

Libertyville Fair to Be Held Sept. 4, 5, 6, 7

(Continued from page 1)

its field. For there are very few county fairs that have yet abandoned the old trophies for the newer and faster game of running races. This will have a decided effect on the attendance, the directors hope in discussing this feature with Jack Wirtz, secretary, he said. "This step is one forward. Upon it we can build our county fair to be the leader of its kind in the state. In fact, even now we are taking the lead by jettisoning this feature."

The attractions this year will be the same as last year, the Libertyville Company of Chicago. They are a very progressive group and will furnish some real entertainment. The work is all progressed in a very encouraging manner. Co-operation offered throughout the country is making one of the greatest fairs possible. The only thing that can possibly dampen the spirits of those interested in the fair is a hard rain—and even that would help the crops.

Perfect Plans for a Big Fair in Cook County

(Continued from page 1)

has grown to be one of the features of the annual fair, will again be under the charge of Edward J. John, superintendent of Cook county schools, who will place in active charge of the department. Country Life Directors, H. F. Byrd and O. P. Allen, who will in turn be assisted by the other country life directors of the county schools. An added attraction this year will be an exhibit from the Lutheran parochial schools of the county, a special treat being provided for this exhibit.

As usual the women's department will be one of the features of the fair. The department always attracts a great throng of visitors and is one of the most popular departments of the entire fair. In this department the women of Cook county will vie with each other in what is to be crowned champion cake maker, fancy needle work champion, rug braider and champion of the other divisions of this interesting department.

Not only will the exhibits in the various departments be the equal or better than any county fair in the state, the officials claim, but the amusement features of the fair will also be a cut with any county fair attractions anywhere.

Because of a small-pox epidemic among the inmates, 28 prisoners were quarantined in jail at Columbia, Co. although their terms had expired.

GRAYSLAKE FARMER HELD FOR SHOOTING HIS SON

George Drummond, 57 years old, a farmer living near Grayslake in the Waupun county just charged with the murder of his son, Ralph, 22. The father killed his son in a struggle over a shotgun Saturday night according to the Lake county authorities.

Ralph was married two weeks ago. The family planned a home-coming for the newlywed Saturday. The father Drummond began celebrating ahead of time with the moonshine, according to Hixson, another son. When the young couple arrived the father was in an unruly mood. He picked a quarrel.

Enraged by the efforts of his sons to quiet him, Drummond started a shotgun. In the light to draw him the shotgun was discharged, killing Ralph. With the mother, the young bride and other members of the family looked on. Drummond was later arrested at the home of his son-in-law, Thomas Mize.

A dozen cowboys from the confines of moonshine shanty is still near Hixson, Ill.

Today's Outstanding Used Car Values

It doesn't just "happen" that so many of our Used Car customers later buy new Oakland Sixes from us. Their Used Cars gave them a good idea of our values and business methods.

Tips for Tourists By Chicago Motor Club

With the summer vacation season in full swing motorists are advised by the touring bureau of the Chicago Motor Club to secure camp fire permits before going on camping or hunting trips in any of the national forests. According to reports received by the club, forest rangers are rigidly enforcing the regulations in regard to obtaining these permits before any fire is built in the national forests.

Motorists traveling to California must exercise extreme care in the handling of lighter cigarettes, cigars, pipes or other flaming or glowing substances, under the terms of a new law which will become effective July 24, according to the legal department

of the club. The law not only prohibits the placing of such objects where they may cause a fire but prohibits the throwing of any of them out of a moving automobile at any time.

Hundreds of motorists have been turned back at the Ontario border for lack of registration cards during the past few weeks, the touring bureau of the club says.

"It is absolutely essential," says a bulletin issued by the club, "that motorists carry their registration cards with them when entering Canada."

"The states of Pennsylvania and Maryland also request that motorists present their registration cards when called for."

Mrs. Geo. Manion of Lake Forest, Ill., buried 1400 in hills that her husband had laid in a store.

now 75 Horse Power

Buick Performance steps further ahead in World Leadership

The Valve-in-Head engine in the Better Buick Master models delivers more than 75 horsepower! Extra power has been added to the extra power always a feature of Buick's famous engines. Even drivers of previous Buicks will be amazed at the performance the Better Buick now places at their command. The higher efficiency of the engine in the Better Buick includes the same economical consumption of gasoline and oil that has distinguished all past Buicks.

