PROHIBITIONISTS MEET IN WASHINGTON, D. C.

Rev. H. H. Thorne Pastor of Salem Church, One of the Committee, Describes the Gathering.

PETITION PRESENTED TO CONGRESS

Asks That Body to Grant Referendum on Amending Constitution—National Prohibition is Aim.

By Rev. H. H. THORNE.

On last Sunday evening a large gathering at the Salem church listened to a report by the pastor, Rev. H. H. Thorne, who served on the delegation of one thousand, selected by the Columbus officials a few weeks ago and who went to our national capital for the purpose of presenting to congress a petition to have that body grant the privilege of voting on the proposed amendment to our constitution embodying the prohibition of the manufacture, sale and transportation of intoxicating liquors as a beverage.

The delegates formed into marching lines at the Raleigh hotel, Washington, D. C., on Wednesday morning, and were joined by representatives of the W. C. T. U. near Capital hill, and together with other representative bodies, met on the east steps of the capital where addresses were delivered, and where the important petition was formally presented to members of congress, one copy to Senator Shepard, and the other to representative Hobson, who then in turn spoke enthusiastically to the immense concourse of about four thousand people.

It was stated by speakers that for fifty years there has not appeared in Washington body of representative people from all (12) states in the union with anything to compare with this one, and the fact that this body represents 97 different organizations—both religious and secular, praying for the right to have the proposed amendment to our constitution submitted to the vote of the citizens of our country, voicing as it does, the conviction of over half the inhabitants of our land, requires due respect and demands just recognition, which congress cannot ignore.

The absolute prohibition of liquor for revenue purposes has been adopted by nine states—Maine, Kansas, North Dakota, Georgia, North Carolina, Oklahoma, Mississippi, Tennessee and West Virginia, having an aggregate population of 14,685,961.

The legislatures of thirty-one other states have by law prohibited the sale of intoxicating liquors in certain classes of political subdivisions, to the extent that 26,446,810 people in these states are living under prohibition by legislative enactment. In Iowa, Arkansas and South Dakota, where partial prohibition prevails, 3,693,201 people reside in prohibition territory. In Wyoming and New Mexico prohibition prevails throughout except in certain municipalities. And in still other states, districts are formed where prohibition obtains, thus adding to the aggregate population in prohibition states. As a result of the operation of these provisions more than 47,000,000 of the population of the United States live under prohibition, and 71 per cent of the area of this nation is, by federal, state or local decree, dry.

The nation is going dry with leaps and bounds, and the movement will stop short of nothing less than complete abolition of the legalized saloon.

On Thursday afternoon Representative Hobson introduced his bill or petition in the house, every space in the large galleries being filled by delegations, it was an exciting occasion, and the dramatic effect incident thereto will live long in our memory. Senator Shepard of Texas introduced the measure in the senate with appropriate remarks, and in both houses it will not lack attention.

As far as other incidents in relation with this movement at this time are concerned, the delegates report a full measure of enjoyment.

Men's Club Debate.

The debate on the subject "Are the Teachings of Socialism Right and Are They Practical?" which was argued at the Barrington Men's Club Monday evening in the Methodist church interested a very good attendance of members and ladies invited. The four gentlemen who spoke quoted leading socialists and authoritative writers against socialism and, while the negative was as was expected considering the question, still the affirmative gave good reasons for some views adopted by socialism.

The next meeting about the middle of January is in charge of F. H. Plagge, Arnett Lines and Lovell Bennett who will arrange a musical.

FIRST STATE BANK TO PAY DIVIDEND

Will Pay Three Per Cent. Dividend on Capital Stock of \$50,000 January First.

The board of directors of the First State Bank of Barrington, at a meeting held last Saturday voted to pay a semi-annual dividend of three per cent on its capital stock of \$50,000. After payment of the dividend almost an equal amount will be carried in undivided profits. The bank took over the business of Robertson, Plagge & Company on July 10 of this year. The payment of a dividend at the expiration of the first six months will come as a surprise to a majority of the stock holders as they hardly looked for such a payment before the end of the first year.

