Carpenters under the IER who have been working at Barrington public school for the past few weeks will complete their local duties today, it was reported. They have been working on the two basements as well as work on vestibule doors and are now busy with repairs. Laborers are working on sewer connections between the street and proposed new school building. This work that things will be ready for work to proceed on the new boiler room as soon as the project is approved at IER headquarters.

Twenty-four IER workers at school now include a man and a woman employed to do library and clerical work. The playground supervisor was recalled, IER ruling permits instructors for the past several years. For the reason that the idea of organized French classes was relinquished, it was reported, the original purpose having been to form classes in conversational French as an extracurricular activity for local high school pupils.

The total amount collected on the 1932 tax extension was \$45,000. This included \$10,971.62 extension on real estate and \$18,561.49 on personal property.

The collection, therefore, was more than one-third of the total amount collected in the past three years. Total collections locally have amounted to about one-third of the extensions. Before that local collections amounted to more than one-half the possible total.

The first course in elements of scouting is being attended by Orville Weente, Herman Koenig, Donald Schroeder, Chris Schmitz, John K. Johnson, John Barrington and others. The course is being held at the National Restaurant Mart in Chicago Wednesday and Thursday of this week.

The second course in elements of scouting is being attended by Edward Weber, formerly of Palatine. It is found that Weber is a member of the local council of the National Restaurant Mart in Chicago Wednesday and Thursday of this week.

Edward Weber, a former leader of Palatine, was elected to the position of chairman of the council, and his home is parked at the corner of Main and Rockwell streets, Chicago, early Saturday morning. Summerville police, who made the discovery, advanced the theory that he had shot himself Friday evening, it was reported. Funeral services were held in Chicago Tuesday.

Mr. Weber had been active in the real estate business several years ago and instrumental in developing "Washington Highlands," a subdivision east of Palatine. Later he conducted an oil station at Palatine. The family moved to Chicago last October and he was engaged in business as a salesman. He is survived by his wife Hattie, and one son, Edward Jr.

What clean, automatic gas heat has done
for Mrs. J. M. West, 213 W. 15th
Place, Chicago Heights

LOOK into the basement of a typical gas heated home—see what happens when soot, dirt, and furnace mess have been eliminated! Like Mrs. West's, thousands of homeowners now have clean basement playrooms, workrooms, game rooms—due to gas heat.

Imagine your own basement rid of the coal bin—rid of dirty ash buckets and furnace mess. Perhaps a game room, where the children are out of the way. Now that gas heating rates are so low, it is pure folly to delay any longer. Think of it—gas heating rates are now only half of what they were during the 1930-31 heating season.

You invest nothing to try
And you can try gas heat without investing
one cent! We will install a burner in your
present furnace or boiler at our own
expense.

Don't delay! You never will regret accepting this liberal offer on gas heat. Call your nearest Public Service office for full information.

expense. You pay only the rental on the equipment, which amounts to \$3 a month in the average home. The charge is included with the bill for the gas you use. You try it for a month, two months, a year. And if within the year you find that you are not completely satisfied with gas, we will take it out at our expense and replace your former heating equipment in good workmanlike order. But if you decide to keep gas heat—as we think you will—the rental you have paid applies on the purchase price of the equipment.

Act now!

You Never Have to Order Gas

You never have to order gas—it is always under orders to serve you.

Morning, noon, and night it is at your command.

Show you how to stock your larder for the week end, and should extra heat be required unexpectedly, you might have to scurry around to meet unforeseen demands.

Not to get gas heat.

Public Service Company of Northern Illinois has learned to anticipate your demands for fuel and how to meet them.

For most of its customers, Sunday and holiday meals are devoted to your service. Day in and day out, through rain, sleet and snow, these workers are busy in order that an unfailing supply of gas flows to you instantly at your command.

Gas heat can be installed in your home without allowing the house to cool off.

STARTLING TRIAL OFFER!
To prove that every home can afford to heat with gas, we'll install it at our expense... and remove it at our expense, if you don't like it.

YOU INVEST NOTHING!
Without ONE CENT of investment by you, we install the most modern burner in your furnace or boiler. If you are not satisfied with the sole judge—out it comes and your former heating system goes back in. AT OUR EXPENSE. We make this offer because of our confidence in the perfection of gas heat.

Mrs. West's basement kindergarten room is spic and span—thanks to gas heat. "And gas heat keeps the house right at the temperature we want it, night and day," says Mrs. West.

SOME THINGS WE'VE FOUND OUT ABOUT TAXES

One of the strange whims of public psychology in this country is the fallacious belief that taxes are paid by the other fellow!

We read with interest in our newspaper that some millionaire had paid \$50,000 in income taxes, and congratulate ourselves that our own income tax bill is only a few dollars. If we would stop and figure it out, we might discover that \$50,000 was only a small amount compared to that millionaire's income, while the amount we paid proportionately was much larger.

We read of high taxes in another state, and again extend congratulations to ourselves that we are getting off so cheaply. But that "high" tax may have represented the total or a large part of the taxes paid, while we pay a number of taxes, each small in amount, but actually totalling more than those of our neighbors.

