TANGO AS A CAUSE OF CRIME

Brooklyn Judge Blames Theft by Two Young Men to Night Given to Mothers Dance.

In suspending sentence in the cases of two youths who had pleaded guilty to attempted grand larceny, County Judge Everett in Brooklyn listed "tango lights and tango night" as the cause of the crime.

"You can't expect to dance all night," he said, "and the above said day, yet always have money for your car, and you still steal it. And let me tell you, our jails and penitentiaries are full of people with just such ideas. If your family had given you good habits instead of money to spend, it would have been better for you."

The boys, John Colver, twenty years old, of 487 Riverside street, and Carlton Chapman, sixteen, of 302 Jefferson avenue, had been indicted for stealing money and jewelry from Adelaide Wilson, keeper of a furnished room house, where they lived for a time. They belong to respectable families of moderate means. Both attended the judge to go home and begin again. Chapman to return to school and Colver to work. Both wore tan pumps and silk shirts when arrested.—New York Sun.

For 15 years Wright's Indian Vegetable Pills have been their own recommendation in conditions of upset stomach, liver and bowels. If you have not tried them, a fast new pill prove their benefit to you. Send for free sample to 372 Pearl St. New York. Ad.

His Specialty.

Employer—Not afraid of early hours, I suppose?

Young Man—You can't close too early for me, sir.—Answer.

YOU ONLY BRING ME UP. YOU DON'T BRING ME DOWN. YOU DON'T BRING ME UP. YOU DON'T BRING ME DOWN. YOU DON'T BRING ME UP. YOU DON'T BRING ME DOWN.

An egotist is a man who expects a woman to marry him for himself alone.

Women's Times of Danger

Women suffer a great deal from biliousness. Their liver is the most delicate and trying work of all. To waste this delicate organ is to waste the most delicate and trying work of all. To waste this delicate organ is to waste the most delicate and trying work of all.

AT THE BOOKING OFFICE

OFF-STAGE COMEDIES

by Will Bradshaw

THE TURNING POINT IN TED'S LIFE

Dess Oates (character singer)—

Morning all, my friends, I'd like to

give you the pleasure of meeting my

little friend, Teddy Cannon. Stay right

up, Teddy. Meet Dad Wadell, Alex,

Ella Gaylord, Tom Prance in dress

suits.

Ted Cannon (a song writer)—How

do, how do!

Dess Oates—Just a few words about

Mr. Cannon, people. Ted Cannon is

the song writer from Chi. That made

the big hit last month with his

number everybody's heard. "Teddy's

Pump in the Place of the Old Oak

Bucket." And some number! If any

of you ain't using the song in your act,

get a copy from Ted. You'll get a

down book with it where you used to

get a call. Notice the harmony ar-

rangement and the heart pull running

right through the verse.

Ella Gaylord (a singer)—I wouldn't

be looking for a book now if that

ella gay (composition) hadn't come

across my act. I'd have bought it.

Tom Prance (a producer)—What do

you mean, Ella; did the number get

you in bad?

Ella Gaylord—Didn't you ever hear

it, Tom? Well, I should take up to

trying to see which can be the worst.

I'm full of old stuff they used to

use.

Dad Wadell (who knew Cannon)—I

remember 20 years ago.

Tom Prance—So the boy's song is a

hit?

Ella Gaylord—Can't me the savin' of

a season. When I started out in my

new act making six changes in ten

minutes I was booked into using his

number by a man from his publicists.

When I sang the song on my opening

night at the Fourteenth street house

the crowd gave me the death alarm.

I tried to live it down and get my other

number, but I was downed. Even the

orchestra gave me the laugh, and

the house was empty.

Martha Winslow.

Remarkably beautiful effects are

secured by the use of marble instead

of glass. This has been accomplished

by a new process which has been de-

vised by an engineer of Hamburg, W.

Dagbl. He has succeeded in making

plates of marble no more than three

millimetres in thickness and for the

use designated it is available up to

ten millimetres thick. The utility

of marble for this purpose was real-

ized some time ago, but the difficulty

encountered was that of securing the

marble in slabs of sufficient thickness.

