## 36 Winners Get Awards in Local Water Tourney

Contest, Free-Style and Relay Races Are Chief Events

The annual water tourney, which was held at Barrington, Ill., on Sunday, August 19, drew a large crowd of spectators to the North Park swimming pool. The contest, which was held in a novel way, featured a variety of events, including free-style and relay races. The winners of the contest were as follows: Free-Style—First, Joyce Lyons; Second, William Collins; Third, Van Hagen. Relay—First, Collins; Second, Lyons; Third, Hagen.

ADM. 10c & 30c

## Jewel Tea Net Earnings for 26 Weeks More Than Doubled Over Last Year

Jewel Tea Co., Inc. reports consolidated net earnings for the 26 weeks ending July 14 of \$702,641.83 or \$2.51 per share on 280,000 shares, after provision for federal income taxes, depreciation, and all other operating charges. In the same weeks of 1932 earnings amounted to \$305,637.75 or \$1.09 per share. Improvement of 21.65 per cent in sales is attributed almost entirely to serving more customers, for selling prices were only slightly higher than a year ago, the report said. On July 14 the company was operating 1526 units. The balance sheet shows net working capital of \$2,935,358.24 and a ratio of current assets to current liabilities of 4.20 to 1. Total inventories are 23.81 per cent higher than on July 15, 1932. The marketable securities account includes following at market prices on July 14, 1934: U.S. government obligations of \$1,001,727.50, state and municipal securities of \$112,087.81, and corporation and miscellaneous bonds of \$573,333.50. Congress and the various state legislatures continued to increase the tax burden during the first half of 1934. In that period taxes on this company \$343,921.15, an increase of \$187,243.11, or 119.59 per cent compared with the same weeks in 1933. Tax payments in the first half of 1934 amounted to \$1.23 per share.

## Reviews History of Jewel and N. Hough St. Sewer Installation Case

Following is a letter in part from R. H. Hilton, Vice President of Jewel Tea Co. relative to the history of the Gjeliefeld or North Hough street sewer. Mr. Hilton wrote this to J. H. D. Blake, chairman of the sewer and water committee of the village board at the request of Mr. Blake who prepared a comprehensive report on the subject. "I shall be glad to set down for you my recollection of the steps and incidents involved in the construction and arrangement of the lift station on North Hough street in connection with the sewer outlet from Jewel park. I should like to point out, however, that these are recollections only, and there is nothing concrete or authoritative in the files to substantiate them. To the best of my knowledge, however, they are the facts, and I give them to you for helping the village to correct its situation.

You will recall the plans of both the village board and the village engineers during 1929 to provide a sewer system which would take care in the south and north portions of the village, not then serviced by the sanitary sewage outlets, which would be connected up with a new unit at the disposal plant. If I am not mistaken, this program was undertaken at this time because of the application of the Jewel Tea Co., Inc. for an outlet for its plant and residential subdivision, the village board feeling that this was the time to extend its service to the outlying portions of the town. At the same time it was providing an outlet for Jewel park. At that time, having attended a board meeting or hearing at which this plan was laid before the village. A number of us appeared at that meeting and spoke for or against the proposed plan. Prospective residents of Jewel park appeared for themselves, and I appeared for the company, were, of course, all in favor of the plan. . . .

"At this time, the Jewel Tea

company retained as its engineers to take care of its development. Subr. Herrman, Peterson and Subr. who were also village engineers. Our principal reason for retaining these engineers was because we felt that the best interests of the village as well as those of the company would be best served by doing, since these engineers had a sympathetic understanding of all the problems of both. . . .

"As is well known to you, there was at that time going on in the courts controversy between the village and the Barrington Hills Country club over the sewer situation as a whole. We were never formally advised, although it came to us by word of mouth, that not only had the Barrington Hills Country club objected to the unit of the disposal plant being constructed emptying into Flint creek, but also that a neighbor of ours to the south had objected to giving an easement for the sewer lines to pass through his property. It soon developed, therefore, that the village had abandoned the construction of other parts of the proposed sewer lines and that the only parts which were to be completed were those contracts which had been let by the Jewel Tea Co., Inc., as an individual. The disposal plant and the outlet line connecting it with Jewel park were abandoned.

"In the fall of 1929, some thirteen homes were constructed in Jewel park and were to be occupied that fall. The Jewel Tea company building was under construction but was not yet completed until the following spring. In the fall, it came to our attention that no outlet had been provided for Jewel park sewers and that apparently there were no plans under way to provide such an outlet. As soon as this was recognized, I personally interviewed Mr. Cadwallader and the engineers, placing emphasis upon the extraordinary situation in which we would be ourselves with a complete system of sanitary sewerage and no outlet, and this company as well as individual home owners of Jewel park were quite insistent in their demands upon the village that this outlet be provided.

