BOWMAN COMPANY ASKS SHERIFF'S AID

In Guarding Deliveries of Milk to Their Plant Here This Week, Farmers are Well Organized

AND ARE OPERATING OLD PLANT

Various Meetings Held in This Vicinity to Put Organization on Solid Footing Against Dairy Companies

The officials of the Bowman Dairy company appealed to Sheriff Griffin, Sheriff of Lake county yesterday for aid in securing that they should be allowed to deliver milk to their plant here this week. The Bowman Dairy company is a large corporation, and the Bowman Dairy plant is a large plant. The Bowman Dairy company is a large corporation, and the Bowman Dairy plant is a large plant. COUNTRY FREE OF F. AND M. DISEASE

Long Fight Against Stock Plague is Ended by the Use of all Quarantine Restrictions

BAN WAS ORDERED OFF MARCH 31

Foreign Embargoes Removed Will Permit Shipments From United States to all Other Countries

A dispatch from Washington, D. C., says: The long fight against the foot-and-mouth disease is over. The secretary of agriculture has issued an order which on March 31 removes all foot-and-mouth quarantines and restrictions against the shipment and movement of live stock. The order signed specially removes the quarantine from a small territory in California county, Illinois, the last area which was under suspension. Along with the removal of this local quarantine, the various Federal orders restricting shipment of cattle are rescinded, so that dealers can now ship their cattle as before the first quarantine was imposed.

Upon notification that the United States is free from the disease, all foreign governments which have placed embargoes on American cattle are expected to remove these embargoes, so that cattle raisers will then be able to resume shipments to these foreign countries.

The magnitude of the work of eradication and control carried on by farmers, shippers and the State and Federal governments is shown by the fact that before controlled, the disease had gained a temporary footing in twenty-two states and the District of Columbia. The disease appeared and was controlled in 200 different counties.

The importance to the stock raising industry of eradicating foot-and-mouth disease may be judged from the results of this plague in Denmark, where the disease appeared at about the same time that it broke out in the United States. The area of Denmark is approximately equal to that of the three New England states—Massachusetts, Connecticut, and Rhode Island. It is, however, a great dairy country, and it has been estimated that the losses in milk in one year caused by the foot-and-mouth disease have amounted to approximately one-third of the total cost of eradicating the pestilence in twenty-two states of this country. The Danish authorities were unable to carry out their former policy of slaughter, and were compelled to resort to such measures as control as could be established by quarantines and other restrictions.

As a result of better understanding between the State and National Government, representatives of the department believe that the use of the services which empowered the authorities in the past outbreak would not be encountered in dealing with any future occurrence of the disease. The veterinarians, however, will not abate their watchfulness for some time. The eradication of animals and animal products offered for import will continue to be unusually strict. The department, moreover, particularly urges all farmers and cattle handlers to notify their state veterinarians and the department of any suspicious cases and to cooperate with inspectors in their animals. Those in charge of the eradication work are confident that the disease is wiped out, but they wish to use every precaution to detect and control any sporadic cases that may develop in remote districts.

Mr. Otis Attends Dairy Meeting "Ball Day" drew a crowd of 1,000 visitors to Carbondale, April 1, to celebrate the first big dairy extension movement ever held in the United States.

Because of bad weather the attendance was not so large as expected, but those who attended were representatives of the dairy extension workers and farmers of the state. A special train brought representatives of the Chicago Chamber of Commerce, headed by C. H. Markham, president of the Illinois Central, and J. C. Blair, industrial and immigration commissioner of the road.

A feature of the parade was the herd of thoroughbred Holstein bulls which was given to the farmers of Southern Illinois by the Illinois Central railroad. The state dairy and food commissioner, Don W. Scott, Matthews, who was the originator of the dairy extension plan, with other prominent state officials led the parade. School children in wagon, the Carbondale company of the National Guard, the Carverville Cattle association, the Chicago, St. Louis and other delegations followed the cattle to the Ellis club, where speeches were made.

Spencer Otis, Jr., of this village attended the meeting.

LOCAL DOGS WIN AT CHICAGO SHOW

Victory Kennel Products Retain Their Winning Reputation and Carry Home First Prizes

A dog show of the Chicago Kennel Club held at the First Regiment Armory, Victory exhibits in spite of keen competition upheld their reputation they have gained as consistent winners under all judges.

The Victory team of wire haired Fox terriers gained every first prize they could get; Victory Greenbank Selection and his daughters, Victory Hecley and Miss Circuit, being awarded first championships.

AT THE TRAINING CAMP

Young man, why not take your vacation this year at a summer training camp? It will be the cheapest vacation you ever spent, but that is the best of its advantages. Here are some others: Change of scene—you can go to any camp in the United States.

New companions—all sorts from clerks to bank presidents, leading lawyers and eminent doctors.

The delight of leaving a new game. The rest that comes from being under intelligent orders.

The health that springs from guided and temperate exercise and life in the open air.

The satisfaction of knowing that you have increased your value to yourself and to your country.

Don't plan your vacation without looking into this matter. One season at a summer training camp will be worth a dozen aimless excursions. Try it.

COMPETITION AND TRADE

Your competitor is not necessarily your enemy. He can be your friend.

A common mistake is that there is just so much business to be had, and that the rival cuts your trade in half.

That is not true. As a rule the more tradesmen, the more trade. A good, lively competitor will increase your custom.

Two first class groceries in a block are better for both than a monopoly would be for either.

The place for a young lawyer to hang out his shingle is not a town where there are no lawyers, but a town where there are many and good ones.

"Where the eagles fly, there the eagles are gathered together." And where no eagles hover there is slim picking.

If you are a young graduate from a medical school, don't go to some forsaken neighborhood where there are no doctors; go where physicians flourish.

Competition does not kill trade. It builds trade, makes new trade, stimulates trade.

No one can get all the business possible in any community. His personality attracts some, repels others. There is always a lot of business for somebody else.

Don't shy from your competitor. Don't assume he's your foe. Get acquainted with him.

You may learn something. Don't know your competitor. Don't encourage busybodies who bring you tales of him. He is a good sport. Play the game. Keep good natured.

Beat your competitor if you can, but remember the surest way to beat him is to sell better goods, to use fairer methods and to be more courteous. Don't play the cut price game with him. Keep your margin of profit fair. Cutting prices is cutting the throat of success.

If your competitor lies about you, or uses underhand means to harm you, never mind. You go on and be on the level and look ahead. He can't fool the people all the time. Straight business wins out in the long run.

There's business enough for you both—after it.

Your competitor will do you a deal of good. He will make you energetic, careful, more attentive to affairs, and altogether he will bring money to your pocket if you use him right.—FRANK CRANE (Copyright, 1916, by Frank Crane)

Here, Quit That. Many a man's spotted reputation is due to the fact that he has never been caught.—Columbus Esquire-Sun.

Live Up to the Part. No longer talk at all about the kind of man that a good man ought to be, but be such.—Marcus Aurelius.

How to Cure Colds.

Avoid Exposure and Drafts.

Eat Right. Take

Dr. King's New Discovery.

Your Cough and Cold begin to get better as soon as you take Dr. King's New Discovery. It is prepared from Pine Tar, healing balsams and mild laxatives. Dr. King's New Discovery kills and expels the cold germs, soothes the irritated throat and allays inflammation. It heals the mucous membrane. Search as you will, you cannot find a better cough and cold remedy than Dr. King's New Discovery. Its use over 45 years is a guarantee of satisfaction.

"From exposure I had a cough and cold combined that nearly put a finish to me. While looking for something to ease the irritation that bothered my throat and lungs, a friend advised 'Dr. King's New Discovery.' I bought a bottle, the first dose helped and before the first bottle was used my cold was well."—G. R. Spence, Smithdale, Ark. At all druggists.

Just As You Overhaul Your Ford—

Just as you paint your house—just as you caulk your boat, just in the same way—because it's good sense and good business—

You should put yourself in order.—

Come 'round—after a hard Winter—and let us "dress you up" in a good looking, long wearing suit of

Michaels-Stern
clothes at the right price.

It would take a full page advertisement to describe the line. You'll be amazed at the variety of styles, fabrics and patterns that skillful ingenuity has created—models ranging from the most extreme form-fitting singlet-button coat to the most conservative 3-button style.

