KEEP THE FOOT FEEL

100% SATISFACTION GUARANTEED

1. It is completely automatic in operation—not semi-automatic.

2. Perfectly softened water is supplied at city pressure. There are no restrictions or regulators stopping the flow of water.

3. Supplies more softened water per pound of salt than any other domestic softener.

4. Pure rock salt (less expensive than ordinary table salt) is used.

5. Employes the universally approved principle of up-grade softening and downward regeneration.

6. Not limited to any certain city water pressure. It operates equally well on any pressure from 16 to 125 lbs.

7. More economical and delivers soft water at lower cost per 1000 gallons than any other softener—hand operated or automatic.

8. Positive dependable operation, regardless of quantity of water.

9. No mineral can get out of the softener into house lines or to the drain.

10. Operated by hydraulic pressure; not by water meter. Powerful—silent—rugged—dependable.

EDITORIAL
The amount of time that's been allotted for printing and typesetting is not decreasing. The trouble seems to be with the reporters and not with the printer. We have been getting much news from the whole school but, I think, just a section of the Barrington Review with an adequate amount of news. We have to fit our paper to have no space in the paper and yet that is the only alternative we have.

We would like that

we could have a weekly news, we cannot think of our own paper.

—B.H.

SENIOR NEWS
We are getting our classes back to our midst. Miss Lillian Holtz who was absent from school a few days. Margaret Castle has been absent from school for a week now. What is the trouble is? What's the matter, Margaret?

We would like to know what happened to Eddie G. when the lights went out at the exhibit Friday night. Our hooking seems disagreeable to us. Our school is not the same and we will be considerably enlightened.

We wonder what keeps secret meetings of the Justice lately—yes, we are.

We are hosting "The Mikado"—are you?

We are very saluted very much our civics classes lately, since we have held the 50th anniversary.

We enjoyed the exhibit, didn't you? We are getting our classes back to our midst. Miss Lillian Holtz who was absent from school a few days. Some Senior girls

are collecting antiques—but are not fond of returning them.

The boys of our class are worrying about something—we wonder why?

We like Spring—have you noticed it? And some seem fond of daily springing.

SOPHOMORE NEWS

Team Number Three had some trouble getting the skeletons of a frag ready for the exhibition but after a hard day's work the gallant boys completed the dissection and mounted the remainder in time for the show. Many of the spectators were in awe. It must be for she is an authority on such matters. Vari-

ous exhibitions were prepared by other teams, and all the work displayed was excellent.

Our school's most interesting man: Robert Allen, John Brasel, Franklin Chestnut, and Robert Davis, from the Chestnut Club, used with two boys, Peter, Harry, and one girl, the girls and the put on an interesting pantomime. Miss Jones was the director of the play, cast, make-up, staging, ticket-takers, and all. This entertainment seemed to go over very well, for many came to see it.

The Mikado for Caesar was very interesting, all showing good points and ideas.

Don't forget "The Mikado" April 9.

EIGHTH GRADE

Monday morning when we returned to school we found all our exhibit work had been taken down, and the room looks natural again.

Several people who have been absent on account of illness are back again.

Friday evening, March 26, the grade basketball teams will play the Dixie Plains teams here in the high school gymnasium. One team will be our 85-lb. weight team; the other will be our 100-lb. weight team. Let everyone come and root our grade team.