AIRE DALES CAPTURE PRIZES

Vickery Kennels Carry off Honors at Alre Dale Specialty Show in New York.

On Tuesday, Stanley Lomas, manager of the Vickery kennels near Honey Lake, returned from New York with the seven Aire Dale dogs which he had taken on December 11 for exhibition at the Aire Dale Specialty Dog show which was held in the Hotel Hoffman roof garden.

Hundreds of the highest class Aire Dales from the best kennels in America were entered, so that the grade of the local dogs is shown in the fact that they took ten first prizes and twenty-eight special prizes, which besides blue ribbons and red rosette markers, were silver cups, purses of money and medals.

The New York Sun of December 15 says: "Mrs. A. V. Crawford came to town with a team from the celebrated Vickery kennels of Barrington, Illinois, a Chicago suburb, and took pretty nearly everything. These dogs are possibly unbeatable by any other kennels of Aire Dale dogs.

Stearns' Christmas Recital.

The annual Christmas recital of the Sears' School of Music was held last Friday evening, December 12, at the home of Mr. and Mrs. W. J. Cowen on South Hawley street. About 15 students from the piano, violin and cornet departments appeared on the program and were a delightful credit to their teachers.

The parents and other guests who attended enjoyed the evening as a musical pleasure and as an exponent of the work the young people are doing.

All the piano pupils, excepting one, were those studying with Miss Violet Ultsch and those playing the other instruments have been under the direction of Walter N. Sears.

Buy Your Christmas Seals Now.

The ladies of the Women's Exchange, Mrs. W. J. Cameron and Mrs. Lee Winger, report that the sale of Christmas seals in Barrington is not as brisk as might be. This week they placed seals for sale in Plagge's and Meyer's stores.

About 500 have been sold. Last year 3,000 were used in Barrington.

Buy these stamps and place them on your mail and packages. The few pennies you spend in so doing will not be an expense to you while it helps the great cause of stamping out the dread white plague.

Abel—Mohn

The marriage of Theodore Abel, son of Mr. and Mrs. Joseph Abel who live near Algonquin, to Miss Esther Mohn of Chicago, occurred Saturday afternoon, December 13, at three o'clock at St. Paul's church on east Main street. Rev. E. Wilking performed the ceremony and the bride and groom were accompanied by Elsie and Clarence Abel, Ida Jacobson and George Hart.

Mr. and Mrs. Abel will live on a farm three miles west of town.

WHEN CHRISTMAS TIME COMES ROUND

S. E. KISER

When Christmas time comes round it seems
As though the long, long years
Roll back and take away our cares
And don't you all out there
I don't know what you do, but when
The great day comes along
I get to feelin' young again,
And kind of turn to song,
And I get to feelin' just like
A boy would. 'Tis the round,
The old world seems to brighten up
When Christmas time comes round.

I'm tickled at the Jumper! Jack
And all them kind of things;
I like to watch the toys that play
By windin' up the spring,
And I like to see the why it is—
Love seems to fill the air,
And I forget I've enemies;
Or troubles anywhere;
And I like to see the sport,
Or listen for the sound
Of voices that have long been still,
When Christmas time comes round.

I wish that I was Santa Claus
And had a magic sleigh.
To visit all the children who
Love and like the day,
The orphans and the cripples and
The poor folks everywhere—
All children that are good and kind
And don't forget to serve;
I'll be sure that they'll be glad
When they get up and found
Their stocking's fairly bustin' out.
When Christmas time comes round.

Oh, happy time of singin' bells
And hills all white with snow;
Oh, joyful day that takes us back
To the olden times of yore,
I wonder if up there above
Where happy angels roam
They do not get to thinkin' of
The olden times of yore,
And turn, in fancy, back once more
To listen to the sound
Of voices that have long been still,
When Christmas time comes round?

Will Raise Postal Savings Limit.

A bill to remove the limitation on the amount that may be accepted from depositors in the postal savings was taken up by the house at Washington Monday.

