

Lake County Plans 1 1/4 Million Dollar Road Bond Issue

Continued from page 1

The roads under the county bond issue will be in the Lake and Cook-Lake country, in the northwest corner of the county, 2 1/2 miles at an estimated cost of \$62,000.

2. Continuation of State Aid 11, two miles to connect with State Aid 11, two miles north of the north end of the Cook-Lake country in the northwest corner of the county, at an estimated cost of \$10,000.

3. State Aid 20 at Green Bay road, extending from State Aid 20, a distance of a point west of Green Bay to connect with State Aid 20, at an estimated cost of \$16,000.

4. State Aid 23, connecting with State Aid 20, a distance of 1.2 miles to connect with State Aid 20, at an estimated cost of \$32,000.

5. State Aid 7 at the end of Bellwood road, connecting with State Aid 7, Long Lake, extending north 1.8 miles to connect with State Aid 7, at an estimated cost of \$16,000.

6. State Aid 15 connecting Milwaukie avenue and State Aid 24, a distance of 1.2 miles to connect with State Aid 24, at an estimated cost of \$30,000.

7. State Aid 21 from the Lake Zurich north near Fairfield three miles north to connect with the Franklin road, a distance of 1.2 miles to connect with State Aid 21, a distance of 2.5 miles and the estimated cost of \$32,000.

8. State Aid 16 from Wadsworth, connecting with State Aid 16, a distance of five miles at an estimated cost of \$16,000.

9. State Aid 22 from Buffalo Grove at the Cook-Lake county line north through the village of Wadsworth, a distance of 0.3 miles, at an estimated cost of \$16,000.

10. State Aid 20 from Wadsworth on the Telegraph road, west of Green Bay to connect with State Aid 20, at an estimated cost of \$32,000.

Any road, a distance of 1.5 miles at an estimated cost of \$45,000.

Route to be taken in the resolution as follows:

1. Between State Aid 20 and State Aid 20, a distance of 1.2 miles.

2. Rockland road from Green Bay road to Sherman road.

3. Sherman road from Green Bay road with Sherman road, the cities of Waukegan and Green Bay, a distance of 1.2 miles.

4. A road through Rockland road, Sherman road, State Aid 20.

Washington Street extended from Green Bay road westward to State Aid 20.

Burke road from Telegraph road to Sherman road.

Town Line road from State Aid 20, a distance of 1.2 miles to Sherman road.

5. A road between Sherman road and State Aid 20, a distance of 2.2 miles.

6. Big Hollow road from Wilson road to Sherman road.

Wilson road rounded southward to Sherman road.

7. A road connecting the Village of Rockland with State Aid 20.

LOCAL BREVITIES

Fraser Wiegert of 156 W. Main street, Barrington, is a medical patient and the Frances E. Willard hospital, Barrington, has been his medical doctor for several hours.

Lucerne Faulkner of 218 W. Russell street is confined to his bed with appendicitis.

Charles Nelson is receiving medical treatment at the St. Joseph's hospital in Elgin.

Mr. and Mrs. August Dury of 212 W. Main street, Barrington, are the parents of the Illinois Well Diggers Association, held at Urbana March 10.

Mr. and Mrs. Harold Pinner of 156 W. Main street, Barrington, are the parents of David, 11, the son of her parents Sunday afternoon.

Mr. and Mrs. John Davis of 218 W. Russell street, Mrs. Lester Faulkner and Charles E. Klein, 11, of 218 W. Russell street, and Mrs. J. W. Davis were present.

Little Alice Jane Pomeroy, year-old daughter of Mr. and Mrs. D. R.

Pomeroy of 154 W. Russell street, Barrington, was admitted to the women's hospital at Elgin Tuesday evening ill with appendicitis. She was operated on yesterday morning.

Pomeroy is with her.

Pomeroy is with her.

NEARLY KILLED BY GAS
DRUGGIST SAVES HER

"Get on my stomach so bad was it nearly killed me. My druggist told me to get a glass of water and I feel fine,"—Mrs. A. A.

