VOLUME 29, NUMBER 34

BARRINGTON, ILLINOIS, THURSDAY, AUGUST 21, 1913

\$1.50 PER YEAR IN ADVANCE

## TEN DAY RELIGIOUS MEETINGS TO BEGIN

Tomorrow Evening The First Service—To Continue All Through Next Week.

Barrington Park campmeeting has a strong program for this year, and beginning with tomorrow evening, when Rev. F. W. Landwehr of Chicago will preach the first sermon of the campmeeting, there will be a continuous array of talent. Services for each day begin at 9:00 o'clock in the morning, at which time the ministers have a retreat; at 10:00 o'clock is fellowship meeting, and at 10:30 the bible school which opens on Monday morning. Saturday is "Young People's Day," and encouraging news of many young people coming for that day has been received. Rev. F. W. Landwehr will preach at 10:30 a. m. At 1:30 p. m. there will be a children's meeting under leadership of Mrs. H. F. Oakes, and at 2:45 the rally program begins. Professor H. H. Russell is the principal speaker. He is president of Northwestern college for a number of years and is a delightful speaker. In the evening Rev. H. W. Lambert of Chicago preaches.

On Sunday morning at 10:00 o'clock Rev. C. A. Russell speaks in German and presiding elder Rev. B. R. Schultze speaks in English, and in connection with that service the Lord's supper will be celebrated, to which all Christians without distinction of name or class are welcome and are invited to take part. At 1:30 the Sunday school meets under the leadership of George Stiefenhofer and J. C. Plagge, superintendents.

**Bilborno on Sunday.**  
At 2:45 Evangelist P. P. Bilborno of Chicago speaks, and he is a man of force and power in the pulpit. Converted years ago through the prayer of his mother who whispered Peter's name in her devotions at night just when her wayward son slid past her bedroom, he then being alone in full manhood, he dedicated himself to God for service, and has been ever since in filling dates in our country's most prominent cities as well as in Europe. His main strength to sway his audience lies in his remarkable power of song, mostly accompanying himself by use of the organ. The printed page as well as private letters bear strong testimony of his extraordinary success. This will be Mr. Bilborno's first season in Barrington and the people will want to hear him. The Peoria Herald-Transcript has this to say of him: "Peter P. Bilborno, the sweetest singer, famed the world over for his songs, opened the twenty-first annual convention at the First Congregational church Friday, again singing himself right to the hearts of Peorians who have long loved him for his singing and his splendid personality."

SOME OF THE COTTAGES.

Other parts of the meetings are. Sunday evening the Keystone League of Christian Endeavor will be led by Rev. G. A. Walter of Ashland. Monday afternoon at 2:30, sermon by Rev. U. P. Swengel of Aurora formerly presiding elder in the Platte River conference. Rev. C. G. Unangst will speak Wednesday evening. Several appointments for Tuesday and Wednesday will be made. Thursday evening Bishop U. P. Swengel is expected to preach his first sermon at this campmeeting this year. He was so well liked two years ago that the committee invited him to come again this year, and he will remain until the close of the meetings. Admission is free to all the meetings and there is no gate fee. Sunday morning and afternoon free will offerings will be taken.

Edward Mallouk and family, who have been residing on the Holbrook farm south of town, moved into this village last week and are living on North Hawley street.

## MEMBERSHIP GROWING RAPIDLY

Great Interest Being Shown In "Farm Doctor" Movement—Expect Expert Next Month.

The membership of the farm improvement association that is being organized under the auspices of the Lake County Agricultural board, is growing so rapidly that it is expected a farm expert will be at work among the farmers some time next month. Stanley F. Morse, the organizer who is busy every day in one township or another, reports unusual interest in this movement throughout the county. While an effort is being made to see a farm expert, it will not be possible for him to call on every farmer in the county. Hence any farmer who wishes to become a member of the association should secure an application card free from one of the committeemen in his township and fill it out. Cards may be obtained by writing to Stanley F. Morse, Libertyville, or from the following men in the various townships: Antioch, Chase Webb; Avon, E. F. Shanks; Benton, H. W. Perry; Cuba, Fred Kirschner; East Deerfield, John Barry; West Deerfield, John Carroll; Elgin, August Schwaninger; Fremont, R. F. Rouse; Grant, Orley Howard; Lake Villa, John Stratton; Libertyville, Paul MacGuffin; Newport, Jas. G. Welch; Shields, John Griffith; Vernon, John K. Barrett; Warren, Leslie Bonner; Wauconda, G. D. Stroker; Waukegan, W. B. Smith.

It should be understood that anyone is eligible to join this organization; nearly 400 land owners, tenants, business and professional men have already joined, each pledging himself to pay a membership fee of from \$2 to \$100 per year. The association is being financed on a three year basis, each member guaranteeing his support for that period. The "farm doctor" or county advisor will be retained under a three year contract which will require him to give his entire time to the county. Every farmer who would like to have this expert visit his farm is urged to join without delay. The expert answers the farmers calls in about the order in which they are received—first come, first served. Everybody who gets into the band wagon and help push a good thing along."

## Celebrate Eleventh Anniversary.

The eleven anniversary meeting of Barrington lodge L. O. O. F. held last Thursday evening proved a most enjoyable occasion. There was a large delegation present from Elgin while Palatine and Wauconda furnished a good number of representatives. The talks of the evening were given by Grand Warden Pease of Harvey, Brothers W. B. Shales, F. L. Wolaver and Secretary Rowland of Kane lodge, Elgin, and Bros. Koehler and Smith of Palatine. It was just such a time as progressive Odd Fellows have when they come to Barrington.

El Tovar hotel, costing a quarter million dollars and built by Harvey, is supplied by water from a spring 90 miles distant. Yours truly, S. E. HOWARTH.

## LETTER FROM FORMER RESIDENT

Mrs. Sarah Howarth Writes From "Sunny California" to Her Many Friends in This Village.

