CHICAGO & NORTH WESTERN RY.

We have eliminated "Guesswork" by installing the Scientific SUN MOTOR TESTER.

With this instrument all electrical and mechanical units are checked scientifically and accurately.

Mechanics or engineers are not magicians. They cannot tell for sure what is wrong with a motor, or tune it to its highest efficiency by merely listening to it or "driving it around the block."

We do not GUESS your motor. In order to better serve you we have installed the SUN MOTOR TESTER and invite you to come and see it in opera-tion—see how it systematically goes over your motor and locates troubles that are costing you money every day.

IF YOUR MOTOR

YOUR MOTOR.

Is hard to start...

Stops in traffic...

Lacks power, pep, or speed...

Uses too much gas...

Vibrates and runs roughly...

Misses at either high or low speed...

Visit our friendly service station and have it diagnosed with the SUN MOTOR TESTER, Free. The day and age of "try this and try that" is past.
