Arizona Meteor Theories
Fail to Solve Mystery
Scientists have advanced two ad
ditional theories regarding the meteor which is believed to have
atruck the earth causing the great
meteor cripte in Arizona. One of
the carth.

The other is that this comet
struck the earth at an estimated
struck the earth at an estimated
struck the earth at an estimated
of the Thirteenth century and and
the Thirteenth century and and
the tree when it hit.

Science generally recognizes Me
teor crarter as one of the interknown places in the world where
thown places in the world where
thow makes the telescope of the complete of the
thirteenth contract and and
the trees the force of the wind, all
the trees in forcest for many miles
around.

Scientists believe meteors to be
fragments of suns or other worlds,
—Tabhinder.