Hopes Women Will Adopt This Habit As Well As Men

Glass of hot water each morning helps you look and feel clean, sweet, fresh.

Happy, bright, alert—vigorous and vivacious—a good clear skin; a new, rosy complexion and freedom from illness are secured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of drinking phosphated hot water each morning, what a gratifying change would take place.

Instead of the thousands of sickly, anemic-looking men, women and girls with pale or muddy complexions; instead of the multitudes of "nervous wrecks," "run-downs," "brain fags" and pessimists who should see a virtuous, optimistic thing of rosy-checked people.

An inside bath is had by drinking each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphated, to be taken from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and toxins; thus clearing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, many bronchial attacks, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphated from any drug-gist or at the store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the pain does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.

The Theater in War Tonic. "Can you imagine the state the nerves of the country would be in but for the necessary mental recreation provided by the theater?" the London Chronicle asks in calling attention to the fact that the play has been prolonged for more than eighteen months and that the end is not yet in sight.

"A weekly ending at one of the theaters," it goes on, "is a safeguard against nervous prostration. It is a tonic more effective than doctor's medicine. All the nerves are quickened and instead of depression we have alertness; optimism instead of pessimism. Gladstone went to the theater for relief in a time of national strain; so did Abraham Lincoln."

Sometimes it is a man's cowardice that keeps him from getting in line.

ELDERLY WOMEN SAFEGUARDED

Tell Others How They Were Carried Safely Through Change of Life.

Durand, Wis.—I am the mother of fourteen children and I owe my life to Lydia E. Pinkham's Vegetable Compound. When I was 40 and had the greatest trouble of my life, a friend recommended it and it gave me relief from my bad feelings that I took several bottles. I am now well and recommend my Compound to other ladies."

"Mrs. Mary Jungwag, Durand, Wis., a Massachusetts Woman Writes: Blackstone, Mass.—'My troubles were from my age, and I felt awful sick for three years. I had hot flashes often; and frequently suffered from pains. I took Lydia E. Pinkham's Vegetable Compound and now am well.'"

"Mrs. PIERRE-CORNEILLON, Box 239, Blackstone, Mass.

Such warning symptoms as sense of suffocation, hot flashes, headache, backache, dizziness, irritability, nervousness, constipation, variable appetite, weakness and dizziness should be heeded by middle-aged women. Lydia E. Pinkham's Vegetable Compound has carried many women safely through this crisis.

HIP DRAPERY PUZZLES

MATTER OF FASHION THAT IS MAKING WOMEN UNEASY.

Little Need for Real Disquietude Over the Matter—It May Safely Be Left to the Skill of the Dress-maker.

What do the women think of the new styles for 1916? I have asked hundreds of them, and the only summary up that can be made from the various answers is a decided anxiety.

Black Silk and Pink Plumes Are Used in Reconstruct a Bonnet of Long Ago for Present Day Fashion.

concerning the problem of hip drapery.

Every woman comes back to this, no matter how great a field you may take her through regarding the rest of the fashions. She is startled and disturbed.

When separate bowels are worn—not with one, but ornate ones—this effect is obtained through a visor belt that has this brilliant ornamentation in front. It is difficult to say whether this work is Asiatic, American, Indian or Russian. It is usually made of glass beads in baroque and arabesque splashes of Chinese embroidery. Sometimes the entire ornament is Chinese. Some of these belts might have been worn by Genghis Khan.

When separate bowels are worn—not with one, but ornate ones—this effect is obtained through a visor belt that has this brilliant ornamentation in front. Sometimes the entire ornament is Chinese. Some of these belts might have been worn by Genghis Khan.

The drawers look neat and attractive, and when cleaning is desired a simple wiping with a damp cloth produces perfect cleanliness.

The same idea could be carried out with all shelves, cupboards and drawers in the house, whether for linens, china or kitchen utensils. They are more easily cared for than when arranged with other covers. This process makes a good substitute for the highly recommended glass shelves.

New Colors in Mittles. The midly for young girls has made more and more of a place for itself. Even the long and really unbecoming skirt of last year has grown into midly by appearing much shorter this year and without so much flounce, no more is necessary. Plainness goes with white colors and cuffs, also the all-over pink or light blue are in the spring showings in one shop for \$1.55, really lovely colors, and in another shop for the same price are broad striped ones, brown and white, black and white and green and white. The short skirts come in heavenly pastel shades, smocked in white and white polka dots are embroidered on the collar. These cost \$2.98. The real yearning of a tailor made girl goes to a white flannel midly—Neroli—with platts and wonderful pockets, and all beautifully tailored. It costs \$5.

Makes Demand for Curves

The return of the distinctively marked waist was inevitable when once roll-overs had been accepted by the average woman.

The redingote, like the Louis XIV coat, is close fitting at bust and waist, but it does not look smart or attractive unless strongly marked curves are in evidence.

A roll-over demands a rounded bust and moderately rounded hips; the same may be said of Louis XIV coats, and these are the two most popular outer garments of the present season.

A beautiful little Louis XIV coat which illustrates what has just been said, was seen at a short while ago. It was of stone gray material, and the waist was a rich white silk which showed deep orange and black flowers on an ivory ground.

The big buttons were in mother of pearl. They were "motherly" but not in the mother of pearl buttons of the present hour. The basque of the coat was very full at the hem, but at the waist the little garment was quite tight.

Immaculate patch pockets appeared on either side, and there were deep revers adorned with pearl buttons. This

ed by the growing acceptance of paniers and farthingales, and gathers and plaits over the hips.

There is really not so much cause for anxiety as there seems to be on the surface. The American type—that is, the woman with the broad shoulders, long waistline and flattened hips need not worry about anything in fashions; her slim hips solve all problems, for after all, the great battle of fashions during the centuries has been a question of whether or not you bulge out below the waist.

However, every woman cannot hold herself up as the American type. She has all the curves that she is heir to, and diet, mental science and dancing cannot always reduce the curve that for generations was considered woman's chief beauty and is now considered her chief handicap.

The reason that the women with curves need not worry about this "fashion" for hip draperies which is finally established already is that the dressmakers have enough skill at their fingers' ends to make the fashion becoming to them.

Naturally, when the hips are extended, the jackets are short; and in the spring of 1916, their very shortness will be used as a way of disguising the hip line. Not one of them hangs straight down to the waist; they are all fluted out to give the appearance of ruffs—a trick which allows the skirt drapery to expand, as it is meant to do.

Here is another important feature of the majority of the new coats; they hang upon in front in order to show a great splash of baroque color, placed beneath the front of the waist line.

When separate bowels are worn—not with one, but ornate ones—this effect is obtained through a visor belt that has this brilliant ornamentation in front. It is difficult to say whether this work is Asiatic, American, Indian or Russian. It is usually made of glass beads in baroque and arabesque splashes of Chinese embroidery. Sometimes the entire ornament is Chinese. Some of these belts might have been worn by Genghis Khan.

BREAD MADE IN A HURRY

Just as Good as When Done in the Ordinary Way and Quickly Ready for the Table.

Break two cakes of yeast into one cup of water at blood temperature. Put a tablespoonful of sugar on the yeast to stimulate its quick growth. Whio this soaking, pour over it a warm bowl with one cupful of water. This, with the water over the yeast, makes a quart of wetting, sufficient for four loaves.

In a large mixing bowl put several sieves of flour and make a depression in the middle of the flour, into which pour a level tablespoonful of salt and a heaping tablespoonful of lard. Pour the liquid and the yeast upon the flour and mix with the hands, working the flour from the outside into the liquid in the middle of the mass. Make a stiff dough and lift the ball out, putting away any remaining flour for future use. If the flour is granular, let the dough lie on the board for ten minutes, covered with a warm towel; that the flour may properly absorb the moisture. If the flour is not granular, this wait is not necessary.

Now shape the dough without kneading, lay the ball in a buttered bowl, and butter the surface of the dough to keep it soft. Cover and let it double in bulk, about one hour to two hours and a half. If you wish still further to hurry it, set the bowl in warm water and place a smaller bowl of warm water inside of the large bowl containing the dough.