Los Angeles, California. August 11, 1913.

Editor of Review:  
I left Los Angeles, August 5, for a few days visit at the Grand Canyon of the Colorado river which is in the center of a chasm 13 miles wide, one mile deep and 217 miles long. We all took carriage rides around the rim for miles and in some places we could see the river which looked very narrow but is 200 feet wide and quite turbulent, with a muddy color.

Many ride mules down the trail, a trip of seven miles around to get one mile down and takes one day.

No pen or picture can do justice to this world wonder, the Grand Canyon of Arizona. It has to be seen to be appreciated. One mile deep filled with gigantic structures, each one distinct by itself, in shapes of castles and temples, all named and pointed out by the guides. They are all deeply colored in red, blue, green, pink and yellow and over all a deep blue haze which gives an appearance of having been built by mechanics and painted by artists. The wall meets the horizon as though it marked the end of the world and the upper tier of white marble is like lace work against the sky.

It is the first view that makes the beholder gasp and many are quite overcome and all look with wonder and awe. I could not help thinking of what the old Spanish explorers thought, 400 years ago, when without a moment's warning they should stumble upon a scene like this.

As we sat in our hotel in the evening, surrounded by everything that goes to make life pleasant, writing to our friends and realizing that only a few feet away lay that awful chasm as deep as the ocean and as silent as the stars it seemed to me that the great structures should be ablaze with light for they look to have many windows.

It was well worth the 400 mile trip through the desert on the Santa Fe, taking a day and a night each way in 110 degrees of heat. You could hear many people say it was the grandest sight they had ever seen and one young lady said she was willing to give one year of her life for the privilege of seeing the grandest wonder in the world. One lady said that the greater creative force, in building this wonderful work of nature, left it incomplete inasmuch as it gave us no words to express its magnitude and grandeur. Three hours before we left there was a storm in the canyon. It was the first thunder I had heard and the first lightning I had seen since leaving Barrington, July 1, 1912. The sun was shining in one part of the canyon while the storm raged in another. I was glad to see it in so many phases but those who live there say its changes are wonderfully beautiful and never the same.

El Tovar hotel, costing a quarter million dollars and built by Harvey, is supplied by water from a spring 90 miles distant. Yours truly, S. E. HOWARTH.

## COUNTRY SCHOOLS SOCIAL CENTERS

Cook County Schools Will Be Model For World—Five Experts Will Lead Work.

An organized effort is under way to make the 130 one and two room rural school houses in Cook county the centers of the whole rural life of the community. The schools have been divided into five sections with an expert bearing the title of school and rural life director at the head of each. These men are trained and successful teachers, and usually graduates of some agricultural college, and possess the qualities of social leadership. Each will receive a salary of \$2,000 a year, paid out of the county treasury, and will be on duty the year round, regardless of school vacations.

Barrington, Palatine, Hanover, Elk Grove and Schaumburg townships are in the third division and have as director Eugene M. Phillips, who has been a teacher of domestic science in the La Grange high school. Mr. Phillips is now completing a special course at the agricultural college of the University of Wisconsin, with a view of gaining special knowledge on the subject of dairy farming, which is the principal industry of this district.

A seed corn testing club will be one of the first features. In the spring acreage clubs will be formed. The father of each boy will be asked to allot an acre of good land to his son, the ordering, planting, cultivating and harvesting to be done by the boy himself, under the direction of the school and rural life director.

Book learning will not be neglected and old fashioned spelling bees will be an important feature while special attention will be given to the "three R's" and all common school studies. The idea back of the whole movement is to teach the children that useful achievement is the end and object of education.

## NEWS OF THE FARM AND DAIRY

Notes of Comment and Interest to Local Agriculturalists and Milk Producers.

Saturday a committee of the Lake county board of supervisors will meet at Libertyville to select candidates for county commissioner of highways and to designate roads on which state aid will be asked.

Milk producers of Gliberts, at a meeting Saturday night, voted to sell their winter supply to the National Milk Producers' association at \$2.05 per one hundred pounds, five cents more than the Milk Producers' association will demand. The offer was made by the company.

The potato crop in Lake county and all over the country is said to be suffering from the ravages of a small insect heretofore unknown. Many potato raisers have attributed the trouble to blight, the potato vines having all appearances of that disease. It is estimated that 50 per cent curtailment of the tuber crop will result from the insect this year in this vicinity.

Stanley F. Morse, who is organizing the Lake county crop improvement society, spent yesterday among the farmers of Cuba township, accompanied by Supervisor Fred Kirschner. They secured about 25 members to the association in this township. Mr. Morse expects to be here again one day next week and complete the canvass of the county. It is the plan to secure about 40 members in each township. In all 700 members are wanted throughout the county and about 400 are now pledged. Mr. Morse will get as many more as possible during the next two weeks and expects to complete the enrollment during the week of the Libertyville fair. He says the farmers apparently realize the importance of the movement and appreciate its value to them, and he is having little difficulty in securing their pledges. The plan has been tried out with much success in nearby counties and its practicability is undoubted.

## VISIT NEARBY FARMS.

Farmers Institution Workers Call On Local Agriculturalists.

Tuesday afternoon a party of nearly 100 farmers institute workers and agricultural college men from all over the country came to Barrington and made an automobile tour of inspection to some of the large farms in this vicinity. These men are in conference at the Hotel Sherman, Chicago, this week, the Universal Portland Cement company paying the expenses of the six days meetings, and each day they plan to visit modern farms in the vicinity of Chicago.

Tuesday morning they went to Lake Forest by train where they were met by automobiles, most of the machines being from this village, and taken to Arcady farm, owned by Arthur Meeker, and Hawthorne farm, owned by Samuel Insull. Leaving there they drove to Barrington, arriving here for luncheon which was served at the Baptist church by the ladies of the Dorcas society. There was 115 in the party, which included, besides the farmers institute men, several newspaper men and representatives of the cement company. All were served in a most satisfactory manner, the meal of fried chicken, mashed potatoes and corn on the cob being supplemented by some of the excellent buttermilk and ice cream of the Hawthorne Farms company brand.