And the Better Buick now leads the world in protection for engine and driving units. Three new seals have been added to Buick's famous Sealed Chassis. An air cylinder in gasoline filler and an oil filler, now insure clean air, oil and gasoline for the engine.

Drive one of the Better Buicks. Know how much the new 75 horsepower Standard of Performance adds to the pleasure of Buick ownership.

You never again will be satisfied with the power and performance of the ordinary motor car.

Out in Front of The Entire Field of Fours

The new Chrysler Four—produced after four years of planning by Walter P. Chrysler and his organization—unquestionably delivers more of power, speed, fuel mileage and charm of appearance than any four in the world today.

It is worthy companion to the revolutionary Chrysler Six.

It is made of the same high-quality alloy steels. It is as finely, and as efficiently, engineered.

It is built to the same close manufacturing limits, by the same Chrysler-trained craftsmanship, in the same splendidly equipped factories.

In four-cylinder practice and four-cylinder results, it is as far ahead as the Chrysler Six is in the six-cylinder field.

It puts an entirely new interpretation on four-cylinder ability and performance, on riding ease and perfect roadability as it does on quality and value.

It is the first car of its price with the option of hydraulic four-wheel brakes—at small extra cost. The beautiful closed hood by its fender.

You are urged to go to the Chrysler dealer for a demonstration and the complete story of the new Chrysler Four.

You will learn some amazing facts—the reasons, for instance, why the motor delivers 83 per cent more horse-power than its official rating; why there is practically no gear vibration; how only Chrysler can produce such unparalleled quality at so low a price. See the Chrysler Four now.

Out Where the Paving Ends

Ever noticed the cars you meet in out-of-the-way places, approached by narrow, twisting trails, or rough country roads? They are Fords—nearly every one.

To the Ford car nothing is too hard. Every road is open to it—by ways and highways alike. It is so light it rarely ever "sinks in," so powerful

that it can pull through where heavy cars must halt.

Take your Ford this summer and explore. There are delights awaiting you away from the beaten path that few know. Leave the crowds and the highways behind you. It costs but little—and it will be a vacation you will never forget.

ILLINOIS EIGHTH IN MILK PRODUCTS IN 1924

Chicago, Aug. 13.—Illinois ranked eighth among the states last year in the production of butter and evaporated milk, according to figures published here by Herbert C. Smith, secretary of the Interstate Milk Association. The Sucker state stood seventh in the production of cheese.

Total production of cheese in the United States was 47,340,000 pounds, of which Illinois produced 1,397,555 pounds, said Mr. Smith. Wisconsin was first in the production of cheese and evaporated milk, producing 28,214,000 pounds of cheese and 442,555,000 pounds of milk. Illinois produced 6,070,000 pounds of evaporated milk, which means that evaporated milk is produced in approximately equal quantities in this state and the amount of milk since the exportation of milk is nearly fresh cream, and 442,555,000 pounds of milk. Minnesota was first in butter production with 20,585,000 pounds, while Illinois edged ahead of the top of the list, produced 16,470,000 pounds.

Higher production last year in the United States amounted to 15,470,000 pounds of butter and 16,470,000 pounds of milk, according to figures supplied by the United States Department of Agriculture for the year 1924.

The statement says that promise is made for the recovery in all branches of the livestock industry. Hogs are still desirable the price of a year ago and heavy steers and hams have better. Truck crops, too, are said to be coming in for a share of record prices.

The statement continues: "Such estimates suggest a basis to production of only about 2.5 bushels per capita, which would be a far cry from the shortage years, 1911 and 1915. Oats, cabbage, melons and peaches have been selling at two to three times last year's prices and recently have a brisk fall market ahead."

"Rains last month helped hay and live crop. Corn is making extra hay and good crop as a whole. A fall spring wheat crop seems assured, despite considerable hot weather during and some rust in the Iowa River valley. Winter wheat was a disappointment but apparently has

thrashed out about as much grain as was expected.

"Fruit is not so plentiful in eastern districts, but the Pacific coast will make a much of the drought. Cotton has lost ground in the western belt by reason of drought, but indications still point to a sizable total crop."

The department's general index of purchasing power of farm products in terms of nonagricultural commodities remains at a level of 90, compared with a five year pre-war level taken as 100.

