LAKE ZURICH REVIEW

Suggest Seed Mixtures to Be Used in AAA Acres

With probably a hundred forage plants to choose from, Illinois farmers taking part in the AAA acreage and wheat adjustment programs have a singular opportunity to restore some of their old permanent pastures or seed new ones on the retired acres, reported J. A. Meyer, associate chief of the crop production at the College of Agriculture, University of Illinois. At least 25 of the crops are seed more or less commonly in the state.

To make the most of their opportunities farmers must select the ingredients for their pasture mixtures that are best adapted to the soil and that at the same time fit the needs of the grower.

Kentucky bluegrass is one of the most popular for pastures, explained Mr. Meyer, and is adapted to the better soils somewhat inclined to be sandy. Timothy has a wide adaptation for fertility and drainage in all parts of Illinois, while red top is a favorite on poor and acid land where other grasses find it difficult to get a start.

White clover is the most important permanent pasture legume but will not do well on poor, acid soil, while alfalfa will grow well on soil low in acid for alfalfa, sweet or red clover. In the southern two-thirds of the state Korean lespedeza may be substituted in pasture mixtures on soils too acid for alfalfa clover.

List Criticisms of New State Auto Licenses

Much of the delay in getting on the 1934 auto license plates has been due to the failure of applicants to send in their city cents for a certificate of ownership, as provided for by the law passed at the last regular session of the legislature. It was reported, this law was passed to reduce auto thefts in Chicago, where their insurance is eight times higher than it is in Milwaukee.

Before the title law went into effect, however, a special auto title court was set up in Chicago to deal with this type of title and the old rule that "anybody has a right to steal one car without going to the penitentiary" was set aside. Courts had been paroling all first offenders. This new court has cut auto thefts in Chicago by fifty per cent, more than was expected of the title registration law.

Another reason for the delay is that \$50,000 worth of mechanical devices purchased by the state two years ago to handle licenses has been scrapped. Entirely new devices have been installed at a reported cost of \$75,000 and without bids to handle the same work. Aids of the secretary of state, however, have been unable to operate the devices and an expert has now been called in.

Considerable complaint that the license plates, made in Joliet prison, are cracking within thirty days after being exposed to the weather, was reported. A poor grade of enamel is said to have been used as an economy measure to make up, in a way, for the \$75,000 spent for office devices to replace the \$50,000 worth which was scrapped after only two years use.

30 Spring Outfits to Be Displayed at M.E. Tea, Style Show Friday

Against a background of spring flowers and soft music, fifty spring outfits will be modeled at the Methodist church Friday afternoon and evening when 18 Harrington children, girls, and matrons from the local M.E. church will display a style show being sponsored by the Ladies Aid society of the church.

The models have been selected by a committee of the aid society assisted by Miss Irene Lipofsky. There will be two performances, starting at 2:30 and 8 p. m., and at the conclusion of each, dainty refreshments and tea will be served.

Musical numbers at the afternoon performance will include vocal solos by Miss Ethel Berghorn and a whistling act by Mrs. Lester Higgins who plays her own accordion accompaniment.

Miss Ethel, pianist, will provide the musical background for the show at both performances and in the evening A. Aiken will sing several solos and Mrs. Higgins will repeat the same numbers as in the afternoon. The program will include a whistling act by Mrs. Lester Higgins who plays her own accordion accompaniment.

Plans for a Palm Sunday program to be held at the Barrington school auditorium at 7:30 p. m. on Sunday, March 25, represent an addition to the usual union meetings held in Barrington during Holy Week. In past years, four of the local protestant churches have cooperated on evening services throughout the week but this year the school will join these churches for the observance of Palm Sunday.

Tentative arrangements for that week include services at the Methodist church from 1 to 3 p. m. Good Friday with pastors from each of the four churches taking charge of half-hour periods so that people may feel free to come and go. It is expected that local business houses will be closed during these hours, as in past years.

Union meetings will be held at Salem church Tuesday evening, March 26, at the Baptist church Wednesday, and at St. Paul church Thursday. A complete account of speakers and their subjects will be given in The Review next week.

Rev. Charles Drussel, secretary of the Bar-Wood Minister's Union, is in charge of arrangements.