Simple elixir, buckwheat tea, and water, Mrs. A. A. Davis, 50, of 218 W. Russell street, Mrs. Lester Faulkner and Charles E. Klein, 11, of 218 W. Russell street, and Mrs. J. W. Davis were present.

Little Alice Jane Pomeroy, year-old daughter of Mr. and Mrs. D. R. Pomeroy of 154 W. Russell street, Barrington, was admitted to the women's hospital at Elgin Tuesday evening ill with appendicitis. She was operated on yesterday morning.

ST. PATRICK'S DAY

On March 17 St. Patrick's Day is celebrated as the national festival of Ireland and its observance is more or less general among Irishmen and their descendants throughout the world. The date is said to be that of St. Patrick's death, but even the year is not known, although it is thought to have been about 460 A. D.

Three noted Patriots are said to have flourished in Ireland during this period, and accounts concerning them are so obscure and confusing as to cause some doubts as to whether St. Patrick was a real or a legendary character.

Accepting to tradition, however, St. Patrick was born in Britain and played an important part in introducing Christianity into Ireland, after six years in slavery into which he was sold by hostile Scots, who subjected him at the age of about 15.

Finally making his escape, he decided to devote his life to the conversion of the Irish. His mission as a priest began about the year 425, and he became a bishop about 441. His ministry is said to have been attended with much success, hence his designation as Ireland's patron saint, although not an Irishman himself.

Among the traditions connected with St. Patrick that are used the shamrock to illustrate the doctrine of the Trinity. Another emblem is that of the dove that he plucked from the earth, after which he plucked it, but this has been done before without much practical benefit to the patient.

With scores of earnest scientists continually working on the problem, it is reasonable to believe that in time some may be found to account for the patient's cure. The only hope of the patient is to have the growth removed by the knife while it is early stages.

of man can nullify the inexorable law of supply and demand. That law may be checked in its operation for a short time, perhaps, but in the long run it is bound to prevail.

It is rather remarkable by this time that the important farm relief act can not and will not of itself make good times for the farmer. It is well that the Farm Board has frankly stated this fact. It is impossible to legislate against economic folly.

About all that new law can do is to bring it into the fact that he must adopt the same methods that have been found effective in promoting the welfare of industry and business. And farming is both industry and business. In the practical interpretation of the new law, however, there is a

Unless farmers solidly organize and stay organized, they are doomed to occupy an inferior position in a world in which all other classes combine and co-operate for mutual protection in their respective fields of activity.

UNFAIR TO SUFFERERS

Arousing false hopes in the minds of cancer victims by publishing premature reports of alleged cures in "nothing less than criminal," according to a recent statement by a leading medical journal.

The statement was issued because of misleading reports of experiments by Dr. Coffey and Humber of San Francisco, which have been given wide publication in the daily press. As a result many cancer sufferers have journeyed to California at great expense, only to find that their hopes were in vain.

Some interesting developments have been made by the doctors named, but they themselves have repeatedly stated that no actual cure has been found. By means of certain injections they have caused some temporary relief, but this is not to take place, but this has been done before without much practical benefit to the patient.

With scores of earnest scientists continually working on the problem, it is reasonable to believe that in time some may be found to account for the patient's cure. The only hope of the patient is to have the growth removed by the knife while it is early stages.

ROAD LIGHTING URGED

Electrifying the country highways to illustrate their efficiency and safety.

And sidestreet lighting is urged in a recent proposal by Louis J. Brooks, prominent Missouri farmer and first president of the State's hard road association.

A idea is said to have been favorably received by State and county highway officials, many of whom feel that the lighting of roads is a logical step forward in the development of the nation's highway system.

Electric engineers recommended power plants placed at intervals of 100 yards, which it is estimated would add about five per cent to the average cost of paved highways.

Special legislation would be required to permit lighting to be included in expenditure bills for roads, but the State and county governments still exist to a marked degree, so that as this is written the success of the conference is very much in doubt.