These plates permit of the passage of

a greater amount of light than frosted

glass does, and at the same time im-

part to the eye a much pleasanter

color. Most optical glass imparts to the

light an undesirable greenish tinge,

while the light which passes through

the marble has a reddish tinge which

is much pleasanter. After the marble

has been ground down to the desired

thickness it is subjected to an immer-

sion in oil under high pressure, and

this effect secured in this manner is

said to be superior to those of stained

glass.

A Beginner.

"Are you a socialist?" "I am."

"What do you understand by social-

ism?" "I haven't got so far along as

the understanding part. I piled ex-

clamation because I don't like any of

the regular brands of politics."

GOOD CHANCE.

Coffee to Pasture.

The large army of persons who

have found relief from many chronic

ailments by changing from coffee to

Postum as a daily beverage, is grow-

ing each day.

It is only a simple question of try-

ing it for oneself in order to know

the joy of returning health as realized

by an ill, young lady. She writes:

"I had been a coffee drinker nearly

all my life and it affected my stomach

—caused indigestion and I was seldom

without a headache. I had heard

about Postum and how beneficial it

was, so concluded to quit coffee and

try it."

"I was delighted with the change. I

can now sleep well and seldom ex-

perience headache. My stomach has

become strong and I can eat without

suffering afterwards. I think my whole

system greatly benefited by Postum."

"My brother also suffered from

stomach trouble while he drank cof-

fee, but now, since he used Postum, he

feels so much better he would not go

back to coffee for anything."

Come direct by Postum Co., Battle

Rock, Mich. Read "Teddy's Pump

in the Place of the Old Oak Buck-

et" in play.

Postum comes in two forms:

Regular Postum—must be well

boiled—16 and 20 packages.

Instant Postum—is a soluble pow-

der. A transparent chocolate variety

is a cup of hot water and, with

cream, and sugar, makes a delicious

beverage instantly—20 and 50c tins.

The cost per cup of both kinds is

about the same.

"There's a Reason" for Postum.

—sold by Grocers.

GET WIRELESS BY BEOSPRING

Eastern Amateur Experimenters With a

Novel Form of Antennas and in Success.

Cyrus H. Finkbeiner of Peekskill,

N. Y., gives the following interesting

account of his experiments with a

novel form of antennas for wireless

telephony:

There are many things used as an-

tennas to catch the mysterious ether

waves which carry our wireless

messages through space, and I find

that the springs of my bed serve as

very efficient antennas. My room is

on the second story of my house, and

by using these springs as antennas I

can easily read the signals sent out

every night by the wireless station at

Saville, L. I., although they are not

by any means so loud as when I use

my outdoor antenna, which are 40

feet above ground, 60 feet long and

consist of four wires on spreaders,

the wires being two feet apart.

The bedspring antennas are best

for use with nearly high power sta-

tions. Saville, L. I., is about 100

miles from Peekskill. With my out-

door antenna I can usually hear the

Aviation (Va.) naval station which is

about 100 miles from Peekskill. I

usually use the corrected time signals at

11:55 a. m. and at 9:15 p. m., and

the weather reports, Brooklyn navy

yard, New London, Conn. Cape Cod

post others, including amateur stations

too numerous to mention.

I have an all-round good apparatus.

I hold a station license when it

is issued and am both licensed by the

U. S. Government. My operator's

license, both issued by the U. S.

Government.

RASH SPREAD RAPIDLY

Granton, Wis.—My sister had a

rash which broke out on her face

and neck. It commenced with a small

blotch of skin which turned into a

kind of rash and spread rapidly. It

spread and broke out on her neck

and arms and legs and was very

sore and itchy. I tried many

things but nothing helped. I then

tried Cuticura and it cured me.

THURSDAY, JULY 23, 1914.

BILLIONS IN THEFT.

High finance is on a roll. Unless a sudden check is administered there is no telling where it will end. And present day high finance is almost wholly robbery.

The looting of the New Haven road, which has called forth a scathing denunciation from the Interstate Commerce commission, is but a drop in the bucket of dilapidation and the looting is without a lid. And yet the New Haven was plundered of \$60,000,000 to \$65,000,000.

When governments work at high finance they deal a body blow at honesty, not a premium upon stealing. And our government for years has allowed these financial crooks to steal and plunder under its very nose.