After dinner the party drove first to the farm of Spencer Otis, Jr., and then to the Hartwood farms, owned by H. Stillson Hart, the Wakefield farm, owned by G. E. VanHagen, the Hawthorne North and East farms, owned by Spencer Otis and last to R. R. Hammond's farm.

**Real Estate Transfers.**  
The following transfers of real estate in this vicinity have been recorded recently:  
Ralph L. Peck & w. to Sanford Peck, blk. 34 and part blk. 15, Chicago. Highlands. W. D. 81200.

Ralph L. Peck & w. to Wm. Matz part blks. 16 and 33, Chicago Highlands. W. D. 81200.

**Elgin Butter Market.**  
Butter was declared firm at 27 cents on the Elgin board of trade Monday, an increase of one half cent over a week ago.

Mrs. Mary Reese of North Hawley street is very ill.

Miss Elsie Meyer of Chicago is visiting Mrs. William Sandman of Elgin street.

### Mexican Revolt

Joseph Tumulty, secretary to the president, stated that unofficial, but satisfactory advances had been received confirming the Huerta ultimatum, and that Charge d'Affaires O'Shaughnessy had been given his passport. The American representative was given forty-eight hours to leave the Mexican capital. The United States government was given until midnight Monday by President Huerta to recognize Mexico, it is officially stated.

A press bulletin from Mexico City to Washington stating that the United States government had been given to midnight to recognize the Huerta government created a great commotion in administration circles. The gravity of the situation caused Secretary Tumulty to get Secretary Bryan out of bed.

President Wilson severely reprimanded Ambassador Henry Lane Wilson and apologized to the British government for the ambassador's action in issuing a statement criticizing the British foreign office.

The Matin of Paris, France, having called President Huerta, that some anxiety had been caused by dispatches received there concerning the relations between the United States and Mexico, has received the following message from Mexico City: "Anxiety over the relations of Mexico with the United States is without foundation.—V. Huerta."

STEAMER STATE OF CALIFORNIA SINKS OFF ALASKA. Passengers Perish While Asleep in Berths—Steamship Jefferson Picks Up Survivors.

Seattle, Wash., Aug. 20.—Thirty-two passengers and seven seamen were lost when the steamer State of California of the Pacific Coast Steamship company's fleet, struck an uncharted rock and was wrecked in Gambler bay, Alaska, on Sunday.

The steamer sunk within three minutes after striking and many passengers were drowned before they could get out of their staterooms.

Dispatches from Alaska say that it is impossible to give the correct list of the missing, as the pursers saved no records.

News of the wreck and the heavy loss of life did not reach Juneau until the steamship Jefferson arrived with some of the passengers and crew who had been rescued from the icy waters.

Members of the crew found on the raft could hardly be called survivors because they were more dead than alive. All but one died before arriving at Juneau.

The Jefferson steamed with all speed to Gambler bay. As it neared the scene of the wrecked vessel, a score of survivors who had taken to the life rafts were rescued.

Many bodies buoyed up by life preservers were also found floating in the sea.

The only names of passengers lost besides Mrs. Ward and her daughter, that have so far been secured, are as follows:

Miss Bladon and John Vanderhaar and wife.

Leslie Hobbs, Miss May Dixon, Mrs. C. E. Spithill and child, Lily B. Norman, Nick Pizane, Ben A. Ward, Miss Anna L. Cassidy, W. A. Dyer, Minnie B. Harlan, Blanche Priddy, Miss Alice Johnson, Miss Beardon, J. Holmes, Miss Wilson.

President Wilson and Secretary of State Bryan spent an hour and a half in secret conference over the situation at the White House and John Bassett Moore, counselor of the state department and the only authority on international law in the administration, was called in.

This fact alone indicated serious trouble, for so far Mr. Moore has been carefully kept out of the picture.

None of those concerned would say a word about the situation. Secretary Bryan insisted that the president was the only one to speak, and the latter declined to talk.

Washington, Aug. 20.—Nelson O'Shaughnessy, acting American ambassador at Mexico City, was given his passport sharply at midnight on Tuesday by the Mexican government.

He has sent no official confirmation of the action and ultimatum of Huerta, but from confidential sources in Mexico City, the administration learned at one o'clock in the morning of the Huerta demand for recognition and his severance of diplomatic relations with the United States.

Mexico City, Aug. 20.—The United States government was given until midnight Monday by President Huerta to recognize Mexico, it is officially stated.

The government is not specific in the public announcement as to what course it will pursue.

BREAKS OFF DIPLOMATIC RELATIONS AND ORDERS AMBASSADOR HOME.

### SITUATION IS NOW ACUTE

Provisional President of Mexico Demanded Recognition Upon One Hour's Notice—Rejects the Peace Plan.

Washington, Aug. 20.—The Mexican situation took a critical turn on Monday, and the Wilson administration is facing the most serious complication that has yet arisen in its affairs.

President Huerta of Mexico has repudiated the administration's suggestion, transmitted through "Embassy Adviser" John Lind. He has served no notice on the government that he will not listen to any suggestion of mediation, either from the United States or any other foreign government, and that he will not permit interference in any way in the internal affairs of the disrupted republic of Mexico.

How much of a diplomatic disaster Huerta's reply indicates for the United States depends upon the terms in which it is couched. No one here will disclose enough of its language to decide whether or not there is left an opportunity through which Mr. Lind may renew negotiations.

President Wilson, it is known, will go to almost any length to avoid actual intervention.

The next step is up to us, but no one here will say whether we will back down gracefully or whether we will assume a firmer attitude toward President Huerta.

