

Universities' Beginning
Most of the education was mostly by
scriptor for the church. In the early
twelfth century at Bologna in Italy
a refined interest in Roman law at-
tracted students, and at Salerno
medical studies were given to the
professors. Popes and rulers gave
privileges to these corporations,
granted recognitions, concessions
and buildings and equipments
were accommodated, and by the
Fourteenth and Fifteenth cen-
turies scores of universities had
been established, many of which
had been founded at Cambridge, and
had an unknown existence ever

LAKE ZURICH REVIEW

Four High Schools Robbed Following Games Fri. Night

Four high schools, one in Lake Zurich, were robbed Friday night and early Saturday morning by a gang of bandits who it is believed took their schools because of basketball games and the substantial cash receipts of Friday evening.

The schools robbed were the high schools at Fox Lake, Woodstock, Syosset and Waukegan.

Approximately \$160 was taken from the Grant community high school at Fox Lake. The thieves battered open the safe to get the money.

The schools were robbed Saturday morning and a call sent immediately to Chief Deputy Sheriff Thomas Kennedy who reached a patrol at the high schools and sent them to the banks.

Deputy Sheriffs Gino Palmieri and Arthur Grimes discovered that a small panel of glass had been taken from a window in a small apartment they believe an exceedingly small man, or boy, was hoisted through the opening and then he in turn released the lock on the door.

Break-In Safe. Once inside the burglars broke into the inner office of the school, where the safe is located. The lock was battered off and an amount of money removed. Most of the money came from the proceeds of the basketball game held Friday night.

The safe in the Woodstock Community high school was blown open and \$50 taken.

The work was done by professionals it was evident from an inspection of the work made by Deputy Sheriff Harold Best. The burglar had used to blow the door from the safe. A hole was bored in one corner and the charge of nitro-glycerin used to blow the door completely off.

The explosion also scattered the various articles stored all about the room.

Receipts from the Marenco-Woodstock basketball game held Friday night were placed in the trunk following the game. It was this money the safe blowers took.

Lake County Bills

Will Be Mailed Out in April, Treasurer Says

Lake county tax bills probably will be mailed out in April, according to an executive made by J. B. Morse, county treasurer.

County Clerk Lew A. Herold still is extending the tax rate to determine how much each taxpayer must pay, and when he will mail the bills to Morse who will prepare the bills and place them in the mail. Morse believes his end the work can be completed within a two week period.

Radical Bill to Tax Stores for Unemployment Relief Aften

Chain stores will be taxed on an ascending scale, and independent stores will be taxed \$3 each, for unemployment relief, if a bill which has been introduced by Senator Thomas P. Gartman is passed. The bill requires the measure requires all mercantile establishments to obtain a license from the department of trade and commerce and provides a schedule of fees.

Ancient City of Gaza Strong Military Point

Old Gaza, the great city of Palestine, which was well known to Abraham, was one of the most strongly fortified in the ancient world.

Sir Flinders Petrie, the veteran archaeologist, announced a short time ago, the discovery of another secret passage leading out into the desert.

So great is the area still to be explored in Gaza that Petrie's estimates that it will take 50 years to excavate it all.

The elaborate defenses of the city, which was in its heyday at the time of Abraham, are so complete that military experts with the expedition did not fully understand them.

A great tunnel leading from inside the city, under the walls and nearly 500 yards out into the desert, was found. This was considered to be a means of escape in emergency, or a method by which a besieging attack could be made on a besieging force.

Further excavations of the main gate revealed another tunnel cut in the solid sandstone.

Old English Saying

"What an ado they made about it," we hear. An old comedy used to signify "an ado," whether this was the nature of a disturbance, or merely the theatricals of resentment and hurt feelings. The term doubtless owes its familiarity and its popularity to the old play "The Old Ado About Nothing." But the origin of its use in this way goes back a bit further.

It was the old English author, Thomas Preston, whose activity is dated from 1501, three years before Shakespeare, who first wrote of "making an ado" in the first part of his "Ado About Nothing."

Incidentally, "ado" is from the Middle English "at do," which was the northern form for "to do." The Review.

Lake County Teachers Meet at Waukegan for Program Next Saturday

Declare Volva Will Not Get Democratic Political Patronage

The teachers of Lake county will meet at Waukegan Saturday, Jan. 28 for a day's program in which Dr. Alexander Melkholm of the University of Wisconsin will be the featured speaker.

He will address the teachers on the subject, "The School and the Social Order."

The Chicago Aerial Singers will present a musical program.

The following teachers in or near Barrington are planning to attend to report that the Zion overers was seeking the opportunity to select the democratic nominees in the 1933 election.

Atmos. James J. Bishop, corporation counsel for Zion is the man whom the overers favors for democratic candidate for county judge.

County leaders in the party declare that they will insist that the record given by Volva.