When doubled, shape quickly into the baking pan for the second rising and bake when again light. This recipe is excellent for use when one must have bread in a hurry. Half of the dough may be made into crusty rolls.

TO WASH WINDOWS QUICKLY

As in Most Other Cases, There is a Right and a Wrong Way of Doing It.

Take a large cloth, a yard long, put it into a close swab like a sponge. Wet spongy, but not dripping, with water. Then enter and pour in water, and use it into the face of the cloth. With this swab quickly wash the outside of the windows to loosen all flyspecks, dirt, old paint or alkali. Follow at once with a large, soft and dry cloth.

The first cloth leaves it smeary, but the polishing will make it very clean and shiny. This first swab will clean a large number of windows, simply turning so as not to scratch the glass with the dust on it. The polishers need not be used until done.

The windows become very brilliant and clean and there is no freezing of water, or wetting the hands, as gloves are not used. Especially good in cold or windy weather.

The same method can be used inside. Pure kerosene can also be used, but the above combination appears to more quickly soften the varieties of deposit.

Keep Cupboards Clean.

The majority of women do not seem to realize the danger there is in accumulations in closets. The dust and lint from old clothes are very inflammable. Lighting a match to look for some article in a crowded closet is dangerous. One may discover a fire by taking a candle into such a place often causes fire. Old clothing, rags, waste paper and every sort of rubbish should be cleared out of closets. A spark in a dusty closet has been known to ignite a whole building; even an accumulation under bureau and sofas is dangerous. If you discover a fire in your closet close the door and get a bucket of water and a broom. A wet broom is the best fire extinguisher ever invented and can be of great use in your closet.

You can throw a solid sheet of water with it or only a spray; you can beat a fire out with a wetting desired and can pull down a blazing curtain with it.

Stuffed Onions.

Place a few large mild onions, peeled and washed, in a boiling dish. Cover with boiling water slightly salted. Bake them half an hour or till a wire will pierce them, then turn off the water, dash with a sharp, thin-bladed knife take out the heart without breaking the outer walls, fill the cavity with minced cold chicken and fine bread crumbs, seasoned with melted butter. Sprinkle crumbs, buttered, over the dish until it almost touches the top of the onions. Cover them and bake half an hour.

Silver Parfait.

Dissolve one cupful of sugar in one cupful of water. Add a little vanilla. Pour it over twenty beaten whites of three eggs and beat again. When cool add one pint whipped cream, flavor with two teaspoonfuls of any kind of flavoring desired. Freeze in ice and salt and let stand until firm. One day for a company dinner I picked a few choice strawberries, washed in cold water, and added them. They were added cherries whole, and the effect is very pretty.—Exchange.

Celery Cutlets.

Mix together one cupful of cold baked beans, one cupful of chopped celery, two tablespoonfuls of melted butter, one beaten egg, and season with a spoonful of lemon juice, salt and pepper. Shape into cylinders, roll in cracker dust and fry in deep fat.

To Freshen Salt Bread.

So that it will be like new, dip the loaf in cold water, put it in a pan, bake it until it is heated through; then wrap it in a damp cloth, and when cold, it will be like fresh bread.

Sudden Death

Caused by Disease of the Kidneys.

The close connection between the heart and the kidneys is well known nowadays. When kidneys are diseased arterial tension is increased and the heart is attacked. When the kidneys no longer pour forth waste, uric acid poisons the body and the person dies, and the cause is often given as heart disease, or disease of brain or lungs.

It is a good insurance against such a risk to send 10 cents for a large list of pamphlets, "Auric"—the latest discovery of Dr. Pierce. When you suffer from backache, frequent or scanty urine, rheumatic pains here or there, or that constant tired, worn-out feeling, get "Auric" at the drugstore. It is 37 times more potent than lithia, dissolves uric acid as hot water does sugar.

Dr. Pierce's Golden Medical Discovery purifies the blood and entirely eradicates the poisons that breed and feed disease. It is absolutely essential to good health. The weak, run-down, debilitated condition which so many people experience is commonly the effect of impure blood. "Medical Discovery" not only cleanses the blood of impurities, but increases the activity of the blood-making glands, and enriches the body with pure, rich blood.

WE PAY CASH FOR

MEDICINAL ROOTS, HERBS, LEAVES, BARKS, ETC.

We buy over two hundred different kinds of Medicinal Roots, Herbs, Leaves, Barks, Seeds, Flowers, Etc. which we pay cash on arrival.

We make a specialty of Ginseng, Golden Seal Root, Scilla, Scilla Root, Star Grass Root, Sarsaparilla, Etc. We pay top cash prices.

If you want to line up with a progressive, growing, honest, up-to-date concern who will handle your goods right, will keep you well posted on market conditions, write us for our price list, shipping tags, and so on.

HORSE SALE DISTEMPER

You know that when you sell or buy through the sales there are about one chance in fifty to escape SALES STABLE DISTEMPER. If you are not sure of your true protection, your only safeguard for an sure as you treat all your horses with DISTEMPER, you will be rid of it. It is a sure preventive, no matter how they are "exposed." It costs \$1.00 a bottle. It is sold by all good druggists, horse goods houses, or delivered by the express.

SPHON MEDICAL CO., Chemists, Graham, Ind. U. S. A.

STRANGE SIGNS ON SHIPS

Have Little Meaning to the Uninitiated, But Are Plainly Understood by Sailors.

Strange signs frequently hang from ships which puzzle even dwellers in seaport towns to guess the meaning of. A basket slung from the mainmast head is a sailor's sign to signify that the cargo has been loaded or discharged. As the case may be, and that the ship is ready to start on her next trip. This she cannot do until the usual board of trade formalities have been observed, and the ship's papers which, while a ship is in port, are deposited with the board of trade, have been returned to the captain.

A generally mysterious emblem is a boom lashed to a mainmast or bridge railing. This is to signify that the vessel is for sale.

Occasionally a dark blue stripe may be seen running fore and aft on a vessel; as a matter of fact, this is a sign of recent bereavement. Blue is the sailor's mourning, and the stripe of this color takes the place of the black margin or band used by the landman as a notification of death.

Waste of Time.

"You say this naturalist has spent many years studying the monkey language?"
"Yes, I understand he can almost converse with them."
"Well, well."
"You don't seem much impressed."
"To tell the truth, I'm not. I don't see what a monkey could pay to a human being that would be worth listening to."

Some people act as though they were afraid they might forget their troubles if they didn't talk about them all the time.

They once tried to shut a woman up in a lunatic asylum—but they say she kept on talking.

WISE HOSTESS
Won Her Guests to Postum.

"Three great coffee drinkers were my old school friend and her two daughters."
"They were always complaining and taking medicine. I determined to give them Postum instead of coffee when they visited me, so without saying anything to them about it, I made a big pot of Postum the first morning."

"Before the meal was half over, each one passed up her cup to be refilled, remarking how fine the 'coffee' was. The mother asked for a third cup and inquired as to the brand of coffee I used. I didn't answer her question just then, for I heard her say a while before that she didn't like Postum unless it was because it was properly made."

"I have been brought up from a nervous, wretched invalid, to a fine condition of physical health by leaving off coffee and using Postum."
"I am doing all I can to help the world from coffee-slavery to Postum freedom, and have earned the gratitude of many, many friends." Name given by Postum Co., Battle Creek, Mich.

Postum comes in two forms: Postum Cereal—the original form—must be well boiled, 35¢ and 25¢ paks.
Instant Postum—a soluble powder—dissolves quickly in a cupful hot water, and with cream and sugar, makes a delicious beverage instantly, 30¢ and 60¢ tins.

Both forms are equally delicious and cost about the same per cup.

There's a Reason for Postum.

—sold by Grocers.

After Grip Then—Spring Fever?

This is the time of year to look out for trouble! We feel weak—our blood seems hot—no appetite—its time to clean house. This is when the blood is clogged and we suffer from what is commonly called a cold.

Dr. Pierce's Golden Medical Discovery purifies the blood and entirely eradicates the poisons that breed and feed disease. It is absolutely essential to good health. The weak, run-down, debilitated condition which so many people experience is commonly the effect of impure blood. "Medical Discovery" not only cleanses the blood of impurities, but increases the activity of the blood-making glands, and enriches the body with pure, rich blood.

