DUCT OF GENERAL MOTO

Department For Farmers

Contributors Cook and Lake County State Department of Agriculture Bureau of University Station.

IMPEACHING VOTE CAST BY HOUSE

THE REMOVAL OF THE

the removal of the impeachment is amended to allow the passage of income tax laws by a simple majority.

It also depends upon the farmers' vote, according to the farmers from P. L. Burton, chairman of the legislative committee on the Illinois Association. The Senate resolution, which gives the legislature power to pass laws to the property of its unfair burden, is a question of the assembly for the passage of income tax measures. In May 1924, the Senate had passed the income tax bill, but the House refused to pass it. The Senate then passed a resolution to the effect that all real estate shall be in one class except that mineral land and land developed for agriculture may be in a different class. Under this provision, the income tax property would be in the same class for purposes of taxation.

As amended by the Senate, the resolution was passed by the House by a vote of 115 to 10. It now awaits the Governor's signature and if signed, it will take effect on January 1, 1926.

The purpose of the revenue amendment is to give the I. A. A. the right to pass the legislature general power for the revenue of the state by the employment by the general assembly of various methods of taxation or collection of tax methods.

HOUSING CLAIMS AGAINST FARMERS OVER A YEAR AGO

This collection of claims made against Illinois farmers against railroad bills year for year in amount the same as a year ago. In the fact, the first halves of the present and previous years, the transportation department of the Illinois Agricultural Association. This is the result of the revenue amendment of the I. A. A. to give the legislature general power for the revenue of the state by the employment by the general assembly of various methods of taxation or collection of tax methods.

According to the I. A. A. transportation department which negotiates claims against the railroad for members of the Farm Bureau, the total amount collected by Illinois farmers, with the help of the I. A. A., between December 1, 1924, and May 31, 1925, was \$9,531,250, or over the same period of six months, claims collected amounted to \$1,877,515.

The increase recorded is far over 100 per cent in excess of the previous year and is not far short of the total amount collected throughout the entire fiscal year of December 1, 1924, to November 30, 1924, according to L. J. Quayer, director of the department. A total of \$44 claims was collected in that year, amounting to \$12,385.25.

The I. A. A. transportation department, in commenting on the increase, says, "This increase does not indicate more errors or more losses on the part of the railroad or shipping. The reason for the increase is that I. A. A. members are taking more advantage of the services rendered by this department."

HOUSING MORE DAIRY COWS NEEDED IN ILLINOIS BY 1930

One hundred and nine thousand more dairy cows will be needed in Illinois by 1930, according to the Blue Valley Creamery Institute. This number will be required to take care of the normal needs of the state's growing population unless Illinois farmers adopt the double-breasted policy of breeding only from pure-bred sires and then feeding their progeny balanced rations.

As average cow produces about four thousand pounds of milk a year, containing 140 pounds of butterfat, the institute states, or just about enough to meet the requirements of a family of four with milk, butter, cheese, ice cream and condensed milk. A daughter of a high-producing sire, fed in accordance with the methods advocated by the state agricultural college, will produce around six thousand pounds, and her offspring under the same conditions will also not find it impossible to bring her production to the eight-thousand-pound mark per year.

Should Illinois farmers adopt the advanced practices outlined above, they should be able to produce 100,000 more dairy cows by 1930. This would be needed to supply the state's dairy products five years from now, says the institute, basing its calculations on figures from hundreds of low test association reports. Not only would the smaller number of quality cows make twice as much milk profit per cow above feed costs, but their owners would still have a ten-dollar gold piece per cow over feed measure.

but their owners would still have a ten-dollar gold piece per cow over feed measure.

HIGH MONTH IN T. R. READING

The nation-wide effort to suppress detection of 25,163 reactors during April, according to a report just issued by the Bureau of Animal Industry, United States Department of Agriculture. To obtain this number, the federal and state veterinary inspectors tested 215,385 cattle.

