LAKE ZURICH REVIEW

\$473,274 Available for Relief in Lake County From State

Funds Are Disbursed on Basis of Need, Chairman Explains

Panel, consisting of 172,274 have been made available to Lake county for use in relief work by the Illinois Emergency Relief Commission, according to Alvin L. Moore, chairman of the Illinois Emergency Relief committee. These funds have been furnished to Lake county on the basis of need, according to Mr. Moore. The panel has the right of furnishing funds to counties to meet the following statement of purpose from the third annual report of the commission:

"Since the funds which have been available to the commission have been limited, it has been necessary to use these funds as economically as possible and to aid all who are in need."

Mr. Moore said:

"This clinic was sponsored by the Lake County Farmers' institute with the cooperation of the Lake County Township committees and the Lake County Medical society."

Mr. Rogers said:

"This clinic, which is an extension of the basic principles on which all public aid is based, ordinarily, a man expects to take care of himself and his family. If he can't do this, the county and the county comes in to aid—supplement his resources."

This clinic, he stated, through the Illinois Emergency Relief commission, has supplemented the resources of townships and counties. And, more recently, the federal government has supplied the resources of the state and of other states which have been unable to carry their loads without such assistance.

The administration of commission allocations has been in the hands of county emergency relief committees. These committees, said Mr. Rogers, care for the welfare of the men and women of the counties in which they operate. They are local people with direct interests in their communities. His office, he said, is directed by the commission, as are its agents.

Lake Zurich Community Woman's Club

Anne M. Hoen, reader, was the guest artist at the September meeting of the Lake Zurich Community Woman's Club. Her program, "Autumn Croon," C. L. Anthony, The 50 guests and members of the club present were delighted with the manner in which Miss Hoen gave the play.

Mr. Earl G. Witaker, president of the tenth district Woman's club, and Mrs. Frank Dicht attended a meeting of Lake Zurich club members present.

The first meeting of the book review class of the club held on Wednesday, Sept. 27, at the home of Mrs. Oscar Richter. The biography of Alvin L. Moore, chairman of the Illinois Emergency Relief Commission, was vividly recited by Mrs. Moore of Hammond of Barrington. The biography gave gay listeners a sense of pride.

Marie Antoinette, an attractive woman of yesterday, today and tomorrow, fighting against a situation, but a situation that she could not control. To the depths of Paris at the age of 14, Marie Antoinette was caught in a whirl of socialities. Louis XVI, his wife, and his children, his inspiration.

Miss Hammond thought out clearly the background of this performance, the scenes of the revolution and carefree life of Versailles to the days of the shooting mass in the Paris street.

The regular monthly meeting of the executive board was held at the home of Mrs. E. Jackson on Monday, Oct. 2.

The first class in chandlery will meet at the Lake Zurich Community Building on Tuesday, Oct. 10. Both projects as quilting, slip-cover or drapery making, furniture painting, etc., will be taught. For the cost of the instruction of Mrs. M. C. McMichael, chairman, members may join the class and a small fee will be charged to non-members. The class is open to men may bring their lunch and work during the entire day, or come for part of the day, as they wish.

From Committee.

Canada's Most Northern City

Prince Rupert is the most northern city of any size in Canada. With a population of 10,000,000, it is built on a series of hills formed of hard rock. Its fur stores are the first sight of the great fur industry of the northland as the traveler heads for Alaska.

Ties Occur in Three Age Groups in Quest for Robust Children

Paul Allison New Head Lake County Farmers' Institute

Eleven children were presented the blue ribbon in eight divisions and a special award to the Lake County Farmers' Institute last week. Forty-one contestants were in the contest and were awarded by the judges. Mrs. Alice W. Weller, chairman of the Lake County Emergency Relief committee, presented the awards Friday afternoon. The following children received the awards:

Boys one to four—Bruce Phillips, King Lake Zurich.

Boys five to eight—R. F. D. E. Miller, Harold Kans, Diamond Lake.

Boys nine to twelve—Roland Robert Kans, Diamond Lake.

Girls one to four—Carolyn Butt, Pauline, Jeanne, Joyce Kans, Lake Zurich—tie.

