. I was struck by her wit and beauty the first time I ever saw her."

"She remarked when some of the other girls were talking about you that you were not the fool you looked."

### NEEDLESS EXPENSE.

"Mohoney hates to spend money, doesn't he?"  
"Yes, I saw him a little while ago and he was kicking himself because he had sent a 25-cent telegram to Mabel Gillington asking her to be his wife."  
"Did she refuse?"  
"No, but her answer indicated that he could have got her by merely asking, 'Will you?'"

Making Bad Water Worse.  
"Why do you write your rhymes without dividing the lines? That is, why do you run the stuff all together as if it were prose?"  
"I do that for the purpose of piquing the reader's curiosity."

"Gee, what isn't it bad enough to get a fellow to read a poem without adding insult to injury by piquing his curiosity?"

Always to Blame.  
"Back of every trouble a man ever has you may be sure there is a woman."  
"Oh, I don't know. How about a woman?"  
"Well, if it hadn't been for a woman, consider the man with a bad overcoat he had."

Wise Suggestion.  
"Dearest," he said, "I think I ought to be too late to tell you about my past."

"If you wish to have our engagement broken off," she replied, "can't we manage it in some less embarrassing way?"

Not Fitted for It.  
"Why has your son decided not to go into the ministry?"  
"Well, we've thought it all over and come to the conclusion that he ain't fitted for it. He don't like chicken."

BECOMES LARGE CATTLEMAN.

Continued from fourth page.

2,000 head of cattle. After it is well stocked he will not have to buy feeding cattle. At present he is building up his herd there and does not want to diminish its number. Always previous to this he has bought stockers and feeders in Chicago. Barrington is within 35 miles of the Union Stock Yards. In spite of the proximity of the Chicago market, Mr. Hammond has selected the Kansas City is the place to buy feeding cattle.

Mr. Hammond had not visited Kan-

sas City when he left here 12 years ago. He had with him two young sons, one of whom was born here.

After spending the forenoon in the yards he took the boys on a sight-seeing trip about the city.

Unsightly Face Spots.

Are cured by Dr. Hobson's Eczema Ointment, which heal all skin eruptions, whether they be chronic or acute, or seedy skin humors, just put a little of that soothing antiseptic, Dr. Hobson's Eczema Ointment, on the sore and the ointment stops instantly. New ointments that very minute. Doctors use it in their practice and recommend it. Mr. Alleman of Littleton, Pa., says: "Eczema Ointment cured it in two weeks. Guaranteed to relieve or money refunded. All druggists, or by mail. Price 50c. Pfeiffer Chemical Co., Philadelphia and St. Louis.—Adv.

## THE KITCHEN CABINET

HERE are hundreds of women who love to have a kitchen cabinet which holds all the odds and ends of the house. This cabinet is sure of all that highest thought can secure for him in body, soul and spirit. Well, we've thought it all over and come to the conclusion that he ain't fitted for it. He don't like chicken."

During the hot weather there is great demand for cooling drinks, and we prefer those made at home with materials which are unquestionable, rather than many which are served in restaurants. The following is a cooling drink which surely will be found one which will suit the palate of all:

Ginger Water.—This is the old-fashioned drink which used to be carried to the fields to refresh the tillers of the soil who have made our country what it is today. This drink is just as popular today among the descendants of the early settlers as it was in the old country.

It is easily prepared if it is to be used frequently. Take a tablespoonful of ground ginger, add three of sugar and a pint of ice cold water; stir well and serve. In the olden times they sweetened this with molasses.

Rhubarb Drink.—This is a very refreshing drink, as well as wholesome drink for children. Boil seven or eight stalks of plant in a quart of water for ten minutes; strain into a pitcher in which has been placed the thin rind of a lemon. Add four tablespoonsful of sugar and let stand for a few hours before serving.

Orangeade.—Make a syrup by boiling half a pound of lump sugar with a cup of water. Pare four oranges very thin, put the rinds in a pitcher and pour on the boiling hot syrup. Let stand until cold, then add the juice of the oranges and six lemons. Add a quart of ice cold water, and serve.