CHICAGO'S MILK STEADILY BETTER SAYS HUNDEN

Within one year, the milk district, comprising a 30 mile radius about this city, will be free from tuberculosis herds, it was predicted by health commissioner Howard Hunden. The certainty that at the expiration of the year, milk from Hunden out of the will be barred from Chicago is expected to induce dairymen to discontinue the use of infected animals, he declared.

Nearly 700,000 quarts of the 1,250,000 quarts of milk consumed daily in Chicago come from tubercular infected cows. It was revealed by the commissioner, who points out, however, that pasteurization minimizes the danger. At the same time, however, depends, he continued, on the maintenance of the pasteurization plants on consistently 100 per cent efficiency basis.

"I say the tubercular infected herds in Illinois must go," declared Dr. Hunden. "I have no desire to be harsh or to use strong methods and if the dairymen will cooperate with us, instead of holding back, we will increase the consumption of milk by hundreds of thousands of quarts, daily."—Chicago Tribune.

HAY MARKET REVIEW

Scarcity of good hay at most markets east of the Rockies advanced 100 per cent during the week ending August 8, although supplies appearing on the Pacific coast according to the weekly hay market review of the United States Department of Agriculture. Offerings of low crop hay were mainly of good quality but

of inferior quality.

some new hay continued to arrive in a healthy condition and sold at discounts at most markets.

No. 1 Timothy—Boston 120.00; New York 120.00; Pittsburgh 124.00; Cincinnati 122.00; Chicago 126.00; St. Louis 122.00; Kansas City 115.00; Memphis 122.00; Denver 119.50; Atlanta 122.00; St. Paul 122.00; Kansas City 115.00; Omaha 116.75; Denver 115.00; Memphis 124.00; St. Paul 122.00; Kansas City 115.00; Omaha 113.50; San Francisco 111.00; Portland 122.00; Chicago 119.00; St. Louis 115.00; Minneapolis 115.00.

GRAIN MARKET REVIEW

A sharp falling set in receipts of winter wheat and reports of further deterioration in the spring wheat areas of both the U. S. and Canada imparted a very firm tone to the wheat market during the week ending August 8, and prices of cash wheats were advanced around 10 cents per bushel, according to the weekly grain market review of the U. S. Department of Agriculture. Corn and oats were firm with wheat and also because of an increased demand for feed grains in the drought area of southwest. Barley and flax also held firm with receipts of barley at the central western markets showing unusually high quality.

FARM BUREAU PICNIC NEXT WEEK

The Lake County Farm Bureau will hold its annual picnic on next Wednesday, August 15, at Diamond Lake. There will be good music, speaking, games, horseback pitching contests and various other forms of entertainment.

The picnic will start early in the forenoon and will last throughout the day and evening.

MILK PRICES

Milk prices are all out of line in the Chicago milk district. The supply of butter in storage is greatly reduced from a year ago. Condensed and evaporated milk prices in Chicago, Wisconsin, Illinois, Indiana and Iowa are 30 to 40 cents a hundred above those of 1924. Cheese milk prices are up to fluid milk price level. Feed is 85 to 90 cents a ton higher and milk cows are up 115.00 to 125.00 per head. It's high time that the milk producers' association were devoting some time toward getting the farmers a better price for their product. They are wasting their efforts in trying to stem the tide of tuberculosis eradication.—Cook County Farmer.

DEVELOPING THE FARM MANAGERS OF TOMORROW

By Walter R. Deming
Agricultural Extension Department,
International Harvester Company

[The following article is an extract from a talk given by Mr. Romer from Chicago on August 10.]

Listen friends, how's the boys and girls club work going in your community? Is there a lot of lamb, poultry, garden, potato, corn, sewing or other kind of club. If there isn't, there ought to be—

Why the need for club work? Think! Here's an illustration which would be a help on this point: This nation last spring, but I'm going to use it again, for it can't be emphasized too much.

"What is a boy? He is a person who is going to grow up. He is a person who is to sit right where you are sitting and act just as you are acting."

He will assume control of your cities, states and nations. He is going to manage them. He is going to sit at your desk in the Senate and occupy your seat in the Supreme Court.

He will assume control of your cities, states and nations. He is going to manage them. He is going to sit at your desk in the Senate and occupy your seat in the Supreme Court.