Girls one to two—Gwen Patterson, Dorothy, Jeanne Mills, Mandel.

Boys three to five—Elisabeth June DeJenien, Lake Zurich.

Girls four to six—Jean Mills, Mandel. Honorable mention—Marjorie Hirsch.

This clinic was sponsored by the Lake County Farmers' Institute with the cooperation of the Lake County Township committees and the Lake County Medical society.

With this year, according to Mr. Rogers, each county has utilized its own resources to its fullest possible extent, and the commission will provide funds to supplement the local resources.

This clinic, he said, is an extension of the basic principles on which all public aid is based.

Ordinarily, a man expects to take care of himself and his family. If he can't do this, the county and the county comes in to aid—supplement his resources.

This clinic, he said, is an extension of the basic principles on which all public aid is based.

Mr. Rogers said:

"This clinic was sponsored by the Lake County Farmers' Institute with the cooperation of the Lake County Township committees and the Lake County Medical society."

Explain Stand on
Sewer Problem

from page 1

an old storm, water would have to be diverted in Cook

and DuPage counties.

Mr. and Mrs. Walter Fidler and son Walter Jr. of Highland Park spent several days this week at the home of Mr. and Mrs. Hobart Borchers, 514 Prairie Avenue.

Mr. and Mrs. Mitchell and Mrs. James Borchers, 514 Prairie Avenue, Lake Forest, were guests Sunday of Mr. and Mrs. Edward O. Cook, 323 W. Cook street, to celebrate the anniversary service at the St. Paul church in the evening.

Mr. and Mrs. Clarence Plager, 120 W. River street, returned Saturday after a four-day motor trip around Lake Michigan.

Mrs. A. H. Cross of Corona, Calif., and Miss Eleanor S. Smith, Mrs. Cross's daughter, were guests with Mr. and Mrs. Smith Sunday.

Mr. and Mrs. L. H. Niemeyer, 122 Harrison street, spent Saturday and Sunday at the home of Mr. and Mrs. Ernest Lyons in Chicago.

Mrs. Louis Wendl and Mrs. John Thorsen of Barrington spent Thursday with Mrs. Wendl's parents in Palatine.

Miss Edith Hough and Miss Diane Hough of Barrington are home after spending 10 days with Mr. and Mrs. Mary Meyer, 512 S. Bough street.

Mr. and Mrs. Herbert Hough, 749 Chestnut, 232 W. Main street, spent Sunday with Mrs. A. A. Landauer in Woodstock.

Classified Ads Bring Results

facts. In the event government aid is obtained, it will be possible to bind the time of payment for fifteen or more years. An effort will be made to postpone payment on account of financial difficulties. While we are not able at this time to exact quotations as to the cost of the proposed improvement, we can be assured that the average cost of this improvement will be substantially less than \$100 per running foot. There will necessarily be some difference in the cost of assessment. Property that does not receive permanent improvement will pay less than the property which does receive a permanent improvement, property which is not in the Jewel Tea subdivision will pay more. The cost of assessment will be determined by the amount of assessment. Taxpayers can be assured that the expense of this sewer system on a per foot basis can be met annually for a period of 15 to 20 years. It is possible to postpone early payment of principal for a few years. In the event certain sections of the village require immediate improvement, these sections will have to bear the cost of necessary improvements required.

Conclusion

We have attempted briefly to give the attention of the press to the pertinent facts with reference to this sewer. We are confident that other taxpayers will be as pleased as we are.

We do not believe that this opportunity should not be permitted to go by.

It is possible to get government aid and thereby make this saving.

We believe that other taxpayers must be in accord with us in believing that this is the right thing to do.

We further desire to assure the taxpayers that the village of Barrington at this time is able to represent by its own officers and by its own taxpayers who are thoroughly acquainted with the details of municipal and special assessment work and sewer problems. There should be no apprehension for the village taking a wrong step through lack of proper legal and engineering advice.

We desire to assure the people of Barrington that the members of the present board are taking any action necessary in connection with this sewer problem. If our people do not desire to have this project carried out, we are willing to abide by their wishes. If urged, we will be glad to call an other public hearing on this project.

Respectfully submitted,

Elmer Stieke, President.