At the end of the month 16,734, or 77 per cent, of the cattle throughout the country were free of tuberculosis. The report also shows that the number of reactors in the various states. Iowa is the state having more than a million cattle under supervision, with 1,000,000 tuberculous. The group of states having from 500,000 to 1,000,000 cattle under such supervision include Illinois, Michigan, Missouri, New York, and Wisconsin. States having from 250,000 to 500,000 cattle under supervision are Indiana, Minnesota, Kentucky, Montana, North Carolina, North Dakota, Nebraska, Ohio, Oregon, Pennsylvania, and Washington. From 100,000 to 250,000 are California, the following states: Idaho, Kansas, Maine and Vermont. The figures represent the status of the work in the various states on May 1.

Other states, many of which have a limited number of cattle, are similarly active though it is not so apparent from the statistical reports. Extensive testing and the constant removal and slaughter of reactors are gradually reducing the number from the menace of bovine tuberculosis, which in the past has caused heavy losses among hogs and has been a source of danger to people. Fifty-nine counties in 14 states are now officially recognized as practical free from tuberculosis cattle, and several hundred counties are rapidly qualifying for the accredited county list.

NEW C. F. L. HORSE BARN IN AMONG HENS OF KIND

Urbana, Ill., June 16.—One of the best horse barns of any that can be found on an agricultural college farm in this country is among the buildings at the College of Agriculture, University of Illinois. The barn is a sturdy modern, airy and well lighted, according to L. J. Edmonds, chief of horse husbandry at the college. The last finished touches are being put on the building and it will be given its first public inspection during the annual open house of the college June 22 to 27.

Like the other buildings which have just recently been put up on the college farm, the new horse barn is built of light brown concrete and concrete on which is placed heavy metal grating. The framing is well arranged so that the space is a fairly free from obstructions. The barn contains 13 stalls which are arranged around the four walls. Seven of these stalls are boxes that are 12 feet square and eight of them are standing stalls 12 by 12 feet. In addition to these stalls on the first floor there is a hay room, a feed room, a harness room and a wash rack.

Horsehoes pitched! Slip up your pitchforks and send a little bit more of our world's arm for I. A. A. Horsehoes Tournament. This is the annual picnic in St. Louisville and there are permanent horsehoes facilities. Let's get that cup in Lake County.

For BUSY READERS Chicago police received the request of Mrs. Theresa that their daughter, 6 feet tall, for staying out late at night.

While inflicting a letter, Charles C. of Newark, N. J., had the sight of his left eye destroyed by a blow on the forehead.

When the tooth of a patient came out after a molar plug, Dr. R. D. of St. Francis, Ill., dentists took his balance and fell from his window, breaking an arm.

FOR BUSY READERS

Chicago police received the request of Mrs. Theresa that their daughter, 6 feet tall, for staying out late at night.

While inflicting a letter, Charles C. of Newark, N. J., had the sight of his left eye destroyed by a blow on the forehead.

When the tooth of a patient came out after a molar plug, Dr. R. D. of St. Francis, Ill., dentists took his balance and fell from his window, breaking an arm.

Charging them with running a "divorce mill," 24 indictments were returned against L. W. Holton, a divorce lawyer in Chicago, and his law partner.

Dr. W. M. McGovern, the explorer, will try to tame the fierce manatee of the Amazon valley with rice cooking and radishes.

As Rev. R. D. Days of Percheron, Ill., conducted a motor service to keep the passage in Geneva referred to the temptation of Eve by the serpent, a large snake was observed in a tree over his head.

A cow belonging to J. L. Bestell, Benton, Mo., broke the neck of a neighbor's cow in a fierce combat.

Rottery and other objects of civilization have been recovered from an ancient submerged city off the coast of Tunis.

Paul Cooper, a German, has been deported from America for 24 months, having made a practice of stopping away on vessels bound for this country, but always being discovered.

Geo. Norton of Tulsa, Okla., could hardly unconsciously after drinking six glasses of beer, but always being discovered.