Lev Dall, a member of the executive committee, stated that the party did not want the support of Volva, and went further by declaring that the next postmaster of Zion would be drawn from the Indiana party.

He labeled the Zion count of the 1700 votes as "un-American and un-democratic in every sense."

Mr. William J. Pretzel and Mr. E. Jackson Devine attended the 10th district federation meeting at the Zion High School Saturday.

State Representative Thomas J. McHenry intends to ask the state legislature to investigate the alleged control of votes in Zion.

Party members think that in two months Volva's strength will be diminished due to dissension and the loss of patronage.

District League Playoff Game Friday Night; Sass Team Wins Two of Three

The District League bowling stands for the week will not be completed until Friday night when a tie game between the Waukegan and the South Side team will be played off. Catons won two of three games and the other was tied.

The Sass Hardware team won two out of three from Schaumburg.

Roadmaking Honors for

Early Dutch Settlers

The ancient myth of the city as the stronghold of the devil, where he lay in wait to gobble up the innocent maidens and country youths who had been bewitched, was believed in as thoroughly in the days of early trails and highways as it is in backwoods country villages today. The good citizens fought tooth and nail for their purity against the blotted stagecoach and the turnpike companies, who sought out the roads for trade traffic, with the same test modern small town citizens fight the city railroad and traffic birds who seek to mar their fair roads.

Reduce Inheritance Tax Districts in State

Attorney General Otto Kerner has announced that he will cut the number of inheritance tax districts in the state from 39 to about 25, with a corresponding reduction in the staff of inheritance tax commissioners. He estimated the change will save from \$21,000 to \$25,000 annually. Each attorney will be given a greater area to cover.

Modernism's Beginnings

We find in the Orient, people which are widely characteristic of our contemporary western type of civilization. The things which make modern times modern are in general those which distinguished our day from ancient Egypt. Political government gave way to national states, the unity of medieval Christianity was broken by the Protestant reformation. Europe began to expand overseas, a new scientific development in science, agriculture disappeared, a new world commerce developed, the Renaissance put new vigor in art and literature. Printing was invented. Since these movements took place in the latter part of the 15th century, the modern era of history is usual to think of these years as marking the transition to the modern period so far as western Europe is concerned.—Chicago Tribune.

Change in State Road Officials May Result in New Plans for 59

Although state highway surveys have been suspended temporarily through Barrington for highway 59, the route is now more up in the air than it has been for months because the sweeping changes in the highway department since the democratic administration moved into Springfield.

With Mr. Sheetz removed from his office of state highway engineer and district engineers probable, the routing of highway 59 may be a matter for the future rather than an almost settled position.

The last route through Barrington was selected by the surveyors between Bayview avenue and the E. J. and E. tracks. This would bring 59 under the Chicago and North Western tracks, the latter crossing and connecting with the Highwood street at a point not very far north. However this route and every other one proposed during the last few months would be thrown in the discard when the state department officials start working.

No Positive Proof of Mankind's Original Home

The mere fact that primitive types of mankind have been found as far apart as Java, England and China makes that these three places are the most likely common ancestor had already wandered to the extreme limits, east and west, of the great continental land mass after they had become separated from the main body of their evolution. Hence the fact of their worldwide wanderings indicates that none of these three places necessarily has any relationship at all to the place of the original home of mankind.

Ten years ago there was found in the most isolated spot of a primitive type of man which may have survived in this part of the world until comparatively recent times; but whether the actual example of Rhodesia, Africa, where primitive was found in the Broken Hill mine is ancient or modern, he certainly represents an extremely primitive type of the human family, probably near akin to the Hottentot man of Java found in 1910 in Germany. In 1910 this bizarre member of the human family is definitely distinct from all other known types of extinct man.—New York Times.

Scouting Club Is Organized for the Local Community

Presents Opportunity for All Men to Help Boy Scout Work Here

The initial chapter in the history of a new movement to help support and expand the local boy scouts activities was written last week with the start of a camp of the Boy Scouts of America, held in the First Congregational community of Elgin. Plans for the purpose and program of the Scouting club was undertaken by a large group of citizens and the Scouting club is being organized to provide a definite channel through which parents of boys and through the boys themselves, friends may directly communicate themselves to the boy scouts program. Membership in the Scouting club will keep the members in touch with the progress of the local boy scouts and will keep men in association with other men who are actively interested in character building and citizenship training.

It will enable more boys to be better prepared to benefit from the wholesome and constructive influences of the boy scouts program.

It is planned to develop a community "pal" relationship between father and son, to interest more men in participating in scouting as a recreation and hobby.

Through the extension of the activities, it is planned to help maintain standards and ideals necessary to accomplish the objectives of scouting.

Plans are to be made to have a series of more and more boys to compete for the boy scouts recognition.