The blow came as a particularly heavy one, because until Monday Mr. Lind had led the administration to believe that events at Mexico City were promising of a speedy and peaceful solution of the problem. Not until morning did the dispatch indicate that President Huerta's courtesy to Mr. Lind was but a bit of Casanova's game and that the gloves had been a club.

President Wilson and Secretary of State Bryan spent an hour and a half in secret conference over the situation at the White House and John Bassett Moore, counselor of the state department and the only authority on international law in the administration, was called in.

This fact alone indicated serious trouble, for so far Mr. Moore has been carefully kept out of the picture.

### SULZER'S CLAIM HIT

ATTORNEY GENERAL REFUSES TO UPHOLD HIM. Carmody Declares That Glynn is Legal Acting Governor of New York State.

Albany, N. Y., Aug. 20.—When the assembly of New York state voted to impeach Governor Sulzer, the attorney general succeeded to the governorship and will continue to hold that office until Governor Sulzer is acquitted or the impeachment proceedings are dismissed by the court of impeachment.

This is the decision upon which both sides in the controversy have been planning so much faith and the ruling apparently opens the way for Glynn to assume the duties of control without much further fight.

The decision followed close upon the failure of the trustees of state public buildings to meet with Governor Sulzer Monday. It had been intended for the board to meet and decide upon giving reasons to Lieutenant Governor Glynn for his office as acting executive, but when it was found that Governor Sulzer would attend the meeting and attempt to act as chairman, the members who are in opposition to him ignored the governor and did not appear.

The support of Sulzer's contention that he is still in the executive chair has been halfhearted, but the decision of the attorney general undoubtedly will drive the governor's few friends from his side and add to Glynn's faction.

Adjutant General Hamilton already has recognized Glynn.

SAYS M'DERMOTT GOT \$7,500 Former Chief of House Testifies Before the Lobby Inquiry Committee.

Washington, Aug. 18.—A story of bribery, petty and large, of conferees with lobbyists and of campaign funds raised by manufacturers, involving Representative James T. McDermott of Chicago, was told by I. H. McMichael, former chief of the house, before the house lobby investigating committee Friday.

McMichael said that Chicago members of the National Association of Manufacturers raised \$1,150 as a campaign fund for McDermott, told of numerous transactions between Martin M. Mulhall and the stockyards boss, and swore that McDermott told him that he received \$7,500 for his efforts to have the loan shark bill in the District of Columbia amended so that it would not injure pawnbrokers, and told of numerous conferences between the congressman and the lobbyist.

Los Angeles is Opposed by Grand Master for Next Triennial Campaign City.

Denver, Colo., Aug. 16.—Opposition to Los Angeles as the thirty-third triennial convocation city has developed in the form of a campaign, and it is reported in Knight Templar circles that Grand Master Arthur MacArthur has asked his sanction on the choice of the city.

"Tama" Jim Wilson is 78. New York, Aug. 19.—Former Secretary of Agriculture James Wilson of Iowa celebrated his seventy-eighth birthday on the Anchor liner Canby.

A big cake was presented him by Col. Andrew McLean of Brooklyn.

Mrs. Pankhurst Files. London, Aug. 19.—Mrs. Emmeline Pankhurst left England for France, she had been out on "license" under the "cat and mouse act." It was reported that the police received orders not to arrest her if she left England.

Noted Sportsman is Dead. New York, Aug. 19.—H. A. "Bud" Ransand, aged sixty, formerly associated with the fair grounds race track and well known in sporting circles for many years, died here of

Impossible. Started he looked about him. "My legs are comfortable," he muttered. "My knees aren't cramped. I can get the kinks out of my calves and even lean back a little. My line of sight is unobstructed. Why, not only can I see everything, I can also hear everything! I can retire to the foyer without disturbing 15 people, or even one, but—in so comfortable sitting here that I'd rather stay just where I am. These lights—the music—the scenery—all look real, yes, they strongly suggest reality—but it's impossible. Whoever heard of a comfortable theater! I must be dreaming."

### ECZEMA SPREAD OVER BODY

Roxbury, Ohio.—"When my little boy was two weeks old he began breaking out on his cheeks. The eczema began just with pimples and they seemed to itch so badly he would scratch his face and cause a weal when he ran. Wherever that matter would touch it would cause another pimple until it spread all over his body. It caused disfigurement while it lasted. He had fifteen places on one arm and his head had several. The deepest places on his cheeks were as large as a silver dollar and when he was weaned he was restless at night he had to put him on him to keep him from scratching them with his finger nails. If he got a little too warm at night it seemed to hurt badly."

"We tried a treatment and he didn't get any better. He had the eczema about three weeks when we began using Cuticura Soap and Ointment. I bathed him at night with the Cuticura Soap and spread the Cuticura Ointment on and the eczema left."

(Signed) Mrs. John White, Mar. 19, 1913.

Cuticura Soap and Ointment sold throughout the world. Sample of each bottle sent free. Write for it. Address: Postcard "Cuticura," Dept. L, Boston.—Adv.

Plus for More Hygienic Gravy. "Stray Shots," the weekly paper issued by the inmates of the military prison at Fort Leavenworth, offers this mild suggestion to the cook: "If the gentleman intrusted with the task of making brown gravy to accompany the 'chicken' should take the trouble to read a few lines in any old cook book he will discover that it is impossible to use hot water and produce a simple gravy. If he has any spark of sympathy in his soul he will realize that uncooked flour is the bane of the indigestion. A hint, then, for the great regiment that feast here should furnish comfort in the consciousness of duty well performed."

Want Changeable Dresses! At the recent International Congress of Applied Chemistry in London one of the most celebrated lecturers, Giacomo Ciamician, predicted that women of the future will not be contented with a dress which remains constantly of one color, but will desire a color that change in harmony with their surroundings.

Thus the color of the apparel may be changed without changing the dress. Passing from darkness to light the color would brighten, thus conforming automatically to the environment—the last word in fashion for the future.

This prediction will come true as soon as chemists learn to understand better what are called "photographic colors," or colors that change with the intensity of the light upon them.