Paganini Buried Eight Times

Paganini, immortal by reason of his music, died of tuberculosis in his sixtieth year in the city of Turin, Italy, on the 27th of March, 1840. Due to his eccentric actions, so often an attribute of genius, Paganini had placed himself outside his church, and so failed to receive his last rites in his closing hours. The day after his death the body was removed to a cellar in the Rue Nico. Reburied, and again on the following day to a private apartment in a hospital in Nice. Thus within a week all that was mortal of one of the world's greatest violinists had well begun its varied pilgrimage and was buried eight times.

trudging to the ship single file, each receiving a brass token as she passed the teller. At the end of the day, the women cashed in their chips. They earned about one cent per basket (each weighed about 125 lbs.) and their total income for the day was around 48 cents, high wages on the island, according to Mr. Catlow. The average wage is 20 to 24 cents per day.

While there, Mr. Catlow gave an organ recital at the Anglican church for the friends with whom he spent happy days sightseeing, swimming, visiting neighboring islands, and being entertained at magnificent "estates" or plantations.

"I was especially interested in seeing cocoa and coffee trees, nutmeg and cinnamon, bread fruit, mango and the 'bay-rum' tree, as well as the smaller plants, ginger, vanilla and a variety of yams which take the place of Irish potatoes in the native cuisine," said Mr. Catlow.

Before starting home, Mr. Catlow completed his cruise of the West Indies, stopping at the Virgin, Dutch, French, and British West Indies, from St. Thomas to Trinidad, and returned to the United States with a memory of waving palms, blue waters, peaceful, perfect days.

Talk by Ornithologist

Orpheus Schantz, well known ornithologist, spoke of his own interesting experiences in bird watching at a meeting of the Barrington Bird club held at the Rouben Plazze home, 545 Grove avenue, last Thursday evening and promised to attend the May meeting of the organization and sing some of the bird verses he has written and arranged to familiar melodies. As musical numbers for the program Thursday, Mr. George Cameron sang several beautiful selections, including one of Mr. Schantz's bird songs. Karl Weichelt played the piano accompaniment. Refreshments were served by Mrs. Plazze and the assistant hostesses, Mrs. C. Macdowell and Miss Marion Schroeder, at the conclusion of the meeting.

Lenses of Spectograph Must Be Made of Quartz

The spectograph is an optical instrument which splits up light into its constituent colors. White light, as Newton showed long ago, is a mixture of colors—violet, indigo, blue, green, yellow, orange and red—and the spectograph breaks up the sun's rays into these rainbow tints in that order.

The prisms and lenses of this instrument, says a writer in The New York Times, must be of quartz, as glass will not allow the ultra-violet rays to pass. Pieces of quartz suitable for this delicate work are very expensive, as out of many tons of this mineral few pieces are suitable.

Newton only knew what he could see, but the camera sees much more—a range of color hidden from the human eye. Chemists working on the dyestuffs of the fact that a small alteration in the molecular grouping of a dye causes a big change in color, which means that the absorption of light by dye is due to chemical structure.

"In the same way analysis with rays beyond the violet we see named ultra-violet rays, show that many substances, colorless to the eye, actually absorb ultra-violet light, and the precise measurement of the absorption helps to solve the problem of their chemical structure."

Waterpout in Action

Waterpout is the name of the funnel-shaped cloud of the tornado when it occurs at sea. It is caused by opposite winds of different temperature meeting in the upper atmosphere. Atmospheric pressure being lowest at the center of the storm the winds tend to rush inwards the center but are diverted by the rotation of the earth and twist rapidly around the center in a counterclockwise direction (if it is in the northern hemisphere, clockwise if in the southern). A partial vacuum is created in the center which draws the water up in its vortex. It runs its course quickly, seldom lasting more than a half hour.—Patindler Magazine.

Demand for Panama Hats

Ecuador's leading industry is the so-called "Panama" hat. So great is the demand that the manufacturers are never able to fully supply it.

When death visits a home, the first concern is to perform the last rites of the loved one in a becoming manner.

Whatever is done must express all the reverence and affection which is felt at such a time. But in addition to this, a further responsibility rests upon the funeral director. It is his privilege and duty to lessen their sorrow, as far as lies within his power, and by courteous little acts of thoughtfulness make the way easier for them.

We consider this part of our work as important as any other. Our highest aim is to have our patrons look upon us as trusted friends who are ready and anxious to serve in any possible way.