They steal millions and are immune from punishment, while the poor man who steals a sack of flour spends his days rotting in jail.

There may be no law upon which these thieves may be punished, but congress has the power to make such laws. But if congress sits tight, looks wise, talks eloquently and does nothing, then congress by its silence and apathy becomes an accessory to the wholesale plundering of millions of helpless people.

Yes, there are billions richer in robbery—and crumb for the honest man.

NEXT.

General Huerta, man of blood and iron, has abdicated the usurped presidency of Mexico.

And the world waits for the next chapter in this drama of blood, strife and destruction.

Who will be the next "patriot" to depose the people of the crumb left to them?

When will the next revolution break out and drench this stricken land with the little blood that remains?

Some there are who feebly believe that peace is at hand. But the world is apt to be fatter on the thought.

Certainly a new government will be set up by the Constitution and the semblance of peace may prevail for a time. But it will not last, because there will be no restraining hand to give it stability.

There are not enough officers to go around, and it will be but a question of time when hungry chieftains who have been denied the plunder of the earth will value again the standard of revolt and pillage.

It will be his mother's chapter in the old, old story of Mexico's shame—and ours—for we are great and mighty people, sit idly by while a slaver nation writhes in the throes of self destruction.

SOME CURSING.

Some people are natural born cursers. They curse at the best, and they curse at the cold.

They curse if it rains, they curse if it does.

They curse at their neighbors, and

they curse if their neighbors curse them.

They curse their meals, and they curse if they have no meals.

They curse their wives, or curse because they have no wives.

They curse the judge, they curse the dog and they curse the cat.

They curse in the morning, they curse all day, they curse at night, and they dream of cursing.

Some people are some cursers, for they curse for the sake of cursing.

Who gets has decided that the man who wears a short coat in the early part of the winter will be in fashion, and the woman who wears a longer one later in the winter will also be in fashion. Here's our notice book.

The Sunday school picnic will take place on Saturday and teams leave the church at 9:00.

Persons attending the camp-meeting at Dix Plains report a very interesting and successful meeting. The crowd was unusually large on last Sunday.

There's no rest for the wicked. Congress is still at work.

EVENTS AT LAKE ZURICH

News of Hustling Neighbor Village and Progressive People Who Reside There.

Mr. and Mrs. Fred Bliss are the happy parents of a baby girl.

Mrs. George Gluske has moved into the John Fish house on Park avenue.

A party of about 50 from here made an auto tour of Lake Geneva last Wednesday.

A prize dance will be the attraction at the Lake Shore parties Saturday evening.

William Eickman and Miss Silvia Sola were Chicago winners a few days last week.

The Hudson County company is drawing a large attendance every evening this week.

Mrs. C. L. Hokenmeyer of Shepherd, Michigan, is visiting with her daughter, Mrs. Fred Bliss.

Miss Edna Marsh of Newport, Kentucky, is visiting at the home of Mr. and Mrs. Bliss.

Mrs. Maebor of Prairie View has been visiting with her mother, Mrs. Bliss, several days this week.

A good many from the surrounding towns attended the Cook county Democratic picnic at Deer Grove last Saturday.

At a special meeting Saturday night the village board passed the gas franchise for the Public Service company. The company has promised to have the gas in here before 1915.

The rail gang has Sunday was won by the Greyville team by the score of 8 to 5. The game was very exciting up to the seventh inning when our club seemed to weaken and before the side could be retired Grayville had run in five scores.

Buckley's Armies Salve for Cuts, Burns, Sores.

Mr. E. S. Loper, Marilla, N. Y., writes: "I have a cut and a cat, burn, wound, or sore. I would not be lost."

Get a box of Buckley's Armies Salve. It cures nearly all skin troubles. For hard, City, Wounds, Pimples, Locks, etc. Recommended by Dr. J. H. Loper.

For County Treasurer.

I wish to announce my candidacy for County Treasurer subject to the decision of the Republican Primaries to be held September 8, 1914. Having served as Deputy County Treasurer during the past four years and believing that I have performed the duties as much faithfully, I take this means of taking the voters of Lake County for this position.

