EDITORIAL
 So far the Senior candy sale has been profitable. For this reason we have a lot of candy to give to the boys and girls. Many of the boys and girls are coming to the store at the store are now patronizing the Seniors. The profit derived from this sale will be used to give to the high school from which every one will derive a benefit. We wish to wish to thank our friends and grade children for the kind and spirit shown toward the candy propitiety.

THE SENIOR SORAWL
 Everyone is working on posters, themes, and other things for the Senior Sorawl. They are hoping to make the best we have ever had. The Sorawl is trying to sell an artist in representing the value of English. Miss Doris's students are enthusiastic over the Sorawl in short hand. But aside from the rush of the Sorawl, Miss Doris is doing a very story to the. The Civics class is progressing as rapidly as circumstances will permit.

Senior Ladies
 Mary Ethel has a playmate, Pat. Mary Ethel is a little green cat belonging to Kathryn.
 Helen is sporting a new bracelet. Kathryn is wearing a new bracelet.
 Adeline shook the members of the Senior Sorawl with a boy. His book was last week.
 This time we are all quite pleased with our girls.
 Because Mrs. Kinsey thought we were a little out of control reading in civics, he kindly sent for some new books for us.

JUNIOR JIGS
 Everyone is making rushing about making posters, and writing themes for the exhibit of Friday.
 Mary is the victim of the chemistry class, with the result that John is going around with an immense headache over one eye, and the rest of us are all passed.
 The English Highways are hurriedly finishing their progress and character sketches in time for the exhibit. The covers are in great works of time.
 Mrs. Gifford (I can't get used to the new Billy to our class. (Kiss-joking looks on our faces) Little Billy, I mean.

Remember the exhibit and chicken pig supper at the school Friday night of this week.
 Remember the Midea, an opera given April 21, at the school auditorium.

SOPHOMORE SCOUTS
 Scientists take notes: Florence Landover, noted biology student, declares that the species belong to the class "Carivora" of mammals and also that it is one from the first-order-type. The majority disagree, but they think that the racoon would fit the bill. The group is now studying mammals and birds. Mrs. Walsburn brought a fireless pig to school for four number three in study. As this bird was exceedingly tame, it was allowed the freedom of the room. Three other came brought, although Mrs. Hoffister

FRESHMEN PAPERS
 The coming exhibit is creating quite a stir in the High School. The whole school. The Freshmen are writing papers on the history of the state of Illinois in making points. All of the class.

All of the students are working diligently in order that they may complete something good enough to S. exhibit.

Certain freshmen girls are much excited over the appearance of a new member in the Freshman class.

In Latin class, they are doing daily quizzes. It cannot be said that they enjoy quizzes. Only a few of the bright students have been able to stand those tests with cheerful contentment.

We are studying poems in English. Most of us enjoy them very much.

Don't fail to come to the exhibit on Friday at the school auditorium building at 2:00.

Enjoy the exhibit, pig supper from 4:30 to 7:45 p. m.

New Drivers

Take Cue From Old Hands

The American Automobile Association is asking all experienced drivers to set a good example to the newcomer at this time when it is so important that traffic order is the most important motor necessity. The new driver is naturally tentative, and if the people who have had experience with driving will set a decent example, the situation will be improved.

FATAL CARELESSNESS

It is one of the most amazing facts connected with modern life that the appalling number of deaths resulting from carelessness makes no greater impression upon the general public.

In spite of the daily record of gross crossing accidents, drivers continue to take a chance with an inevitable percentage of fatal results. The main cause of these practices which take their grim toll of human life.

Persons who are ordinarily careful in protecting their property or their health appear to throw discretion to the winds the moment they grasp the wheel of an automobile, and positively invite disaster by failing to observe the most elementary cautions.

The joyrailer is equally reckless, taking the chance of being run down for the sake of saving a few steps or a moment's time. Those who are careless of these details help to swell the harvest of death.

And the most lamentable fact is that no amount of warning appears to have any appreciable effect.

WHAT THEY SPEND

An enlightening lot of carefully compiled figures concerning the percentages of gross receipts spent for advertising by a number of firms during a nation-wide business has recently been published by the National Bureau of Construction.

Sears, Roebuck & Co. spend 10 percent of their gross for advertising. Wells' Grape Juice, Old Dutch Cleaner, and Marvis also spend 10 percent; Evamote Motors, 8 percent; McCray Re-Repairing and Champion Spikes, 7 percent; Velvet Tobacco, 6 percent; Betty Wales Dressing, Photographic, Markham Air Rifles and Phonographs, 5 percent.

These are only a few of the concerns whose advertising appropriations run into enormous sums and everyone knows that they are on the eve

Witty and Wise

"COME ON BARRINGTON—LET'S GO!"

Barrington is awful changing.

Yes, the young folks go to the city.

The young folks go to work and marry.

Things are changing round about us.

Every day brings something new.

We are hurried in the land.

If we will but stop to ponder

On the progress we have made,

Corser corners that we have laid

Take our improved school for instance.

What a value that will be

To the coming generation.

As you all can truly see.

Now our churches, there are many.

And a hundred other things.

Let's think of them all over.

Telling just what each one brings.

And these things just split advance.

That is what we all must see.

Let's think of them all over.

Let's not pessimistic be.

Use a horn, and not a hammer;

And a hundred other things.

Let's think of them all over.

Set your minds, and hearts and

Let's think of them all over.

Let's not pessimistic be.

Use a horn, and not a hammer;

And a hundred other things.

Let's think of them all over.

Set your minds, and hearts and

Let's think of them all over.

Let's not pessimistic be.

Use a horn, and not a hammer;

And a hundred other things.

Let's think of them all over.

Set your minds, and hearts and

Let's think of them all over.

Let's not pessimistic be.

Use a horn, and not a hammer;

And a hundred other things.

Let's think of them all over.

Set your minds, and hearts and

Let's think of them all over.

Let's not pessimistic be.

Use a horn, and not a hammer;

And a hundred other things.

"How much?"

THAT'S the first question most people ask when they're buying coal. They mean "how much per ton"—how much money—but they should mean how much heat, *clinker, dirt and smoke*. That's the real test of coal, isn't it? Think over your past experience with different kinds of coal, and you'll decide to come to us for the coal that gives the most heat, and

the least dirt and trouble—
