CAMPAIGN EXPENDITURES

It appears that the Senate committee appointed to investigate campaign expenses of senatorial candidates will have plenty of work to do this year, with Illinois and Pennsylvania leading the list as in recent former years.

In the campaign for the Republican nomination in Illinois Mrs. Ruth Hanna McCormick has reported expenses amounting to \$32,672. The Pennsylvania contest between Joseph Grundy and James J. Davis is also expected to be attended by large expenditures. All this in the face of the fact that Smith of Illinois and Vare of Pennsylvania were denied Senate seats because of what the Senate considered a too free use of money in their behalf.

Smith spent \$45,783 and Vare spent \$78,000, but he neither approached the primary expense of \$1,000,000 for the nomination. It will be recalled that Newberry of Michigan resigned from the Senate some years ago after being censured for spending \$195,000 to gain his seat.

But Mrs. McCormick's outlay is by no means finished. She must now make her campaign for election in November, her Democratic opponent being former Senator James Hamilton Lewis.

It has not been charged, so far, that Mrs. McCormick made any really improper use of money during her campaign. The action of the investigation committee will probably hinge on the size and reasonableness of the expenditures, rather than upon the method of making it. That there will be plenty of criticism there can be no doubt.

DEATH'S BUSY SEASON

As the summer approaches, with its increased tourist and other automobile traffic, death prepares to reap its richest harvest. From the homes of the United States must come 30,000 or more to a diet of millions others to be injured, some crippled for life, during the year, if last year's terrible record is to be equaled.

The needless slaughter goes on in spite of all the warnings given, and in the face of the appalling waste of life held daily before our eyes.

The fatal part of this continuous tragedy is that most of these casualties are entirely unnecessary, and might be prevented by the exercise of ordinary common sense. They are due either to an insane desire to speed up, to a disregard of the most elementary rules of safety for the road.

Many of the victims are helpless passengers, whose lives are at the mercy of criminally reckless or incompetent drivers. Some accidents are apparently the result of carelessness, but in the vast majority of cases they are the result of carelessness on the part of both motorists and pedestrians.

And even the most careful driver is often helpless when he encounters a fool on street or highway.

GOLD STAR MOTHERS

This month the first contingent of Gold Star Mothers will visit the graves of their sons in France at the expense of the United States government. Wives of American soldiers who are buried in France are also eligible for these trips, provided they have not married.

According to the law under which these pilgrimages were authorized, there will be opportunities for trips also in 1931 and 1932, so that those concerned may choose the most convenient for them.

The Gold Star Memorial Association and comfort of the mothers and widows are made by the War Department, and a number of Army officers left for France last month in order to see that suitable accommodations are provided.

By making provision for these pilgrim-

ages Congress did a most worthy and patriotic act. It is hoped that every American woman who has a loved one buried "over there" may be able to take advantage of the government's generosity in arranging these pilgrimages.

MORE NIGHT BASEBALL

Considerable publicity has been given to the fact that the Des Moines baseball team would play all its weekly league games at night this year, on a specially lighted field.

Now comes the Independence, Kas., team of the Western Association which staged its first regular league game at night a week or so ahead of Des Moines. Other teams are installing night lighting at their grounds in preparation for the Western Association.

It will be playing under lights in a brief time.

In the line of sporting innovations we read of a plan to build a number of great athletic fields large enough to permit the playing of football under lights.

Night baseball should prove attractive to many who can not leave their work in daytime, while football would be a great boon to the comfort of spectators who in the winter months are unable to attend games without tending toward stimulating attendance at the games.

TRUTHFUL ADVERTISING

Usually the argument is made that every business concern should advertise. Generally it is true, but there are some exceptions, such as certain concerns, which do not have to advertise, because they can not make good according to the requirements of modern business practices.

When advertising is done, it is misleading if it does not tell the truth. Only an enterprise which fulfills the promises made in its advertising can stand the spotlight of publicity. Hence, when we find a score of other business establishments doing advertising, we are bound to wonder, month after month and year after year, if this can and does give real values.

Encouraging the advertising business of any community, large or small, will enable one to identify the most dependable concerns in that community. Only efficient and reputable establishments dare to advertise.