In men's wear this might mean that the light-colored suit of the bright summer day would be transformed into a dark suit at night.

Mosquitoes seem to be troubled with chronic insomnia.

AN OLD NURSE Persuaded Doctor to Drink Postum.

An old faithful nurse and an experienced doctor, are a pretty strong combination in favor of Postum, instead of tea and coffee.

The doctor said: "I began to drink Postum five years ago on the advice of an old nurse."

"During an unusually busy winter, between coffee, tea and overwork, I became a victim of insomnia. In a month after beginning Postum, in place of tea and coffee, I could eat anything and sleep as soundly as a baby."

"In three months I had gained twenty pounds in weight. I now use Postum altogether instead of tea and coffee; even at bedtime with a soda cracker or some other tasty biscuit."

"Having a little tendency to Diabetes, I used a small quantity of saccharine instead of sugar, to sweeten with. I may add that today tea or coffee are never present in our house and very many patients, on my advice, have adopted Postum as their regular beverage."

"In conclusion I can assure anyone that, as a refreshing, invigorating and nerve-strengthening beverage, there is nothing equal to Postum."

Name given by Postum Co., Battle Creek, Mich. Write for booklet, "The Road to Wellville."

Postum comes in two forms. Regular (must be boiled). Instant Postum doesn't require boiling but is prepared instantly by stirring a level teaspoonful in an ordinary cup of hot water, which makes it right for most persons.

A big cup requires more and some people who like strong things put in a heaping spoonful and temper it with a large supply of cream.

Experiment, until you know the amount that pleases your palate and have it served that way in the future. "There's a Reason" for Postum.

# GOVERNOR WIELDS AXON J. M. WRIGHT

Dr. E. O. Dyson of Chicago Succeeds Veterinarian.

## MANY NEW APPOINTMENTS

Chief Executive Names 15—List Includes Successors for Two New Free Employment Offices.

Springfield.—The ax has fallen upon J. M. Wright, veterinarian, of Chicago. Governor Dunne exercised the alternative of "firing" those holders who do not tender their "requested" resignations.

Thirteen appointments were announced and Dr. Wright's successor was among them. Dr. E. O. Dyson of Chicago is the appointee.

In his official list the governor noted "vice James M. Wright, removed." It is understood that Dr. Wright, who served as state veterinarian under Deneen, had been served with notice to resign, along with all other appointable state employees within the governor's jurisdiction, but he failed to respond.

The governor's list of appointments, which includes superintendents for two new free employment offices, follows:

Dr. P. T. Diamond, Chicago, member state board of dental examiners, to succeed William P. Whalen, resigned. James H. Burdette, Chicago, member state civil service commission, to succeed himself. Burdette's former appointment as member and president of the commission was regarded as temporary.

R. J. Cannell, Rockford, public administrator of Winnebago county, to succeed Bruce H. Garrett, resigned. Thomas O'Connor, Peoria, retained as member state board of administration, to succeed himself.

T. C. Chamberlin, Chicago, member state geological survey commission, to succeed himself.

Thomas Netter, Chicago, member state board of teachers' examiners, to succeed W. M. McClintock, resigned.

Anna L. Titman, Springfield, member Illinois state board of nurse examiners for term ending December 31, 1914.

Julia Cubbek, Rockford, member Illinois state board of nurse examiners for term ending December 31, 1915.

Mary Adelaide Walsh, Chicago, member Illinois state board of nurse examiners for term ending December 31, 1915.

John A. Croon, Rockford, superintendent Illinois free employment office at Rockford, a newly established office.

Cornelius Donovan, Rock Island, superintendent of Illinois free employment office at Rock Island, and Moline, a newly created office.

Frank Truiter, Springfield, member state board of charities, to succeed John M. Rapp of Fairfield, resigned.

One of the most important jobs dispensed is held by Thomas O'Connor of Peoria, former mayor of that city, who has held a minority place on the state board of administration, since its establishment. O'Connor was appointed by Governor Deneen.

The new free employment offices in Rockford, Rock Island and Moline are products of the amended state law applying to the offices and providing for the establishment of such offices in all cities of the state of 50,000 population or over, or in contiguous cities, the combined population of which is 50,000 or more.

Rock Island and Moline come under the latter class. The number of free employment offices in the state is eight.

Hammond Given Promotion.

Elmer P. Hill, who for 16 years has been employed in the office of the secretary of state, severed his connection with the office and is succeeded by J. L. Hammond of Anna. For the last few years Mr. Hill has held the position of first assistant clerk, and it was his duty to compile all session laws.

Mr. Hammond, who was appointed by Secretary of State Woods, for the past sixteen years has been manager and editor of the Anna Democrat.

From 1901 to 1913 he was city clerk of Anna and declined to run for reelection when asked to do so by Secretary of State Woods that he would be given a lucrative position in his office. Mr. Hammond served as chief clerk at the Anna state hospital from 1887 to 1897.

For the past three months he has been employed by the secretary of state. For a time he was in the automobile department. He also held a position in the printer's office for a short time.

Mr. Hill's plans for the future have not been announced.

Daubert Will Attend Meet.

Word was received at the local Y. M. C. A. from Physical Director Daubert, who is spending his vacation at Lebanon, Pa. Director Daubert states that he is having a fine time and will attend the Y. M. C. A. conference, which will be held at Silver Bay, Pa. Director Daubert will return September 1.

Rev. E. S. Combs, pastor of the Douglas Avenue M. E. church, has been engaged to take charge of the Sunday school at Lake.

Secretary of State Appoints.  
Mrs. Ames Trotter, Springfield, was appointed by Secretary of State Harry Woods to be attendant at the ladies' writing room on the second floor corridor at the state house. She succeeded Mrs. Susan Davis, colored, who had held the position for sixteen years. The appointment of Mrs. Trotter, which was certified to the state civil service commission, was confirmed by that body at their meeting in Chicago. Mrs. Trotter is a sister-in-law of State's Attorney Edmund Burke of Sangamon county.