John J. Carroll, Trustee.

Hermon C. Kuhlman, Trustee.

John F. Dasecker, Trustee.

Australia Tree 250 Foot High
What is probably the largest tree in the world outside of California, which was found near Healesville in Victoria, Australia, is nearly 250 feet high, and its girth of 20 feet is easily spanned by 15 persons with outstretched arms and clasped hands.

Reason for Immediate Action

and only purpose of being

at this time is to give the taxpayers

of the federal aid offered by

the government

to finance work similar to

that already done

and agreed to act

therefore as to grant

the maximum amount of

the work. The saving, how-

ever, is not necessary for

the completion of this im-

provement at some

near the future cannot be

predicted. The improvement

will be for either the benefit

or by some rental house

owner of these methods of

financing the work will

not be less than 10 to 15 per-

cent necessary for

the completion of this im-

provement at the time

the village will have

an outlet from the

present sewer.

It is for this reason

that it will be

the quality of effort

putting any raw sewer

into the village in the

present case that the

construction of the

new sewer will be

done in a more

expensive manner

than the original

plan. The reason for

the high cost of the

improvement is

the cost of the

PROTECTION FOR BUSINESS MEN

Many business men who too often have been duped and swindled by "here today—gone tomorrow" fake advertising men and high-pressure scheme promoters might well take cognizance of a plan to protect Crystal Lake business men against the wiles of questionable itinerant salesmen adopted at a meeting there last week. A report of the meeting in the Crystal Lake Herald follows:

"Out-of-towners solicitors who seek to sell advertising space for menu-signs, tables, etc., and who seek to stage various events in which business men are asked to buy 'advertising' space will come under the close scrutiny of the Business Men's association, it was decided at a meeting of the organization Tuesday night."

"It was stated that in times past the association has been active in this regard, saving the merchants hundreds of dollars. The plan will be revived and every business man asked not to subscribe to any such plan unless the solicitor has a permit signed by the secretary of the association. This will give the merchants a ready excuse for not going in on such plans and solicitors that come into town where such a practice is followed, soon tie themselves away to other towns where the business men are more gullible. Churches are the only groups that will not come in under the plan."

"If every business man will ask one of the sleek solicitors for his permit, he will likely be annoyed very little by such schemers."

AUTUMN IS AT HAND

Autumn is at hand. Though the sun is warm and at mid-day the heat may remind one of August, there is a tang in the air that tells an observer it is not summer time. It may be warm today and tomorrow, but the change in weather comes suddenly and unexpectedly. The warm autumn days have been described as a mask for the other season.

As October opens, one is sure to find nature at its best. Trees still display much of their summer foliage, but it is beginning to wither and soon will fall as frosts come and grow more severe. The trees are getting ready for their long rest of the late fall and winter. Lawns that have not been burned by the heat of intense summer weather are still green, but, too, is deceptive of the seasons. Some grasses have their deepest colors during the fall.

October may be classed as the opening door into the winter which will soon be upon us. October may be hot and it may be cold, leaning a day or two in the directions toward August and in the other toward mid-November. October also is sure to provide plenty of pleasant outdoor weather, but it is the month which gives us intimations and strong ones of the winter which is not far away—Harvard Herald.

ONE GREAT DIFFERENCE

The history of the world thus far has been a tale of myriad fast-growing civilizations and modes of living which climbed to their peak, clung on for a time more or less unsteadily, and then plunged downward only to be succeeded by another plan.

And the parallels between the troubles which assailed those social systems and our own are numerous. The situations look perilously alike, except for one thing: the civilizations of the past had no newspapers worthy of that title as we use it today. No social system spread over the breadth of a continent however before so thoroughly informed of conditions and of the needs of the hour as is the United States today.

Complete and accurate information on business and political conditions and the astounding ability of the American to adjust himself quickly to suddenly changing conditions, as witness response to the NRA, give us in this day an advantage over all other social systems that have come to their "zero" hour—Independent, Waverly, Ia.