The measure would permit unlimited deposits on interest which would be paid.

Under the present law the limit is \$100 in each calendar month, no account to exceed \$500, exclusive of accumulated interest.

At the post office here little business has been done in this department since the First State Bank of Barrington, which is a depository for postal savings funds, opened a savings department. The bank pays three per cent on these accounts while the government only allows two per cent.

They reported 16 cities of the state inspected in the last year, and their aim is to determine all authorities and departments attach in hazard inspection after the inspectors have gone.

Firemen, the association urged, should be absolutely familiar with every door and every item which would in any way modify fire hazard in their communities.

Not only is the association believes, but every citizen should know for himself hazards that may be hidden in school and other buildings.

The semi-annual sessions of the Illinois Field club and the Illinois State Field club of Underwriters held their annual banquets at the Land Hotel.

These organizations did not attempt any business and their proceedings were wholly routine.

Potts and former Secretary of State C. J. Doyle, at present associate counsel for the National Board of Underwriters, were the chief speakers. W. J. Nolan of Rockford was toastmaster.

TUBERCULOSIS A SOCIAL AND PUB- LIC HEALTH MALADY.

Tuberculosis is a problem of impor-
tance to the rural community as well as
to the people of the city, and bovine
tuberculosis is a real menace to public
health and we should work unitedly to
secure the enactment of laws protecting
the people from this danger.

Tuberculosis is a social and public
health malady of the utmost impor-
tance and in which the entire citizen-
ship is concerned, a problem the solu-
tion of which must appeal to the co-
operation of the sociologist, the econo-
mist, the physician, the manufacturer,
the farmer, the teacher and the
preacher, as well as to the state,
county and municipal health authori-
ties, to the end that we may secure
definite and attainable reform measures,
a lessening of the ravages of the di-
sease and its ultimate eradication.

THE SEASON'S GREETINGS.

Christmas day comes next week and
the REVIEW wishes a happy day may
be granted to all its subscribers and to
all our citizens. May each home be
visited by a Good Angel who will obliterate
from the hearts and minds of those
living therein all bitterness
towards the world for sorrows suffered
or disappointments known. And in the
midst of the preparation of gifts for
those we love and the planning of
pleasures for the day, may we all give
thought to the true meaning of Christ-
mas as the birthday of Christ who begs
that love, kindness, charity, generosity
and temperance in all things may fill
our lives instead of petty acts and
thoughts, gossip, miserliness and
greed.

SOCIETY AGAINST USELESS GIV- ING.

The people of this village are mem-
bers of the "Society for the Prevention
of Useless Giving." We are in gen-
eral practical. We give for Christmas
present useful things, such as are
always more "blessed to receive" than
frivolous trinkets. Our local mer-
chants have filled their stores for the
Christmas season with hundreds of
articles, attractive and sensible.

There are five more shopping days
before Christmas. Visit the home
stores. Be a "S. P. U. G." and buy
literally, but wisely.

NEIGHBORHOOD ITEMS.

TO HOLD THE PHOTOS

DAINTY LITTLE CASE OF COMPARATIVELY EASY CONSTRUCTION.

Will Do Away with the Necessity of "Wadding Out" Collection That Has Become Too Large for Convenient Handling.

In these days of amateur photography, photographs have the knack of collecting in such large numbers that it is rather difficult to know what to do with all of them, but one way out of the difficulty is to make a dainty little case for holding some of them.

This case is made of a small piece of cream-colored satin and lined with white Japanese silk and edged with a pale pink silk cord carried into three little loops at each corner. It is intended for holding cabinet portraits, and when closed measures 8 inches by 5 1/2 inches.

The case should be stiffened with a piece of cardboard sewn in between the satin and lining at the back.

The edge of the pocket is bound with narrow ribbon of a color exactly matching the silk cord, and the word "Photographs" is embroidered across the case in silk of a similar color. The remaining space is filled up with a simple design of white daisies and leaves, and in various shades of a pale pink ribbon stripes are provided to secure the case when closed.