SUE, SAYS WILSON

HUERTA RESIGNS; LEAVES CAPITAL ON SPECIAL TRAIN

Dictator Hands Resignation to Mexican Congress—Cardinal Is Successor.

TO FLEE ON DUTCH WARSHIP

General Blanquet and Others Accompany Former President in Flight—Heavy Guard Surrounds Coaches—Rabbit Bush to Capture Train.

Mexico City, July 16.—President Huerta has given up the fight. His resignation as president of Mexico was handed to Congress, Senator Carranza, the foreign minister, took over the reins of government.

General Huerta's resignation, which was presented to both houses of Congress through the department of foreign affairs, was accepted by a vote of 121 to 17.

Huerta Leaves Capital. Huerta, his son George and Minister of War Blanquet left the capital early in the evening on a special train over the International railway.

The party will join their families at Puerto Mexico. The train, in command of General Navarro, was closely guarded, several hundred men of the dictator, his children and close friends left the capital at midnight on a special train for Puerto Mexico.

The Dutch warship, Kormoran, has left for Puerto Mexico for the ostensible purpose of taking the refugees on board.

The special train bearing General Huerta and party was preceded by two military trains and followed by a third.

The departing party included General Huerta and his children, Col. Luis Pantoja, the dictator's uncle, and his wife; the family of Minister of War Blanquet, the family of Gen. Liborio Pantoja, father of Col. Luis Pantoja; General Pantoja, the treasurer of the republic; the Angu family, who are relatives of General Huerta, and several close friends.

The scene in the chamber of deputies and the senate when Huerta's resignation was received was solemn and the enthusiasm with which the act was greeted was tempered by general sympathy for the abdication president in the hour of his deposition.

Cardinal Takes Oath of Office. Hector Cardenal, the minister of foreign affairs, was loudly acclaimed when he took the oath of office as president pro tempore. Cardenal made a brief perfunctory address without special reference to the policy which he expected to follow.

Reindeer May Capture Huerta. Huerta, July 16.—The special train which the family of Huerta and at least one of the cabinet ministers are being from the capital, has halted at Cordoba, the terminus of the railroad leading to Saltillo, Coahuila, Mexico and Vera Cruz.

The official intention of the party to leave the country by way of Puerto Mexico seems likely to be abandoned. Word has just come to Vera Cruz that the rebels are making desperate efforts to cut the line of the International railway, the only route leading to Puerto Mexico and Saltillo, Coahuila.

Rebels Within Seven Miles of Capital. Spanish arriving here report that rebel Colonel, Ricardo Lopez, captured the city of San Andres Tuxtla, an average of 14 pounds of milk per day, and to give her relief who is milked four times daily. The rebels now consume nearly twice as much milk as before the second largest class of the business men's Bible class of the Christian church has the record of being the second largest class of the state composed of men. The largest class is at Camp.

Deer, Colo.—Mrs. Helen Hewitt Cochran, inter-laborer of Congresswoman Underwood, and wife of a treasury department employee, has cut away to live in limbo.

Hippopotamus Adopts a Cat. New York.—Fouge, a baby hippopotamus in Central park, has adopted a cat. Miss Murphy, named Hippo, and the keeper fear she may step on the cat.

CHRONOLOGY OF HUERTA'S RULE

Feb. 18, 1913.—President Francisco I. Madero arrested. Assassinated two hours later. Huerta proclaimed provisional president.

Feb. 19, 1913.—General Victoriano Carranza proclaims himself constitutional president of the republic.

In the following weeks President Wilson brings pressure to bear to force Huerta's exit.

Oct. 26, 1913.—Huerta calls general election and is re-elected.

April, 1914.—Torreón and Monterrey captured by Villa after stubborn battles.

April 10, 1914.—Party of American marines landed at Tampico insulted and killed by Mexican troops.

April 21, 1914.—Huerta refusing to salute American flag American battleships sent to Vera Cruz and land forces. Seventeen sailors killed.

May 7, 1914.—Huerta's resignation given passports by Huerta.

May 10, 1914.—Huerta's resignation given passports by Huerta.

May 21, 1914.—A. B. C. conference goes to El Paso, Tex.

June 23, 1914.—Zacatecas captured by Villa.