The Moon's Path

The earth does not describe an ellipse about the sun, asserts an astronomer. The center of gravity (the point of balance) of the earth and moon describes the ellipse. The earth zig-zags on either side of this path in 29½ days (the interval of time from one full moon to the next full moon). At the time of full moon, the center of the earth is 2,880 miles inside of this path and on the next full moon 2,880 miles outside the path. The moon performs much like the earth but by being smaller than the earth, the amount of deviation from the elliptical path of the center of gravity is much greater. At the time of full moon the moon is 233,000 miles outside of the path, and at the time of new moon, 230,000 miles inside of the path.

Mrs. George H. Selfridge Stricken While Visiting Daughter at Tampa, Fla.

Mrs. George H. Selfridge, who left Barrington with her husband a few weeks ago to visit their daughter, Mrs. Thomas Williams, at Tampa, Fla., died suddenly at her daughter's home Tuesday morning. Burial was to take place at Tampa Thursday, the message stated.

The Selfridges had been residents of Barrington for several years and made their home at 210 W. Main street. They motored to Tampa about a month ago and had been enjoying a pleasant vacation with their daughter, Isabel, when Mrs. Selfridge became ill. Death was caused by encephalitis, it was reported.

WE'LL EAT OUR CAKE

Human nature is hard to understand. An individual wants to save money and eventually become financially independent, but he refuses to economize.

A group of citizens demand that their elected representatives practice economy in running their government, and then how hungry wolves if the representatives eliminate any form of service in an effort to reduce expenses.

Specifically, the village of Barrington is indebted to the Public Service company some seven thousand dollars for past electric street lighting. The residents of Barrington and particularly the property owners wanted economy and elected trustees who promised to practice economy. A few weeks ago the board of trustees decided to have all street and ornamental lights in the village turned off at 2 o'clock each morning to effect an annual saving of about \$1100 in round figures.

Within two weeks after the lights were turned off, a petition asking that lighting be restored for the full dusk to dawn period each night was circulated through the business district. The majority of local merchants signed it. The matter was taken up at the Lions club, and a resolution to the board that the lights be turned on again was adopted without a dissenting vote. If any members opposed the resolution, they kept quiet. Two citizens, both substantial residence property owners, appeared at the board meeting Monday night to urge that the lights be kept on all night.

The board succumbed to the combined pressure and restored the full lighting service. The chief argument for all night lighting was that one about "the best insurance against robbery." But no matter what economical step is attempted, convincing arguments against it can be presented.

The moral of this, if there is any, is that the property owners can "eat their cake" if they want to and "have it" as long as it lasts.

YOUR CHANCE TO HELP

Once again, let us call to the attention of property owners of Barrington township the fact that you can save money for yourselves and community and help keep your school teachers, policemen, and other public servants paid promptly if you will pay your personal and real estate taxes in Barrington before the first of April while the tax books are still here.

If you wait until after the books are sent to the county treasurer, you must take your money to the Cook county court house in person or send a representative at considerable inconvenience and waste of time.

The money paid in Chicago will be doled out to the various public bodies at the convenience of the county officials. Your village, your school, your town, your park district may wait a good many months before their respective shares of your tax dollars are forwarded from the county treasurer's office. In the meantime, your elected home officials need money to operate the schools, village, etc., and necessarily must borrow on tax anticipation warrants. This step necessitates the payment of interest. If the officials are unable to borrow on tax anticipation warrants, the police, teachers, and other persons employed by your community may have to wait for their pay envelopes. This means that landlords and merchants will have to wait for their pay from the public employes.

Pay your local tax collector before April 1 and avoid these added expenses, delays, and other inconveniences. The local tax collector pays the school treasurer, the village treasurer, the town treasurer and the park district treasurer their full shares of all tax money that comes directly to his office. Then he sends the balance to the county treasurer. Consequently there is no possibility of this money being held up in Chicago.

This situation does not apply in Lake county where taxes are mailed directly to the county treasurer.

LEST WE FORGET

In these days of business recovery when many of us who have known the pinch of poverty are again able to bring home the welcome pay envelope, let us not forget the man who befriended us when we most needed friendship—the merchant who extended us credit when he knew we just didn't have the money to pay or the landlord who was lenient with our rent.