These things are important, not only to the nation, but to the individual. All your work is for him and the fate of the nation is in his hands. So I might be able to pay some attention! And the same goes for the girls.

These things are important, not only to the nation, but to the individual. All your work is for him and the fate of the nation is in his hands. So I might be able to pay some attention! And the same goes for the girls.

These things are important, not only to the nation, but to the individual. All your work is for him and the fate of the nation is in his hands. So I might be able to pay some attention! And the same goes for the girls.

These things are important, not only to the nation, but to the individual. All your work is for him and the fate of the nation is in his hands. So I might be able to pay some attention! And the same goes for the girls.

These things are important, not only to the nation, but to the individual. All your work is for him and the fate of the nation is in his hands. So I might be able to pay some attention! And the same goes for the girls.

These things are important, not only to the nation, but to the individual. All your work is for him and the fate of the nation is in his hands. So I might be able to pay some attention! And the same goes for the girls.

These things are important, not only to the nation, but to the individual. All your work is for him and the fate of the nation is in his hands. So I might be able to pay some attention! And the same goes for the girls.

These things are important, not only to the nation, but to the individual. All your work is for him and the fate of the nation is in his hands. So I might be able to pay some attention! And the same goes for the girls.

These things are important, not only to the nation, but to the individual. All your work is for him and the fate of the nation is in his hands. So I might be able to pay some attention! And the same goes for the girls.

These things are important, not only to the nation, but to the individual. All your work is for him and the fate of the nation is in his hands. So I might be able to pay some attention! And the same goes for the girls.

opportunities to make money and some of the best prizes annually awarded are trips to the International Live Stock Exposition, to Washington and places of interest. There are many places in the world where boys or girls have, in a few years, made enough money from their club projects to go to college or into business for themselves. Club work under the proper guidance is one of the best things to an agricultural education and even more practical than some ways.

LITTLE GIRL INJURED IN MANURE SPREADER

Censuivie Farrell, 12 year old daughter of a local farmer, was injured Monday morning when she was caught in the manure spreader of a horse-drawn machine in the garden. The girl was riding on the rear of a manure spreader when the horse, Edwile, was driving. Attached to the rear of the machine is a series of nail-like projections which turn around when the machine is going. The machine was a garden rake. Robert lost his balance and fell to the ground. He was taken to the hospital where he is now recovering. His injuries are not serious.

Robert lost his balance and fell to the ground. He was taken to the hospital where he is now recovering. His injuries are not serious.

FEDERAL AGENTS RAID HIGGINS ROAD TAVERNS

Federal prohibition agents raided a tavern on the Higgins road six miles south of Barrington. The All Star Tavern, Saturday night, another just off the road, the Hickory Tavern at Beverly lake, and the two night parlors at Dundee. Eight agents, said to be acting on information from William J. Higgins, the owner of the Higgins road tavern, two men being held in each place. A lot of bottles of beer some wine halfpint of white, and in one place a 15 gallon can of alcohol, were confiscated.

SNAPPY STUFF

Herman Frey of Los Angeles was a dresser because he wife made him quit his job, he thought the world would come to an end last February.

Joe, Lola, Dione, of Hagerstown, Md. is only 30 years old and is a criminal.

When ball-players at Mexico City refused to fight on account of a muddy area, spectators started a riot in which 13 were wounded, none killed.

Prayers were offered in a Welshman, N. J. church for the acquittal of two officials on trial for holding the liquor law.

W. L. Kelly, blind and 73 years old, flew from England to Paris and return in an airplane.

Employees of the Eastman Kodak Co. have received \$2,000,000 in dividends already this year.

RAILWAY SPREADS POISON; GATTLE RITE IT, DUE

The C. & N. W. railroad company spread poison along its right of way on the Lake George branch, near Crystal Lake. A farmer's cows got onto the right of way and ate the weeds and poison and a number have died. It is reported that the railway company will pay damages.

Boy Scouts

One more week before we leave for camp. Just one. Its hard to believe that the time could pass so quickly.

The scouts who have joined the troop since last August are to be inducted on Monday night at the last meeting. Scout P. Harnden will be made a first class scout on Aug. 18.