Boston Cream.—This is a drink which will keep, and will be ready to use in an emergency: Take two pounds of lump sugar and five pints of water; boil together fifteen minutes. When cool add an ounce of lemon extract, one ounce of powdered citron acid and the whites of three eggs well beaten. When quite cold, pour a few tablespoonsful of the mixture in a glass, fill with three parts water, stir up well and add a quarter of a teaspoonful of soda. Stir briskly and

serve.

What He Would Do.

A young lady visiting her relatives on the west coast sent a post card to watch her young cousin play with a chicken. Watching him for some time she asked him: "Willie, if that chicken were to lay an egg what would you do with it?" He looked up surprised, then said: "Oh, I'd sell it to a museum. That chicken's a rooster."

## BARRINGTON REVIEW, BARRINGTON, ILL.

### NEWS OF THE CHURCHES.

ST. ANN'S.  
Services will be held next Sunday morning promptly at 8:00 o'clock.

ST. PAUL'S.  
Next Sunday 9:30 Sunday school. Preaching service 10:30. The Franzenverein meets tomorrow afternoon.

METHODIST.

Sunday, 9:30 a. m. Sunday school meets—subject for study, "The Plagues of Egypt."

Sunday, 10:40 a. m. Public worship with preaching by the pastor.

The Sunday evening service will be omitted on account of the chautauqua. There will be no league meeting for the same reason.

BAPTIST.

Sunday morning worship, 10:30 o'clock.

Sunday school at 11:45 o'clock. Sunday evening service at 7:30 o'clock.

Prayer meeting at 7:30 o'clock every Wednesday evening.

Covenant meeting the Wednesday evening before the first Sunday of each month.

Communion the first Sunday of each month, at the close of the morning service.

Parsonage phone 35-W.

The pastor will be pleased to answer all calls for service.

SALMEN.

Sunday worship at 10:30 a. m. and 1:45 p. m.

Sunday school at 9:15 a. m. George F. Stiebenhofer, superintendent.

Choir meets Friday evening.

General missionary meeting held first Wednesday each month at 1:30.

Woman's Missionary society meets first Thursday of each month, Mrs. B. H. Sodt, president.

Mission band meets first Sunday of each month at 1:30.

Monthly offering of the church is taken on the second Sunday of each month.

Sunday school council meets first Wednesday evening of each month at 7:45.

The pastor will respond to calls. Phone 115-M. Herman H. Thoren, Salem parsonage.

WEEKLY CAPONS.

Local people are beginning to realize the necessity of a bank for our village and the subject is receiving considerable discussion. A meeting of some of the business men and prominent citizens was held Sunday. John Hein, president of the Brookfield state bank and two banker friends were present and are interested in the subject. If a bank is started it will without doubt be a state bank and not a private institution. It seems that the time for this movement is ripe and in all probability Lake Zurich will add a bank to its other enterprises in a short time.

Lake Zurich Defeats Des Plaines.

The local baseball team lost Sunday by a score of eight to three and won the three game series. A good crowd was present to witness the game as there has been considerable rivalry between these two teams and an interesting contest was expected.

The coming Sunday the Lake Zurich team will play the Dundee team on local grounds.

Mr. and Mrs. Louis Geary were Chicago visitors Tuesday.

C. P. Andres and F. P. Clark made a trip to Waukegan last Friday.

The masons arrived yesterday to resume work on the school building.

Frank Just and James Woodman of Libertyville were callers here last Monday.

John Robertson has sold his cottage which he formerly occupied in the summer, and an adjoining lot to a Chicago man.

A dance will be given by the Lake Zurich ball club at the Lake Shore Pavilion Saturday evening. Kruse's orchestra of Des Plaines will furnish the music. Tickets are as usual, 75 cents a couple.

The Charles Jacob building is nearing completion. William Schumacher and his workmen, who are doing the carpenter work, are expected to finish today and Mr. Jacob will probably move into it next week.

### ABOUT THE VISITOR AND VISITED

"Bob" Hawley spent Sunday at Wauconda.

Mrs. Georgia Seebert visited Algoma friends Tuesday.

Ben Frye and Emil Hubka were visitors here last Friday.

Mrs. William Damerow of North Hawley street is quite serious ill.

