Funeral of Alfred Tidke. — Alfred Tidke, who died at Fairfield on Tuesday of last week, was buried at 1:30 p.m. on Wednesday at the First Methodist church at 141 of the First Street, church. Mr. and Mrs. John Jann and Mrs. Lucy Lamm of this village were singers. Full bearers were Mr. and Mrs. John Jann, Mr. and Mrs. Albert Shatto, and Paul Krueger. Interment was in Fairfield cemetery.

Relatives from away who attended the funeral were Mr. and Mrs. Krueger, Mr. and Mrs. John Jann, Mr. and Mrs. C. C. Wolf, and Mr. and Mrs. Fred of Melrose Park.

New Home for Mrs. Schoppe. — Rev. Peter Schoppe of Milwaukee, Wis., and his sister, Mrs. Anna Schoppe from St. Louis, Mo., arrived in Barrington on Wednesday evening for the parsonage of the Evangelical church. Rev. Mr. Schoppe preached his first sermon on Thursday, Dec. 4, and it was greatly enjoyed by his congregation.

Young Quilt. — George F. Harkness and his wife, Anna, have a quilt made by Mr. Harkness' mother, proprietor of the Harkness Garage.

A new garage is now being installed in the garage. The battery service and valancing plant is now located in the main garage building.

C. P. & W. Tires. — Daily passenger train service on the C. P. & W. for Palatine and Chicago is now available. Departure 6:45 a.m. and 2:30 p.m. Saturday, 5:55 a.m., 2:55 p.m. Sunday, 6:45 a.m., 2:45 p.m. and Chicago: 8:55 a.m., 4:20 p.m. Saturday, 11:15 a.m., 6:25 p.m.

SCHOOL NOTES

Hills School. — The members of the high school band under the direction of Mr. Bunting are establishing a historical museum for the use as an illustrative material in connection with their school record. A museum is regarded as one of the essentials of a well equipped institution, and the museum at Hills is exceedingly valuable for any school to possess. We hope to have a school band of approximately one hundred, including the school ends. There are now a number of bands in the schools, but the number of others have not been promised as yet. Certainly there are enough bands in the schools to warrant a community band in sympathy with this movement and aid us in every way possible.

Mr. Bunting is now working on a play which they plan to give sometime early in the new year.

Replies to letters have been about several days in amount of sickness.

House 11.

Project activities all last week in room 100.

Harry Kunkel, Eugene Hart, Harold Pierce, Robert Fitzgerald, Harold Giese and Russell Anderson received merits in spelling last week.

Grade II has finished Story Hour. They have begun their book study.

Grade I has great pride in its writing. Girls are ready to have their names ahead of them.

Room 11

As usual, Mr. Kunkel taught the third grade.

Mr. Kunkel's conduct deserves without fail, so his absence spelled an otherwise perfect attendance.

The third grade has been very busy. They have tried and catched fish and have a case of bones or bird nests. They are hoping to have a good time and earn their hard-earned medals.

Our Christmas posters are up and over the last week the results of posters made by the girls in the donor and the Christian service class have been hung all above the blackboards. Various gifts have been started. The spirit of Christmas is in the air.

The Perfect records in spelling last week were made by Myrtle Schenck and Anna Ladd.

We are having examinations on the first three months' work the week of Dec. 12. The reviews are all now home in order.

Barbara Hartman, Anna Schenck, Anna Ladd, Phoebe and Schenck in reading circle work, as second graders.

Several of the fourth grade pupils made very pretty Christmas cards. They were: Lillian Ladd, Phoebe, Charlotte Weaver, Virginia Geary and Anna made a poem.

The Greens' and Reds are neck and neck in the table race in grade IV.

The Greens are 10 points ahead of the Blues in grade II.

Local and Personal. — Meter Josen visited in the city the first of the week.

FLOOR OF THE ATLANTIC.

If the hills on the ocean floor went to fill in all the valleys, we should have a hill as high as a billion feet, composed of coral, sand, and shells, 8700 feet deep. That depth is called the "mean sphere level."

The ocean has an average depth that differs from the mean level, for compared with the other oceans, it has an unusually large area of constant shallow water. First comes the shallow shelf, which then follows, at a much lower level, a vast plain of a uniform, dark-grayish blue color, flat and featureless as the desert, with no hills, no mountains, no rocks, or wrecks, or reefs, or sand-banks. This plain continues with hardly a break until it reaches the great mid-oceanic ridge, which is 10,000 feet in depth as far south as 63 degrees south latitude and that roughly breeds the ocean.

The ridge continues parallel with the equator, and then turns to the south, at a much lower level, a vast plain of a uniform, dark-grayish blue color, flat and featureless as the desert, with no hills, no mountains, no rocks, or wrecks, or reefs, or sand-banks. This plain continues with hardly a break until it reaches the great mid-oceanic ridge, which is 10,000 feet in depth as far south as 63 degrees south latitude and that roughly breeds the ocean.

Occasionally the ridge rises above the surface. The Azores, St. Peter and St. Paul, Ascension Island, the Island of Triton, and the Gough Islands are all joints in it.

Many years ago a price was offered

by the Hay Fever Association to any

doctor who would discover a real cure

—not merely a palliative—for the

most common affliction of the world,

the common cold.

The medical man who will earn

that money, will not only receive it;

but will also receive a gold medal.