The City of Numbered Days

By FRANCIS LYND

I grew in the shadow
of the big dam and
perished beneath the
waters piled up
against the structure
it had raised.

In his life, as Mr. Lynd
has told the story, the
whole career of a modern
city is centered,
millions are made and
lost, men make and un-
make themselves, and a
little western girl brings
back her lover from the
unrealities to the great
truths of life.

If you don't read this
story you will miss a
phase of western progress
of intense interest.

THE KITCHEN CABINET

A light supper, a good night's sleep
and a fine morning, have often made a
man's life. A good night's sleep, a good
morning would have proved a reward.

SANDWICHES FOR GUESTS.

Good wholesome bread is the great
food in our homes and is often-times
the most highly pre-
pared. For the
busy woman who
has little time to
prepare the bread
in the longer
process this will
appeal to her:

Quick Bread.
Boil and mash seven potatoes, add a
pint of water in which the potatoes
have been boiled, and three pints of
cold water, then stir in two and a half
cups of yeast dissolved in a little
warm water, two tablespoonsful of
salt, two of sugar and three of flour,
mix and add a pint of boiling water;
when done add to the first mixture
and cover with a cloth and keep warm
ten hours. Then place in a moderately
cool place until needed. For each
loaf of bread use one cupful of flour,
warm and sifted into a bread pan with
a pint of the yeast, a cupful of scalded
milk, cooled, and a tablespoonful
of lard. Mix with a spoon, then knead
briskly for ten minutes, mold into
loaves and let rise in a warm place.
When light bake forty-five minutes in
a moderate oven.

Tea Rolls.—Scald two cupfuls of
milk and pour it over a cupful of
sugar, three tablespoonsful of butter
and a teaspoonful of salt. When it is
cool to lukewarm heat into it three
cupfuls of flour, sifted three times,
then add a cake of yeast, dissolved
in a fourth of a cupful of lukewarm
water. Knead and let rise until it is
light, then add two well-beaten eggs,
three more cupfuls of flour and a tea-
spoonful of cinnamon. Place in a but-
tered bowl and let rise until double its
bulk. Form into small rolls and place
in a buttered pan, let them rise until
very light. Brush the tops with melt-
ed butter and bake in a hot oven for
fifteen minutes by adding to the above
one-half a cupful of cocoa.

Poysters.—Take two cupfuls of
four, two cupfuls of milk, three eggs
and a teaspoonful of salt. Beat the
eggs until light, add the milk and salt
and pour gradually into the four, beat-
ing all the time. Strain the batter
and pour into hot greased pan. Bake
in a hot oven twenty-two min-
utes.

**Let us examine carefully whether
there is any wrong intended to us to
ask this—Buckeye.**
Grazing is nothing if it is not
fasting—Napoleon.

HOUSEKEEPERS' HELPS.
The indispensable pocket in a kitchen
apron may be put near the edge of
the apron, but on the
under side where it will
not be caught and worn
off on every projecting
point.

Treat your broom to a
hot-water bath of hot
soap suds, dipping it un-
til it is bright and clean,
then shake out the water
and let dry hanging.

An eye screw should be placed in
every broom, and then it should be
hung after using. Such a broom will
give a third longer service than one
that is not taken care of.

Have a change drawer placed under
the shelf of your kitchen cabinet, with
a spring arranged with bell to lock it
and avoid another using it, and from
this get all the small accounts as they
come. Where this system has been
tried there is less overcharging and it
is well liked by both the collector and
the housewife.

When milk is scalded, pour it at
once into a clean dish and set it into
cold water. This will remove every
trace of the taste if it has not been
too badly burned.

One of the easiest ways of mending
china and one which will make it
water and heat proof is to use the
white paint of oil colors used by
artists. A small tube costs ten cents
and will last for a hundred mended
dishes. Mix the paint and put it away
for six weeks to get thoroughly hard.
Then if any of the paint has dried
out on the edge it can be scraped off
and the dish will be as good as new.

Clean your bed springs by putting
them on the lawn and turning on the
hoses on a bright day. They will dry
in a few minutes.

Tea and coffee stains, or, in fact, any
stains that seem obstinate and those
of long standing may be removed with
peroxide. Put the peroxide on the
spots when the clothing is on the line,
repent until all trace is removed. The
nice thing about using this is that you
need not wash the clothing, as the
liquid does not infect the fabric.

To freshen rolls or biscuits damped
them slightly by a sprinkle of water,
slip them in a paper bag and lay on
the rack in a hot oven.

PAIGE

The Standard of Value and Quality

You Must Place Your Order Now If You Want "Immediate Delivery"

Once again, we must urge you to act quickly
in placing your order for a Paige Fair-
field seven passenger "Six-46."

Don't delay. Don't put the matter off one
day longer than is absolutely necessary
if you would avoid disappointment
later on.

Already the factory is flooded with orders
for this wonderfully popular model.

Despite the fact that our manufacturing
facilities have been tripled, we are facing
an immediate shortage of Fairfields,
and the spring retail season is only a
few weeks off.

Just stop for a minute and consider the
significance of the statement when we
tell you that, so far in 1916, we have
marketed more seven passenger cars
than any other manufacturer in our
price class.

Also, ponder over the fact that during March
we shipped 25 solid train loads of the
Fairfield model exclusively.

Last year, you will remember, there was
long Paige "waiting list."

Hundreds of people delayed their purchases
until the last minute—and were then
compelled to accept sixty and ninety
days delivery—or compromise on a
"second best."

So, be fair to yourself. Protect your own
good interests. Go to the Paige dealer
—place a cash deposit in his hands—
and make sure that you will receive the
car of your choice.

It is by no means our purpose to "stam-
pele" motor car buyers into early or il-
l-considered purchases, but we know that
a shortage is coming and offer this infor-
mation in a sincerely helpful spirit.

And now let us say a word about the car
itself.

First and foremost, we want to remind you
that the Paige Fairfield "Six-46" is a
tried and proven success.

When you buy a Paige "Six-46" today, you
are buying a car which has passed the
experimental stage. You are buying a
car of known quality—known ability.
In a word, the "Six-46" is an eminently safe
automobile investment.

It is a good car—not merely because we say
so—but because its owners have con-
clusively established this goodness in the
gruelling tests of more than a year's
actual road work.

Here, then, is one substantial reason for the
overwhelming demand which the "Six-
46" enjoys. And there is another—a
basic reason which has made this record
possible.

Time and time again, we have stated our
policy of scrupulously avoiding any ex-
pression in Paige advertising which
might savor of exaggeration or misrep-
resentation. We make an honest pro-
duct and we propose to sell it in an
honest way.

But, facts are facts, and we boldly and fear-
lessly claim that the Paige Fairfield
"Six-46" represents more actual dollar-
for-dollar value than any other motor
car on the market.

If this appears to be a broad statement we
invite you to check it up by inspecting
the car, riding in it, and conducting any
comparative investigation which you
may care to make.

Understand, we do not claim to make the
only good motor car, nor do we ask you
to believe that our Fairfield is the best
American make!

But we do most emphatically insist that the
"Six-46" offers a greater value for its
price—\$1295—than any other automo-
bile produced in this country or abroad.
Furthermore, you will heartily agree with us
if you will permit the Paige Dealer to
give you one thorough demonstration—
just one.

But, please don't forget—you must act
quickly. Get your order in now—before
it is too late.

6 PER CENT. REAL ESTATE FIRST MORTGAGE BONDS are steadily growing in popularity and their advantages
over other classes of bonds and individual mortgages are numerous. First, the value of the security underlying REAL
ESTATE FIRST MORTGAGE BONDS can easily be determined, and the property is personally inspected by the investor
before making purchases, whereas on the other hand, experience and tedious study is necessary to exactly value the security
of such corporation bonds as Railroads, Public Utilities and Industrials. Furthermore the stability in price of REAL ESTATE
FIRST MORTGAGE BONDS has been demonstrated; they have maintained their full par value when other bonds, even of
the highest character, have suffered severe declines in times of depression. Also REAL ESTATE FIRST MORTGAGE
BONDS are issued in most convenient denominations of \$100, \$500 and \$1000 and the interest is paid promptly on the date
of maturity. These moderate sizes enable the investor to buy small amounts of bonds, and, in need of funds, to sell
portions of his holdings.