All during June many reports and details of breaks between Carranza and Huerta.

July 2, 1914.—A. B. C. mediators urge Huerta to give up government satisfactorily to both factions, which meant the elimination of Huerta.

July 15, 1914.—Huerta resigns as provisional president.

July 16, 1914.—Huerta leaves capital.

July 16, 1914.—Huerta leaves capital.

July 16, 1914.—Huerta leaves capital.

July 16, 1914.—Huerta leaves capital.

July 16, 1914.—Huerta leaves capital.

July 16, 1914.—Huerta leaves capital.

July 16, 1914.—Huerta leaves capital.

July 16, 1914.—Huerta leaves capital.

July 16, 1914.—Huerta leaves capital.

GOOD PROGRAM FOR GATHERING

Illinois Conference Laymen's Association to Meet.

SESSIONS FOR SHELBYVILLE

Meeting Will Open on Friday, September 10, and Close on the 13th. Many Addresses Are Scheduled for Meet.

Shelbyville.—George S. Taylor, president of the Illinois Conference Laymen's association, has completed the program for the annual session of that organization, which will be held in Shelbyville in conjunction with the Illinois conference, Friday and Saturday, September 11 and 12.

Other officers of the association are: Vice-President—Frank B. Harold, Clinton; Secretary—F. J. Farmer, City; S. A. D. Harry, Madison; N. P. Kapp, La Plater; J. W. Breckin, Jacksonville; J. O. Hall, Woodstock; Charles H. Altard, Quincy; W. A. Joy, Springfield.

Secretary-Treasurer—John R. Crawford, Hillsboro; T. E. Orr, Buffalo; O. T. Cook, Carleton; G. S. Taylor, Ash Grove.

The program for the meeting in Shelbyville is as follows: Friday, September 11—Afternoon, 2:30—Address by the president, G. S. Taylor, Ash Grove.

2:30—Address of welcome by E. J. Carver, Hillsboro.

2:30—Remarks by President Taylor, Ash Grove.

2:30—Address, "The Silent Influence of the Church," by Mayor Ott, Hillsboro.

2:30—Address, "The True Evangelist," by the Rev. Charles L. Meek, D. D., New York City.

6:00—Evening session.

7:45—Joint meeting, ministers and laymen at the First Methodist church. (1) Address, "Problems," by Rev. Thomas Nicholson, New York City.

(2) Address, "The Rev. Charles L. Meek, New York City.

Saturday, September 12—Morning, 8:30—Will hear the bishop at First Methodist church.

9:30—Address, "The Brotherhood in Action," by Judge H. B. Searcy, Hillsboro.

10:00—Reports from district vice-presidents, secretaries and treasurers and committees. Election of officers.

11:00—National prohibition of the 11th year.

12:00—Prayer and address.

The regular sessions of the laymen's association will be held at the Springfield, Ill., hotel, where the speakers, except speakers, were indicated.

300,000 Black Bats Picked in Lakes. Three million black bats fly over the State Fish Hatchery, were distributed among the people of the State.

C. D. Whitford, State Fish Commissioner, has charged the distribution. He has charged the distribution. He has charged the distribution.

He has charged the distribution. He has charged the distribution. He has charged the distribution.

He has charged the distribution. He has charged the distribution. He has charged the distribution.

Active Agencies in Agriculture.

For the conservation and promotion of agriculture, live stock and related industries in Illinois, there are five boards and a number of other officials, each independent of the others, and without relation or systematic organization.

The state board of agriculture is a body of 27 members, chosen by the delegates of unofficial bodies, whose important duties are in relation to the state fair.

The Illinois Farm Bureau is under the direction of another large and unofficial board of directors of 29 members, also chosen by delegates of unofficial bodies.

Each of these boards and offices has its own separate organization and of the state. The salaries per diem and traveling and office expenses, including the salaries and expenses of field agents, are under the direction of the state entomologist.

In the past under consideration by the Illinois Farm Bureau, it is proposed that the Illinois Farm Bureau be consolidated into a department of agriculture, under the general direction of a secretary of agriculture, appointed by the governor.

The Illinois Farm Bureau is a separate organization and of the state. The salaries per diem and traveling and office expenses, including the salaries and expenses of field agents, are under the direction of the state entomologist.