Scout W. Glenko has passed all required tests for second class rank. Mr. Dotterer gave him his pin at the last meeting. Scout P. Harnden will be made a first class scout on Aug. 18.

The first flight of the Wood Jungs from the home nest, was made last Friday night. Probably they should have been called eight days before they seem to like night trips.

Scout Tills, Glenko, Dwyer, Hays, Wente, and D. Schroeder damped their blankets and grub into the boys' Ford on Friday at four o'clock and then hiked to Camp Wolf in the forest preserve.

They said that they were anxious to go but they walked slow enough to land one to imagine that they were on a trip to take a haunted house at midnight. They reached camp some time after six o'clock.

It had begun to rain a little. A large pile of wood and a small pile of wood were seen flying and then Tills, Wente, Dwyer and Schroeder proceeded to build under their tents. Scouts Hawley and Glenko and Mr. Spencer had no tent and the boys made their beds under a cooking.

Wente was prepared and camped without any serious mishap. Most of the mothers had seen to that, by providing things which needed little cooking.

Just before dark one of the boys from Park Ridge arrived with some things from the cabin. He consented to let the boys have them but that he could be used in case of rain.

Everyone seemed to feel that it was best to go to bed early. But going to bed and going to sleep are two different matters. Many things that were said to be said and of course some one has to be foolish. Quietly but not settle upon the camp for nearly an hour. Scout Dwyer is certain that some wild beast—probably a bear or a wolf—kept walking round and round his tent from 12 o'clock to 5.

However on his path near ever tracks could be found in the morning.

From time to time during the evening a few drops of rain had fallen but he thought to cause uneasiness. The fellows sleeping in the open were awakened at 12 o'clock by a sudden shower. They promptly collected their beds and moved into the cabin but before they could get a place to spread their blankets the rain was over. They decided that they would not take any more chances with the weather and so remained under cover.

One of the boys in the tent became nervous and got up at 2 o'clock and replenished their fire. Because they had been lying the night before their wood supply was low and it became necessary for them to make a trip into the woods for a new supply. They went forth protected by their tents and were anxious to say they returned very soon.

In the morning breakfast was served. Scouts Glenko gave a demonstration of tricks; Scout Dwyer cooked the Scout's steak—and also ate it; Scout Schroeder served sandwiches while Scout Tills showed how to flip them out of the pan. Scout Hawley drove hard bargains for supplies. Scout Wente ate everything they could get hold of.

Of course dinner had to be washed and blankets packed. Some of the fellows hiked back to town and still others rode back.

Every scout who is to be initiated is to attend the next meeting on Monday night. He will be sure to know something that he wants to learn.

Twenty-seven scouts were present at the last meeting. This is the largest number in attendance for some time.

August 15—Fly up for camp.

August 16—Scout meeting. End of contest.

August 17—Initiation.

August 24—Leave for camp.

DEATHS

JOHN ALT

John Alt, of 1436 W. Congress street, Chicago, was buried yesterday.

Many Barrington people remember him as for 35 years a member of the Evangelical church, and who for many years, including last year, attended the local Barrington Park campmeetings and greatly enjoyed them.

Rev. H. H. Thorne had charge of the service in the home, from whence the body was taken to Forest Home Cemetery.

A REAL LEAD

A tumbler orange chug with using violent language protested that the complainant, a woman, was "no lady."

"Indeed," said the magistrate, "have you ever known a lady when you see one?"

"Of course I do," answered the rider indignantly. "Why, only the other day I saw one, she gave me a pound note for a shuttle and walked away. 'You may, I say, 'what about her change?' 'Don't be a blinlin' fool,' says she, 'keep it,' an' get drunk enough to kiss yer mother-in-law.'"

"Now," he ended, triumphantly, "that's what I calls a real lady."—The Controller Star.

For Dreammaking call Mrs. L. J. Ziegler, 215-217 North Barrington street, room 215-31.

THE RIDER 'EM COWBOY!

Come to the
World's
CHAMPIONSHIP
Grat Park Stadium

AUGUST 15th TO 23rd, INCLUSIVE

TWO PROGRAMS DAILY

3:30 and 8:30 p. m.

"Ride 'em cowboy!" is the good old yell of the plains that will unconsciously, from thousands of throats as soon as the word is uttered, come in unison with an outlaw horse. And the "Yip Yip!" of the rider will be given just as joyously, whether or not the stays aboard for the requisite championship time.

