SERIES OF LECTURES GIVE ENLIGHTENMENT

Barringtonians Get Opportunity to Receive New and Wise Information on Various Needful Subjects

TELL OF ADULTERATION OF FOODS

Speakers Give Helpful Hints Regarding Fraudulent Means of Manufacturers to Fool the Buying Public

A surprisingly fine series of lectures is in progress this week in Barrington, brought here by the good public spirit of the Women's club for the betterment of all. Two men of the Illinois State Pure Food Commission are in charge of an attractively arranged display of foods and three wonderfully interesting women lecturers appeared Tuesday and Wednesday in the evenings at Village Hall.

Lectures from all walks of life in this village have been organized as the lectures but more should take advantage of this unusual opportunity to learn at once overdozen facts concerning food, food adulteration, and food poisoning in general, relating to a woman's work of home-making. A recent excellent course of lectures here were very fine, but their substance is not being repeated this week, there is so very much to learn on many subjects and the more people learn, the more they realize how little they know; for it is only the ignorant person who thinks he, or she, knows it all.

Although the exhibit was not entirely arranged for inspection and study on Monday, nevertheless, many visitors on that day learned many things on the judging of products manufactured and preserved foods. A. O. Wallin, third assistant state chemist, and another state food inspector, who are on hand to discuss instruction from the state to the people, have in two days opened innocent eyes at the proofs they give of the adulteration of foods on the market. Blended oils, graduated shewings, covered neatly with cloth, these pure and impure foods have been placed in glass receptacles and numerous articles of plastic, glass, in proper size, or pieces of plastic, which food is to be eaten, to show that what is contained in one quart of milk.

Miss Katherine West, of the Lewis Institute, Chicago, opened the four days school for efficiency ideas. She was a very pretty girl, not quite through her own studies at the institute, but sent out by the teacher to be an example of frugality which girls are receiving in preparing to be domestic science teachers. She was surely a credit to her teachers and gave new and practical thoughts on the spending of the family income. In a business like way she turned the amount of money to be spent by the house-keeper for the home, and family, as "the budget," or allowance. She gave the correct per cents to be expended for different needs, as figured out by experts, according to three incomes taken; as example, \$500 a year is the lowest income considered in plentiful America; \$240 as a good medium income and \$600 as a large income, below the average which brought the most interest. This brought out the fact of the careful book-keeping on household expenditure, a duty seldom practised by women or most unsatisfactorily conducted.

Miss West, so successfully appearing, gave many a little bit and personal "dig" to some listeners, but on the whole the very victims themselves enjoyed the criticism and if does everyone good to sometimes be told her way is not correct, as it is a sort of incentive to find out why it is bad and thus she learns. Advice on the practicability of making plain garments, such as lingerie, house-dresses and aprons was offered because these things can be purchased reasonably; on the other hand, money should not be spent for ready made clothing. Done just for the fashionable model and not lasting worth. She presented the knowledge acquired by study and experience in her mother's home. The Lewis Institute seems the practical work of life as well as bigoted studies; it gives practical knowledge that poor young people can be trained without financial expense. It was the dream of John A. Roche, a former mayor of Chicago, and was modeled after the Cooper Institute in New York City. Mr. Roche became one of the founders of Lewis Institute, he was an uncle of Mrs. Miles Kamey.

The next speaker, Mrs. Helen Rogers, 2256 Yale avenue, Chicago, was a little whirlwind of emphasis and truth in her vigorous talk on "Conservation in the Kitchen." She is a small little lady, the mother of a family of boys now grown, dainty and friendly, with

SILVER WEDDING A LARGE AFFAIR

One Hundred and Six Guests Gather to Congratulate Mr. and Mrs. Joseph G. Catlow of Main Street

The twenty-fifth wedding anniversary of Mr. and Mrs. Joseph G. Catlow on Saturday was a very large affair, as one hundred and six guests congregated at the Catlow's Main Street home to congratulate the husband on their successful marital life in their twenty-fifth year on the soil of Illinois.

The first part of the evening was devoted to music songs were sung by Miss Eliza A. Arpa of Palatine who gave a charming soprano voice finely enunciated and very sweet in tone; a youthful miss of this village also pleased Miss Helen Abbott, who is quite a remarkable soprano for her years.

Thomas Creek, an old friend, gave a little talk full of good advice, humor, reminiscences and wishes for the future happiness of Mr. and Mrs. Catlow.

The house was distinguished with flowers and a display of silver articles, gold to the fourth of century hide around, was a splendid showing of the esteem in which they are held in this community. Supper was served at a late hour and it was a most attractive repast.