Harold Bright of Chicago spent Sunday with Glen Rowe of the Hartwood farms.

Mr. Van Buskirk and two sons of Milwaukee are visiting at Franklin Wooding's.

Ellie Myers of Decatur visited with relatives here Saturday and Sunday returning home Sunday evening.

George Schumacher and family of Carpenterville visited William Scheer and family of Barrington township Sunday.

Marcus Schultz, little son of Mr. and Mrs. Charles Schultz of Austin, is visiting here with his aunt, Mrs. G. W. Foreman.

Mrs. E. M. Fletcher and daughter, Mrs. A. J. Waschek, of Chicago are spending a few days at their home on Russel street.

Mr. and Mrs. Martin Fischer of Carpenterville visited here Sunday at the Daniel Gilly home. Mr. Gilly is Mrs. Fischer's brother.

Mr. and Mrs. F. L. Wells of Ravewood and W. R. Davis of Elroy, Wisconsin, were Sunday guests at the home of R. D. Wells.

Mr. and Mrs. Frank Woltzhausen and family returned to their home in Duluth, Minnesota, Tuesday after a few days visit with relatives in this vicinity.

Edward Young, who was injured in a run-away accident two weeks ago Sunday, returned to his work at the station of the Public Service company Monday.

Dr. and Mrs. Richardson and daughter Verdale returned Monday from Lake Mills, Wisconsin, where they had been visiting since Friday with Mr. and Mrs. E. C. Dodge.

M. D. Regan, who is employed at Hillman's, Chicago, is at home enjoying a two weeks vacation.

Leo Briker, who is employed as pressman at the Examiner office in Chicago is enjoying a vacation.

Mr. and Mrs. L. A. Powers left last Friday morning for Mudavia, Kramer, Indiana, where Mr. Powers expects to spend 10 days. Mrs. Powers returned home Tuesday evening.

Mr. Fred Kampert left last week for a visit with his brother, Henry Freeman, and his family at Valley, Nebraska. On the way she stopped at Blairtown, Iowa, to visit relatives there.

Harry Walters, who is in the United States navy, visited with his sister, Mrs. F. J. Alversen from Friday until Monday, returning Monday evening to Portsmouth, New Hampshire, where he is stationed.

Mr. and Mrs. A. W. Meyer and daughter, Miss Leah Meyer, Miss Emma Buske, Herman Glecke and Gottlieb Kuhlman made an automobile trip to Chicago Sunday visiting at Oak Park and driving through the park system.

J. R. Severns of the Ward Products company, Bloomington, stopped here for a short visit Saturday while on his way to visit his son, Arthur Severns, a Crystal Lake druggist. Mr. Severns was a resident of this village 20 years ago.

Gus Niemeyer who brought his family from New Jersey to Barrington last week left Friday for Duluth. From there he will travel through Canada to the Pacific coast and through the southwestern states on a seven weeks business trip.

Mr. and Mrs. Herman Kuehl gave a chicken dinner to relatives at their home on Station street Sunday. Those present were: Mr. and Mrs. Louis Reese and daughter Helen; Mrs. William Webster and family, Misses Mary, Mable and Elsie; and Master Elmer Webster, William Kuehl and Miss Bertha Kuehl.

### ing the sheds.

Mrs. Mary Rose of North Hawley street has been quite ill the past week but is able to be out again now.

William Grunau, who went to the Hahnemann hospital, Chicago, two weeks ago to have his foot cared for after he had stepped on a nail, is expected home in a day or two.

The engine on the noon train was backed up a little too far yesterday and the rear trucks were derailed. As a result the services of a switch engine were required to replace it on the rails and the noon train was delayed nearly half an hour.

Stanley Martin, 7-year-old son of Alderman and Mrs. Edward T. Martin, who underwent an operation at the St. Anthony de Padua hospital, Chicago, a week ago Saturday is recovering nicely. His parents expect to bring him home next Sunday.

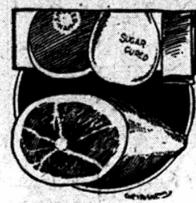

Alderman A. W. Setherland and Simon Ziegler have built 5-foot cement walks in front of their property on Walnut and Liberty streets which greatly improves the appearance of that section of this village. The improvement materially increases the value of their property.