Wholesome, inspiring sport, it is. Steer wrestling, bronco riding, calf roping, trick riding, fancy riding, trick and fancy roping, wild horse racing and all the thrilling outdoor sports of the real west—and all for world championships.

Thirty thousand dollars in cash prizes; and the titles, belts and trophies of the indisputable world's championships, bring to Chicago this thrilling event all the champion cowboys and cowgirls of all the other continents.

Do not fail to see them. Remember that there will be eighteen programs of contests—and that the full eighteen will be held. Your ticket will have a rain check, so that in case of bad weather you will be entitled to return and see another program.

Chicago daily papers give full particulars of how to reach the stadium by motor car, elevator or surface lines, or bus.

Tickets on sale at all department stores, at the general ticket office in Room 534, 10 S. LaSalle St., and at the stadium prior to each program.

Under Auspices Chicago Association of Commerce;
Direction, TEX AUSTIN

Locals

Mr. and Mrs. E. T. Robbins and their daughters of Urbana came Saturday for a visit with Mr. and Mrs. J. G. Robbins and family. Mr. Robbins and Mrs. Robbins are sisters. Mr. Robbins is an extension department of the University of Illinois. The two families moved to Lake Geneva, Wis., and the Robbins returned home on Tuesday.

DEALING WITH HERETICS

Within a few weeks the case of Bishop Brown of the Protestant Episcopal Church, convicted of heresy and sentenced to be deposed from his office, will come before the House of Bishops for final disposition.

Bishop Brown rejects the literal interpretation of the scriptures, but accepts them as an allegorical presentation of moral and spiritual truths. His trial a few months ago attracted wide attention and the action of the House of Bishops will also be a matter of considerable interest, though there appears to be little doubt that his sentence will be confirmed.

Many clergymen who are leaders in the growing Modernist movement hold some views in accord with Bishop Brown, but none has been so outspoken as he in publicly stating them. From the Fundamentalist standpoint there are many heretics occupying Christian pulpits today.

While trials of heresy have been few in American churches, the problem of dealing with heretics has engaged the attention of ecclesiastical authorities from the early days of Christianity. The stern methods adopted for the suppression of heresy during the Middle Ages reached their height of ferocity through the instrumentality of the Spanish Inquisition, established in 1480.

During the centuries the various inquisitorial systems, compilations from the records show that more than 351,912 persons were burnt alive, 221,450 suffered imprisonment and tortures worse than death.

A fierce fight connected with the history of heresy is that of the heretic of one age may be the saint of a later day. This is illustrated by the case of Joan of Arc, who was burnt at the stake in the streets of Rouen on May 30, 1431. Her sentence was "revoked" by the Pope on July 7, 1456 (more than 25 years after her death) and she was beatified by a later Pope at Rome on April 18, 1909.

It has been pointed out that Christ was put to death because of teachings considered heretical by the ecclesiastics of his time.

KING PARDONS THOUSANDS

In celebration of the 25th anniversary of his accession to the Italian throne, King Victor Emanuel III, has given freedom to more than 10,000 political prisoners by an amnesty decree.

This successful measure is taken in view of the nature of an effort to relieve the tension which has existed on account of Premier Mussolini's stern measures in dealing with enemies of the Fascist government.

"Victor Emanuel" was proclaimed king on August 1, 1900, following the assassination of his father, King Humbert, on July 20 of that year. His reign of a century has been marked by many stirring events, including the war between the United States and Italy, Italy's withdrawal from the Triple Alliance (Italy, Austria, Germany) and fought on the side of the Allies.

An unsuccessful attempt upon the King's life was made on March 14, 1912, the victim entirely escaping the attack at the Pantheon in honor of his father.

Affairs in Italy were more or less chaotic after the World War, until the advent of the Fascisti under Mussolini, who took charge in October, 1922, following the acquisition of the King.

Mussolini is the real power in Italy and has been treated with a stern hand, but while estimates of his character and aims are varied, his policies have no doubt been beneficial to his country, on the whole.

Victor Emanuel's action in freeing political prisoners and adding to the King's already great personal popularity among his subjects.