This case looks very decorative and pretty upon a table, and the portraits are easily accessible to anyone who desires to inspect them, and at the same time are secured in them so that they are well protected from dust and dirt, and they will keep in good condition.

WITH THE LINGERIE FROCK

Handkerchief Linen Scarf Completes the Exceptional Daintiness of the Costume.

Of particular daintiness are the handkerchief linen scarfs to be worn with lingerie. Make one in the prettiest pink, pictures a yard or more, two yards in length and a half or three-quarters of a yard wide. Scallop the edges with the aid of a spool or thimble and pencil, pad them sparingly and buttonhole in fine white mercerized twist. Embroider the inside of the scarf with delicate, dainty designs, designs desired. Forget-me-nots, tiny scattered at the scarf ends and trailing in thinning lines along the sides are most effective. If one hasn't a stamping outfit, any professional stamp will gladly follow instructions. Eyelet work can be used, giving the scarf a less solid and heavy appearance. The corners should be finished with bows on the unimportantness on the wrong side, as it will, of course, be frequently exposed to view. About the scalloped edge whip valances lace an inch or an inch and a half wide. The flowers may be worked in white or natural colors.

For the Artistic Woman. To the woman with blonde tresses, or better still, hair in a dark shade, a skirt of sunburst yellow would be acceptable than a hope chest kimono of aqua marine green. When enveloped in its flowing folds she will look like a water nymph lately come from her quiet pool.

Make the kimono of silk crepe or crepe de chine. Have the long, loose, tight trailing all around, so it looks good front to give it a graceful fullness. To further emphasize the synth effect, embroidery upon it water lines in white floss silk. The centers should be yellow, and may be in French knots, and the foliage should be a darker green. Trail the lilles down the two fronts and about the bottom of the kimono.

IN CREPE DE CHINE.

The design shows a simple cross-over model in crepe de chine. The sash is in white and Egyptian blue satin, while a plaiting of blue edges the decolletage.

Gloss Spoon.

A maid's distaste for polishing the silver is largely responsible for the new fashion which introduces as much glass as possible on the dining table. Metal, glass, and wood, salt-cellars, fruit stands, bonbon dishes and similar table accessories made of glass, but so are spoons, and even knives and forks in one household.

The glass spoon is the pride of one housekeeper.

Real cutlery, of course, cannot be absolutely dispensed with, and steel table knives and silver forks continue those used on the cuffs.

NEEDS TWO HANDKERCHIEFS

Dainty Apron Requires Only That Material and Would Take But a Short Time to Make.

The sweetest little apron can be made in a very short time with two handkerchiefs; nothing else is needed. The handkerchiefs should be gentlemen's size, and have a pretty border. To make, lay one handkerchief out diagonally with the points at the top and bottom. Lay the second handkerchief over it quite square, so that the top point of the under one comes exactly in the center of the top of the second handkerchief, as in the small

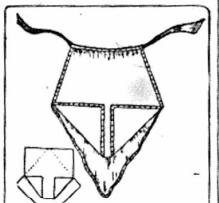

diagram. Turn up the two corners of top handkerchief, and for the present pin in place. Mark out with a pencil or by tacking that portion of the first handkerchief that hangs below the top point.

Then that portion off, and secure it to the top handkerchief, pulling it a little as you sew it on. The turned-up portions must be secured so as to form two little pockets. The remainder of the handkerchief that has been cut is utilized in making the band and strings.

The uses of an apron like this are many and varied, they are so dainty that they may be put on a best gown when tea is being served, and thus prevent any accident from spoiling it.

The apron has two pockets; this is most useful for work, and could be kept for this purpose alone, leaving the work in the pockets, and then putting the apron on when it is wanted. When helping at a bazaar or tennis tea, it is very becoming, especially if all the helpers wear the same kind, with the same coloring in the border; it is easily washed, and will look new again if carefully ironed.

Tango Rose a New Color.