Whatever the outcome, it can hardly be said that the United States and Great Britain are the only countries still in doubt. Yet the very fact that they are fairly in agreement has caused suspicion among the other nations concerned, which seem to fear that the two English-speaking countries will form an alliance and seek to dominate the world, which they have strongly desired in any such intention.

The people of all nations hope for continued peace. Will their statesmen prove equal to the task of making it secure?

HERES A RECORD

There is a remarkable firm of general merchants in the little town of Clear Lake, S. D., which probably holds the world's record for consistent and adequate advertising in a community of that size.

English & Towers have carried a full-page advertisement in the Clear Lake Courier every week, without a miss, for twenty years. They have contracted for a similar space for each of the last three years.

The Clear Lake town of only 850 population in a country with 6,750 people, with two newspapers. The extent of the firm's advertising with the other newspaper was not stated in the source of information, but it is reasonable to suppose that it is considerably less.

A critic remarks that goldfish have provided inspiration for three popular poets. And we always advise them in a spirit of friendly warning to be very careful with such poems as "The Homeric."

The poet who has the right of way after the author of "The Homeric" is the one who can answer the telephone.—Ohio State Journal.

Nature itself so we are compelled to say, has a way of getting temporary favor for the most unlikely of things.

The latest hair-dressing fashion in America is, I read, a reminiscence of bygone days. Corkscrews.

Clever, clever, they are said to be the managers of the new business for women—Indians.

No legislation ever devised by the mind

of all the wise which the hope of the farmer

upon co-operation and organization.

This has been emphasized by recent statements of the new Federal Farm Board, which clearly indicates that the new board will form strong co-operative marketing associations and at the same time resolutely decide to limit production of crops now over-produced the board can not help them very much.

Nearly every thoughtful person knew this even before the so-called relief law was enacted. As long as farmers produce more than the world will buy at prices which allow them a net profit, just so long will there be crop surpluses and low prices.

No legislation ever devised by the mind

of all the wise which the hope of the farmer

upon co-operation and organization.

Mr. and Mrs. S. E. French and daughter, Dorothy, of Elgin, and Mrs. Otto Staudinger and son, Otto, Jr., were at the home of Mrs. Dorothy Dorward, Wednesday evening.

Mr. and Mrs. Howard Katz and family, of Elgin, and Mr. and Mrs. Elmer, and Arnold Pick of Dundee were at the home of Mr. and Mrs. Fred and Mrs. Carl Dorward.

Mr. and Mrs. Edward and daughter, Fonda, and Mrs. William and Mrs. Katz and children of Dundee were at the home of Mr. and Mrs. Charles Schrotter, Sunday afternoon.

DISEASED HERDS IN LAKE COUNTY LESS NUMEROUS

The percentage of tuberculosis among cattle in Lake County has been reduced by more than half during last year, according to a report recently by the board of health to the state of Illinois county veterinarian. Since the first

of the year tuberculosis tests have shown 1.5 per cent of tested cattle to be infected, while last year's tests showed 3.2 per cent of the cattle to be infected.

These figures indicate a decided increase of 1.7 percent.

These figures indicate a decided increase of 1.7 percent.

The recent reduction in the incidence of tuberculosis among cattle is accredited to the efforts of the state and the efforts of the State Department of Animal

Industry which assigned five veterinarians to Lake County in January.

In all 624 herds containing 11,400 cattle, 170 herds or 1.5 percent of the herds were infected.

OAKLAND-PONTIAC OWNERS PROTECTED FROM LIGHT GLARE

The new Fisher no-gleare windshield was perfected by the Fisher Body Corporation after months of intensive research and development.

After extensive experiments with various materials and designs, the original Fisher windshield was found to be the best.

The new Fisher no-gleare windshield will safely fall below the

driver's line of vision when the wind-

shield was set at an angle of seven degrees.

In addition to its unique feature, the new windshield retains all the original advantages of unobstructed visibility, the ability to withstand high temperatures, and the ability to withstand impact.

After extensive experiments with various materials and designs, the original Fisher windshield was found to be the best.

The new Fisher no-gleare windshield will safely fall below the