Our customers have never suffered any loss of money nor any delay in the payment of principal or interest on CHICAGO
REAL ESTATE MORTGAGE BONDS bought from us.

News of the Week Out Down for Busy Readers

Mexican Revolt

The mountains of Guerrero are being combed thoroughly for Francisco Villa by the American forces, but nothing has been reported as to his whereabouts other than that captured bandits said he was being carried farther into the mountains in his following coach.

Francisco Villa, the outlaw, was surprised in an attack by a detachment of American cavalry under Col. George A. Dodd, badly defeated and now, seriously wounded, is fleeing to the mountains with about 10,000 men in hot pursuit. Villa's chief military commander, Elias Hernandez, and twenty-nine others of his band were killed in the fight. Four Americans were wounded. An official dispatch to Washington.

The line of communications maintained by Sherman in his march to the sea has been extended already in the line stretched by the American troops southward into Mexico. This line exceeded 300 miles in length. It has been extended in maintaining the 300-mile line.

Domestic

Howard Chandler Christy, the artist, filed suit for divorce at Danville, O., charging his wife with gross neglect of duty.

Ignatius T. T. Lincoln, former member of the English parliament and confessed German spy, made a second attempt to escape from jail in Brooklyn.

Three men were killed and fifteen injured in an explosion at the Otis Elevator plant at Buffalo, N. Y.

Dr. Theodore B. Sachs, for six years president and member of the board of directors of the Chicago Municipal Tuberculosis sanatorium, committed suicide. He swallowed a fatal dose of morphine and heroin at the Edward sanatorium in Naperville, Ill. Doctor Sachs offered his life in defense against charges made against him.

Glean H. Curtiss said that Steve McGordon, of New York, established a cross-country passenger service, which record when he flew 300 miles in four and a half hours.

Clio Smith of Appleton, Wis., who shot and killed Conductor T. J. Jones of Christopher, died as the result of a gunshot wound inflicted by Chief of Police Cook when Smith attempted to escape.

Injunction suits have been filed at Butler, Mo., by Prosecutors Attorney DeWitt of Chattanooga, Tenn., to prevent three railroads from transporting intoxicating liquors into the county.

The Royal Mail limited passenger train on the Baltimore & Ohio railroad was wrecked a mile west of Flora, Ill., and Engineer Ben Robinson of Washington, Ind., was scalded to death.

Engineer Herman Hess has been dismissed by the New York Central railroad. It was learned, as a result of the wreck at Amherst, O., he is held responsible for the disaster by the railroad. Townsman Albert Brant and Fireman Perry Beach were exonerated.

Charles M. Schwab, chairman of the board of directors of the Bethlehem Steel company, has purchased the Baltimore Street and Tunnel company, the \$30,000 enterprise recently promoted by J. E. Aldred.

Many of the 10,000 milk producers in northern Illinois and Indiana and southern Wisconsin even carried out their threats to dump milk into the ditches rather than permit it to reach Chicago dealers who have refused their demand for an increase of 22 cents a hundred pounds in price.

The Lehigh Coal and Navigation company was fined \$100,000 in the federal court at Trenton, N. J., for accepting rebates on coal shipments from the Central Railroad company of New Jersey.

The West Texas Bank and Trust company at San Antonio, Tex., a state-supervised institution, failed to open its doors, having been ordered closed by State Banking Commissioner John B. Patterson. Mismanagement of the bank's affairs was charged.

A section of the business district in the lower part of New York was threatened by a fire which broke out at 10 o'clock, burning two five-story buildings at 16 and 18 Beekman street, occupied by paper dealers. The loss was estimated at \$100,000.

At the conclusion of testimony at the preliminary hearing of Oscar Martin, a negro, charged with attacking a white girl, a mob of 500 surrounded the courtroom at Idaho, O., seized the prisoner and hanged him from a balcony of the courthouse.

European War News

British warships operating in the Pacific have captured the Danish steamer Zealandia, laden with nitrate of copper, says a dispatch from Chile.

All the French positions north of Farges Brook between Meusecourt and Behtincourt, west of the Meuse, in the region northwest of Verdun, are in German hands, the war office at Berlin announced.

Docks at London and other important military points on the English east coast and at Dunkirk were attacked by army and naval airplanes, according to an official report from Berlin. Numerous fires and violent explosions followed the bombardment.

A surprise attack on British troops in Arabia caused them to retreat after they had suffered heavy losses, the Turkish war office announced at Constantinople.

Word was received at Montreal that Capt. Fred Shaughnessy, second son of Lord Shaughnessy, head of the Canadian Pacific railway, has been killed in action.

The German official statement issued at Berlin announces that Teuton troops have cleared 1,000 yards of French trenches northeast of Haincourt. The Germans took 731 prisoners in the battle of Vaux March 31.

The British steamship Ashburton has been sunk by a German submarine. Five members of the crew have been taken to a hospital. The vessel, according to the Exchange Telegraph company at London, was not armed.

Fifty-nine persons were killed and 166 wounded, injured by bombs dropped during two Zeppelin air raids on England in 24 hours. Zeppelin L-15 was brought down by British anti-aircraft guns and the crew captured. The Zeppelin sank in the North sea.

Two hundred English and French soldiers were killed in German air raids on Saloniki March 30, according to Berlin reports. Numerous barracks houses were destroyed.

The hospital ship Portugal has been sunk in the Black sea by a German torpedo boat or submarine, with a large number of wounded aboard, according to an announcement of the official press bureau at Paris.

The strongly fortified village of Malancourt, ten miles northwest of Verdun, was captured by the Germans. The war office at Berlin announced that the Germans captured 228 prisoners.

Washington

Decision of the navy department at Washington to build the engines for two submarines, O-1 and O-2, at the New York navy yard, coming just as the yard had completed the engines for the cutter Menomonee, insured the retention of the trained force which has been engaged for the last three years.

The provision of North Dakota's new weight-purified law, which specifies that land must be sold in one, three or five-acre packages and must bear a special label, was held constitutional by the Supreme court at Washington.

Secretary Lansing announced at Washington that the state department has official knowledge that Holland is mobilizing troops. The unofficial opinion is that the excitement in Holland is traceable directly to the sinking of the Hollandica and the Tubantia.

Personal

Bishop Nathaniel Lucebeck, head of the Methodist Episcopal churches of Montana and the Dakotas, died in the Lutheran hospital at La Crosse, Wis. Bishop Lucebeck was born September 28, 1853, in Kimborton, Ohio.

President Emeritus James Burchell Angell of the University of Michigan died at his home in Ann Arbor, Mich. Doctor Angell was born in Scituate, R. I., January 7, 1829.

Charles Alexander Spencer Percival, British consul general at Philadelphia, died at Philadelphia. Mr. Percival was forty-five years old and was one of the youngest consuls general in the British service.

Foreign

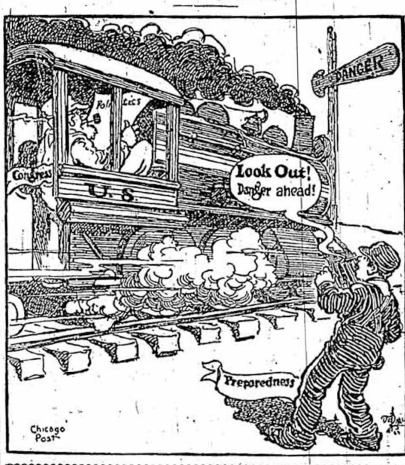

The Italian Nazionalo of Rome states that Sidi Mohammed Helal, brother of the grand chief of the Senegalese tribes, has arrived at Darna with an offer of submission to Italy.

Dispatches received at Amoy, China, from Peking say that troops have arrived at Chaowan, on the border between the provinces of Fo-Kien and Kwang Tung, north of Swatow, and have restored order there.

Clothier manufacturers in Glasgow have been requested to tender bids for 500,000 yards of khaki army cloth for a neutral government. It is assumed that Holland may be the neutral government.