IN THE FATHERLAND

INTERESTING BITS OF NEWS FROM THE GREAT GERMAN EMPIRE.

WHAT'S DOING IN OLD HOME

Summary of the Most Important Happenings in the Land of the Kaiser—Timely Items for the German Reader.

The first step toward putting the "Old Home" right has been taken. The minister of the interior has issued an order to the president of the police that 11 p. m. shall be considered the proper closing hour for cafes and amusement resorts. However, where there appears to be a "real necessity," the police at their discretion may permit an establishment to keep open until 2 a. m., but on no circumstances will they grant concessions beyond that hour.

The measure is said to be aimed particularly at resorts which do not open until 2 a. m. and at smaller drinking places called "kneipen." A part of the Berlin press is protesting loudly, asserting that the city's night life is what has made the Kaiser's capital a magnet and has caused an enormous increase in American and English tourists and a consequent loss of provincial visitors, diverting from Paris a large portion of the stream of tourists that is wont to flow from the Rhine to the Rhine.

Plans are being laid for further development of Germany's canal system. Experts are starting a study of all phases of a waterway to connect the Rhine with the North Sea through German territory. Two projects will be considered: one, a canal which would restrict the canal to internal traffic. A depth of about fifteen feet is provided for, which would also be necessary to deepen the Rhine between Cologne and Amsterdam, and between the North Sea and the North Sea. The cost of the project is estimated at about one hundred and twenty million dollars.

The other project has been worked out by an engineer named Rosenberger. It consists of a canal which would be deep enough to enable the ships to pass through the North Sea. The cost of the project is estimated at about one hundred and twenty million dollars.

Private associations receive state aid should be required to report to the secretary of agriculture and requests for subsidies should be made.

State Aid Road Work Is Planned. Rapid progress is being made by the National highway commission in its work of planning and building roads. It is estimated that the total cost of the roads will be \$1,000,000,000.

Under the state road law 15 percent of the road in counties of the first class is to be built by the state. In counties of the second class 25 percent is to be built by the state. In counties of the third class 35 percent is to be built by the state. In counties of the fourth class 45 percent is to be built by the state. Illinois Brevities

Pekin.—The joint institute for the school teachers of Peoria and Tazewell counties will be held in Pekin August 31 to September 1.

Kewanee.—Rev. I. L. Mellett of Chicago has accepted a call to the pastorate of the Primitive Methodist church here.

La Salle.—Falling in his attempt to kill two of his nephews, Officer Lockhart, a Peoria, when placed in jail, hanged himself, using his suspenders as a rope.

Jacksonville.—Francis L. Lloyd, seven years old, son of Mr. and Mrs. Greenville Lloyd of Jacksonville, was drowned in the Illinois river at that place.

Decatur.—United States Senator Lawrence V. Sherman of Springfield, after he had addressed the Illinois Rural Letter Carriers' convention here, was extended a vote of thanks.

Naperville.—Paul Hageman and two friends were injured when the Hageman rambled toward turtle on the hill on the Chicago road out of town.

Save Your Shade Trees

Kelster D. Keene of the Buffalo Tree Spraying Company will be here a week with his big tree spraying outfit. They spray by gasoline engine power and can cover the tops of the highest trees. E. E. Kelster is the original and oldest man in the business of spraying shade and ornamental trees. He agrees to cure trees of all fungus diseases, scale, insects, oyster shell scale, plant lice, etc. He also sprays fruit trees and promises satisfaction to every patron. They will make inspection trees of charge.

SCALE INSECTS. These are the small sucking insects which in former years were introduced into the orchards through the nurseries. Now, however, owing to the various state laws requiring an inspection of all nursery stock, by competent entomologists, this source of infection is reduced to the minimum. Unfortunately nursery inspection has only been practiced for a few years past and the various scale insects have become widely disseminated. Owing to the small size of the scale insects their presence is not generally known until the injury caused by their work becomes apparent. A male branch of a fruit tree dies back and upon examination is found to be covered with an incrustation of some sort, showing many dark spots. We then find that the tree is infested with some scale insect, the most injurious of which is the San Jose scale. While most scale insects are very small and only appear as minute black or more in diameter, the Cottony Maple scale, common in some years upon the gill, appears as a white, woolly mass.

ornamental shrubs, should be examined at least once a year, preferably in winter, to ascertain if scale insects are present. If only a few trees or plants are found infested, it is perhaps best to destroy them by burning, hoping to eradicate the scale completely. But if the scales are present on any large number of plants spraying should be promptly and thoroughly done. It is important, however, that we know the particular scale with which we have to deal, and if it is not recognized readily it will be best to send specimen to the state agricultural experiment station for determination.