Among those from a distance were Mrs. Catlow's sister and her husband, Mr. and Mrs. O. Rockwood of Des Moines, Iowa; Mrs. Foster of Winona, a cousin and a daughter, Miss Catlow of the University hospital, Chicago, and a young lady friend from the east.

Mr. and Mrs. Catlow were married at the home of her parents, the Whitneys in the south bank of Lake Zurich, on January 29, 1891.

Additional to the Library

A new table, hat-rack and bookcase were added to the public library equipment this week. Books are distributed only on two days a week at present, but the reading room is open all the time, excepting Wednesday afternoon when it is closed.

Churches Make Big Gain

The report indicates that of the 100,000,000 Americans, approximately 40,000,000 are church members. —Chicago Herald.

Recommended "Bookless Arithmetic" plans for a "bookless arithmetic" were outlined by Edward J. Tobin, Cook county superintendent of schools, Saturday, at a meeting of the county directors. In the county superintendent's office, the plan is to have the children in the rural schools study arithmetic by building in bushes, prices and by measuring the number of square rods in their cleared plots.

B. J. Palmer, collector for the town of Cuba, filed a bond with the county treasurer of Lake county today, for \$400,000. He will receive the tax books and be ready to collect taxes within a few days.

HAWEYS AND JAHNKE'S WINE

They Are Having Ideal Weather at Colorado Springs—Are Motoring a Great Deal—Enjoy the Review

Colorado Springs, January 25, 1916. Mr. and Mrs. M. T. Lamey, Dove Friends.

We are still fine in every way in Colorado Springs and when we read of the weather they are having around there, we think had better stay here. We have had some cold and a few snow flurries but not enough to stay the dust, and they still sprinkle the streets. We drive from 100 to 150 miles a day on roads like boulevards, dry and dusty. We are getting to be Colorado Springs "boosters" like all the rest. One can drive 50 miles in any direction and not run into snow.

We are feeling finely, Phil does not cough hardly at all, all gaining and with you can see us eat. Phil and Charlie Jahnke spend most of their time at the garage, a good hangout, "Something doing" all the time. Our toes go so fast, we hardly have time to write home. Last Wednesday we drove 76 miles up to Denver to a stock show and was glad to get back to the Springs, ice and snow up there. Saturday we saw 50 miles from the north unloading; they will be turned loose next spring in the mountains. We have been eight miles along Pike's Peak auto highway, 12,000 feet above sea level, the road is 20 feet wide, some of the grades are 10 per cent.

Sunday we drove 100 miles to Canon City driving all the way without stops. Yesterday we went jack rabbit hunting on the prairies, 85 miles out and back and only saw two; we had no gun, not caring to shoot them, who you could have a picture of us chasing them with the car, we went some. We won't leave here as long as the weather is dry; haven't seen rain since we left home. We enjoy seeing the Barrington paper but are sorry to read of so many deaths this winter.

We think you "boosted" Colorado enough for this time, —hoping this will find you all well and happy.

From your friends,

The Hawleys and Jahnkes,
117 N. Nevada street.

Another Enjoyable Club Meeting

Mrs. Grace Cannon, as "the Queen of Hearts," was hostess to the members and invited guests of the Thursday club in the Merton Goode party hall on Cook street, Saturday afternoon, of last week.

After a delightful musical program, games appropriate to the occasion were participated in by all present.

"The Pretty Miss Maid," "The Old Woman Who Slept on the Cobweb, Out of the Sky," "The Old Woman With the Black Hen," "The Old Woman Who Lived in a Shoe," "Mother Goose," and "Little Miss Muffet" were among the characters represented.

A three course dinner was served

from two exquisitely applied tables, with a beautiful large doll, representing "Little Bo Peep" holding sausages extending to tiny sheep at each plate, as a center decoration. The color scheme was in yellow and white. Fers and Chinese girls completed the already pleasing effect. Mrs. Cannon proved herself, as always, a most hospitable and original hostess.

SCHOOL NOTES.

A picture was taken this week at the school of the junior and senior bands in a group.

Wilfred Donlea entered

Room 3 on Tuesday, the "pannal train" equipment was moved by the boys of the seventh and eighth grades from the second floor to the basement where they have taken a great interest and care in installing it. It is thought that a regular course of instruction will be started next week in practical sewing.

Miss Gord will teach girls below high school age. In order to be admitted to the school the girls must be as high school as the state is accredited.

The Consumers company intend to cut ice again in a couple of days.

Mrs. Henry Srip is still in bed, but is improving and hopes to be around again.

The young boys are trying to get up a "Boy Scout Camp;" all are quite interested in it and hope they will succeed.

