Old beliefs last. Few are the beliefs and still fewer the superstitions of today. We pretend to acquiesce for everything until we do not believe enough for the humanity to consider it moral discipline. The phantasmic age has long been unfurnished of all its ingenious creature. This ghostly day has set, leaving none of its ethereal hues in our old twilight. We have lost something for which we have no substitute.

Don't suffer with sore feet. Here is a little relief. Dissolve two tablespoons full of Epsom salt in a quart of water. Put on a hot water bag and keep it on until the feet are hot. Overland Model 79
\$950
With Grey & Davis Starter \$1075

Are We Right About This?

The cost of owning a modern automobile is not in the running expenses so much as in deterioration on the investment. If you invest \$1,000, how much is your car worth in five years?

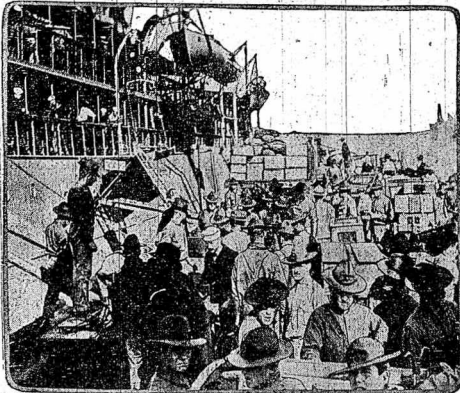

It is well known that the Overland has a lesser rate of deterioration and costs less to keep up than other cars in this class.

The Reason Is:

The enormous production allows them to use the best of standard materials and workmanship and then sell the car for less money than any other company could sell the same or a similar car and the purchaser saves several hundred dollars in the first cost and many more dollars in maintenance cost. We have just received a carload of cars and can furnish one with or without electric starter.

It has the Power, the Durability and the Appearance. It is easy riding. Easy to handle and economical. It is a significant fact that the man who owns a Buick always gets the idea that his Buick is the best Buick the Buick ever built. That sums up in a nutshell why you find a Buick user you find a Buick booster.

The Company that keeps up its Standard of Quality, figures prices on a cost system, and gives every man the worth of his money, is the kind of a company any man likes to do business with. A concern like that doesn't make any claim that it can't back up.

The Famous Buick Overhead Valve Motor is Guaranteed to have more power and more speed than any other type of motor on the market. It costs them more to make it, but the fuel consumption is less and it will pull stronger and give greater acceleration than any other type of motor ever built.

Check Your April Cough. Thawing frosts and April rains chill you to this very marrow, you catch cold—cough continually and feel miserable. You need Dr. King's Cough Remedy. It soothes inflamed and irritated throat and lungs, keeps cough and your head clear up, cures hoarseness, and you feel fine. Mr. J. W. Dwyer of Chicago writes: "I was cured of a dreadful cough after doctor's treatment and all other remedies failed. Relief or money back. Pleasant—Children like it. Get a bottle today. 50c and \$1.00. Recommended by the Barrington Pharmacy."

Great Men Need Little Sleep. There are some remarkable cases on record of devils from the century account of sleep. Many persons have reached advanced age without ever having more than one or two hours' sleep out of twenty-four. General Pickens informed Sir Gilbert Blane that in the course of his active campaign he had for a whole year not more than one hour of sleep in the twenty-four hours. Frederick of Prussia and Napoleon, as a general thing, never devoted more than three or four hours to sleep.

Sleep Waits on the March. Sleep can wait on the march. The exertion of certain muscles. Coupled on long journeys nap on horseback. Among the impressive incidents of the John Moore's disastrous retreat to Corunna, Spain, not the least striking in the recorded fact that many of his soldiers perished their march while fast asleep. Darius, however, affirm that this is not uncommon among soldiers.

Insipid Character. It has been explained that character and behavior of all organic matter, plants as well as animals and human beings, is determined by what are known as character cells. That in taking a hypothetical case of the almond, root father and the albinism kind mother, we have four distinct character units, which through inheritance reappear variously grouped in the offspring.

Trinidad's Mangrove Trees. The mangrove tree, which is found in Trinidad, has many peculiarities. For one thing, its seeds germinate in the branches, and when the shoots are considerably grown they fall off and take root in the mud. As the young tree grows it sends out fresh roots from its trunk and lower branches, until at last the tree ceases to be supported by a network of roots, or complicated series of arches, in the midst of which crabs, aquatic birds and insects take up their abode.

To Build Zola It was always a number of evil omens, so much so that for years he could scarcely be induced to leave his house, and never undertook any important work, so that day of the month. So persistent was his ill luck that he thought the narrow escape he ever had from a tragic death was due to a cab which took the number he dreaded.

Idleness From Sickness. A man between twenty and thirty years on an average of only five and a half days a year from illness, but between fifty and sixty he loses about twenty days annually.

Ubiquitous Boat.

Lord Brougham often declared that a Scotsman, though he spent his life abroad, often retains a Scotsman, and the ubiquity of the race was a favorite conventional theme with him. To illustrate, he told of a Scotsman in Shanghai who wandered with an insouciant countenance that he would discover a brother Scot in every ship in the harbor. Going to each ship in turn and shouting, "Are you there yet?" into the engine room, he got "Aye, aye," as answer every time.

Church Appropriately Adorned. At a special service for fishermen at Oron, near Lowestoft, England, the church was adorned with nets, in which herrings were suspended, that were fastened around the nave. An arch of oars from which was suspended a shallop, spanned the center aisle, and flags, honors, blades and other fishing gear completed the scene of decoration.

Van Dusen of Kirkland, Ill., and "Electric Blisters" from Frank Brothers' Pharmacy will cover to without it. "Bogus" feet tired and aching, and a general feeling of weakness, "If I had the spring electric blisters from Frank Brothers' Pharmacy a month's treatment today nothing better for aches, pains, rheumatism, or many ills. The great spring tonic. Relief or money back. 50c and \$1.00. Recommended by the Barrington Pharmacy."