It is easy to avoid the man to whom we owe money, but it is not right to do so.

Our local merchant or landlord, undoubtedly extended credit as a friendly act. He will be reasonable in arranging payment. Let us show our gratitude, walk in and shake hands, and pay what we can on that old bill.—Record, Brunswick, Maine.

EDITORIAL SHORTS

If, as the physiologists say, soft foods are changing the contour of the human chin, what's the unremitting application of hard grindstone going to do to the human nose?—Arkansas Gazette.

A whole page could be used in listing the advantages of these days over the "good old days." And yet you'll still hear people actually sighing for a return of those "good old days." It's a funny world.

WHAT'S GOING ON IN WASHINGTON

Secretary of the Treasury Henry Morgenthau, Jr., thinks the work of representatives has hit upon a painless way of extracting from 150 and 250 million dollars from the country's taxpayers. Appearing before the senate finance committee March 6 when it had a new tax bill under consideration, Secretary Morgenthau said that the proposed tax law would save the government's revenues in an amount satisfactory to President Roosevelt and not impose any additional tax burden to ways and means committee. "No taxpayer can legitimately complain of these charges," Secretary Morgenthau said discussing the proposed tax law, "since they result in a more equitable distribution of the tax burden over those who are best able to sustain it." The tax bill, drafted by the house ways and means committee with the assistance of treasury experts, aims primarily at plugging loopholes in the present income tax law. The rate structure also is revised and simplified in a manner calculated to place a large share of the tax on dividends and partially tax-exempt income.

Enrollment at State Institutions Now 47,203

Illinois' twenty-seven penal and reformatory institutions have a present population of 47,203, according to a report made to Gov. Henry Horner by A. L. Bowen, director of the state department of public welfare. The figure, compared with last year's 46,151, shows a net increase of 1052.

The fact that almost ninety per cent of the annual increase represents mental and nervous cases, Director Bowen said, emphasizes the importance of Governor Horner's recent action in appointing a state psychiatric hospital, composed of representatives from each of the four medical colleges of Illinois, to cooperate with the welfare department in the study and prevention of mental and nervous disorders.

"The administration's objectives in this movement," Mr. Bowen explained, "include the streamlining of student instruction, improvement of the quality of medical men, and popular education. The annual increase in the number of this type received into state institutions, devoted to that phase of public welfare, has been almost double the number of years, and forcefully points to the necessity for a comprehensive program, such as Governor Horner has inaugurated, to cope more effectively with this problem."

The total enrollment at the state institutions on February 1, reached 47,203, the director's report revealed. The difference between enrollment and resident population is accounted for by prisoners on parole and absences on furlough from old soldiers' homes. Preliminary investigations looking toward possible construction of an addition to the Stateville penitentiary have been initiated by the Department of Public Welfare, according to a report submitted to Governor Henry Horner by A. L. Bowen, director of the welfare department. Overcrowding at both Stateville and the old penitentiary has reached the point where larger facilities must be provided as soon as possible, Director Bowen declared. "At the present time," he said, "there are 3000 prisoners in Stateville, the normal capacity of which is 2000, and the old penitentiary, built to house more than a thousand inmates, now has a population of 1822. These figures indicate the imperative necessity for an early program of expansion at Stateville. A new unit should be erected to accommodate at least 1500 prisoners at the start, with provisions for taking care of an additional thousand when required."

Barrington Hills

Among the many week-end visitors in Barrington were Mr. and Mrs. Harold Pynchon who spent the week-end with the Robert Buckleys. Mrs. Pynchon is better known to the literary world as Adeline Atwater. Mr. and Mrs. Pynchon spent last week-end at Lake. This week Mrs. Pynchon's daughter is co-starred with Edmund Lowe at the Palace theatre.

Mr. and Mrs. Ernest Hughes entertained Saturday night in honor of their week-end guests Mr. and Mrs. Hathaway Watson. Then there was the barn party of Mr. and Mrs. Richmond Keyes Saturday night given in honor of Mr. and Mrs. Leonard Price and Mr. Bert Mellin who has returned after two years in Malacca. Both were well remembered in Barrington where they spent several summers. Mr. and Mrs. John Kennedy gave a breakfast for their Sunday dinner Wednesday before breakfast. This is to be the last meeting until next fall.