Mrs. Fred Halverson of Crystal Lake is spending a few days here with her mother.

LOCAL BANK TO HAVE NEW LOCATION

Purchased Site Now Occupied by the Barrington Pharmacy—\$5,000.00 Being the Consideration

A special meeting of the board of directors of the First State Bank of Barrington was held in its room in the Large-scale building last Saturday evening to consider the purchase of a site for a new bank building which had been offered.

Mrs. Hannah Sodt and childred had signed an agreement in favor of the bank, offering all of it in block 10, except the south 70 feet thereof, originally plat of the Village of Barrington for a consideration of \$5,000.00.

After considerable discussion it was voted to accept the proposition and the bank was authorized, by unanimous vote of the directors present at the meeting, to sign the agreement.

The premises are now occupied by the Barrington Pharmacy and W. F. Burkhardt, jeweler.

The terms of agreement require that the buildings be removed from the land sold to the bank within four months. It is the intention of the owners to remove the buildings to the south part of the lot and face them on Cook street. One of the conditions which the property was sold to the bank required that when the bank building is removed the lot be sold to the bank at a price of \$100 per foot.

The directors, in choosing the site, had in mind the general improvement in the appearance of this village which will result in the building of a modern structure on it is prominent corner.

Many Enjoy Mother Goose Party

The Mother Goose party given by Mrs. George Spangler Friday evening in honor of the birthday of Mrs. Albert Gieseke was hilarious with fun about

the appearance of this village which will result in the building of a modern structure on it is prominent corner.

The work is being done in connection with a course in journalism which these energetic young fellows are pursuing in their college work; also for the purpose of raising money toward educational expenses.

The regular student body is dismissed from the university at this time to allow short courses to be given in agriculture, domestic science, etc., to visiting students from all over the state. Newton Plaige will be graduated in June.

The special edition will indicate the regular and busines uses of these two colleges.

Lowden's Prevailing Popularity.

Endorsement of Frank O. Lowden for the Illinois governorship by Republican party bodies, variously convened and representative of almost every section of the state, occur with such frequency that the chivalry of such action reads like an oft repeated tale!

And the end seems so popularly accorded demonstrates forcefully the spontaneous support that has from the first attended mention of his name in connection with the governorship.

The impulse favorable to Col. Lowden is based upon a personal appeal that goes far beyond the ordinary candidacy, which of course it is in the minds of voters, among them characterized by large acquaintance, party standing and repute, all of which the popularity of Col. Lowden and their manifestations in his private and public life of those character attributes that mark the individual as one eminently qualified for the office that has attracted to his candidacy standard the popular support accorded it.

Colonel Lowden is essentially gubernatorial—tough; and better his friends and those who are intimate contact with him thoroughly know and appreciate this fact—but the thing singularly gratifying is that a comprehension absolutely just and correct regarding his qualifications should apparently prevail in Republican party circles throughout the state.

Miss Josephine Moore Weds

Word has reached Barrington friends of the marriage on Thursday, January 18, of Miss Josephine Moore, eldest daughter of Mr. and Mrs. Edward Moore, of Lee Foster of Port Royal, Canada.

KEEP OFF OF RAILROAD TRACK

Interstate Commerce Commission Says Thousands Were Killed This Year by Trespassing on Tracks.

According to a report just issued by the Interstate Commerce Commission, the Review, by the Chicago & Northwestern Railway Company, for the year ending June 30, 1914—713,570 persons were killed, 123,611 were injured, 237,181 persons were disabled, and 2,311 persons were maimed, in the United States alone, from trespassing on railroad tracks and cars.

Averaging this for the year, fifteen men, women and children killed, while trespassing on railroad tracks and cars, or twenty times as many as there were passengers killed that year.

The same commission reports that during twenty-five years ending June 30, 1914—713,570 persons were killed, 123,611 persons were injured, 237,181 persons were disabled, and 2,311 persons were maimed, in the United States alone, from trespassing on railroad tracks and cars.

ASKS INJUNCTION TO HALT WATERWAY

Representative W. A. Hubbard
Holds Act Is Unconstitutional.

NOT SUBMITTED TO PEOPLE

Every State Official Who Might Have
Anything to Do With Expenditure
of Money Is Named
in the Petition.

Springfield—State Representative William A. Hubbard of Carrollton filed a petition in the Sangamon county circuit court for an injunction restraining the state treasurer from carrying out the provisions of the Illinois waterway act. It was stated in the petition that the act was unconstitutional, inasmuch that it had never been submitted to the people.