Secretary of State Woods also appointed William Baker of Chicago as passenger elevator conductor to succeed George Horton of Chicago, and William Flowers of Pontiac to succeed Gus Sherbaum of this city. Baker has been elevator shift and Bowers the afternoon shift. Mr. Bowers has been acting as supply conductor and has also been in the automobile department of the secretary's office.

John Davis, son of Mr. Catherine Davis, 814 East Edwards street, Springfield, has been appointed by the state board of prison industries as stenographer in the office of the board at the state house to succeed G. Arthur Holloway.

Professor Crook Returns.  
Prof. A. R. Crook, curator of the state museum, returned, after attending the twelfth international congress of zoologists, held at Toronto, Ontario, Canada. Professor Crook was appointed a delegate to the congress by Governor Dunne to represent the state museum.

At the great gathering there were more than one thousand delegates, representing 32 countries. The number in attendance was remarkable, considering that there are 15,000 zoologists in the world and that one out of every eighteen was present at this conference.

The congress, which was the most successful ever held, was presided over by Prof. Frank D. Adams of McGill university, Montreal. The meetings are held once every three years, and the next will be held in Brussels, and six years hence the congress will convene in South America.

While in Canada Professor Crook made a journey to the mountain region northeast of Ottawa, near the town of Richmond and Kirkville, and there gathered number of excellent mineral specimens which he will place in the state museum.

Among the most important are specimens of mica, graphite and apatite, the greatest source of phosphorus, pink calcite and tourmaline; also an unusual specimen of diopside, beside a number of other rare and valuable mineral fossils.

On the whole, Professor Crook considers his trip as being highly profitable as well as having afforded much pleasure.

Robbers Visit Dental Offices.  
Robbers gained entrance into two local dental offices and made away with \$24 worth of gold.

Discovery was made that the men had entered the office of Dr. J. E. Darmer, 5114 1/2 East Monroe street, and Dr. J. O. Baldwin, Fifth and Monroe streets, by climbing through the transoms of the office of Dr. Darmer, the intruders attempted to pry the door open with a "jimmy." Failing in this the transom was forced.

After searching the room thoroughly \$20 worth of gold was taken.

Entrance was gained into the office of Dr. Baldwin in the same manner that Dr. Darmer's office was entered. Only four dollars' worth of gold was taken.

The police have made no arrests in connection with the case.

City to Sell Power to State.  
The city of Springfield will soon be selling electricity to the state. Within the next two or three days light and power will be furnished from the municipal lighting plant to the state laboratory, north of the fair grounds.

This being the announcement made by Commissioner Spaulding. The wires to the laboratory have almost all been strung and there remains but little more work to be done before the current is turned on. The laboratory will use a load of about seven kilowatts.

The city commissioners will hold a meeting at which time an ordinance fixing a schedule of rates for electric current to be supplied to the municipality will be presented by Commissioner Spaulding. The rates proposed in the ordinance, and which will probably be accepted, range from three to eight cents a kilowatt hour, depending upon the amount used. The Utilities company is charging from five to thirteen cents a kilowatt hour.

Another matter of consideration will be the ordinance which seeks to prohibit breeding stables within the city limits.

The commissioners may also consider the proposition of Edward H. Payne to pay over a thousand feet of South Fifth street, south of Ash, in exchange for the laying of water mains in the street.

The recommendation of boiler inspectors that new boilers should be installed at the municipal lighting plant will be taken up and discussed.

New State Corporations.  
Secretary of State Woods issued certificates of incorporation to the following:

Bridgeport & Southern Railroad company; principal business office, Bridgeport; capital, \$250,000; extends fifty years; extends from Bridgeport, in Lawrence county, southward through the counties of Lawrence and Wabash to the city of Mount Carmel.

distance of about thirty miles. First board of directors—John P. Klein of Chicago, A. A. Pantolis, Chicago; Othello O. Weidner, Chicago.

Colon, C. K.—"The engineer's dream of the centuries has been realized. Everyone who writes of the Panama canal feels bound to use that phrase, and though it is trite, it is no less true."

Possibly when Balboa first stood on the "Peak of Darien" and gazed entranced at the waters of what he called the Southern sea, the thought of cutting through the isthmus came to him. Certainly, within three years after his great discovery or in 1516, he had transported two ships in place across from the Atlantic to the Pacific and there put them together.

It could not have been very much later that the idea of an isthmian canal was born, for during the reign of Philip II. of Spain (1556-1598) the Inquisition declared that any such project to alter the face of the earth was impious, and the Spanish ruler forbade its further discussion. The ban of the church was effective for some time, but in 1680 the Scotchman of the name of Patterson revived the scheme, and established a colony on the shores of the isthmus and even made a crude survey of the proposed route. Calouste Gulbenkian, the Turkish banker, also preserves the memory of that attempt. French scientists in 1735 advocated a Nicaragua canal, fifty years later the Spanish government ordered a survey of the Darien route, and early in the nineteenth century von Humboldt declared a canal was practicable. In 1825, immediately after Latin America had freed itself from Spain, the Central American and United States Atlantic and Pacific Canal company was organized, and one of the directors of the concern with the high-sounding name was DeWitt Clinton.

Various schemes were started and failed, and in 1825 the United States senate voted for the building of a Nicaragua canal. An expedition was sent to that country and reported that the route was practicable at a cost of \$25,000,000.

After the Civil war there was much negotiating by our government for a canal concession, but when the Nicaragua route seemed to be the best, the Bogota government became impatient and gave the concession for a Panama canal to Lucien Napoleon Bonaparte Wyse, a French lieutenant.

He made some maps and organized a company which sold out to the financiers with whom Ferdinand de Lesseps had associated himself.

Albert Edwards in his admirable book on Panama thus describes the beginning of the tragedy of de Lesseps and his company.