Winning, Man, is practically under martial law, following riots that occurred when a soldier was arrested in a street, a fight between soldiers and civilians, four soldiers and one civilian were seriously hurt.

ANOTHER WRECK?

SEIZED SHIP AT SEA SHOOTSELF TO DEATH

LONE GERMAN CAPTURES BRITISH STEAMER MATTOPO.

Teuton Pirate Confines Captain of Ship in the Cabin and Disables Wireless.

Lowes, Del., April 1.—The British steamer Mattopo put in at this port on Thursday with a thrilling tale of piracy. A German stowaway, armed with two revolvers, had come within a hair's breadth of capturing the vessel and its cargo of war munitions destined for Russia.

Ernest Schuler, the German, is under arrest. He is in the cabin and the federal customs house in Lowes. He has in his possession money and papers belonging to the captain. Nothing can be learned about him.

The Mattopo weighed anchor at Sandy Hook at night, bound for Vladivostok with a cargo of war materials. She came out of her hiding place. He put the wireless out of operation, forced the captain into a cabin at the point of his gun, searched his papers and the ship's safe and until morning was in complete control of the ship.

The officers and crew of the ship were terrified through the night by the man's declaration that he had placed bombs in different parts of the ship and that the vessel would be blown to bits if they tried to attack him.

After running the ship for a night Schuler was responsible for his own undoing. About noon, when the steamer was off Rehoboth Bay, Delaware, he insisted on being put ashore. He was put over in a pilot boat, still with his two guns, and made for the shore.

In the meantime the Mattopo ran up a signal asking for immediate assistance. It was seen by the superintendant of the maritime exchange reporting station at the Delaware breakwater and the federal coast guard crew at Lowes immediately went out in its large power launch.

The launch reached Schuler's boat just as he was approaching the beach at Rehoboth. Schuler was ordered to surrender and come into the launch. He threw his revolvers overboard and came in. He was taken to the customs house and clamped in irons. Search is being made for bombs on the ship.

IMPORTANT NEWS ITEMS

Liverpool, April 3.—The 16,000 Meney river dock workers, who went on strike because of a dispute over overtime pay, returned to work.

Paris, April 4.—The Russian hospital ship Portugal has been torpedoed and sunk. There were many wounded soldiers on board at the time.

Berne, Switzerland, April 1.—Two aeroplanes of unknown nationality dropped five large bombs at dawn this morning on the Swiss village of Porrentruy, near the French frontier. Some damage to property was caused.

London, April 1.—Two thousand munition workers are now on strike in the government gun factories in the Clyde district and reports from Glasgow said the labor troubles threatened to spread. Less than 100 strikers have returned to work in spite of the pressure of union leaders.

Outlaws Active in Haiti. Washington, April 6.—A clash between bandits and police in northern Haiti was reported to the navy department. One policeman was killed and three wounded, while the outlaws lost several killed.

Ranchers Get Rifles. Denning, N. M., April 5.—Rifles, for the protection of the ranches, were distributed to ranchers living on the Mexican border. The rifles are the property of the state and the distribution is being made by the militia.

E. P. CUMMINGS ENDS LIFE: BROTHER DRINKS POISON.

Nothing Found by the Police to Indicate Suicide Compact—Prominent in Michigan.

Chicago, April 3.—Edward P. Cummings, superintendent of schools of Lansing, Mich., shot himself to death in the Stratford hotel here. At practically the same time Dr. Herbert Cummings, his brother, swallowed poison in Grand Haven, Mich.

Nothing has been found to indicate a suicide compact. Police and relatives believe neither brother knew of the other's act. Doctor Cummings is still alive, but his condition makes discussion of the death of his brother impossible.

E. P. Cummings, who until last November was president of the State Teachers' association of Michigan, feared he was losing his mind, according to the belief expressed by his physician and close friends in Lansing.

It is said that for many months Mr. Cummings has been under a severe nervous strain. His mother, suffering from mental derangement, caused him considerable anxiety while she was residing in his home.

Mr. Cummings had been at Daytona Beach for two months in an effort to recuperate. He was injured received when he shot himself last December. According to friends and relatives, at that time, he shot himself accidentally while cleaning his shotgun after a hunting trip. Part of his heart was torn away and the fear that he never would recover his strength as a result of his injury, is said to have been one of the causes of his suicide.

FRENCH DRIVEN FROM TOWN

German Capture Strong Position at Malancourt—Another Town Is Menaced—Paris Admits Loss.

London, April 3.—The crown prince has resumed his grand drive on Verdun with furious attacks on both sides of the River Meuse. The strongly fortified village of Malancourt, ten miles northwest of Verdun, was captured by the Germans on Thursday night. Prussian attacks by masked German legions drove the French out of the village, an important highway communication point, but the French still hold redoubts commanding the highway. The Germans captured 23 prisoners.

Three heavy German infantry attacks were preceded by a terrific bombardment from German batteries on the heights surrounding the town. The French hold on the village of Behtincourt, two miles east of Malancourt, is seriously threatened by the capture of Malancourt.

French experts estimate that the Germans have lost 20,000 men in the renewal of the struggle about Verdun.

Paris, April 3.—French troops have evacuated the ruined village of Malancourt, the war office announced on Thursday.

The Germans drove the French out of the village at night, attacking them in three places after a violent bombardment.

In masked attacks the enemy advanced on Malancourt, attacking in three places. The French fought a heroic struggle, raging for several hours. The French advance guard battalion, evacuated, having inflicted heavy losses on the enemy.

Former Villa General Beten. New Orleans, La., April 5.—Decayed from his hotel by a woman, General Eduardo de Bequer, formerly French Villa's commander of cavalry, was badly beaten by three men. The assailants escaped.

Revolution Spreading. Hongkong, April 3.—The revolution in the province of Kwangtung is spreading. A censorship was established on all messages to Swatow, Chaochow, Yuenchow, Linchow and Paoan.

FRENCH HALT ATTACK

PARIS CLAIMS ASSAULT BY GERMAN IN VERDUN REGION WAS REPULSED.

TEUTONS MAKE NEW GAINS

Berlin War Office Announces Capture of French Positions Southwest of Douaumont and in the Callette Region.

Paris, April 6.—A powerful German attack against the first line of the French south of Douaumont was repulsed and the Germans were driven back in the direction of Chassefou wood, which lies to the northwest. The French artillery concentrated their fire on the retreating Germans, who, according to the official statement issued on Tuesday by the French war office, suffered considerable losses.

On the west of the Meuse a German attack against the French line of the Meuse the night passed relatively quietly.

"To the west of the River Meuse there has been artillery fighting of considerable violence along the front from Ayoyourt to Malancourt. East of the Meuse the night passed relatively quietly.

"The Germans have made no attack against the front between Douaumont and Vaux re-established by our counterattacks.

"French batteries have been particularly active in firing upon enemy positions in this region. The enemy has responded but feebly.

"East of the forest of Le Pretre a strong reconnaissance by the enemy has been repulsed by our fire.

"In Alaco French batteries were successful in shelling a German supply train on the highway between Thann and Mulhouse.

Berlin (via London), April 6.—Strong French positions southwest of Douaumont and in the Callette wood northeast of Verdun have been taken by German troops, the war office announced on Tuesday in the official statement, the text of which is as follows:

"Western theater—After powerful artillery preparation the British have taken possession of the crater south of St. Etienne which we took from them on March 23.

"In the region of the fortresses of Douaumont our troops after bitter fighting captured on April 2 some strong French defense positions southwest and south of the fortresses and in Callette wood. They repulsed from the captured positions all the enemy's counterattacks, which continued into the night. Employing exceedingly strong forces and at the cost of extremely heavy sacrifices, the French repeatedly and fruitfully stormed the defense positions which they had lost in Callette wood.

"During our attacks on April 2 we captured 11 unarmored prisoners in German and 745 men and 8 machine guns."

MRS. WAITE ASKS DIVORCE

Charges Dentist Gained Consent to Marriage by Fraud and Was Cruel to Her.