Then there are special levies, like the federal gasoline tax. Some of us think this is paid by the gasoline companies. It isn't; it is paid by each of us every time we buy gasoline. Perhaps we think it is small because the tax rate is only a cent a gallon. But that means \$6 a year to the average motorist, and while \$6 in itself isn't so much, it is really \$6 added to an average of \$25 in state gasoline taxes, plus state registration fees, drivers' licenses, property taxes, lubricating oil taxes, wheel taxes, and others.

All in one we buy our car over again in taxes about every four years. Some demon statistician has figured that in the life of the average car, seven years, taxes upon it amount to 18.6% per cent of its value. In fact, the total tax rate on the average car today is estimated at 26.7 per cent of value!

If the average taxpayer fully was aware of these facts and realized how much taxes really cost him, it is probable he would be in sympathy with this current movement to eliminate federal taxes upon gasoline. Of course, it isn't what anyone would call substantial tax reduction, but it represents a saving and it probably is the only kind of tax reduction the federal government can afford to give the people this year.

WHAT'S GOING ON IN WASHINGTON

Congress is becoming more and more conservative every day, and the election is only held in November in which all the experiments of the new deal will be on trial. This means that differences of opinion now will arise between what the president thinks the public wants and what congress believes will be popular at the polls. Unfortunately for the congressman, Mr. Roosevelt is not going to be the only one to write letters asking the people to reelect just democrats. So the candidates of the president's party must depend on what they can do themselves as campaigners and they must have an eye on what the rival candidates will say and do. The veterans issue was a case in point. Mr. Roosevelt will be a temporary solution or compromise to offer but it came too late—the members had committed themselves on the first vote.

A new stage in the life of the national recovery administration now does not have to be reached. It is a rather prosaic period when thoughtful and careful administrators will endeavor to smooth out enforcement procedure, and will try to make the new system of industrial self-government work quietly and with a minimum of friction. In that connection, much significance is attached to the report that Gen. Hugh Johnson, administration and organizer of NRA, will receive a new commission from President Roosevelt. He is slated to take over a nation-wide drive for new housing in an attempt to break the remaining log-jam of the depression—that which has the capitalist goods industry tied up.

Stepping up into a position of prominence in the coming job of real enforcement of codes is W. Averill Harriman, young and tactful member of the railroad family. Whether he would occupy the position now filled by Gen. Hugh Johnson is questionable. But his is to be the task of obtaining compliance with the multitude of provisions of hundreds

HARRY A. HALL

REPUBLICAN CANDIDATE FOR COUNTY JUDGE

TO THE VOTERS OF LAKE COUNTY:

The Committee on Professional Ethics of the State Bar Association of Illinois has issued an opinion condemning the practice which now exists in this and other Counties, of the County Judge engaging in the private practice of law. The code of ethics of the State Bar Association also opposes the practice of law by a judge in such cases.

If elected County Judge I will be guided by said opinion and will not maintain a private office, nor engage in the practice of law, but will devote all of my time to the duties of County Judge. This will permit me, if elected, to co-operate with the other members of the Circuit Court by requesting the transfer of the County Court of all appeals from the Justices of the Peace, and I will recommend that all such appeals be taken to the County Court in the future.

This will remove from the Circuit Court hundreds of minor cases and permit the Circuit Judge to devote his time to the more important matters pending before him.

Your vote and support respectfully solicited.

HARRY A. HALL

The Melodie Glee club from the Illinois Teachers' Training College of DeKalb will present a 45-minute program at 8:45 p. m. Friday night at the Catlow theatre. There are thirty members in the club. Among these are Willard Gleske and Barnell Landwehr, two local young men. The screen feature for the evening is built around Paramount's international

public life of the world's greatest dancer.

It presents George Raft in a role that fits him perfectly, a rollicking, carefree, adventurous fellow who climbs to success on a ladder of women's hearts. A Clark and McCullough comedy, descriptive news reel and community singing complete the Sunday-Monday program.

The popular George O'Brien is starred in the bargain night picture, "Ever Since Eve," which will play the Catlow next Tuesday.

Many Candidates, No Campaign for Village Election

Ten Men Seek Positions of Trustee; Three for Village Clerk

Village election next Tuesday will be peculiarly quiet as compared with elections of previous years due to a lack of ticket leagues and other forms of political cooperation, unless something unforeseen develops with the next three days.

The election next year appears to be equally as quiet an affair of individualism individualism. It has been free from mud-slinging. Over shadowed by the county and state primaries, the election has not commanded much attention, but eleven hour interest probably will develop.

The polling place will be the Standard Garage on Ra road east of town. The polls will open from 6 a. m. to 5 p. m.

A brief review of the candidates follows:

Village Clerk

A. C. Burandt has served clerk for four years and has had experience as adjutant of the Barrington post. American Legion. He is owner of Burandt Book store.

D. B. Pomeroy was village trustee for two years. He served as assistant paving bond investigating committee and on other important committees. He is part owner of the Barrington Reli Mills for many years.

A. T. Ulrich, had many years of experience as assistant cashier of the First State Bank. He has never before been a candidate for office.

Village Trustee

John W. Blaikie is a candidate for office of trustee a year ago. Although not elected, he was given a large vote. Blaikie is editor of a technical engineering magazine.

John J. Carroll has been a trustee for four years. He made careful study of the paving situation in an effort to protect his voters. Mr. Carroll is a U. N. W. railroad engineer and had several years experience secretary of his trade association.

J. C. Caldwellader served village for several terms as clerk and later as president of the
