

BAD WEATHER MARKS DECORATION DAY

Parade to Cemetery and Decoration of Graves Called off by Drizzle, but Men Go on

Memorial Sunday
The first program in commemoration of Decoration Day, 1937, in the city of Barrington was the service at the Baptist church Sunday morning. Several groups of men were escorted to the church by the members of the Relief Corps, a large number of Boy Scouts, accompanied by Assistant Scoutmaster, J. C. Caldwell. Two anthems were sung by the choir, and organ solos of patriotic airs were played by Mrs. I. A. Cameron. The church was beautifully arranged with a profusion of red flowers and with arched canopies. Rev. Winkler's sermon was fittingly his usual theme.

The memorial exercises at the Baptist church on Monday afternoon were of an appropriate nature, including all who attended for the first time of the occasion.

For the purpose of the burial of the unknown of the men who had fought for our country in the World War.

MORE NEW RED CROSS MEMBERS

Local Auxiliary Continues to Grow in Interest and Membership—Friday's Meeting Well Attended

Work at the Red Cross meeting on Friday evening, June 3, was unusually successful. The attendance was good and during the evening, Mrs. J. P. Jordan, the president, for the first time, was able to call to work as usual.

Too much credit cannot be given to Mrs. J. P. Jordan, the president, for the manner in which she is devoting her time in keeping the Barrington auxiliary business like and full of life.

Mrs. Harold Triggles, who is Mrs. Jordan's "right hand man," came from Chicago at noon, so as not to miss the meeting.

A committee from the Women's Relief Corps was in session with the auxiliary and led to the discussion of the Red Cross with the result that the Corps has decided to work for the soldiers in uniform with the auxiliary and to assist here if necessary with funds for relief work.

No meeting was held yesterday, but on Friday evening is urged to give more members.

The Flower of Liberty

What flower is this that greets the morn,
Its hues from heaven so freshly born?
With burning star and flaming band
It kindles all the sunset land:
O tell us what its name may be—
Is this the flower of Liberty?

It is the banner of the free,
The Starry Flower of Liberty!
—Oliver Wendell Holmes.

ARMY OF GIRLS WANTED

Girls, here is your opportunity to do something for your country and at the same time be a good Samaritan to the young men who are, going out to fight and die in order that you may have a country in which to live in peace and security.

Very young men who goes to war needs from two to three pairs of wristlets, to wear around his wrists in the chilly trenches of France. They will prevent thousands of bad colds and many hundreds of deaths from pneumonia.

But wristlets are not a part of the equipment. Hence, if you, the warm hearted young ladies of our country, do not make them our boys will not get the best of protection.

Colonel Daniel E. McCarthy, department quartermaster of the Central Department, U. S. Army, Chicago, is so warm hearted and generous and patriotic that he is working nearly twenty hours a day in his efforts to make every arrangement for the comfort and well being of the troops. But Colonel McCarthy, strong and brainy man that he is, can not furnish them wristlets because the government does not authorize him to do so.

Will you help Colonel McCarthy out in this, girls? Will each of you constitute yourself his aid and knit at least one pair of wristlets for "some girl's brother"? The colored man has a beautiful young daughter, and she is knitting them, too.

The wristlets should be of tan color, if possible, or dark gray or some other subdued color, so they will stand out in the trench and be easy to see. They should never be red or any other bright color. They should be knit loosely enough to admit drawing them on and off over the hand and should be about five inches in length.

Write Colonel McCarthy a note telling him you are knitting some wristlets, and ask him where you are to send them. He will answer your letter promptly and will tell you just what to do with them in order that they may get to the right place. And he will be immensely pleased to hear from you because of what you are doing for "the boys."

In writing to the Colonel address your letter as follows: Daniel E. McCarthy, U. S. Army, Federal Building, Chicago, Illinois.

Start today, girls. This is your opportunity.

Have you purchased a liberty loan bond yet?

THE KID HAS GONE TO THE COLORES

The Kid has gone to the Colores

And we don't know what to say:

The Kid we have loved and cuddled

Stepped out for the Flag today.

We thought him a child, a baby

With never a hair on his head.

But his country called him man-sized

And the Kid has heard the call.

He paused to watch the recruiting.

Where, fired by the life and drum,

He bowed his head to Old Glory

And thought that it whispered: "Come!"

The Kid, not being a slacker,

Stood forth with patriotic joy

To add his name to the roster—

And God, we're proud of the boy!

The Kid has gone to the Colores;

It seems but a little while

Since he drilled a school boy army

In a truly martial style.

But now he's a man, a soldier,

And we lend him a listening ear,

For his heart is a heart all year,

Uncoursured by the curse of fear.

His dad, when he told him, shuddered,

His mother—God bless her—cried;

Yet, best with a mother nature,

She wept with a mother pride.

But he who old shoulders straightened

Was Grand-Dad—for memory ran

To years when he, too, a youngster,

Was changed by the Flag to a man.

—W. M. Herschell, in Indianapolis News.

MEASLES VERSUS SMALLPOX

Measles is contagious before the eruption appears. A "feverish cold"—cough, sneezing, and watery eyes, and the "snuffles"—in the presence of the disease in a community, is the signal for confining the child, pending further developments. Eruption appears three or four days later.

It is a crime to expose a child to measles, hoping he may have it and get over with it" so as to have it while young, and it has been proven that quarantine is absolutely essential to control the disease. Within a year there were 650 deaths from measles in Illinois and only three deaths from smallpox, notwithstanding that there were 8,000 cases of smallpox within that year.

Guard your home and yourself. It can be avoided—with care.

One solution of the "meat shortage" will be solved when the national government makes it a criminal offense to kill and ship young lambs, young pigs, and veal to the market. We can just as well learn to eat matured meat as to maintain this extravagant appetite for young flesh.

Uncle Sam desires 40,000 men for the officers' training camps and has been tendered five times that number. There is no hanging back in this department.

There has been considerable discussion lately about how best to bring injuries to women, and it is said that many of the young men who tried to make out were rejected on account of too many troubles inherited from mothers who were high heels. They have high instep, a high heel, and the foot would be injured by a low heel. Foot specialists claim that low heels are the most detrimental. The women's pupils designed for the tennis court and then worn as a general foot wear on the street and everywhere will make more pedic weakness than a fairly high heel, besides looking very shoddy, making the wearer paddle along like an Indian woman. Men make a good many ally remarks about the things women wear, although at present their laughter at the fancy designs of the women on the streets is justified—partly because of the dust and dirt, white shoes in the mud, worn with dark skirts, etc., etc., only a lot of mistakes against are made in the case of high heels. This would be a thing to feel that one's self in it, no matter how crazy she looks with it on.