Tango rose is the new, shirtwaist color. This shade is an indescribably brilliant one, between cerise and coral, which is seen sometimes in wonderful old embroidered crepe shawls. One woman who owns such a shawl is known to have a Tango rose shawl. The apron has two pockets; this is most useful for work, and could be kept for this purpose alone, leaving the work in the pockets, and then putting the apron on when it is wanted. Emroidered Blouse.

A charming new blouse of white chiffon is embroidered with dragon flies. There are two on each side of the front closing. They are worked with beads of silver, pale blue, mauve and iridescent green. The dragon flies are in graceful poses, and form a decorative touch to the blouse.

to hold their own, but tablespoons are made either entirely of glass, or, at any rate, with glass handles. To have beautiful and artistic objects on the table, while at the same time the labor-saving question is taken into consideration.

Farewell Gifts for Travelers.

Among the cheery little send-offs for the traveler are various dainty toilet conveniences. One of these is a tiny box filled with delightfully scented perfume powder and holding in it a small, round, white, powder puff, while on the upper side is a mirror which will at least reflect the tip of the nose and show whether it is aesthetically pale or unbecomingly smudged with coal dust. Another convenience is a small flat nail brush with white, green or amber composition, holding inside a small, round, powder puff, a third is a straw-covered, very small and very flat flask filled with fine perfume, and a fourth is a bath sachet which may be dropped into the dressing room or hotel room bath and used like a wash cloth. With the bath sachet is the good things of this life are only a shadow of the reality beyond.

Long Gloves With Cuffs.

Long white gloves are made with wide, turn-back cuffs at the elbow or slightly above it. These cuffs, which flare out and away from the arm, are made of black velvet, mounted on kid, and embroidered with gold or silver beads, applied in straight lines. The stitching on the backs of these gloves is also marked with beads, to match those used on the cuffs.

The Great Christmas Gift

TEXT—For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have eternal life—John 3:16

Martin Luther used to call this verse "The Little Gospel," because it gathered up what he said so concisely and comprehensively, the good news of Christ's salvation.

What verse is better known, or more often quoted than this, and what text has been used to preach more sermons? Missionaries tell us that it is the first

part of the Bible they translate into heathen tongues or teach to heathen tribes, and that it is the first that has won more souls to Jesus Christ than any other colloquy of inspired words that can be named. Its theme is human salvation, and it tells us of God's great Christmas gift to the world.

1. As a revelation of salvation, it speaks first of the source of it—God so loved the world. This would seem to be no solution of the love.

What God saw in us to love, while we were yet sinners and rebels in his sight, passes human understanding; but doubtless, it was what we might become in Christ through his grace, and not what we actually were. He that moved that love at all events, and gave it over to us, is the God of all creation, that made us.

The accident which resulted so disastrously to him occurred when he attempted to adjust the drive belt to a pulley on a shredder, his hand slipping and going through the clutch which was revolving rapidly, torn the hand off and broke the humerus. By this time a brother succeeded in cutting the belt and Will was thrown 13 feet from the destructive machine. Dr.

McCormick was telephoned for and arrived by auto in less than 10 minutes. He brought the injured patient back to town where the arm was set and the wound dressed over which Mr. Nicholls was taken to the home of his father-in-law where he still stays to be near the doctor. A fortunate feature in the case is that he is a Mystic Worker and will receive about \$600 from the lodge. He also has Woodmen accident insurance and will draw about \$300 on that policy.

DANIEL F. LAMEY

At the present time our school is not placed on the accredited list of the state university. Efforts have been made to have this school visited by the state commission which would not do this until the school is giving a 40 minute recitation period.

Because of this the change has been made to be better and to be more popular with the approval of the patrons and that they will encourage any work which will aid in our pupils receiving every recognition that should be given them.

Dan's Ointment Heals Itchy Eczema

The constantly itching, burning sensations and other disagreeable forms of eczema, tetter, salt rheum and skin eruptions are cured by Dr. H. C. Dan's Ointment. "Dan's Eczema" ever since the civil war, have been treated by many doctors, none have given the benefit that one of Dr. H. C. Dan's Ointment has. Every sufferer should try it. We're so glad to return your money if it will not help you.