D. C. Schroeder, the hustling local agent for the Ford automobiles, has sold three more cars the past week, the sales being made to George Lageschulte, Alvin Pakke and William Darby, salesmen for Hibbard, Spencer, Bartlett & Company. He unloaded a car load of three automobiles Tuesday.

The Modern Woodmen moved last week from the Masonic hall above the Commercial hotel to the Odd Fellows hall in the Groff building on which place they have taken a two years lease. The Royal Neighbors have also vacated the Masonic hall and are now occupying rooms in the Lamey building next door. The Masonic and Eastern Star lodges have renewed their lease on their present quarters.

**There Under Computation.**  
"You ought to be ashamed to spend the best part of your life in jail," said the kind old lady to the prisoner. "Madam," replied the convict, "don't blame me for it. I assure you I am here against my will."

**Imagination in Dreamland.**  
"A man who wakes at most prosole, whose mind is commonplace, who is utterly unable to invent a story or write a drama, will asleep have the most astonishing flights of imagination, the most remarkable stories. He peoples it with players, men, women and animals, and each one of them—even the animals at times—speaks his part as perfectly as if he actually were alive."

## Picnic Time Suggestions.

Going on a picnic or an outing of any kind? Then get one of our sugar-cured hams. They are fine, too, for luncheon or tea. They save cooking a hot meal and taste just lovely.

## Only A Touch

By REV. PARLEY E. ZARTMANN, D.D.  
Secretary of Extension Department  
Moody Bible Institute, Chicago

TEXT—Who touched me?—Luke 5:12.

The story of the nameless woman and the miracle of her healing is found in the synoptic gospels, and it is especially prominent in that of St. Mark; in fact, it is one of the striking cartoons which this evangelist uses in depicting the work of Christ. Of all the characters in the gospel this nameless woman is the most touching, and her attitude toward Jesus, his treatment of her, and the gracious results serve as encouragement to anyone who doubts his fitness for approach to Christ or his worthiness to receive anything from Christ.

It is the story of a miracle by the way. Jesus had been requested by Jairus to come to his house and heal his daughter. As he was going on his way, he met people followed him and touched him, a certain woman, seriously ill for twelve years, suffering many things of many physicians, and growing worse instead of better, came in the crowd about Jesus and touched the hem of his garment. She was a great sufferer from her disease and disappointment.

Jesus noticed her couch: "And Jesus immediately knowing in himself that virtue had gone out of him, turned him about in the press, and said, Who touched my clothes?" He knows the slightest movement of the soul toward himself, and he feels the burdens we bear, for he is touched with a feeling of our infirmities. Like the woman, who, like 15 he goes out to meet the returning wanderer. What an encouragement it is to the sinner to realize this approachableness and responsiveness of the great Savior. Sometimes we are in doubt about the character and love of God, but every revelation of the tenderness, compassion and the goodness of Jesus is also a revelation of the fact that God is like him. He knows our reaching out after him; let us be sure of that. "I waited patiently for the Lord, and he inclined unto me and heard my cry." Get close to Jesus in love and faith, and touch him. His heart and love and power will respond.

"The healing of his seamless dress is a great miracle. Who touched him? We touch him in life's strength and press and we are whole again."

Jesus rewards the woman, though she had mistaken ideas about his character and his work; but one thing she knew was true and that was a lesson: she touched him and that brought blessing and benediction. Jesus did not stop to raise questions as to her character or criticize her for her conduct. He responded to the weak faith and the earnest desire of the woman. "And said unto her, Daughter, thy faith hath made thee well; go in peace, and be of thy peace." The story shows that faith is personal allegiance to a personal Christ. Many of us need simpler ideas and teaching about saving faith. Christ saves, not a creed; Christ saves, not a church; although creed and church are important and must have their place in the life of saved souls. The woman got more than she asked; the experience of every believing, loyal, trusting soul is, "My cup runneth over."