Grand Rapids, Mich., April 6.—Charging that Dr. Arthur Warren Waite gained consent to marriage by fraud, treated her with extreme cruelty after marriage, plotted to murder her father and mother and accomplished the crime, intended to kill her and other members of her family, and "unlawful relations with a woman," Mrs. Waite filed a bill for divorce in the district court here.

New York, April 6.—Dr. Arthur Warren Waite, who left Bellevue hospital recovering from the effects of drugs and awaiting arraignment on the charge of having murdered his father-in-law, John E. Peck of Grand Rapids, received notification of his wife's motion for divorce from his attorney, Walter R. Deuel.

200 KILLED IN 'EXPLOSION

British Munition Plant Is Destroyed by Fire—Fire Accidental, Says Statement.

London, April 6.—Fire that broke out late last week in one of the government powder factories in Kent caused a number of explosions resulting in approximately 200 casualties, the minister on munitions announced. The fire is still burning, but is now believed to be under control.

The official statement says that the fire was accidental. It was discovered about noon, but spread rapidly and reached the powder houses, terrific explosions followed.

Queen of Spain Ill. Madrid, April 6.—Queen Victoria of Spain is seriously ill. She was compelled to leave her bed several days ago, but was thought to be recovering when she suffered a relapse. King Alfonso canceled all his engagements.

Give Thanks for Relief. New York, April 6.—Elizabeth, queen of the Belgians, has sent a cablegram of appreciation to the daughters of the American Revolution for their appeal to the country to give \$1,000,000 for Belgian relief next Saturday.

AMERICANS KILL 30 VILLA BANDITS IN SECOND FIGHT

Colonel Brown of Tenth Cavalry
Routs Outlaws Near Aguas
Calientes.

FORTY HORSES ALSO LOST

General Pershing Sends Report
of New Battle to Funtun—Villistas
Surprised by Cavalrymen
No American Casualties.

San Antonio, Chihuahua, April 6.—The second engagement of the campaign at Aguas Calientes, thirty miles north of Guereiro, on April 5.

This report was sent to General Pershing on Tuesday by two Mexican ranchmen, who said that the Mexican forces lost thirty men and forty horses, while the Americans suffered no casualties.

Villa was not with the band, according to the ranchmen, who asserted that the American troops believed at first they had encountered the bandit chief. An investigation showed that he had not been with the detachment.

For hours the American Cavalry followed Manuel Lopez, one of Villa's lieutenants, and his bandits through tortuous winding canyons and almost impassable trails of the hills.

Troopers Surprised Bandits. Believing that they had lured their pursuers, the bandits relaxed their vigilance and, before they realized it, they were confronted by the troops of the Tenth Cavalry of General Pershing's old regiment, which had been stationed near the town to intercept stray bands attempting to make their escape.

Only the most meager details of the ensuing engagement were brought by the ranchmen, but in many respects it resembled that of the first at Guereiro. Immediately the bandits realized the presence of the American troops they began a hurried disorganizing flight from their camp, some dodging their ponies and others trying to make their escape afoot.

No Americans Injured. They went singly and in small parties, all fleeing at the American troops as they fled. None of them, according to the ranchmen said, and as a result none of the bullets found a target.

Villistas Are Surprised. San Antonio, Texas, April 6.—Surprised during their retreat, one of the groups of Villa's force driven from Guereiro, was defeated Saturday by a squadron of the Tenth Cavalry under Col. W. C. Brown, according to information received by General Pershing and forwarded by him to General Funtun on Tuesday.

In this second engagement the American troops have had with Villa's men, the bandits' loss was estimated at from thirty to forty killed, no mention of American loss was made.

Colonel Brown's encounter with the Mexicans had not been reported to General Pershing in his daily report, his information being gained from friendly Mexicans who had arrived at a point near Rubio, where Major Evans of the Tenth Cavalry was halted.

Overtakes Villa Band. Major Evans reported that Saturday Colonel Brown had encountered a band of Villa's men and was pursuing them from San Antonio.

Soon afterward, Mexicans who arrived from that vicinity declared that he had overtaken the wandering bandits at the village of Aguas Calientes, twenty miles southeast of Bachajana.

Villa's men, according to their version of the encounter, appeared wholly unsuspecting of the presence of an enemy a minute before they were attacked.

It was about noon when Colonel Brown brought his cavalry within easy range. The Mexicans were lying about the place, many of them asleep and all their horses were grazing in heavy cases some distance from the men.

Horses Are Captured. Details of the action were not told, but the Mexicans' loss was estimated that they killed the Americans captured an equal number of horses. General Pershing added that his reports of the engagement lacked confirmation, though his credence of the news was

indicated by the fact that he transmitted it to General Funtun.

Villa's latest southern shift was credited to official quarters, since it came from consular reports in which the outfit was located well beyond Chihuahua City and evidently trying to reach Pinar or perhaps even Torreon or Durango City. In the vicinity of all those cities there are known to be organized organized forces of Villa's men aggregating strength in some thousands. According to all late reports, Villa appears to be traveling fast now and already has placed between himself and the pursuing American a considerable distance.

Diaz Men Ordered Shot. El Paso, Tex., April 6.—News that Villistas had suffered a second defeat at the hands of Americans at Aguas Calientes was received here on Tuesday.

Six Mexicans accused of a plot to steal a report in San Antonio, Texas, Felix Diaz, have been ordered shot by General Gavira. According to the Mexican authorities, the plot originated in El Paso and more than forty persons were involved in it.

The plan, it is said, was for the conspirators to obtain quarters in El Paso and then to move on to the border, where they would be met by soldiers over guard, take the barracks by a surprise attack and hold them until their followers in El Paso could join them.

ILLINOIS FARMERS PREPARED TO FIGHT

State Association Organizes to
Battle Shipping Evils.

TAKE UP LIVE QUESTIONS

Executive Committee, Consisting of
the Leaders of the Movement, Is
Confronted by Many Matters
of Importance.

Springfield—Farmers of Illinois will no longer be moved upon by the executive committee of Chicago, which have heretofore been able to profit by the farmers' lack of organization. This was the message brought from Peoria by S. E. Prather, secretary of the Sangamon County Farmers' association and first vice-president of the Illinois State Feeders and Shippers' association.

Mr. Prather was the running mate of John G. Imboden of Decatur for president and withdrew in the latter's favor when a vote was announced at the Peoria meeting.

Charles A. Lowery, secretary of the state live stock commission, was made a member of the railroad committee.

Peoria was selected as the place for the annual meeting the third Thursday in January, 1917.

Three questions to be studied by the executive committee, of which Mr. Prather is a member by virtue of his office, and which affect the welfare of the farmers of the state are:

The stamping out of hog cholera. The adjustment of respect at justices resulting from the slaughter of suspected stock at stock yards.

The securing of better switching service between Illinois Island and the Chicago stock yards.

Complaint was entered at the Peoria meeting that shippers are being subjected to undue losses in stock yards because of conditions which exist incident to the slaughter of stock suspected of disease. When live stock is under suspicion of being diseased, it is refused admission in the usual way to slaughter houses, brokers buy the stock at reduced prices, it is said, and profit handsomely since most of the animals are pronounced good for food by federal inspectors after slaughter.

It is the purpose of the state association to see that shippers are not deprived of the full price for their stock when the stock proves to be healthy and without taint.

Arrangements at the Peoria meeting also contemplated that the Chicago, Rock Island & Pacific Railroad company is giving poor satisfaction in switching stock from Blue Island into the Chicago stock yards. The road is allowed three hours to make the switch by the state public utilities commission. That an hour and a half is sufficient time for the job is the contention of the state shippers' association which will bring the matter to the attention of the state commission in the near future.

Move to Save Eyes. A call to save the eyes of the 400 babies annually threatened with blindness was heard at the meeting of the Illinois Society for the Prevention of Blindness at Chicago the other day.

The plans of the society were outlined by the new secretary, Miss Carolyn C. Van Blarcom, formerly secretary of the New York and national committees for the prevention of blindness. Dr. J. B. Draper, chairman of the state board of health, read a paper prepared by Dr. C. C. Clair Drake, secretary of the board.

The first effort of the society, said Miss Van Blarcom, "will be to eliminate that saddest of all calamities, unnecessary blindness occurring during the first two or three weeks of life."