WORK OF A BLIND MAN

Few men have contributed more to practical education than Sir Frederick Fraser, for many years superintendent of the school for the Blind at Halifax, N. S., who died there a few weeks ago. His work as a blind man, having suffered an injury to his eyes in childhood, was made known to the public at the age of 16. he completed his education at the Perkins institute in Boston in 1873, since which

time he labored for fifty years as superintendent of the Halifax school, retiring in 1923.

Throughout his life he centered his efforts, he aided in bringing about better facilities for the blind, establishing courses of instruction designed to make them useful citizens and educating the public to use their services and products, so that they might be self-supporting.

He took pains to see that his pupils might learn to go about without guides and all were encouraged to learn their way around the city unaided. Hundreds of sightless men and women owe to Prof. Fraser their ability to stand upon their own merits and skill, instead of being helpless charges upon society.

In recognition of his outstanding accomplishments and beneficent services, he was the recipient of many honors, including knighthood, honorary degrees, demonstrations of esteem on the part of his fellow citizens, and above all the lasting love and gratitude of those whom he had practically, if not literally, led from darkness to light.

AN OUTSTANDING FEAT

Did you ever go through a whole day's work without making a single false move, mentally or physically? Could you pour a teaspoon of tea or top speed or play a piano all day without striking a wrong key?

Well, young Jack Turley of Hastings, Neb., did something similar to that, not only one day, but two days.

Turley is a linyotype operator on the Hastings Tribune and set 1718 lines of type, involving the striking of keys approximately 55,000 times in eight hours without an error.

Another day he set 1,672 lines without a mistake. His usual daily output is said to show only from two to twelve errors. Think what a means to the fortunate individual who happens to be his boss.

Typing is becoming more and more necessary in handling his matter, for most proof-readers would overlook more mistakes than that. Many big newspapers are printed with typographical errors in nearly every column.

Turley's remarkable coordination of brain and hands seems almost too valuable to devote to routine employment—even though it be that of such a rare individual as a capable linyotype operator.

HOLIDAYS NECESSARY

Dr. Charles H. Mayo, the noted Minnesota surgeon, declares that holidays are necessary to the preservation of life and the attainment of the highest achievements.

He especially commends the habit of English clerics and workmen, who usually spend their week-ends in the country or at the seashore. They enjoy surroundings entirely different from those in which they live and are rested. This change of activity and scenery is the best possible recourse to prevent becoming fagged out from one's work, says Dr. Mayo.

There is no doubt that most persons, fail to take advantage of their opportunities to get away from and forget for a time their regular avocations. The hustle and bustle of American town and city life are trying on both body and mind.

Perhaps we could do more and better work if we could make it a practice to spend our holidays, week-ends or vacations as far away from our own city as possible.

THE FOUR CORNERS

A pretentious press that will print 6,400 postal cards a minute has been set up by the United States for the World War. The cards are printed at each revolution of the cylinder.

Says in sheet form for the United States has been invented. Chicago's new terminal mail station contains a full-size clock.

Announcement is made that a new baby airplane will soon be marketed at a price of \$1,000.

Scientists at the University of Chicago have discovered a practical means of utilizing the heat of the sun in a new way.

Dr. Carl Stille of Berlin has discovered a new way in which records are made of a circuit.

Marshall P. Petelin, recently returned from his inspection of the forces in Morocco, told that the forces in Morocco would be very early in the world.

Infestations of malaria in the United States have been reported in the transverse of the United States. The disease is considered incurable.

Dr. James Carr, of the University of Chicago, says that the disease is considered incurable.

Bible Thoughts for the Week

Sunday.
 For I Am With Thee, and no man shall set on thee to hurt thee.—John 10:10.

Monday.
 Heaven and Earth Shall Pass Away, but My word shall not pass away.—John 1:25.

Tuesday.
 If Ye Abide In Me and My words abide in you, ye shall ask what ye will, and it shall be done unto you.—John 15:7.

Wednesday.
 In That Day there shall be a fountain opened to the house of David and to the inhabitants of Jerusalem for sin and for uncleanness.—Zech. 13:1.

Thursday.
 Let That Therefore Abide In You which ye have heard from the beginning, lest ye come into temptation. Ye shall also continue in the Son and in the Father.—1 John 2:24.

Friday.
 And Now Also the Age is laid unto the root of the tree: therefore whoso eateth thereof shall eat thereof and his guts shall be burned.—Matt. 23:35.

