## P. L. Z. & W. RAILROAD IN HANDS OF RECEIVER

Short Line Running Between Palatine  
and Wauconda Has Been Oper-  
ating at a Loss Each Month

RALPH L. PECK NAMED RECEIVER  
Before Judge Baldwin of Circuit  
Court and Made Request

Peter Knope of Palatine appeared  
before Judge Jesse A. Baldwin  
of the Circuit court and obtained  
an injunction against the Palatine  
and Wauconda railroad. Ralph L.  
Peck of Palatine was named, with  
a bond of \$10,000. Mr. Knope is a stock-  
holder in the company and owner of  
controlling interest of the railroad.

He alleged in his bill filed by Attor-  
ney Eupers J. Darby, that the railroad  
had been operating at a loss each month  
and that it is the duty of the court to  
order the company to cease the operation  
of the railroad.

Mr. Knope also alleged that  
there have been serious disagreements  
between the railroad and the express  
company and the express has become  
so embittered that it won't attend the  
meetings. The company has been losing  
lots of several hundred dollars each  
month, amount reaching \$800 in  
January of this year. Notes for \$900 in  
the amount of \$100,000 were given to the  
stockholders, according to the petition. Stock  
amounting to \$300,000 has been sold  
and stockholders to sell other stock have  
been given a right to receive a reduced  
value to save the remains.

The officers of the road are:  
President—Charles Patten of Pal-  
atine; Vice President—J. C. Sibley of  
Schaumburg; J. K. Orville, Wauconda;

### WE ALL NEED IT.

A class in physical training would be a splendid thing for the young people of this town who have left school and are seeking the importance of a better life.

It would be a royal benefit to many of us who are too young. It might well be a class for everyone.

Physical exercises, such as the veloci-pedal, strengthen the body, increase its power, and increase its endurance. It is conducive to health and good health brings peace of mind and ambition to do things.

Many of the greatest and most men of the nation are regular in their physical training. The results upon their health and character are seen in every tangible result, in youthful appearance in old age.

School children are not the only ones who need physical exercise. We all need it and should have it in a many-way increased amount.

And what is easier of attainment?

### BRAINS AND A HEART.

A new Salomons has arisen in Chicago but this Salomon has a heart as well as wisdom.

Chicago has a vast army of unemployed, and Corene, Peck, Hoffmann, have taken a large number of unemployed men who have families dependent upon them, the men being required to give satisfactorily references in order to avoid being imposed upon by worthless leaders.

The establishment of this "bread line through the snows" is affecting pellet where it is most needed, and is a practical as well as a pedagogical expenditure of public funds.

### CLEAN UP DAYS.

"What's the matter with having a 'Clean Up Day' in this town once a month?" If every business house in town closed up for half a day once each month and EVERYBODY turned out, we could keep this town as spick and span as a house floor, and it would mean to the community as a sanitary measure.

It would be a jolly good monthly picnic with a little profitable work thrown in.

### MADE IN AMERICA.

The "Made in America" movement is sweeping the country. It has penetrated every city, village and hamlet, and is still hunting for fresh fields to invade.

Everybody seems to want goods "Made in America," and for as much

## BARRINGTON REVIEW.

A man who closed himself on a wonderful imagination that could conceive the biggest lie or record one made a falsehood than any man in the town where he resided. The stakes held him to his chair, and he could not move a nail with such force that it pierced the moon. "Are that is true, do to it, for I stood on the other side and saw it the nail."

It is good for our country, and it is good for each individual.

Much of the welfare of this country is in the hands of the young and old men who have the best interests of all sections of our country at heart.

The Farmer's Condition

United States statistics show that one-third of our "free and independent Americans" have incomes less than \$600 a year.

The farmer included everything sold from feedstock to butter and eggs.

Out of this \$600 must be paid the taxes, insurance, rent, labor, machinery, repairs, groceries, clothing, doctor, bills, etc. After these items are paid, there is \$100 left.

There is a great many who have \$100 left, but there are others who have to go up for a "rainy day."

Machinery has increased over 200 per cent in the last ten years, and the number of laborers has decreased.