Mrs. Helen Rossing's next reading will be held at the home of Mrs. Robert Buckley March 21 on the same day Mr. and Mrs. C. H. Canby will be sailing from Geneva homebound after six weeks on the Mediterranean.

A great many friends of St. and Mrs. Norris Bokum were in town Thursday for the wedding of their daughter Doris to Newton King at St. Chrysostom's church.

Robert Hilton arrived home Monday after a trip of five weeks through the west. He came home by way of Phoenix and the southern states.

St. Thomas, Virgin Islands.
St. Thomas, Virgin Islands, was once called the Gibraltar of the Caribbean and now holds military interest. As it virtually commands one of the most important waterways in the world, it is a strategic point. St. Thomas is the home of the bay rum industry, but the trees grow on a neighboring island. Here the work of cooling steamers is done by volcanoes, each carrying a basket of coal nicely balanced upon her head.Quicksand
Quicksand is the most treacherous soil because it cannot be distinguished at first. Its danger is well illustrated by an accident in Colorado in 1875 when a whole tribe fell into a tract of it and sank to a depth of 50 feet.—Chicago Weekly.

Elgin Takes Close Game From Bronks in District Tourney

Methodists Earn Third Honors by Sinking St. Anne 35 to 18

A highly-touted Elgin high basketball team had to turn on all its power to defeat the Barrington Bronches in the district tournament held at Crystal Lake last week.

Elgin triumphed by the slim margin of 29 to 26 after the Bronks had led most of the way and seemed on the verge of creating a major upset. The local high school quintet led by Conn and Eiters fought the big Elgin team on even terms all through the game and with a little more luck on shots would have turned the trick. This was the final contest of the year for the maroon and white team, and five seniors, Uhlrich, Brandt, Capilli, Rowland, and Melners were in suit for the last time as Broncho cagers.

Dundee won the tourney championship by beating Huntley 37 to 24 in the final game Saturday night. Huntley had reached the finals by turning in the big upset of the week-end—a 25 to 24 victory over Elgin in the semi-finals. Led by "Spider" Anderson, a slim sharpshooting forward, the Huntley aggregation was the surprise of the tournament and almost tripped Dundee in the title game.

Palatine and Arlington of the Northwest conference put up good battles before being eliminated in the second round. Palatine lost to Huntley, 31 to 28, and Heights fell before Dundee, 36 to 27.

The Libertyville Wildcats turned in the best performance of the conference schools by taking second in the Libertyville district meet. The Wildcats knocked off Waukegan 33 to 28 and Deerfield-Shields, 23 to 18 and only lost 29 to 32 to Malone (Des Plaines) in the championship game. The 16 sectional winners all over the state, go to Champaign next week to decide the 1934 state championship.

Branches to Take in State Cage Finals at Champaign Next Week

With their own basketball campaign finished the Bronches are planning to turn around and become spectators for a change by taking in the state cage finals at Champaign the week of March 24.

The Bronks earned money to take a playing trip during the Christmas holidays but did not go and it is planned to use this money to finance the trip to Champaign.

serve for three years, two directors to serve for two years, and two to serve for one year. The by-laws provide that there shall be not less than seven nor more than eleven directors.

An institution offering local persons through stock investments in the association and loans for buildings, purchasing or refinancing mortgages on homes comprise the two-fold purpose of the organization. It is planned to build up a capital stock for investment of \$25,000. As the association is eligible for federal loans through the Federal Home Loan bank of Chicago equal to the paid-in capital stock, the association will have a total loan fund of \$50,000 when the present capital stock structure is completed. Loans will be made on the direct reduction plan.

Three types of stock shares will be sold including installment (third), optional savings and pre-paid.

Lightning Called "Lary"
Lightning on its path to the ground can be called "lary," for it seeks the path of least electrical resistance. Since most materials used by man in building construction have less resistance than air, lightning commonly prefers to strike a home top and go through it rather than down the air outside. The ability of high class structures to act as super lightning rods arises from their steel girder construction, which eventually enters the ground and through which the lightning passes harmlessly.

Chester, Nova Scotia
Chester, one of the watering places of Nova Scotia, settled in 1790 by families from New England, is situated on a peninsula at the head of Mahone bay with its colorful islands, whose harbors and coves were in the early days the rendezvous for pirates and the black-sailing craft flying the black flag. It is on oak island, only four miles from Chester, that the notorious Captain Kidd is said to have buried treasure, and although many have searched for it for years, it has remained buried to this day.