Dr. Drake said that a disease which is preventable and curable, is responsible for half of the blindness among the children in the kindergarten section of the state school for the blind at Jacksonville.

"It is important that it be understood that babies' sore eyes are caused by any of several germs—bacteria, germs that cause pneumonia or lols—and a case of babies' sore eyes is in no sense any stigma upon the parents."

Dr. Drake makes it compulsory for Illinois for any person having knowledge of an inflammatory condition of a baby's eyes in the first two weeks of its life to report the case to the local health officer.

"It also compels the physician or midwife to recommend that the eyes be washed with a solution of nitrate of silver. The society wants to make it its business to see that the law is enforced; that knowledge concerning the dangers of babies' sore eyes is disseminated; and that cases reported are cared for."

New Incorporations. Butch Apperson, company, Chicago; capital, \$100,000; incorporators, J. B. Burdett, Paul Plois, E. C. Clough.

Big Dry Victory Old Country News

Illinois Voters Oust Two Hundred
Saloons.

Waukegan in Dry Column

Women Help Prohibitionists Capture
Moline—Fifty-One Saloons Driven
Out—Henry County New in
the Dry List.

Chicago, April 6.—Two hundred saloons were banished from townships on Tuesday.

The drys claimed a big victory. Their most important conquests were the cities of Waukegan, where 46 saloons were driven out; Moline, where 31 saloons were voted out, and Mount Pleasant, where 29 saloons were affected.

The vote was a big victory in the city of Bloomington, regaining this town, which went dry by a narrow margin two years ago.

The drys won at least one entirely new dry county. Henry county was added to the 63 counties now without saloons. The drys lost McLean and Williamson counties, heretofore without saloons.

The following wet townships voted to remain wet.

Colona, Anna, Annawan, Sand Ridge (Fordyce), Waukegan, Avon, Dixon, Brooklyn, Sullivan (Cullman), Mount Pleasant, Graham (Pannam), Harrison, Gratton (Hawthorn), Richmond, Moline, Andalusia, Coal Valley, Spring Bay, Silver Creek.

The following wet townships voted to remain wet.

Leopertown (Bureau Junction), Savanna, Morris, Dunleith (East Dubuque), West Galena, Aurora, St. Charles, Grant, Grant (Fox Lake), Andalusia, Le Salle, Sullivan (Cullman), East Lincoln, Alton, Henry, South Litchfield, Coral (Union), McHenry, Kiskadee, Chillicothe, Grantville, Rock Island, Andalusia, South Moline, Dunleith (East Dubuque).

The wet and dry situation in Cook county remains unchanged by the local option elections. Elections were held in four Cook county townships.

Proviso township, which has 73 saloons, remains wet with a majority of 600 votes.

Voters in Wheeling township decided that the saloons should not be closed. Orland township continues in the wet column. Oak Park remained dry.

Aurora, with 47 saloons, voted to remain wet by a majority of 1,600 in a total vote of 17,000. Elgin, also in Kane county, voted to remain dry by a majority of 500. Batavia voted dry by 600 votes. Geneva voted dry by a small margin, and St. Charles remained wet by a majority of 250.

Exciting local option campaign closed here when the wet vote won with a majority of 146 in a vote of 13,000. The majority of the women voted for the dry vote.

Two years ago Bloomington voted to abolish saloons by a majority of 75 votes. Moline voted to oust the saloons, three of the women women overcame the wet majority of the men. The total majority against the saloons was 332.

The township of Waukegan, which includes the city of Waukegan, voted the dry column by a majority of 737, the vote being 3,703 to 2,972.

This is the largest vote ever polled at a township election, and means that 30 saloons in the city of Waukegan and 16 in North Chicago, the north part of which is in this township, will be shut out of business.

The township of Aron, with seven saloons, which include the villages of Gray's Lake and Round Lake, voted dry by 19 votes.

Deerfield, which includes Antioch village with 22 saloons, and the lake district, remained wet by 76 votes.

Lake Villa township, which includes Lake Villa village, remained dry by 56 votes. Libertyville township, which includes Libertyville village, stays dry by 371 votes.

Lockport went wet by a majority of 200. The city voted to become dry territory in 1914 by a majority of 65 votes. Channahon, Plainfield and Peotone voted to remain dry.

Galena voted to remain wet by a majority of 603 votes, the women contributing to the wet plurality. The wet majority in 1914 was 600.

No Longer Menace to Humans. Anthrax is an animal disease has been carefully studied of recent years, but its occasional appearance among human beings has never attracted any attention until recently. Although it is described in most medical text books many physicians are not familiar with its symptoms. This ignorance of the disease is the chief source of danger. With preventive measures and cures that have been perfected within the last few years there is no reason why it should be a menace to human life.

"61" FLOOR VARNISH LAMEY & COMPANY.

Must Go the Whole Route. "Gaddesley just means being a great man." "What does that signify?" "Nothing, I suppose." "Of course it signifies nothing. There are no medals for the near-great."

Game of Poker Universal. The distinctly American game of cards is poker and, since its origin here, it has traveled to nearly all the countries abroad, making its identity known even in the ships on crossing.

When You Cook With Gas

it is important in order to secure all the advantages of the fuel that it should be burned in a modern appliance and this implies a

Composite Gas Range

a type equipped with two ovens, both heated with the same fire. For the modern way is to put the vegetables and other things commonly cooked on top the stove, in the upper oven and cook them with the same heat used on the meat in the lower oven.

The operation can be handled carried on in this gas range. Price **\$37.00**

65 down and \$2 a month for 16 months

Public Service Company
OF NORTHERN ILLINOIS

A BIG OPPORTUNITY TO GET GREAT PROFITS

Initiative genius has done more for the advancement of civilization than all other elements combined. To it we owe the great conveniences of modern life.

The United States Automatic Railway Safety Appliance or System, is conceived along practical lines and is designed to automatically stop trains in danger of accident. THIS AUTOMATIC TRAIN STOP will Prevent Rear-end Collisions, Head-on Collisions, Collisions at Crossings, or accidents caused by open switches or burning wash-out or open bridges and spreading rails.

THE U. S. GOVERNMENT HAS FULLY PROTECTED OUR CLAIMS

When Westinghouse called on Vanderbilt with his air brake, he was laughed at. Nevertheless, \$100,000 invested in the Westinghouse Air-brake Company returned \$47,856.

When Holland offered his sub-Marine to the United States Authorities, he was ridiculed. Great Britain likewise turned him down but Germany accepted his sub-marine which is now the talk of the universe.

FORTUNES MADE BY GROUND FLOOR INVESTORS

(Taken from Moody's Manual)
\$100.00 INVESTED IN
Bell Telephone Stock returned \$54,400 Dunlop Rubber Tire Co. returned \$50,000
Western Union Telegraph " 15,000 National Cash Register " 42,870
Janney Coupler " 18,680 Burroughs Adding Machine " 41,340
Weisbach Gas Mantel " 30,000 Underwood Typewriter Co. " 38,325
American Radiator Co. " 49,000 Mergenthaler Linotype Co. " 25,000
Delong Hock & Eyo Co. " 10,000
The Westinghouse Air-Brake Stock advanced from \$100.00 to \$4,000.00 per share.

The Mergenthaler Linotype Co. has paid Dividends, 1904 to 1909 aggregating \$23,181,067. Imagine a device that absolutely prevents wrecks on any railroad. Just figure how much in royalties we will receive from railroads all over the world.

This device is a necessity in the interests of Humanity. The United States Automatic Railway Safety Appliance Co. we are convinced will be a money-maker like all of the above, or better.

E. H. Harriman Railroad Builder said: "It is the Keen-brained man who invests at the start of an enterprise who makes the money. The stragglers who come in later are the men who help him make it."

Authorization has already been granted to install this Automatic Safety Train Stop on the Palatine, Lake Zurich and Wauconda R. R. at Palatine, Ill.

A fully equipped working model can be seen at Palatine, Illinois on and after April 7, 1916.

Stock in our company, when our plans are completed, should be worth many times par. Our appliance or system, as an investment proposition, we firmly believe will rank with the Westinghouse Air Brake, Janney Coupler, Bell Telephone and others of the great modern successes.
