HYSTERIA NOT PATRIOTISM

There are those who would have us believe that because the people of this country are not ablaze with enthusiasm and shouting their patriotism from the housetops, they are necessarily not in sympathy with the war program. But no greater misanthropy in judgment was ever conceived than to suppose that because the people are not shouting their patriotism from the housetops, they are necessarily not in sympathy with the war program. But no greater misanthropy in judgment was ever conceived than to suppose that because the people are not shouting their patriotism from the housetops, they are necessarily not in sympathy with the war program.

sons for their action in voting to raise an army by selective draft.

We cannot think that our law makers were inspired by any patriotic feeling in the voting system, nor that they intended any discredit to the volunteer spirit of our people. The impelling reason seems to have been that the recruiting of an army is only one of the huge tasks before the nation. There is also a great task of practically feeding the world, or at least our allies, which calls for much thought and discrimination in the mastering of our forces.

It is the intention of the Government, in recruiting the regiments needed, to interfere as little as possible with the various branches of industry, particularly that of farming. To this end the authorities have conceived the selective system of recruits should not be left to voluntary action, but placed in competent hands that should decide who should fight and who should work.

With the calling of men to the colors, the people should take this sensible view of the situation and realize that if one young man is exempted and another is not, there is some all powerful reason for the apparent discrimination. Those most urgently needed are those who have the most to be exempted, for when industry stops the army is soon at a standstill.

The time has come when every man is expected to do his full duty in whatever station he occupies. There is no room for slackers and soreheads and grumblers.

OUR SHADE TREES

Towns and cities that are favored with good shade trees are fortunate to appreciate them. Residents of Barrington, when visiting in some larger cities that have a plentiful lack of trees, are taught to notice the difference and return disappointed and because they have found fortune in many of the small cities efforts have been made to conserve the trees, and for this purpose forestry departments of the city governments are organized. Work is done that compares favorably with that achieved on a larger scale by the national government.

In one illustration at hand from the report of a park board, really remarkable work is indicated in saving a shade tree. A tree, which had been treed because of a hole eaten into it large enough for a man to crawl into. If such a thing had happened to a tree in Barrington it is probable it would have been cut down as useless. Not in this case. The mayor, for the decayed parts were removed by the city forester, thoroughly scraped out and cleaned, much like a surgeon would clean a wound. Then the opening was filled with cement. With this dried, the bark gradually grew back, the cement in the hole, in course the tree will be as good as new.

Trees in Barrington should be taken care of and treated when diseased. A shade tree is not only an asset to the community, but it is likewise an asset to the community if it stands along a sidewalk. It is really the community's interest to see that the trees along the sidewalks are kept in good health. And the time will come when a community official will keep as watchful eye upon them as the health officer does upon health matters affecting the community.

HOW SHALL WE PAY FOR THE WAR?

A Constructive Criticism on the House Revenue Bill.

LOANS BEFORE THAT TAXES

Five Reasons Why Excessive Taxes at the Outset of War Are Advantageous—Jesse B. Evans, Editor, Weekly Enquirer.

By EDWIN R. A. BELMONT, Member, New York State Assembly, Columbia University.

ON MAY 23, 1917, the House of Representatives passed an act to increase revenue to defray war expenses and for other purposes. In the original bill as presented by the Committee of Ways and Means, the additional revenue was estimated at \$1,500,000,000. The amendment to the bill, which was passed on May 24, 1917, increased the total to \$2,000,000,000. The amendment to the bill, which was passed on May 24, 1917, increased the total to \$2,000,000,000.

In discussing the House bill, two points are worth mentioning:

1. How much should be raised by the House?

2. In what manner should this sum be raised?

The additional revenue proposed by the House runs up to a total of \$2,000,000,000. This is a very large sum of money.

The history of the revenue bill is a long one. It has been passed by the House many times before.

In considering the appropriateness of an extension of the issue of taxes in war times certain selective principles are definitely established.

1. The burden of taxes must be spread as far as possible among the people who are able to pay them.

BAKER DRAWS FIRST NUMBER

SECRETARY OF WAR BEGINS THE
WORK OF SELECTING THE
MEN WHO WILL WEAR
UNCLE SAM'S UNIFORM.

TAKES WHOLE DAY AND NIGHT

Altogether 10,500 Numbers Were
Drawn From Big Fish Bowl Used
for the Occasion—Probably
None After the First 2,000
Will Be Called on for
Service, at Least at.

[illegible]

In only a small number of the largest districts will the numbers above a few thousand affect registrants. Of the 4,557 registration districts throughout the country the largest has something over 10,200 numbers, while the smallest has only about 185, and the average is about 3,000. As the drawing proceeded, 157 numbers were withdrawn before one low enough to affect the smallest district came out. It was 150, placing 4,557 men numbered 120 on their local lists on 157th in

The following list shows the numbers in the order in which they were drawn. The first number in each case represents the order in which the second, or red-ink registry, number was taken from the bowl. Four numbers are given in each line, beginning with the first number, which was drawn by Secretary Baker.

NO CHARGE FOR AUTOS

Every minute counts when you discover the loss of jewelry, pocket book or handbag.

Telephone a "lost" ad to this office.

A want ad means an inquiry at every door in town.

The cost is trifling.

Another Use for Straws.

A father who explained to his oldest son the importance of a straw water and said the expression probably originated from the old saying "that straw does which way the wind blows." His young son, then, not being so much interested in presidential candidates as in candy nutters, said: "Yes, and straw does whether the cake is done or not."

MORE THAN 51,000 TO BE CALLED IN FIRST DRAFT OF ILLINOIS MEN WHO REGISTERED

Only 51,033 young men of Illinois will be called to the colors in the new draft law. This was the estimate furnished by the war department.

The Illinois quota for immediate service was fixed at 74,955, but orders issued in March prior to June 30 in the regular army and the national guard reduce this number by 23,922.

The city of Chicago will be called upon to furnish 24,882 men for the organization, and Cook county outside of Chicago will contribute 2,658 men.

Director No. 1, Cook county, which comprises the towns of Barrington, Hanover, Palatine, Wheeling, Northfield, Elk Grove, Meigs, Lynden and Schaumburg, is required to furnish a list of 281.

For the first examination this list will be called. The examination board of the district is as follows: John C. Plagge, chairman; George W. Plagge, secretary; Dea. Plagge, Dr. C. A. Stange, medical examiner, Palatine.

Lake county is required to furnish 432 men, of which 300 is the quota for district No. 1, which includes the towns of Waukegan, Deussen, Newport, Antisell and Warren. The balance of the county, in which the town of Cuba is included, is known as district No. 1 and will be required to furnish 132 men.

Available men in the list will be called for examination.

The members of the exemption board for district No. 1, Lake county, are as follows: Ward W. Willis, Highland Park; James Gifford, Waukegan; Dr. Charles Gifford, Jolietville.

What Good Did It Do?

The Widow—These lawyer bodies that Edinburgh are now ready to be drafted, have not lost this bit of property at all, that I'll wish Sanders had served them."
