## MONEY IN YOUR POCKETS

We repair, clean, press and dye your old garments thoroughly and carefully, thus adding a long period to their days of usefulness and saving you many dollars. Keeping your suit clean and neatly pressed does not call for an expenditure of money but is instead an economy, for the added life of the suit will more than pay the cost of this attention, to say nothing of the better appearance you will present, and consequent respect and confidence you will inspire. Our service is prompt and our charges reasonable. If out of town send in your clothes by parcel post and have them renovated and returned.

The new structure is being built opposite the present tower on the other side of the E. J. & E. tracks, and will be twice the size of the tower now in use. It is understood that the agent, T. J. Mrs. Carrie Batel, wife of William Batel of Williams street, was taken to the Lake county court at Waukegan Saturday and tried for sanity. She had been wandering around the streets here the day before and it is said she had been acting queerly for some time. Marshal Peters took her in charge and upon his advice Mr. Batel consented to an attempt to place her in an institution. The judge committed her to the Northern Illinois Hospital for the Insane at Elgin.

Mr. Batel says she was kicked in the stomach by a cow several years ago, and he believes that is what affected her mentally.

### The Highest Ideals, Applied to Public Service

Back of every institution is an Ideal, a certain standard and conception.

The single Ideal of the Bell Telephone organization is Service which shall be Good and Adequate in all its phases.

To attain this ideal, high scientific apparatus, together with efficiency methods in operating must be evolved, a harmonious, well-disciplined organization must be built up, commercial methods must be perfected, the financial conduct of the enormous business must be above criticism, and the problem must be solved of growth and development to meet an unparalleled public demand.

These ideals are being realized in Bell Universal Service.