For all scale insects we should spray with a contact insecticide. Whether this should be applied in summer or winter will depend upon the life history of the scale, or at least in the case of the San Jose scale, the cold weather only retarding their growth. Such scales are best destroyed by a winter treatment. Two quite common scale insects are the oyster shell scale and the curly scale. These appear the winter in the egg state and cannot be successfully treated in the winter. They can, however, be easily destroyed in the early summer just as the young lice are hatching.

The Buffalo Tree Spraying Co. Gentlemen:—We are pleased to acknowledge your work in being a factory, both in workmanship and beneficial results to trees sprayed and treated. Owerstia Club, William Marshall, Supt. July 7, 1910.

LINCOLN CHAUTAUQUA

BARRINGTON, ILLINOIS

STARTS JULY 27, ENDS AUG. 1

Mohammad Ali

A princely man of India; native of that wonderful and weird country; educated in India and exceptionally gifted in use of the English language.

Dr. Alexander Corkey

He says he is "An Irishman and glad of it," being Irish he applies the native wit and keen analysis of his race to the moral, social and economic problems of American people.

Prof. R. E. Hieronymus

He studies communities like physicians study individuals. He knows their symptoms and prescribes for them with all the faithfulness that has characterized his work in Illinois.

Dr. E. L. Eaton

Who for decades has studied the problem of American intemperance as dispassionately as Edison has studied electric currents. Hear Dr. Eaton discuss a great problem in a very able manner. He is a witty prohibitionist.

Brooks' Symphony Orchestra

Under the direction of C. Z. Brinson. This is the orchestra which has just returned from a five-year world tour. It is famous throughout the leading communities of the entire world; especially well known in Chicago musical circles.

Some of the feature numbers to be played by this orchestra in a number of solo songs, Black Forest hunting songs and other descriptive selections. There will be especially strong violin, cello, trio and quartet appearances. One of the greatest and most charming musical programs rendered during the entire season anywhere in America will be put on in this city by the Brooks Orchestra on the fourth day of the Lincoln Chautauqua program.

Col. G. A. Gearhart

Known to hundreds of thousands as "the kind of a preacher you have always dreamed about but thought you would never

hear. He is a prime Chautauquan; he knows the institution as few men in America know it."

J. K. Coddington
Recently Warden of

the State Penitentiary and Assistant Attorney-General of the Sunflower State, is the man who discovered humanity in the Kansas prisons.

Luzerne Concert Co.

This is an organization of high-class musicians; they will give two programs; one in the afternoon and one at night on the first day.

Imperial Bell Ringers

This is one of the two most popular Chautauqua numbers that were given in the United States last year.

Mason Jubilee Singers

They will render melodies that have distinguished the Negro race.

Fahlen-Breach Concert Company

One of the old, proved organizations of the Lyceum and Chautauqua platform.

Jeanette King

One of America's foremost interpreters and readers.

Many Other Stars

Will help to make the week an enjoyable one for you and your friends.

Don't fail to attend

WAUCONDA

Stops Neuralgia—Kills Pain
Stoys' Lintment gives instant relief from Neuralgia or Sciatica. It goes straight to the painful part—Soothe the Nerves and stops the Pain. It is also good for Rheumatism, Sore Throat, Chest Pains and Sprains. You don't need to rub it on. Swimmer, Louisville, Ky. writes: "I suffered with quite a severe Neuralgia headache for four months without any relief. I used Stoys' Lintment for two or three nights and it hasn't suffered with my head since." Get a bottle today. Keep in the house all the time for pain and all kinds. 25c. box, and \$1.00. Recommended by Barrington Pharmacy. Adv.