Denmark's Throne
The laws of Denmark provide for the succession of the sons commencing with the oldest after the death of the royal father; the succession in the event of a direct male heir, descending to the son's son. In the case of the minority of the heir it was quite common in early times for a regency to be declared, and many times such regency actually resulted in the seizing of the throne by the regent and the deposement of the real heir.

Reindeer Digs Own Food
The reindeer secures its food in winter by digging up the reindeer moss with its forefeet in the snow.

Latta Tops Bronk Scoring With 126 Points for Season

Eugene Latta, sophomore center, was the leading scorer of the Broncho basketball team in the season just ended with a total of 126 points. He was closely followed by Earl Etters who counted 113 and Claude Conn who made 102 points. In 18 games the Bronchos scored 539 points, an average of almost 30 points a game while their opponents totaled 410, an average of 22 1/2 points per game. The Broncho cagers had a very successful season as a team winning 14 and losing only 4 games meanwhile cutting in on their second Northwest conference championship under Coach P. E. Clark. Five regulars, Conn, Etters, Latta, Workman, and Mollenkamp, will be back next year and it looks like another good season in 1934-35. Rowland, McFarls, Brandt, Elrich, Capilli, and Altonburg will be lost by graduation. Pollock is the individual scorer for the season.

Advise Relief Men to Register With Clerk of Village

CWA Will Disband in Week; Needs May Get FERA Jobs

With many needy persons already out of work because of the gradual cutting down of CWA and with others facing the prospect of no work when the entire CWA is disbanded the last of next week, it is underway to "take care of the most needy men of the community through the federal emergency relief administration. All persons on relief should file their names with the village clerk, village president Elden Gleske, advised. It is probable that these men will be put on FERA work if any develop.

According to present indications the village hall project will not be completed until after about the first of April. The job of the CWA may not be completed until April 15. Those who will be relieved through the federal emergency relief, which means that the most needy men will be left on the force.

A letter from CWA headquarters in Chicago, received by Corbin Gleske, local CWA official, advised men not to go to the city relief stations to ask for PWA work. The relief stations have nothing to do with PWA. The letter advised that dismissed CWA workers enroll with the national unemployment service which will do everything possible to find them jobs. They can apply directly to contractors hired for PWA projects. Some of these contractors hire only union men, but non-union jobs are also being done by PWA. The chief resource of dismissed CWA workers who are not eligible for relief lies in the returning activity of business in general.

Local P.T.A. Makes Final Effort to Survive; Will Hold Elections Monday

That pathetic infant, the local Parent-Teacher association, which started life with a lusty cry, gained strength for a short time, and then an attack of lethargy, despite the vigilance of a few devoted relatives including the association of officers, has shown signs of passing into the by-gone. It is to reach a crisis in its young life Monday afternoon when the 25 paid-up members of the organization rather to elect officers and elect methods of injecting pep and vitality into its young system in sufficient quantities to assure survival.

A business meeting in the form of a consultation to determine the means to strengthen its vitality will be held in connection with election of officers, according to those in charge. All parents of local children are eligible to join and have been urged to pay their dues and take part in these last efforts to effect an organization which has become a vital force in the community. It was reported.

The meeting will be held at the school building at 2:30 p. m. Monday.

George Wichman Dies at Hospital in Elgin Thursday

George Wichman, 23 year old son of Mr. and Mrs. Edmund Wichman died early Thursday morning after an illness of six or seven weeks. He had suffered from a severe breakdown, followed by an acute infection which resulted in death.

George and his twin brother Henry were born in Barrington December 9, 1911 and were raised and educated in the village. For the past few years, George conducted a plumbing business. He attended St. Paul's church and was a popular member of the younger set. He is survived by his parents and four brothers, Jack, Ray, Henry and Edmund.

Funeral services will be held Sunday at 1:30 p. m. at the home and 2 o'clock at St. Paul's church. Reverend Hermann Koening will officiate.

Attend Meet at Dundee
Fourteen members of the Royal Neighbors society attended "stunt night" at the Golden Rule hall at Dundee Thursday evening.