Every state official who might have anything to do with the expenditure of money held responsible by the Petition general assembly for carrying out the waterway act, was named in the petition. From Governor Dunne, secretary of state, Treasurer Andrew Russell, Auditor James Brady to James Higgins, the state printer excepted.

The waterway plan of the legislature was to connect the Illinois canal with the Illinois river, thereby making a deep waterway from the great lakes to the Gulf of Mexico.

Benefit Feeble-Minded

Three hundred indigent inmates have been received at the Lincoln State School and colony at Lincoln since the first of July, 1915, when the new law went into effect, making it mandatory for the institution to receive all feeble-minded persons committed by the courts, according to a statement from the state board of administration.

"The sudden increase is not taken to mean that feeble-mindedness has increased rapidly, but merely that society has been combed for them," explained Frank Whipple, fiscal agent of the board. "Some have been transferred from almshouses and other institutions, relieved of burdens that have been financial millstones around their necks."

The institution population January 15 was 1,905, the largest number in the history of the school.

"Prior to the enactment of the law, the law enforcement authorities to all effect made it difficult to bring into the state only children who accepted for whom there was some hope of schooling. Now, however, there are many who are in the final stages of tuberculosis and otherwise deficient physically. Consequently, the death rate has been higher. There have been 37 deaths since the new law went into effect."

"One hundred of the inmates are cared for at the colony located on a farm of 500 acres of land three miles southeast of the main building. These boys engaged in farming, care for 150 head of dairy cattle and look after large herds of hogs, sheep and poultry raised for the institution."

Industrial Board Sets Precedent

Decided by the Industrial board of Illinois just handed down, in the case of Paul Haradon against the Marcellus Manufacturing company of Paul Morris, is expected to have a far-reaching effect in the interpretation of the employees' compensation act.

Haradon was making a tool box on advice from his foreman, and lost several fingers in a circular saw. A board of arbitration awarded \$462 to him. The company asked for a review of the award, and the court that Haradon was employed as an associate of manure spreaders and that he was injured when not working at this task, the company was not liable.

The industrial board confirmed the award, contending that all employees were required to have tool boxes; that Haradon's foreman told him he must have one and that his work in making the box was for the mutual benefit of the company.

New Incorporations

Secretary of State Stevenson at Springfield issued certificates of incorporation to the following: Nine Louis, Chicago, capital \$500; Incorporators: Albert N. Foyell, Alfred W. Bay, Margaret Young.

Postal Advertising company, Chicago, capital \$1,000; Incorporators: F. M. Simmonds, St. V. M. Simmonds, F. M. Simmonds, Jr.

Plan Centennial Pageants.

Miss Jessie Palmer Webber, secretary of the Illinois State Historical society, and well versed in pageantry, has put out a general plan for one of the most important features of the Illinois centennial celebration, children's pageants constituting legend, romance and history in their relation to agriculture.

Interest along this line is developing rapidly, and boys and girls' agricultural clubs are preparing to mark the 1918 centennial in a way to impress the public concerning the various agricultural developments and possibilities of the state.

In discussing the idea, Mrs. Weber said:

"It has occurred to me that it might be of great interest to work up in pageant form the legends relating to Indian corn, or maize, and I believe the name 'maize' was used as 'the dancing maize' or 'lizard maize.'

I believe the story of Kaskaskia would suit this purpose very well, especially in bringing out the French common in which each family was assigned its little portion of land for the culture of its gardens and orchards as well as for its growing space.

One might have the French settlers with their gardens and orchards and the ever-present wheat as well, as the Frenchmen always used white bread and did not depend on the ground corn as did the Virginians.

Starting with the arrival of the French, the Indians came and the French, then the arrival of the French Commandant Bolebrant and the prising of Kaskaskia, the division of the land into communities, the quiet dress of the French, and then a very pretty scene would be the harvesting of the wheat.

The French made a great deal of noise, and the arrival of the English, the coming of George Rogers Clarke, and then a very pretty scene would be the harvesters of the wheat.

Charleston—The jury in the case of Oscar Dalle and Joseph Cox, tried for the murder of William Hood last October in the roundhouse of the Clover Leaf shops, acquited both defendants.

Danville—The British submarine

ship will again vote on the local option question this spring if the plan of the dry forces are carried out. The question was submitted to the people two years ago.

Montgomery—The Moewe, a British submarine, will go to Norfolk to

protect German interests there.

New York—For the first time, British naval forces have patrolled shipping to watch out for German submarines in American waters. Information received at the consulate from private sources led them to believe that a submarine, had accompanied the captured steamer Appam on her voyage to the United States.

British Liner Captured by Raiders.

