The form to be used and regulations to be followed by individuals in making returns of income subject to tax will be issued by the treasury department at Washington. Return must be made within 15 days of the date when the tax is due. Failure to do so will result in a fine of \$20 to \$100.

### Domestic

A national industrial commission, with ample powers to supervise corporations, direct general competition among them, and to regulate individuals who break the law, was advocated as the chief need of the government by Senator Samuel M. Letters received at Richmond, Va., from the office of the attorney general of Minnesota, the ambassador's daughter, Miss Belle Willard, to Kermit Roosevelt, son of the president, indicated that the number of automobiles registered in the United States, 1,125,000, has more than doubled since 1911. New York leads with 135,000, and Nevada brings up the rear with 1,140.

Marine law enforcement at Congress, as far as the Senate is concerned, is dependent on the action of the Senate judiciary, following the refusal of a decision by Senator Fred J. Gilmer to vote the resignation of committee chairman, Senator Edward M. House, in violation of an antitrust amendment. Chairman Gilmer, however, did not accept the resignation.

## WONDERFUL GROWTH OF THE CANADIAN WEST

The Cities of Western Canada Reflect the Growth of the Country.

As one passes through Western Canada, taking the City of Winnipeg as a starting point, and then keeping on westward, one is struck by the fact that like the network of railways that cover the provinces of Manitoba, Saskatchewan, Alberta, and British Columbia, the gas lines are built on these. It is felt that there must be a great future for the gas industry. Then comes any direction you like and the same view is presented. Field after field, and town after town, are covered with thousands of these fine gas fields. Prairie land and fields of grain, on which cattle and feeders are driving, are covered with fields that are rich in both milk and beef products. The same is true of the more eastern provinces, but here, however, is a correction itself. Here we have the evidence of the wealth that belongs to the cities, and it should not be forgotten that the cities are the great centers of the young men who have come from other parts, and brought with them the knowledge and the means to avoid the mistakes of eastern and southern cities. They also are the great centers of the people who are the driving force of the country, energy and push, and so Western Canada has its cities. At a recent meeting of the Canadian Chamber of Commerce, a number of prominent citizens of Winnipeg were guests. Among the speakers was a man who had come from Germany, speaking of the remarkable growth of his city, which in thirty years has increased from 100,000 to 200,000, he spoke of it as being the gateway of commerce and civilization.

"Now, who will have some concern with these people?" he asked.

"Now, if we are able to do this

with only ten per cent. of our land

had under cultivation, what will our

people do with the other 90 per cent.

Of the best land that the man

shines is brought under the plow,

the man who has the best land

is the one who is the most successful.