SMALL HOPE FOR WILL'S HOPE

While flying over Boulder dam on a recent air trip from Chicago to the coast, Will Rogers dropped off his daily message to newspapers. One of the remarks was:

"Hope they didn't irrigate more land so they can raise more things they can't sell, and will have to plow up more rows, and kill more pigs to keep 'em from becoming hogs."

Our political still talk glibly of pouring new millions into irrigation schemes to make more farms out of waste land and deserts, thus boosting over-production of agricultural crops, which another group of politicians will expect the taxpayers to pay for, by arming farm relief.

What we need is a child labor law to keep them from working their parents to death.

The best thing about a popular song is that it isn't popular very long.

"Happiness in life comes from appreciating the little things."—Edgar A. Guest.

WHAT'S GOING ON

An opinion rendered by Attorney General Homer S. Cummings to President Roosevelt on the validity of H. O. L. C. bonds disclosed that the attorney general and his colleagues have held regarding the constitutional right of congress to create the "Hoover" bonds. Local economists, however, have held that the bonds are for savings banks and savings and loan associations. In rendering his opinion, Attorney General Cummings stated that the constitutionality of the government's need to issue bonds to a corporation, Congress may employ public funds and use its borrowing power to assist home owners who are unable to obtain loans from private sources. This (the exchange of the corporation's bonds for home mortgages) constitutes a loan of the corporation's money to the home owner.

It is, therefore, my opinion that the bonds of the corporation, when issued, will be valid and constitutional. The purpose of the Home Loan Act of 1932, will constitute valid and binding obligations of the corporation. The corporation's bonds will be fully and unconditionally guaranteed by the United States; the bonds will be valid and the amount of the principal will be available for the payment of the principal when the Home Loan Act of 1932 is fully effective. Directly after this opinion was rendered several states issued bonds to the corporation. H. O. L. C. bonds would be eligible for the investment of savings banks, savings and loan associations and trust funds.

What is, if national prohibition is to be maintained, the best method of advertising news of its exit? December 5, 1933, is the "regular" birthday and all its little brothers' birthday, too. It is the birthday of the law in those states which do not have dry laws of their own. National prohibition will be valid, whenever 36 states ratify the amendment, and the first provided for in the Home Loan Act of 1932. Directly after this opinion was rendered several states issued bonds to the corporation. H. O. L. C. bonds would be eligible for the investment of savings banks, savings and loan associations and trust funds.

The administration of the United States' government in the control of alcohol beverages will return to the individual states the decision as to prohibition or non-prohibition of the sale of liquor in their manner of doing them. It would be up to each state to decide what to do about the sale of liquor in their state, counties or cities on the premises of the amount of hard liquor to be sold to each purchaser, curtailment of sales, and the sanitary other problems that have been the drinking question in this country.

It is a legal formality for the attorney general to issue the state department's permission by the secretary of state to make a proposal to the 18th amendment. The resolution of the state conventions by December 5, 1933, will be valid and the 18th amendment will be ratified.

The theme of the repeal movement says that when the 18th amendment is ratified, the states, Ohio, Pennsylvania, Indiana, Utah, hold ratification meetings, the required 36 states will be valid and their predictions come true, hard liquor and wines may be played on sale along with beer by legitimate dealers

some three weeks before Christmas and about a month before the convening of the congress which would fix the tax on newly legalized beverages.

More than one-half of the \$1,200,000,000 in public funds available to date has been spent on federal projects and \$163,841 is for federal projects and \$163,627,000 is for non-federal projects. Mr. E. L. Lewis stated that the administration has decided that the remainder of the fund shall go to non-federal projects. The amount of public funds available to date has been spent on federal projects and \$163,841 is for federal projects and \$163,627,000 is for non-federal projects.

Status of Grigsby May
Cause Big Argument

Arguments over the status of Rep. Grigsby of Blandingsville, may take up much of the time of the special session of the house of representatives. Grigsby's right to hold his seat will be challenged by republican members. It has been discovered that he was indebted to the state for gasoline taxes

which he, as a distributor, had collected but had not turned over to the state.

More Women than Men
After a long period in which the male population exceeded the female, in 1910 there were 900,000 more men than women, but that year, in the census of 1911 the proportions were 1,100 men to 1,000 women. The latest census returns show only 97 men to 1,000 women.