"Some time passed during which presumably the village board was working on this problem, and after our follow-up with the engineers and Mr. Cadwallader, the latter came to me stating that the problem had been solved. Gjeliefeld Construction company, a concern which had had much to do with the construction of sewers in Barrington and which was under contract to the Jewel Tea Co., Inc. to provide certain portions of its improvements, had agreed to build, at its own expense, an outlet connecting Jewel park with the then available sewerage treatment plant.

Curt of Thanks We take this means of thanking our relatives and friends who so kindly offered their sympathy, for at offerings, cars and assistance during our recent bereavement. Mr. and Mrs. Frank Kirchman. Mr. and Mrs. Sandfort Rieke.

plant. Further information was given that although the village was not proceeding with the remainder of the proposed sewer system, the Gjeliefeld Construction company felt reasonably assured that the system would eventually be completed. They wanted to bid and, if possible, obtain the contract for completing the system, and they were willing to take the chance and install the connecting outlet at their own expense. It was pointed out that when the whole system was completed, if they were successful, the outlet would be included in the plans and accordingly they would receive their money for having completed the work. . . .

"So far as I know, from this point on no further attention was ever directed to the situation in the spring following the occupancy of our plant, difficulties did develop in the flow of the sanitary sewers, occasioned by wet weather. From this time on, considerable attention was directed to the situation and when members of the village board and others in the community learned of the situation, much confusion, lack of understanding, and feeling started to grow up because, as I understand it, members of the village began to feel that this arrangement was something which Jewel had foisted upon the community, which was both expensive and unsatisfactory, and that it now devolved upon the community to correct something with which it really felt no concern. "Along about this time I was called upon by Mr. Gjeliefeld of the Gjeliefeld Construction company, who pointed out to me the fact that he had constructed the sewer at his own expense and that

## Announcement

### ANKELE'S BAKERY

241 E. Main St.—Tel. Barrington 172  
Announces the manufacture of a new kind of bread

### CRACKED WHEAT BREAD

A perfect Health Bread recommended by most practicing physicians.  
20-oz. Loaf for 10c

Try all our different brands of bread, cakes and pastries—best materials used and backed up by 50 years of practical baking experience.

To celebrate the opening of our new daylight store at the corner of Cook and Station streets and as a special inducement for you to try our delicious Home-Made Ice Cream—We are going to make the following special prices for Saturday, Aug. 25th

Your Choice of 12 Flavors of Our Delicious Home-Made Ice Cream  
Quarts 30c Pints 15c  
Cones 2 for 5c

SPECIAL FOR THE KIDDIES  
We have a limited number of novelties which the children can play with—and will give either the two cones for 5c or 1 cone and one novelty—anything for 5c.

## Miller Confectionery

COMPLETE FOUNTAIN SERVICE  
CIGARS AND TOBACCOS  
Cook and Station Streets Barrington, Illinois

now the village not only would not proceed with its intended plans but apparently had no intention of doing so. He had been unable to obtain payment for the work which he had done, and he called upon me in an effort to get the Jewel Tea Co., Inc. to pay him for this work which he had done for the village.

"This statement of my recollections in the matter is given without criticism of anybody involved and with only the hope that the whole matter will be straightened out to the entire satisfaction of all members of the community. If it serves this purpose, I shall be gratified.

Very truly yours,  
(Signed) Robert Hilton,  
Vice President"

His Share His highness, the hog, possesses 44 teeth, but the opossum has 50 teeth and knows how to use them. He is usually hungry and eats until he is stupid.

Louis Kirchman, 75,  
Father of Mrs. S. E. Rieke, Dies Monday

Louis Kirchman, father of Mrs. Sandfort E. Rieke, 337 W. Main street, died Monday, Aug. 20 at the age of 75 years. Death was due to heart trouble which had been bothering Mr. Kirchman for only about a week's time. Funeral services were held on Wednesday afternoon at one o'clock at the home of Mrs. Rieke. Burial was at Woodstock.

Mr. Kirchman was born in Germany in 1859 and came to America when a young man. He came directly to Woodstock where he married Sophia Schroeder. His

home of his daughter for four years. In addition to Mrs. Rieke he is survived by one son, Frank and one grandson, Jack Louis.