Dr. Simey Dimes, 70, was jailed at Bowling Green, Ky., charged with moonshining.

Starns of beds held the family of Nations Poshing prisoners in their home in Louisville, Ky., for a whole day, when they were finally dispersed by throwing water on them.

Oreanta, N. Y., was plunged into darkness for several hours when an oil well collapsed in the power wires, leaving it all night.

When a St. Paul judge gave Jim Parish his choice of six months in jail or a year on the water wagon, Jim said: "All aboard."

A cat belonging to Mrs. L. P. Kelly of St. Louis stole a pork chop from Mrs. Mary Dunne, who chased the cat with a basket, but ran into Mrs. Kelly, who is now in the hospital.

Mrs. Dunne is in jail.

WHAT'S NEW?

Metal houses that can be erected in ten hours are being used in an earthquake district in Hungary.

Dr. Humphrey of the Weather Bureau suggests a telephone alarm system to warn people of approaching tornadoes. While these storms move rapidly he believes that many cases warnings could be given in time to save lives.

Storm heated to 1,100 degrees and forced high oil wells by pressure has caused partial accumulations and increased the flow of oil in recent tests.

A new 45,000-horsepower steam turbine built for a Los Angeles electric plant has been tested in a machine to keep it properly lubricated.

Silver that is said to keep bright and clean without the use of polish by a British scientist.

A Columbus, O., plumbing concern has a truck with all needed equipment, going on a job, so that the old custom of forgetting tools will no longer be observed.

By means of a new grinding machine it is possible to turn out 1,000 hard rubber rollers for fountain pens in an hour.

Washout by Storm Causes One Death in Auto Accident

Mrs. Victor Holmes, 5749 North Mulligan street, Chicago, was instantly killed when an automobile driven by her son, Robert, turned over on Road road, just south of Lake Zurich, which hit a truck which had been washed out by Friday night's storm.

Robert, aged 17, brother, Thomas, were riding in the car when it overturned.

The storm Friday night was especially severe through Michigan, where trees were damaged and blown down and several houses were damaged.

One cottage at Fox River Grove was demolished and several others suffered from the severe wind, while a barn on a farm near Hartland was blown down.

Mother of Chicago, Saturday afternoon.

Mrs. Catherine Genereux of Cook street late yesterday to make a short visit with her son, Charles Lederer, in Chicago. From there she will go to Toledo, Ohio, to visit with her daughter, Mrs. George Packman.

Mrs. and Mrs. L. A. Powers of Lake street returned to Chicago Friday morning after a two week stay at Eckstater Springs, Mo.

Mrs. Irving Whelan and son called on a few friends yesterday afternoon. Mr. and Mrs. Dunlap and family were home from Chicago on Saturday.

Mrs. A. Wetzel, Miss Dorothy Weichelt, and Karl Weichelt, of Lake street, returned to Chicago Friday morning to attend the wedding of Mrs. Weichelt's niece. They returned home Sunday.

Thirty-five relatives and friends attended a surprise party for John A. Schwartz of Lake street Sunday and enjoyed a dinner at Deer Grove. It was Mr. Schwartz's fifty-fourth birthday anniversary.

Mrs. and Mrs. William Solt of Main street and Mrs. Edwin Peltier of Russell street attended the funeral of Miss Marie Tugler at Palatine yesterday.

Mrs. and Mrs. Edward Jenkins of Chicago and Mr. and Mrs. Dennis of Canton, Ohio, are spending the week with the John Schwartz family of Lake street. Mr. and Mrs. Fulton are on their honeymoon.

Mrs. and Mrs. Kenneth Schwartz and daughter, Winifred, of Chicago, spent the week-end with Mr. and Mrs. Arthur Lyons and daughter, Shirley, who are spending the week with Mrs. Lyons' parents, Mr. and Mrs. John Schwartz of Lake street.

Mrs. Arthur Lyons and daughter, Shirley, who are spending the week with Mrs. Lyons' parents, Mr. and Mrs. John Schwartz of Lake street.