Saturday.
 And Jesus Went About All Galilee, teaching in their synagogues, and healing all manner of diseases among the people.—Matt. 4:23.

Sunday.
 And Jesus Went About All Galilee, teaching in their synagogues, and healing all manner of diseases among the people.—Matt. 4:23.

Monday.
 And Jesus Went About All Galilee, teaching in their synagogues, and healing all manner of diseases among the people.—Matt. 4:23.

Tuesday.
 And Jesus Went About All Galilee, teaching in their synagogues, and healing all manner of diseases among the people.—Matt. 4:23.

Wednesday.
 And Jesus Went About All Galilee, teaching in their synagogues, and healing all manner of diseases among the people.—Matt. 4:23.

Thursday.
 And Jesus Went About All Galilee, teaching in their synagogues, and healing all manner of diseases among the people.—Matt. 4:23.

Friday.
 And Jesus Went About All Galilee, teaching in their synagogues, and healing all manner of diseases among the people.—Matt. 4:23.

Saturday.
 And Jesus Went About All Galilee, teaching in their synagogues, and healing all manner of diseases among the people.—Matt. 4:23.

Sunday.
 And Jesus Went About All Galilee, teaching in their synagogues, and healing all manner of diseases among the people.—Matt. 4:23.

Wednesday.
 And Jesus Went About All Galilee, teaching in their synagogues, and healing all manner of diseases among the people.—Matt. 4:23.

Thursday.
 And Jesus Went About All Galilee, teaching in their synagogues, and healing all manner of diseases among the people.—Matt. 4:23.

at 6:45 p. m. Subject for the Sermon: "The Game of Life." Text: "The Game of Life." 1 Pet. 1:1-31. Mr. Rose, Vice-Chairman.

The meeting will begin on Friday, August 14, at 7:30 p. m. and will continue until August 31. Good talk has been secured to lead the service, and arrangements are being made for the comfort and convenience of all who participate.

Those who are interested in the matter should call for a program. E. K. YEAKEL, pastor.

Baptist.
 9:30, Bible school.
 10:30, Morning service.
 7:30, Evening worship.

Brother Hester's last Sunday. He is due in Brooklyn the following Sunday.

Sunday evening autos will leave the church at 5 for Deer Grove, West of the lake for an outing and camp, for Mr. and Mrs. Murphy in charge.

ABOUT WOMEN
 Mrs. Mary McCarthy has been selected honorary Woman student assistant for the University of Chicago by Col. W. T. Merry, commandant of reserves.

Miss Edith Langdon, who began the practice of law in London two years ago, has now many clients that she has acquired a second office.

By a recent decision of the French government, women may in future aspire to the highest positions in the telegraph and postal service.

Women are now presidents of ten colleges and universities in the United States, and are making rapid progress in the study of public instruction.

Queen Mary of England has been complimented by the naming of a London municipal building after her. The building is the largest artificial body of water in the world and cost \$1,000,000.

Colorado was the first state in the Union to select a woman for the office of state auditor. The Vice-Consul at Burlington was reported to have been slightly wounded at Aguadilla, P. R., on August 10, 1925.

Views in Brief

MARCY B. DARNALL.
 Among the subjects of public interest discussed at the convention was the question of the "Game of Life." The official statement of the convention was that the "Game of Life" is a game of chance, and that the only way to win is to play it.

Miss Katherine Smith, daughter of Governor Al Smith of New York, who was visiting in Europe, expressed regret that she was not able to attend the convention. One of the reasons for this was that she was on her return, when she saw that this paper had been published.

Again the idea that lightning never strikes twice in the same place, has been exploded. It has been shown that the same place can be struck the same day and night. The lightning never strikes twice in the same place.

According to the new law of the state of New York, a person who is convicted of a crime, and who is sentenced to a term of years or of life, may be released on parole at any time during the term.

Rhode Island has a new law which makes a new trial possible in cases where the jury has been misled by the evidence. The law provides that a new trial may be granted if the jury has been misled by the evidence.

We should never jump at conclusions. When America was founded, the Vice-Consul at Burlington was reported to have been slightly wounded at Aguadilla, P. R., on August 10, 1925.

By a recent decision of the French government, women may in future aspire to the highest positions in the telegraph and postal service.