"The digging of the Suez canal was the accomplishment of his life. All his vigor and energy had gone into it. He came back to Paris literally carried on the shoulders of his nation. The government made him a 'comte' and the people called him 'le grand Français.' But he fell among thieves. The little man was taken blindly into the trap of speculators, who foresaw a rich harvest in the drawing together of his great name and the shady concession of Lieutenant Wyse. They set the stage by summoning the scientists of the world to a great congress to discuss an Atlantic-Pacific canal. Although it was called a 'scientific' congress, most of its 116 members were speculators and politicians. Only forty-two were engineers or geographers. They elected Count de Lesseps, railroaded through a resolution that the Panama route was the only practicable one, and formed the Universal Inter-oceanic Canal company by buying the Wyse concession for 10,000,000 francs before the bona fide members of the congress knew what had happened and in the face of much protest. ## METHODIST.

Sunday, 9:30 a. m. Sunday school. Sunday, 10:40 a. m. and 7:30 p. m. Public worship and preaching. Every one welcome. Good singing by a chorus choir. Anthems and solos. Wednesday evening, 8:00 o'clock. Praise and prayer service.

## Suffered Eczema Fifty Years—

New Well. Seems a long time to endure the awful burning, itching, smarting, skin-disease known as "Eczema." Another name for Eczema. Becomes a real trouble, also, that Dr. HOBSON'S ECZEMA OINTMENT has proven a perfect cure.

Mrs. D. L. Kenney writes: "I cannot sufficiently express my thanks to you for your Dr. Hobson's Eczema Ointment. It has cured my tetter, which has troubled me for over fifty years." All druggists or by mail.

## NEIGHBORHOOD ITEMS.

"To Make the Best Better" is the motto adopted for the 1913 Cook County Teachers' institute, to be held during the whole of next week at the Chicago normal school.

The annual "Palatine Day" celebration will take place Saturday, August 30, at Deer Grove park. The usual picnic sports and amusements will be in evidence and music will be furnished by the Palatine Military band.

The annual meeting of the Lake County Tuberculosis institute will be held at Waukegan September 1. Among the business to be considered is the sale of the Lake Breese sanatorium to Lake County. The county officers to take over the sanatorium, the consideration to be "liquidation of all indebtedness."

## The Best Pain Killer.

Bucklen's Arnica Salve when applied to a cut, bruise, sprain, burn, or scald, or other injury of the skin will immediately remove all pain. E. C. Chamberlain of Clinton, Mo., says: "It relieves cuts and other injuries of their terror. As a healing remedy its equal don't exist." Will do good for you. Only 25c. at Barrington Pharmacy—Adv.

## Strange.

Strange things happen. The other evening we were kept awake for an hour or so by two men arguing a certain question and for once the man with the loud voice was right.

## Creating Business.

Some who undertake to show that "the gun isn't loaded" instead of providing occasion for undertaking of another sort.

## Always Ready.

It appears that there is always a petulant woman waiting for the married man who wishes to wind up his career with a joy-ride—Chicago Record-Herald.

American Salmon in Tasmania. American salmon in the fresh waters of Tasmania are prospering wonderfully. Some of them increased in weight from two ounces to four pounds in 41 months.

## Idiot and Accidents.

Man who examined a naphtha fog with a match is the same fellow who periodically investigates a supposedly unloaded revolver and kills a couple of people.

## Visual as Well as Vocal.

"His language was terrible; I never saw anyone," said a policeman at Bridgend, England.

## THE ONLOOKER

BY HENRY HOWLAND

## A Primrose Way

I see them trudging down the street. His head is bent, his face is white; Though she is old her smile is sweet. And, best of all, her heart is light.

He fondly guards her from the harm. But she is proud to bear his name. And he will love her till the last.

To him she still is young and fair.

To her he still is brave and strong; The war is strewn with roses where They slowly, gladly, trudge along.

## Queer.

"I had a curious experience not long ago," said a Chicago traveling man. "I was anxious to get into the city to spend Sunday with my family, and had driven across country for seven miles for the purpose of catching a through train on one of the important railroads. When I arrived at the station I found on looking at the bulletin board that the train was 40 minutes late."

"Well, what was queer about that?" he was asked.

"The queer thing about it was that the train was only 40 minutes late."

## Happiest Man.

Happier than the man who thinks that whatever is his right is his best, who thinks that whatever is his best is his right.

HE rivers eat their banks. The tide favors the sand. The morning sun drikes up the mist. The ocean eats the land.

Take up proper. And pride eats out the soul. But moths the diet record hold. Because they eat a hole.

—Friedrich Schlegel.

## HOUSEHOLD HINTS.

To outwit the moth, brush the fur or clothing put into the bag or wringing and into the box or drawer set an uncorked two-ounce bottle of oil-form. This will not only kill the moths, but any eggs which may be in the garments.

Lemon jelly, or in fact any gelatine jellies may be remolded if they are carefully softened by heat. Do not allow the mixture to boil, or it will ruin the flavor. Pour into wet molds and chill.

Melted ice may be used in cakes, cookies and puddings. Chocolate ice cream, with the addition of a little gelatine, may be molded and served as a jelly.

Never throw away even a very small piece of soap. Save all the laundry soap in one dish, the toilet soap in another. The toilet soap may be melted in a little water and cornmeal stirred into it to make a good soap for the hands. The laundry soap, after melting, may be poured into molds to harden and the cakes may then be used for dish washing.

Every one knows how annoying and often destructive rocking chairs may be, used on a rug or carpet with heavy nap. If the rocker is used on a rug and the nap sends the chair toward the walls or other furniture, turn the rug so that the nap runs the other way.

A piece of burlap the size of a tea towel is fine to keep the stove rubbed up. It may be dampened and is thick enough to save the hands.

A blacking box is enough to try the patience of a saint or man. The cord is so attached to the box that it is hard to pry them apart. When once open, put the blacking in a large topped cold cream jar with a screw top. Then there will be no trouble about getting the top off. A piece of sizer down makes a good polisher.

