# Tax Reform Is Need of State, Emmerson Asserts

Emmerson tax reform as a dinner menu of relief for the overburdened taxpayer, Louis L. Emmerson, has been made for discussion at the next annual conference for a week before the state legislature.

Introduced by Attorney-General Owen Carleton, candidate for re-election to the Illinois legislature, the bill would amend the existing laws of the state and provide for a new system of taxation. Emmerson has been speaking of the bill in Chicago.

All of the "Big Four" have been elected to the state of Illinois at their respective offices. All of the state has been a member of the state of Illinois since the year 1818. The bill would amend the existing laws of the state and provide for a new system of taxation.

Tax System Amended  
Emmerson said that a reform of the existing revenue bill, enacted in 1910, has been necessary for the state of Illinois. The bill would amend the existing laws of the state and provide for a new system of taxation.

## RAY PADDOCK

Candidate for State Senator

Asks that you give facts concerning his life and activities earnest consideration when you visit the polls on April 10th, 1926.

He was born and grew to manhood on a farm in western Lake County.

He was educated in the Public Schools of Lake County and in the Northern Illinois Normal School at Vandalia. He returned home at the age of seventeen and took over the management of a 250 acre farm and continued farming until eight years ago when he moved his farm down to Wisconsin. Since that time he has been engaged in real estate and is President of the Wisconsin Trust and Savings Bank.

In the past he has been identified with every movement where the interests of the farmers of this locality were concerned. In 1908 when the county was sent from the Chicago Health Department to the fact that all milk consumed in the county must be from cows that had previously passed the Tuberculin Test, and without any previous preparation for such a task and no assurance of an increased price for milk, with others interested in this matter to the attention of the dairy men through meetings held all over the district, which resulted in the formation of the Milk Producers' Association. From this Association a Committee was appointed, of which he was a member, and went to Springfield to get relief for our people. The result was that our mission was successful.

In an effort to get higher prices for our milk, he stood shoulder to shoulder with his fellow dairy men for what they believed they were entitled to as a Director, he has done everything in his power to get better prices for our products. At the present time it is his belief that the dairy men should receive more of an indemnity for cattle lost through the Test, it being his opinion that the farmer is bearing too heavy a share of the cost of the Test.

He became a member of the County Board, in 1915 and has been Chairman of that body for five terms.

He has advocated and supported the Bond Issue that has made the present system of roads in Lake County possible.

While he was Chairman of the County Board, working with the Finance Committee, a Program of Economy was worked out and presented to the County Officers who (which received their wholehearted support and resulted in saving Lake County approximately \$50,000.00 per year.

How Route 20 from Waukegan to Woodstock came to be the Sixty Million Dollar Road project. The Bill, as presented for the Legislature, did not provide for this route. He discovered this on a certain Friday. The Bill was to be voted on the following Wednesday. He arranged a jam session, including himself, went immediately to Springfield, and was successful in having the amendment to include this important route. If his very prompt action had not been taken, this route would not be paved at the present time.

He lent his best efforts to have Route 17 built at the earliest possible moment and has worked in conjunction with those from Menard, Madison and Lake County who are interested, with the result that this has been received on this entire route and contracts will be awarded as soon as the necessary right of way has been secured.

It has been his purpose as Supervisor to work for what he considered to be the best interests of Lake County. If permitted to serve as State Senator, he will give the same earnest attention to the welfare of the District he represents.

## SQUARE ESS NEWS

Published in the interest of better news and better editing.

Vol. 26 Thursday, March 25, 1926 No. 13

G. H. FAIRBANKS Editor

One of the most important of the day is the fact that the news is the most important of the day.

Nothing is more important in the life of a good citizen than the news. The news is the most important of the day.

Nothing is more important in the life of a good citizen than the news. The news is the most important of the day.

## Guaranteed Factory Method TIRE REPAIRS For Barrington Motorists OPENING Monday, April 2nd

We have installed complete "Inside Arm" equipment throughout our shop and we now ready to repair the motorists of Barrington with complete service in expert tire repairing.

The "Inside Arm" was developed at the Firestone factories in Akron, Ohio, and is the most modern equipment known to the repairing service.

Our men were trained at the Firestone factories and we guarantee every repair we make.

With the "Inside Arm" equipment shown in the illustration in this ad, all the original flexibility and uniform balance is retained in the tire, even the tread design is restored perfectly. This is the only equipment made, upon which tire repairing can be done with this excellent result.

The "Inside Arm" applies the vulcanizing heat from the inside direct to the repaired portion where it is needed and not through the tread as in old-fashioned methods.

Our repairs are, therefore, cured—not baked into the tire. Dangerous cuts are impossible with the "Inside Arm" equipment.

We are centrally located, have plenty of parking places, remain open 9 to 9 p. m., every day including Sunday and our big stock of Firestone Champion Tires and Steam-Welded Tubes is always at your service.

Battery service is another feature of our business. Come in!