## Confession.

Who touched me? Christ waits for the answer, although the disciples said "It is the woman who has touched you." "Who touched me?" And Jesus waits until the woman tells him all the truth and goes away not only with a healed body but with his sins forgiven and the affectionate approval of Jesus. There is a vast difference between throwing a stone at a sinner and this: "Who touched me?" The thing to do is to get at him. Having received blessing from Christ it is our duty to make his will our life and to confess him before others, because we love him and because we want to help others.

Has there been disease, disappointment, despair in your life? Reach out and touch him. "Till the day comes until you say, God can save; think of his love until you can say, God will save; then the touch of faith will bring a change-conscious, complete confession. Jesus meets the peculiar need of each soul; pardon the penitent, justification to the guilty, healing to the infirm. You should come to him, waiting for nothing; as coming Christ will receive you. God's mercy is greater than all the sins of the world; there is salvation for you if you will have it.

"He only touched the hem of his garment, and lo, a great crowd gathered around him. And then, too, about the first hour of the day, when he had come into the temple, he said to the chief priests and the scribes, 'What is this?'

"And straightway she was made whole.

"On the basis of this garment, and then, too, about the first hour of the day, when he had come into the temple, he said to the chief priests and the scribes, 'What is this?'

"And straightway she was made whole.

## MOST NUTRITIOUS FOOD

BUTTER'S USES OUTSIDE OF COMBINATION WITH BREAD.

Should Be Freely Used as a Seasoning and as a Garnishing—Various Flavors That May Be Added as Desired.

The full value of butter, both as an article of food and as a nourishing article of diet, is realized by very few cooks. Butter is really one of the most valuable foods in the larder. It is not merely to spread chunkily on bread—although it is good enough there; it should be made an interesting part of the meal which it serves.

In middle-class cooking far from the real value of butter is better understood than it is here. Every morning the butter is left at the door, just as the milk is; and it is fresh, creamy butter, too, for the most part—always fresh instead of salt. The butter is then chilled and shaved into water and then melted and shaved into water and then with the rolls that form the body of this meal. At luncheon butter is frequently served—always mainly—with bread and radishes, or some other side dish, as an appetizer. Then, eaten slowly, its goodness can be appreciated.

If the making of butter pats or butter in butter molds is not done only once in three days. Keep them in a bowl of ice water in the refrigerator, and they will retain their shape even in the warmest weather. It does sometimes seem troublesome for maid or mistress to have to spend five or ten minutes before each meal making butter pats, but fifteen minutes once a week, though it will take enough for the making of many molds, since the utensils and materials need only be got out once, and since a certain definiteness comes with repeated making, and the second score of butter balls can be made in half the time it took to make the first score.

The same molds are easier to use than paddles, and easier prints of butter from the molds look and taste as well as balls of butter formed with the paddles. To manage the molds, wash them in ice water, and then stamp the butter out carefully, taking care to push the bottom of the mold down into the butter before removing the print. The butter should be cold when it is printed.

Horseshoe butter is good with cold meats and it is also delicious to use when making meat sandwiches. To make it, cream two tablespoonsfuls of butter, add two of freshly grated horseradish, a dash of salt, a dash of thick cream and half a teaspoonful of lemon juice. Keep it on the ice.

Maitre d'hotel butter is used to spread over broiled steak or fish. To make it, cream two tablespoonsfuls of butter, add slowly a half teaspoonful of salt, an eighth of a teaspoonful of white pepper, a tablespoonful of lemon juice and the same amount of minced parsley.

Parsley butter can be used with vegetables. To make it, cream three tablespoonsfuls of butter and add a tablespoonful of lemon juice, the same amount of minced parsley and a teaspoonful of salt.

## Latest Tea Room Salad.

On a border or bed of lettuce hearts was placed an artichoke bottom. Two short tips of asparagus on opposite sides of the artichoke. On the green, glistening, spear-like, cooked French beans a few dollops of good mayonnaise were spooned on these and half a cream cheese, set in the dressing; the halves of one small, but at the base on opposite sides, and the sliced rolls of a hard-boiled egg sifted over the whole. Served with a rasped roll or brown bread and coffee.