Farmers can only improve their conditions by voting the Socialist ticket.

## BLANKET AS ARMY OVERCOAT

Owing to a shortage of overcoats for the British troops on the continent, the army authorities have adopted an American plan of issuing to the men coats out of blankets. Russia's Flag Described.

London.—A Russian officer, writing to the Telegraph, describes the Russian flag as follows:

"I should be glad if you could kindly publish a paragraph which will settle the dispute now existing regarding the correct flag, viz.,

"The ordinary Russian flag, similar to our British Union Jack, is a tricolor of white, blue and red stripes placed longitudinally. This is the flag which should be used by the Russian army and navy who wish to show their admittance for their ally, Russia."

## 1515-Buick Cars-1915

The Buick Line of Four and Sixes for 1915—the greatest line of Cars the Buick Corporation has ever built. 1914 Buick success has been the talk of the motor world—a reputation merited by an abundance of power—faultless design—perfect performance and efficient service. The five splendid models now offered by Buick for 1915, up to their present value to all buyers of Buick cars—will make certain a continued satisfaction and uninterrupted use.

The 1915 Buick models actually offer greatly increased value. The reduced price of 1915 is the result of a great deal of improved features, notably, specialized labor and one more year's knowledge of experts in this great factory in new economies of construction.

The new 1915 Buick is a motor car of the latest design with an increased generating capacity of 35 per cent and automatic spark advance.

Tungsten steel valves. Carburetor supplied by Stewart-Warren greatly improved system.

Controls conveniently located on instrument board in the cockpit.

Non-skid tires on rear wheels.

High grade silicon tire bodies, hoods and valances.

These are but a few of the Buick improvements, regardless of price, that have been made. The 1915 Buick models have and will still guarantee the Buick Valve-in-Head motor to develop more power than any type of automobile motor of equal size. Americans or foreign make.

## The Old Order Changeth

For the first time in its history, the Tenth Congressional District has a Congressman who has shown an interest in his constituents other than at election time. In October 1913, during a recess period, Congressman Thomson canvassed every precinct of the Tenth District, calling on all the merchants and business people he could reach, making personal calls on over 5,000 of his constituents.

At short intervals during his term in office, Congressman Thompson has sent an open letter to the people of the Tenth

District through the papers published throughout the District, giving information upon some matter of pending legislation, together with his views upon it. Were you ever able to secure a definite answer from his predecessor to his opinion on any matter of public interest?

Do you wish to reward Mr. Thomson by re-election or do you wish to return a man who lived in Washington all the time and whose only apparent interest in his constituents was at election time, when he needed their votes?

Vote to re-elect Congressman Thomson, the man who has kept in touch with you—the man who has convictions on subjects of legislation and dares to express them.

Read Congressman Thomson's campaign literature. It will be come to you under postage—NOT UNDER GOVERNMENT

their undivided support, and Cuba neighbors are invited to remember him on election day.

Jonathan Richardson of Volos died at the home of his son, Mr. and Mrs. Daniel Peck, on Monday, December 10, aged 45 years. Funeral and interment were held at Volos Wednesday.

Our people were surprised at the announcement that Mr. F. L. Z. A. W. railroad into the court; but probably most of them are satisfied with the action of the trial court in awarding the Peck his choice of a funeral manager.

Peck states that the action taken may enable the manager, Charles Peattie, to get a better position in the insurance business and we trust he will be able to do so. This road was thought by most of the people to be the best thing to do, but the sum of over \$1,000 was hoped for continued good service under Mr. Peattie's management.

Our Fall Colle' collection is now ready and dry to wear it out. It will wear you out instead. Take it off and you'll be looking present and lovely. It checks your cold and sooths your aches. Children like it. Get a bottle of Dr. Riga's New Remedy. It is the best. "Our family cold and cough doctor." "Our family cold and cough doctor." "Our family cold and cough doctor." Widow and Politics.

Widow doesn't live with politics, but it's pretty certain that it will. "A widow gets a pension from the Post Office."

But Then She Knows.

A woman never realizes how disagreeable a widow's grip is until she has to hold a man's hand.