## REAL TROUBLE.

"...and it harder and harder to live within my means." That ought to be easy enough. What I'm trying to do is live within the means my wife is endeavoring to make the public believe we have.

The Cost of Raw Materials. I know a fair and gentle maid Who tells me she has learned to bake; She says she would not be afraid To match the biscuits she can make With those that mother made; the de She makes is most delicious, too; A Her charms appeal to me, and I Am sure that she'd be sweet and true.

I know that she can broil a steak. Her doughnuts oft have made me glad; One with a piece of angel cake She cheered me when my heart was sad.

But she, alas, is not for me; Her waist I never may hope to hook; I could not buy the things that she Would wish, if she were mine, to cook.

## Probably.

"My wife scolds me every time I take out a new life insurance policy."

"Why does she scold you? For living?"

## He May Be Good Now.

"I never trouble myself about the future," he said.

"No wonder," she replied. "It must keep you pretty busy thinking about your past."

## Cruel.

"My friends," said the man who had been making a long and tiresome speech, "there is little more that I can say on this subject."

"Why more?" asked an impatient one who had just finished yawning.

## Avoiding Trouble.

"Do you have any trouble with your janitor?" asked Mrs. Flatfish.

"Oh, no. Both my husband and I believe in devoting all our spare moments to the pursuit of pleasure."

## Self-Restraint.

"My wife is a woman who can practice great self-restraint."

"Yes. She came over to see our new baby the other day, and didn't say 'Ain't he cunning?'"

## Brilliance and Cleverness.

The difference between brilliance and cleverness is that a clever man may seem to be brilliant when he isn't.

## EVENTS AT LAKE ZURICH

News of Beautiful Summer Resort and the Progressive People Who Reside There.

Emil Frank was a Chicago visitor Monday. Carl Ernst made a business trip to Chicago Tuesday.

August Froelich delivered a herd of milk cows at Crystal Lake Saturday. W. L. Prehm attended the railroad directors' meeting at Palatine Monday.

Robert Mathias returned to Springfield after a few days visit with his mother and brother here.

Mr. and Mrs. Lou Geary, Miss Nora Fuller and Miss Helen Parish visited at Fox River grove Friday.

The dance given at the Lake Shore pavilion last Saturday evening was well attended and an enjoyable event. The dance was given under the auspices of the local baseball team.

The baseball team won again Sunday, easily defeating the Marshall Fields of Chicago. The score was 12 to 4. Next Sunday a Morgan Park team will try its luck with the locals.

A large hayrack load of young Barrington people came up Monday evening for a swim in the lake. Lake Zurich has always been a favorite place for Barrington people to enjoy a short outing.

William Blackness gave a small dancing party in his Lake Shore pavilion last evening and will give another dance Saturday evening. The James O'Connor orchestra of Chicago will furnish the music for the latter event.

The annual picnic of St. Peter's church will take place Sunday in Oak Park. This yearly event is always so popular and so well attended that the mere announcement of the date is sufficient comment. A good time is assured.

G. W. Foreman is laid up at his home in Barrington with a broken rib, two others cracked, and several bad bruises, received Saturday evening when he stepped into an open cellar way in his place of business. His son James is conducting his business here during his absence.

James Foreman and Fred Schumacher will give a dance at Oak Park pavilion next Saturday evening. The popular Kruse orchestra of Des Plaines will sell for 25 cents, ladies free, and spectators will be charged 25 cents. A good time is assured. Don't miss it.

Cendiments. "Jonesy seems to think he's the salt of the earth." "Well, his wife's the pepper."

## EXHIBITS

Judging from the present outlook, the exhibits this year will be bigger, better and altogether more extensive than ever before. Many requisitions are coming in daily for live stock stalls and pens and the exhibits in these classes will surely eclipse all previous events. The condition of farm crops is such as to insure the very best exhibits along that line

## BASEBALL

There will be contests each day between the best teams for which liberal purses will be offered

*When the children are  
sick let us  
supply the  
medicine*

If you have remedies for the children right in the house  
it will save you many a sleepless, midnight floor  
walk, and many a dark two a. m. trip to our drug store.  
Before baby becomes sick ask your doctor how to prevent  
illness and save yourself the midnight floor walks. In giving  
medicines to your tender children you want to know that  
they are pure and fresh. We will not supply you with any  
other kind. Prescriptions carefully compounded.

## SUITS FOR BOYS

In order to keep our tailoring department busy  
during the dull summer season now upon us;  
we are going to offer exceptional bargains in

**Boys Knee-Trouser Tailor-  
Made Suits until September 1**

We will guarantee a perfect fit and the best of  
fabrics in boys suits at

**\$8.00 to \$15.00**

The cost is a few dollars more, probably, than a ready-made could be bought for,  
but they will outwear several ready-made suits and are so constructed that  
they can be let out if he out-grows them before he out-wears them.  
You are getting the suits at almost cost. We are not at-  
tempting to make a profit on them—just keeping  
busy. It's economy to buy them and  
wise to buy them now for this  
offer is good for only  
one month.

Our Money-Back Guarantee Protects You.

Carr, who has been Fern's first assistant, is advanced to chief operator now and we believe her appointment to this position will meet with the approval of the patrons of the office. Our telephone girls are all courteous, palm-taking and efficient and we believe that very few complaints ever reach their superiors from patrons here.

**Mothers! Have Your Children Worms**  
Are they feverish, restless, nervous, irritable, dizzy or constipated? Do they continually pick their nose or grind their teeth? Have they cramping pains, irregular and ravenous appetite? These are all signs of worms. Give "Kickapoo Worm Killer" at once. It kills and removes the worms, improves your child's appetite, regulates stomach, liver and bowels. The symptoms disappear and your child is made happy and healthy, as nature intended. All druggists or by mail, 25c.