Norfolk, Feb. 2.—The exploits of the German raider Emden, which destroyed many merchant ships early in the war, were overshadowed when the British liner Appam, belloved lost of the African coast, came into port last Tuesday, having the German flag and number 100, a German crew of 22 men—a prize of war.

The Moewe was captured by

British forces.

Moewe—James W. Ellis, seventy-five years old, died here. He split his home in the township in which he was born.

He served in the Civil War as a member of the Forty-first Illinois Infantry.

Rock Island—Rock Island town-
ship will again vote on the local op-

tion question this spring if the plan of the dry forces are carried out. The question was submitted to the people two years ago.

Moewe—O. N. Nagel, forty-

eight years old, a driver at O'Gara No. 3 mine, was crushed to death when a chunk of slate 12 by 12 feet fell upon him. Jacks were used to lift the slate from his body.

Decatur—The outbreak of foot-and-mouth disease in Canada has been believed to be the only one in the United States at present, is now well under control. All infected cattle

have been killed.

Eight—Capt. Horace B. Wild, world-famous aviation expert, is to lecture before the Science club of the high school in the near future. An exhibition of the latest models in flying craft will be shown.

Jacksonville—Jacksonville has been assured a nine-hole golf course this summer through the efforts of a committee which has raised over \$500 to help the fund for the course.

Bellerville—For the second time in a month the Bunn school, Bellerville, has been closed by order of the board of health. Action was taken because the son of the janitor of the building had contracted a case of diphtheria.

Christiania—Dr. D. M. Cameron, a physician, has been elected to the committee of the state committee for the election of state committee members.

Letters have been sent by Mr. Stevenson to the chairmen of the Democratic, Progressive, Socialist and Socialist parties asking them to file in his office the certificates required by law showing the number of delegates to be elected by each party.

"Although the legislature has failed to enact any amendment to the primary law, Mr. Stevenson's statement is 100% correct," he said.

The delegates to national nominating conventions will be elected in the April primary, instead of at the party conventions.

Attorney General Lucy has placed that construction upon the law, according to the position that the party committee is to be elected at the September primary.

Letters to the chairmen of the state committee for the election of state committee members are to be filed in his office for the meeting of the state conventions.

Mr. Stevenson announced that he would not be a candidate for delegate at large to the national convention, but would seek the Democratic nomination for secretary of state, his present position.

WAUCONDA
Mrs. Walter Banks returned to Chicago Saturday.

Lillian Ethel Jayne spent the first of the week in Wauconda.

Alvin Kimball and Clyde Carr spent Sunday at their homes here.

Mrs. Harry Dixob was a Wauconda visitor the latter part of the past week.

Ray Murphy spent Sunday with his parents, returning to Gary in the evening.

Mrs. Emily Bates is nursing a badly sprained ankle at present, but is improving nicely.

B. S. Hammond has so far recovered that he visited the city the first of the week on business.

Alfred Nichols and his father came from Chicago Sunday to visit at Wauconda over Sunday.

S. O. Darrell's condition is about the same, we are sorry to report. He is still confined to his bed.

The "Dry" is recalculating a petition to bring the question of local option to the test in this town this spring.

The Farmworth and Bristol sale Tuesday drew a fair attendance, and fair prices ruled, we are told for most property.

Rev. R. C. Hallock has gone to his charge in Wisconsin and Mrs. Hallock and her mother, Mrs. Lucy Clough, will join him some time in the future.

Miss Grace Wells spent Sunday at home. Grade is holding a position with the Chicago & Northwestern railway company but will return to her studies as soon as the lady for whom she is "subbing" returns to her desk.

The concert favorites have found of the entertainments listed for the winter, and the attendance was good though the weather was not favorable. They are very pleasant entertainers, indeed, and we hope to enjoy their efforts at some future time.

Many of our people who had known George Powell were saddened when news of his death came on Monday. My Powell was a man of very likable presence, and had many warm friends here whose sympathies are with the stricken family.

For RHEUMATISM.

As soon as an attack of Rheumatism begins apply Sloan's Liniment.

Don't waste time, and never unnecessary money.

A small bottle of Sloan's Liniment will affect a cure in a few days.

The pains go at once.

A grateful writer writes: "I was suffering, for three weeks, with Chronic Rheumatism, and had tried many medicines, they failed, and I was under the care of a doctor. Fortunately I heard of Sloan's Liniment and applied it, and it worked up well. I am employed at the Biggest department store in S. C. where they employ from six to eight hundred men, and they all say that Sloan's Liniment is the best.

It is a safe, reliable, and effective medicine.