## Cleanned Weekly.

Once a week the refrigerator should be washed and dried. Place the food under cover, remove the racks and wash them in hot, soapy water; a few drops of ammonia on each side is a good preservative. A solution of copper sulphate is good. Oxalic acid is sure to remove any remaining spots. In washing out the food compartments do not forget the inner sides of the door or the ceiling. Wipe all dry and leave open to air while you are cleaning the ice chamber.

## Simple but Effective Jelly Strainer.

A very simple improvement in the old-time jelly bag is to be seen in the stores. It is merely a well-made large bag, but it has a bone ring which comes with it. As the ring is slipped down, the jelly, of course, is squeezed out, so much better than the old-time way of dripping or squeezing with the hands.

## To Launder Handkerchiefs.

A sheet of glass large enough to hold two handkerchiefs on each side is a convenient article to put in the trunk. It can be easily exposed to light and air and the handkerchiefs far better than a windowpane or mirror.

## Have Fine Flavor.

Get potatoes a half inch or half a pound in size, and add a dash of sugar, as well as salt, when boiling. This causes not make them too sweet, but gives a delicious flavor.

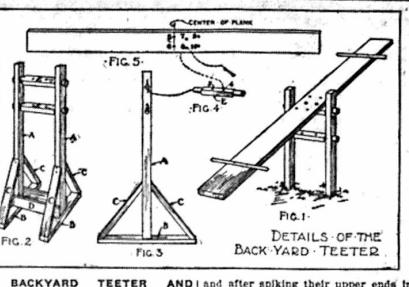

## To Polish Floors.

When stained floors become dull, rub them with a mixture of equal parts of beeswax and turpentine.

## New Ideas for Handy Boys

By A. NEELY HALL

Author of "Handicraft for Handy Boys," "The Boy Craftsman," etc.

A BACK-YARD TEETER AND WHIRLIGIG.

A plank 10 or 12 inches wide and from 14 to 20 feet long suggests many possibilities for outdoor fun. Among these is the ever popular teeter, or see-saw, and the whirligig, better known, perhaps, as the "Flying Dutchman." These two pieces of apparatus are quickly made, which is probably one of the reasons for their popularity, but enough time should be given to the work. The support should be made of a board 2 by 4 or 6 inches wide and 12 to 18 inches long. A broom-handle or curtain-pole handle-bar screwed across the plank near each end will complete the whirligig.

(Copyright, 1911, by A. Neely Hall.)

and after spiking their upper ends in place, drive heavy stakes into the ground to keep their lower ends from spreading (D. Fig. 8).

The pivot bolt for the plank should be made of a nail, the hole drilled through it, and the head of the nail driven in snugly, and an iron washer should be placed between the head and the plank, and a couple between the plank and the top of the post A. A broom-handle or curtain-pole handle-bar screwed across the plank near each end will complete the whirligig.

## BONUS COULD NOT PURCHASE

Real Lover of Art Placed Picture He Admired Above the Lure of the Greenback.

He got some money and some new clothes and a hat and a new coat."

"Gracious!" replied John, "you don't have to have all that, do you?"

"Well, I really do, but I'll compromise on the money."

The earth's fertile area is estimated at 25,263,200 square miles.

CURE FOR ASTHMA

Asthmatics, 50c, cure or money refunded.

Druggists, or Dr. Ets Drug Co., Chicago, Adv.

Size It Up.

Bacon—What do you give for that cigar you're smoking?

Epbert—Nothing.

"Is it good?"

"Well, it's good for nothing."

Don't Reach That Far.

Bacon—The United States makes enough paper money each year to reach twice around the world.

Epbert—That's queer. Very little of it reaches me.

Of Interest to Investors.

Kelsey, Brower and Company, Bankers of Grand Rapids, Mich., have issued for free distribution an interesting leaflet on public utility securities, their market value and Adv.

Poor John.

"John," said Mrs. Newleywood, "I've got some money and some new clothes and a hat and a new coat."

"Gracious!" replied John, "you don't have to have all that, do you?"

"Well, I really do, but I'll compromise on the money."

John.

"John," said Mrs. Newleywood, "I've got some money and some new clothes and a hat and a new coat."

"Gracious!" replied John, "you don't have to have all that, do you?"

"Well, I really do, but I'll compromise on the money."
